Oh, My Back!

That's a common expression and has a world of meaning. How much suffering is summed up in it.

The singular thing about it is, that pain in the back is occasioned by so many things. May be caused by kidney disease, liver complaint, consumption, cold, rheumatism, dyspepsia, overwork, nervous debility, &c.

Whatever the cause, don't neglect it. Something is wrong and needs prompt attention. No medicine has yet been discovered that will so quickly and surely cure such diseases as BROWN'S IRON BITTERS, and it does this by commencing at the foundation, and making the blood pure and rich.

Logansport, Ind. Dec. 1, 1880.
For a long time I have been a sufferer from stomach and kidney disease. My appetite was very poor and the very smell almost I felt sat disgreed with me. I was annoyed very much from non-retention of urine. I tried many remedies with no success, until I used Brown's Iron Bitters. Since I used that my stomach does not bother me any. My appetite is simply immense. My kidney trouble is no more, and my general health is such, that I feel like a new man. After the use of Brown's Iron Bitters for one month, I have gained twenty pounds in weight. O. B. SARGENT.

Leading physicians and clergymen use and recommend BROWN'S IRON BITTERS. It has cured others suffering as you are, and it will cure you.

SULPHUR BITTERS

THE GREAT

German Remedy.

TRUTHS FOR THE SICK.

For those deathly Bilious Spells, dread ce. SULPHUR BITTERS, it will cure you.

Ladies in delicate health, who are all run down, should use SULPHUR BITTERS.

The Giant Dyspepsia is cured by using SULPHUR BITTERS.

$1,000 will be paid for a case where SULPHUR BITTERS will not cure Ner-ous Debility, if never fails.

Operatives who are closely confined in the mills and work shops; Clerks, who do not procure sufficient exercise, and all whose business confines in doors, should use SULPHUR BITTERS. They will not then be weak and sickly.

Cleanse the vitiated blood when you see it broke out in pimples, burst-ing through the skin in Pimples, Blotches, and Sores. Rely on SULPHUR BITTERS, and health will follow.

General Debility needs a genetic tonic Use SULPHUR BITTERS, and you will you not be troubled.

SULPHUR BITTERS will cure Liver Complaint. Don't be discouraged; it will cure you.

Don't be without a bottle. Try it! you will not regret it.

SULPHUR BITTERS will build you up and make you strong and healthy.

Sulphur Bitters.

SULPHUR PLASTERS cure pain in the side. KAUFMANN'S PILLS do not gripe. 25 cents.

"Beauty Unadorned "with pimples," is Adorned the Most."

If you desire a fair complexion free from pimples, blotches, and eruptions, take "Golden Medical Discovery." By druggists. a

—Beer is reported to be "going up" in Chicago. This is an odd reversal of what seems to be a natural law. It is usually going down out there.

"Nothing like it in the country." "Please send me a box of Hale's Honey of Horehound and Tar. There is nothing like it in the country, and while I am here I want to cure everybody of coughs and colds." Females in delicate health should take Colden's Liquid Beef Tonic. Colden's, no other. Of druggists.

—A full grown ostrich is worth $200 to the man who wants one. We wish to caution our readers, however, that it is exceedingly troublesome to carve an ostrich, and we would not recommend one for dinner.

The sheriff of Northumberland Co., Va., Mr. Wm. Claughton, says: "We have many good medicines in our parts, but nothing which equals St. Jacobs Oil. It is unequalled for rheumatism and all bodily pains."

—A valuable cow belonging to Hon. Harrison Bailey, of Kentucky, broke into a cornfield and gorged herself so that she was about to die. A surgeon made an incision in her side, and took out over six bushels of corn, cornstalks and grass. The opening healed up, and the cow is doing as well as ever.

"Solid comfort" can be realized by those suffering from all forms of scrofula, if they will take Hood's Sarsaparilla and be cured.

—When a woman wants to get rid of her husband for an hour, she sends him up stairs to get something from the pocket of one of her dresses.

John Morrisey, the renowned ex-pugilist, sporting man, and lately member of Congress, died at Hot Springs, Ark. The prime cause of his death has been ascribed to chronic heart disease. Dr. Graves' Heart Regulator is the only certain cure for this malady ever discovered. When used as directed it has never been known to fail in effecting a cure. It would, if taken, have saved Morrisey. At druggists.

—The first male singer in the opera is always in favor of fixity of tenor.

Breakfast cocoa, as a beverage, is universally conceded superior to all other drinks for the weary man of business or the more robust laborer. The preparations of Walter Baker & Co. have long been the standard of merit in this line, and our readers who purchase "Baker's Breakfast Cocoa" will find it a most healthful, delicious and invigorating beverage.

One of the wealthiest of United States senators is George H. Pendleton. It would take at least $100,000 a year to maintain his several places of residence—his elegant winter home in Washington, his large city mansion in Cincinnati, his cottage at Conway, N. H., and his villa at Mt. Desert, Maine. "Gentleman George" is not afraid of the civil service bill—*he* will never want a clerkship. It may be remarked, however, that the rural democratic editors in Ohio are making it a little warm for him.—*Boston Post.*

"Ladies' Tonic,"

The Great Female Remedy is prepared by the Women's Medical Institute of Buffalo, N. Y., and is their favorite prescription for ladies who are suffering from any weakness or complaints common to the sex. It is sold by druggists at $1.00 per bottle. Ladies can obtain advice free. Send stamp for names of those who have been cured.

Mobile is in the midst of great and unusual commercial prosperity. Her merchants attribute this in great measure to the harbor improvement, which permits vessels of heavy draft to come into port to load for foreign markets. The *Register* says: "At the rate at which commerce at this port is growing, the government will very soon be repaid by increased collection of duties for all the expense of improving our harbor. A continuation of the work, giving us a deeper and wider channel, will be followed by a still greater increase in shipping."

A Lesson In Spelling.

Since the introduction of spelling matches, many words have come prominently into notice—words that were previously, comparatively unknown. For instance, we find antiseptic, meaning; prevention and stopping all fermentation and decomposition, and analgesiant: painkiller. Then there is antipyretic: cooling down inflammation and fever heat. These three words, so often mis-spelled, are three of the cardinal virtues of something that will cure many a bad spell, and that is Salicylica, pronounced Sal-i-cyl-i-ca. Warranted to afford immediate relief, and guaranteed to cure rheumatism, gout or neuralgia.

In Providence, R. I., Dec. 28th, Miss Annie E. Chaffee, aged thirty-seven years, and Robert Ford, aged seventy-seven, committed suicide; ill health was the cause in both cases.

Our Patent Laws offer to American Inventive Genius a better protection than afforded by those of any other country, and at a much less price. This is but a deserved recognition of those contributing so largely to the welfare of our whole country, yet many inventors fail of reaping their just reward by not having their claims properly presented to the commissioners. This can only be done through an agent conversant with the workings of the government office, posted as to Patents already granted, and capable to advise as to the patentability of a new article, and the wisdom of procuring Patents therefor in foreign countries. As for many years past, we are pleased to commend to inventors Mr. R. H. Eddy, of 76 State Street, Boston, as a leading and most successful Solicitor of Patents; one whose long experience and familiarity with the laws and technicalities relating to American and Foreign Patents render him second to no living expert in his own particular line.

Lucius Belknap and Willie and Eddie Leonard, three boys, broke through the ice while trying to cross a pond at Broad Brook, Conn., on the night of Dec. 26th, and were found drowned next morning.

Reports from Dallas, Oregon, give the particulars of the lynching in Prineville, Crook county, of horse thieves who were known as leaders of a gang who have been robbing the farmers for months. Three of them were shot, and two were hanged. The rest of the band escaped, but the vigilantes are on their tracks.

One of the most useful inventions of the age is James Pyle's Pearline Washing Compound, and judging from its extensive sale, it is safe to infer that housekeepers, generally, appreciate the fact.

Mrs. Charles Herrick of Beverly, Mass., thirty-five years old, cut her throat, probably fatally, Dec. 27th, on account of a dispute with her husband about lighting a fire.

To Please Her Husband.

Were the Words of a Good Lady, Mrs. Hawkins, who has long Suffered the Pain Common to Chronic Rheumatism. A Woman's Patience and Fortitude well Shown.

Your reporter from Mrs. Hawkins at 14 Exchange St., New Haven, Conn. "About four years ago," she said, "I was then a resident of Brooklyn, N. Y. I went over one morning to the Jersey City depot to see some friends off who were started for the west. There was a strong draft of air in the depot, and in standing by the train talking to my friends I caught a severe cold. I had no more than reached my home again when I was taken with a sudden chill and then fever set in. The outcome of all was that rheumatism settled all over me. I was entirely helpless. From this I have never recovered. You see my hands what a state they are in. Those are all chalky swellings and my limbs are very bad. While I remained in Brooklyn I tried all sorts of remedies, but I could never gain any relief. My physician said it was no use. I grew very pale and lost all strength. Finally, after coming here, to gratify my husband, I began to take Dr. Kennedy's FAVORITE REMEDY, and my general health has been better than ever before. I am stronger, have an excellent appetite, which I did not have for a long time. It has helped my rheumatism, and with a thorough trial I am in hopes of recovering completely."

Kennedy's FAVORITE REMEDY has been successfully used by thousands. It will build up a system which has been run down by overwork. It is the thing for the student and literary man to have at hand, and should be in the home of every mechanic. FAVORITE REMEDY is economical, safe and pleasant. Buy it and try it.

1883.

Again we stand on the threshold of the new year; the season for good resolutions, kindly greetings, happy anticipations of joyful hopes. To our readers, we wish a Happy New Year. Persons who as a rule promptly renew their subscriptions, and have a receipted bill for advanced payment for a paper like ours, are apt, in spite of here and there a reverse, a disappointment, a period of sadness or even sorrow, to enjoy a happy year. The consciousness of having paid for the paper, of having contributed toward the cost of an enjoyment, brings with it a degree of happiness which nothing else can supply. Readers of our paper are noted as much for this blessing of life, as for their high intelligence and good tastes, and to such as these the new year comes fraught with happy anticipations and blessed with hopeful forebodings. To these and to all to whom our visits are made, we extend the greetings of the day and the compliments of the season, and we trust that the CHRONICLE will be able to do its fair share towards making 1883 a year of happiness to its numerous readers and patrons.

News and Notes.

The new schooner Charles C. Dame is to sail from Newburyport for Brunswick, Ga., to load compressed cotton for Boston. It is estimated that the vessel will carry 1800 bales under deck. The freight will be $1.25 per bale.

The Tammany hall organization held primary elections in New York on the night of Dec. 29th. In the sixth district there was a contest, and the primary was held in the liquor store of William Geogehan, leader of the regular ticket, which was elected by over 700 majority. Shortly before the polls closed some person dropped a bomb which exploded, blowing the entire front of the store away. For a time the utmost confusion prevailed. No one was injured.

Over 1280 persons and firms in New York city have remonstrated against the passage of a general bankrupt law. A similar protest from Chicago is to be soon presented, and the bill will probably not be passed at this session of Congress.

The Knickerbocker Life Insurance company of New York was on Dec. 29th placed in the hands of a receiver. John A. Nichols, president of the company, four days previously reported to Insurance Superintendent Fairman that in his judgment the company had not better continue business, and after investigation and the recommendation of Superintendent Fairman, Senator Charles H. Russell was appointed receiver. The company nominally had $5,000,000 of assets and between 5,000 and 6,000 policy holders; it is expected to pay fifty cents on a dollar.

The engagement of Col. John J. Coppinger of the United States army and Miss Alice Stanwood Blaine, eldest daughter of Ex-Secretary Blaine, is formally announced. It is rumored that the marriage will take place in February next in Washington.

A despatch from Yankton, Dakota, says there is great excitement there over the secret marriage on Dec. 28th of Dr. V. Esbaiken Ross, a young Russian physician, and sister Mary Paul of the Catholic Convent of the Sacred Heart. The affair leaked out next day. It is said the doctor is a determined man and proposes to stand by his matrimonial rights.

The damage suit for $5,000, instituted by Alice W. Slayback of St. Louis, Mo., against John A. Cockerill, managing editor of the *Post-Dispatch*, for the loss of her husband, Alonzo W. Slayback, was dismissed at the plaintiff's instance and cost, Dec. 29th.

A passenger train from New York for Boston narrowly escaped being wrecked near Meriden, Conn., Dec. 26th, through a tie having been purposely placed on the track. On the 29th two boys living in Wallingford, named Edward Knowlton, aged eleven years, and Charles Stiles, aged eight, were arrested, and confessed the crime. They say they were prompted to the deed by a desire to get revenge because an employe of the road drove them off the tracks.

In Boston, last Friday afternoon, Mrs. J. A. S. Wainwright was knocked down and instantly killed by a runaway horse, while walking on Beacon street.

Charles Silva, brakeman on a Stonington freight train, was killed Dec. 29th by being struck by a bridge in Providence, R. I., and knocked from the top of a car.

The director of the mint has prepared a statement showing that during the year ending Dec. 31st, 1882, the coinage of silver amounted to $27,000,000, and that prior to the year 1853 the total coinage was nearly $60,000,000 of full weight legal tender coin, since which time the total coinage of subsidiary coin has been $97,825,297.

In May, 1881, five children of F. H. Nehrbas of San Lorenzo, Cal., were returning home from a May-day picnic in a light wagon, and when they reached the crossing of the Central Pacific railroad the vehicle was struck by a locomotive and all the inmates killed. The father of the children sued the railroad company for damages. On the trial it was shown that the approaching train could not be seen from the highway, until close to the crossing, on account of a covered bridge and eucalyptus trees. It was also shown that the train was behind time, and running from thirty-two to thirty-five miles an hour, the usual speed being twenty-five miles an hour. The jury awarded $10,800 damages to plaintiff, and the railway company was mean enough to appeal on the ground of "excessive damages." The higher court has affirmed the judgment.

A woman of remarkable life has just been buried at North Pownal, Vt. She was a colored woman popularly known as Grandmother Soott, and was born at Hartford, Conn., in 1776, a few months before the first Glorious Fourth. She had lived at Pownal sixty years, and buried seven husbands.

Celia Wetzel, a German woman who has been in this country only six months, was arrested in New York on Dec. 29th, while trying to pawn 163 pieces of silver ware heavily mounted in gold, the property of Agnes Shroeder. The woman was a servant for Mrs. Shroeder. The stolen property is worth $5,000 or more.

A secret service agent now operating in West Virginia telegraphs from Parkersburg the arrest of Jacob Stull and Jacob Hashman, counterfeiters. These arrests complete the capture of a gang of eleven persons who were making and circulating counterfeit money in the state, and with them were taken all their implements for the manufacture of spurious coin.

J. P. Webber, of Bangor, Me., has returned from the west, where he and his son Frank have purchased 100,000 feet of pine from the government, considered by good judges to be an excellent investment.

Fear is expressed that Senator Fair, the wealthy Nevada senator, will not live out his term.

A shifting engine of the Reading company fell through a trestle bridge, at Pottstown, Pa., Dec. 29th, killing the fireman, and badly injuring three other persons.

Edward Bunnell of Providence, R. I., a carpenter, was killed by falling from a roof Dec. 29th.

Daniel H. Greene of Pawtucket has received $1,277 as back pension money, and will have $8 a month hereafter.

The supreme court at Rockland, Me., adjourned Dec. 29th. Sixteen divorces were decreed during the term.

Hon. David H. Buffum of Somersworth died in that place on Friday night, Dec. 29th, after a brief illness, at the age of sixty-two years. Mr. Buffum was closely identified with the manufacturing interests of Great Falls and vicinity, and was one of the most energetic men in Strafford county. His death is a severe loss to the community in which he dwelt.

The bedstead storehouse at Concord of George T. Cowens, prison contractor, was destroyed by an incendiary fire Friday evening, Dec. 29th, with contents; loss $5,000. The Eagle hotel, a new stable and other surrounding buildings caught fire, and all were damaged more or less. It was the third attempt made to burn the storehouse.

N. H. Eastman, a travelling salesman for a tea and coffee store in Nashua, left Dover on Thanksgiving day, saying he was going to Haverhill, Mass., and would return in two days. Since that time nothing has been heard of him. He left a large quantity of goods at Dover. His employers were notified, and the goods were sent back to Nashua. He had little or no money belonging to his employers, and there is no known reason why he should disappear. He was sixty years old, married, of very steady habits, and much esteemed.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of "Mrs. Winslow's Soothing Syrup. "It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere Twenty-five cents a bottle. eod&wtjan82

SECRET!

THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.

SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.

In has been conducted by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate these diseases which are the result of the poisoning of the blood with Uric Acid.

SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Highest Medical Academy of Paris reports 95 per cent. cures in three days.

REMEMBER

that SALICYLICA is a certain cure for Rheumatism, Gout and Neuralgia. The most intense pains are subdued almost instantly. Give it a trial. Relief guaranteed or money refunded.

By the Hon. Judge of Probate for said County.

TO the heirs at law and creditors to the estate of Frank W. Miller, late of Portsmouth in said county, deceased, represented insolvent, and to all concerned, GREETING:

YOU are hereby notified that the Report of the Commissioner of Insolvency on said estate will be offered for acceptance at a Court of Probate to be holden at Portsmouth in said county, on the second Tuesday of January next, at 10 o'clock A. M., when and where you may appear and show cause, if any you have, against the acceptance of said report.

And it is ordered that Kate E. Miller, Executrix of said estate, give notice by causing this citation to be published three weeks successively in the PORTSMOUTH DAILY CHRONICLE, a newspaper printed at Portsmouth in said county, the last publication whereof to be at least one week prior to said court.

Dated December 14th, A. D. 1882.

By order of the Judge.

DIPHTHERIA!

THE PROSTRATION which follows Diphtheria, and the persistency with which it clings to the patient, are well known to all who have had any experience with this terrible disease.

The following letter shows how the restoring and invigorating properties of

Hood's Sarsaparilla

overcome it, and how by vitalizing and enriching the blood it neutralizes and eradicates the poisoned matter from it, bringing to the convalescent the color, life and vigor of robust health.

LOWELL, MASS.

MESSRS. C. I. HOOD & CO.: Gentlemen—My little girl had the diphtheria last April. The disease left her very weak, blood poor, with no appetite, and she could not seem to rally from its effects. HOOD'S SARSAPARILLA was recommended by a neighbor. After she had been taking it a few days we noticed a change for the better—she began to eat with a relish. It seemed to take out the poison the disease had left in her blood, the change being very noticeable in her face. She took it two months and fully regained her health, much to our delight. We now recommend HOOD'S SARSAPARILLA with a great deal of pleasure. Very truly yours,

J. E. SMITH,
19 Butterfield Street.

"That Extreme Tired Feeling."

"The first bottle has done my daughter a great deal of good; her food does not distress her now, nor does she suffer from *that extreme tired feeling* which she did before taking HOOD'S SARSAPARILLA."

Sold by all druggists. Price $1 a bottle or six bottles for $5. Prepared by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

THE

NEW YORK TRIBUNE.

Strong, Clean, Enterprising.

The Largest Circulation Among the Best People.

Rejoicing with its readers in the better times which reign throughout the country, THE TRIBUNE finds itself at the beginning of a new business year enjoying its own fair share of the prevalent prosperity and prepared to make all its several editions thoroughly complete, entertaining and valuable. The first aim of THE TRIBUNE is to be the best and foremost newspaper of America. It has an ocean telegraph line to Washington, it uses the cables freely and it scours the world for the news, printing all that is useful. It lifts what is worth it in detail. The rest is put into bright short paragraphs. Its contents are fresh, choice, varied and thoroughly unobjectionable in every respect. THE TRIBUNE has long enjoyed the largest circulation among the best people. It intends to let no rival usurp its place. THE TRIBUNE is the organ of no individual, of no faction or clique, and of no interest adverse to the public good. It knows no service other than that of the people.

THE TRIBUNE believes the well-being of the country will be best preserved by keeping its Government in Republican hands. But it does not believe in Bing Ring Rule, in Gang of Corruption in Office. It has done hard work, and taken great risks, in efforts to purify the Republican party. It expects to continue in that course, wherever or whenever this may seem needful—not doubting that this is the true road to a worthy Republican success in 1884.

Every year THE TRIBUNE offers to subscribers a few premium books of marked and standard merit. The terms are usually so arranged that either the paper or the book is a gift to the subscriber.

A SPLENDID WORK FOR FAMILIES.

For 1883 THE TRIBUNE offers a new premium, WOOD'S HOUSEHOLD PRACTICE OF MEDICINE, HYGIENE AND SURGERY. 2 vols., 819 and 942 pp., profusely illustrated, bound in cloth, and sold by agents for the invariable price of $10. It is written by eminent physicians of New York and Philadelphia, and published by the well-known standard medical book house of William Wood & Co. Every sensible topic relating to the structure and functions of the human body is explained in a work with text and picture. The Book tells how to regain health when lost, and how to care for it when regained. It explains what to do in emergencies. It will save many a human life and many an hour of suffering and anxiety. In any ordinary family it will pay for itself in a month's time. The terms are:

$10. { WOOD'S HOUSEHOLD PRACTICE and THE WEEKLY TRIBUNE five years.

$1[illegible] { WOOD'S HOUSEHOLD PRACTICE and THE SEMI-WEEKLY TRIBUNE five years.

$[illegible] { WOOD'S HOUSEHOLD PRACTICE and 20 copies of THE WEEKLY one year.

A circular with full description of the work sent on application.

A Chance for One Year Subscribers.

During the summer of 1882, THE TRIBUNE made the statement of officer BEDDIA'S HISTORY OF THE UNITED STATES. The book met with unexpected welcome. The offer is continued one year. The book is a popular history of the United States, from the aboriginal times to present date, coming down to the inauguration of President Arthur. It is a large octavo, [illegible] pages the retail price is $3.00. We will send THE WEEKLY TRIBUNE one year, and the History for $3.10, which is only the price of the book. We will send THE SEMI-WEEKLY TRIBUNE one year, and the History, for $4. In both cases we pay the postage.

An Encyclopedia in 15 Volumes.

THE TRIBUNE has resolved to continue the Encyclopedia premium exactly the same terms as before:

The Library of Universal Knowledge

Embraces Chamber's Encyclopædia complete, revised, corrected and enlarged edition, containing about 18,000 additional topics, adding to it over 25 per cent. of the freshest and most valuable matter, the whole making 15 handsome octavo volumes averaging nearly 800 pages to the volume. We offer:

The Library of Universal Knowledge with THE WEEKLY TRIBUNE 5 years for $15.

With THE SEMI-WEEKLY TRIBUNE, 5 years $20.

With ten copies of THE WEEKLY TRIBUNE one year $10.

With twenty copies of THE WEEKLY TRIBUNE one year $29.

Young's Bible Concordance.

This famous work, containing 1,100 three-column pages, was originally published in England in October, 1879, and was sold at $15. We offer the Concordance and one copy of THE WEEKLY TRIBUNE five years or five copies one year for $7; or with one copy of THE SEMI-WEEKLY TRIBUNE five years, or five copies one year, or ten copies of THE WEEKLY TRIBUNE one year for $12.

An Unbridged Dictionary.

THE TRIBUNE will send Webster's Unabridged Dictionary or Worcester's Unabridged, to any one subscriber for the Dictionary and THE WEEKLY TRIBUNE for five years; or $17 for the Dictionary and THE SEMI-WEEKLY TRIBUNE for five years; $19 for the Dictionary and THE DAILY TRIBUNE one year.

A Portrait of Garfield.

THE TRIBUNE will send to its regular readers a portrait of Garfield, or one of Mrs. Garfield, 22 by 28 inches in size, good for parlor or library, for 10 cents each; to those not subscribers, for 20 cents each.

Circulars describing THE TRIBUNE premiums more fully, and sample copies of the paper sent free on application. Address simply,

THE TRIBUNE, New York.

PHOTOGRAPHY!

I, V. NEWELL, would respectfully inform the citizens of Portsmouth and vicinity that he is now prepared to make **Photographs, Ferrotypes and Tintypes** of all sizes, for those who wish for *first-class work*, at the rooms formerly occupied by O. PORT OF PORTSMOUTH.

The total number of arrivals at this port during the month of December was fifty, including six steamers and four British vessels; twenty of this number brought coal, aggregating 15,129 tons; three brought railroad ties, two assorted cargoes, one wood, one stone, and sixteen fish.

CUSTOM HOUSE EXPENSES.

The reports of the special agents of the treasury upon the expenses of the several custom houses in Maine, New Hampshire and Vermont, have been published, and from it we take the following:

Portsmouth—Collector, fees and commissions; deputy collector, inspectors and boatmen, eight persons in all; compensation $8758.50. No change recommended for 1884.

York, Me.,—Collector, salary $250; collector's compensation on collections of duties, (three per cent.) tonnage and marine hospital dues, $15. No change recommended for 1884.

Kennebunk, Me., — Collector, fees; two inspectors, $146. Estimates for 1884,—Collector, fees; one deputy collector, $584; incidentals, $26.

REAL ESTATE TRANSFERS.

The following are among the recent transfers of real estate left for record in the office of the register of deeds:

Hampton—Daniel F. Fitts of Haverhill to Daniel Fitts of Haverhill, land, $500.

Stratham—Mark Roberts of Stratham to Annie S. Wiggin of Stratham, land, $700.

Newmarket—Charles S. Davis and wife to Lucy Laddbush, land, $500; Lucy Laddbush and Akein Laddbush to Martha C. Downs and Charles Davis, land, $400.

The "Professor," the play which the Madison Square Theatre Co. will perform at Music hall next Wednesday evening, is a farcical comedy, and tells how a young college professor, ignorant of the ways of the world and of society gets into all sorts of odd complications with half a dozen young ladies, all of whom, because of his wealth, want to marry him. This was given 151 times in New York and over 400 times throughout the country, and thousands have laughed over the eccentricities of this odd character.

The *Granite Monthly* for December has a brief sketch of the late Hon. Samuel Tilton, deceased husband of Mrs. Elizabeth Cushman Tilton of this city. Hon. Thos. L. Tullock contributes an interesting paper on Ben Lear, the hermit of Sagamore, written as the author would have us know, during the summer heat of Washington; it treats of Sagamore creek before the day of bridges and drives to the fashionable resorts by the sea side.

Mr. Josiah Grover, the painter, has occupied the shop on Russell & Odion's wharf where he is now located, for seventeen years.

A party left on Saturday for Newington, fully equipped for prosecuting the smelt-fishery on Great bay. They have a shanty on the shore of the bay, fitted with bunks, and furnished with a stove and all needed articles for making themselves comfortable when their day's work is done.

During Mr. M. M. Pomeroy's lecture in Music hall last week, on Colorado in general and its great Atlantic-Pacific tunnel in particular, he referred to our esteemed fellow-citizen, Dr. J. F. Hall, who several months ago made a somewhat extended tour in that state. The next day several persons asked the doctor if he could endorse what Pomeroy stated concerning the opportunities to safely and profitably invest capital in that state, and he replied that Mr. Pomeroy had described things as they were, and that he had understated rather than overstated matters, as he (the doctor) judged from a careful examination of the part of the state he visited, and particularly of the Atlantic-Pacific tunnel. Several of our young and active citizens are going to Colorado.

Mr. E. B. Phillips, late president of the Eastern railroad, has assumed the presidency of the Toledo, Cincinnati & St. Louis railroad.

Three Portsmouth men who went on an eeling expedition to the upper branches of the Piscataqua, Friday, returned with about forty pounds of the wrigglers; they went to within about two miles of Dover, and report the streams open in midchannel as far as they went.

President Arthur on Friday of last week sent to the senate the nomination of Hon. Thomas L. Tullock to be postmaster at Washington, D. C.

Orders were last week sent to the commandant of this navy yard to reduce the working force on the yard thirty per cent for January, from the number employed in December. Similar orders were sent to all the other yards. With this reduction the yards can be kept running until about the middle of February, at which time, unless Congress makes a further appropriation, the yards will probably have to close entirely.

George Wentworth, of Malden, Mass., was struck by a train on the Eastern railroad near Everett, last Saturday morning, and seriously injured. He was carried to Boston.

The Methodist society of Greenland gave an exhibition and oyster supper at Brackett academy on Wednesday evening of last week.

Brevet Brigadier General George Thom of Portland, colonel of engineers, United States army, who has for some years had charge of the river and harbor improvement in this district, and whose visits to this city in connection with this work have made him well and favorably known here, has nearly reached the age (sixty-four) which by law retires him from active service. His time of retirement is sometime in February, but he has received leave of absence, turned over his office to his successor, and will sail on a European trip early this month. Gen. Thom is an able and efficient officer as well as a courteous gentleman, and his retirement will be a serious loss to this branch of the service.

Colonel Robert Filkins, formerly general manager of Mr. Haverly's enterprises, will soon visit this city to make arrangements for the coming engagement of "Callender's Consolidated Colored Minstrels," comprising both the Haverly and Callender organizations. The company, numbering fully fifty people, has made a great sensation in Chicago and St. Louis.

Mr. Benjamin P. Shillaber is confined at his home in Chelsea with an attack of pneumonia. He was on Saturday evening reported as being quite comfortable, and strong hopes of his speedy recovery were entertained.

The pooling agreement between the Boston & Maine and Eastern railroad companies has been renewed on the old terms, for a period of nine months. This hardly looks like a consolidation of the two roads, for the present, at least.

The Eastern railroad has put upon the road new postal cars, with the words "United States Mail Railway Car" painted on the sides. They are supplied with every facility for handling mail matter, and for the convenience of the postal clerks.

Nathaniel K. Leavitt of Exeter died on Friday of last week, at the age of sixty-three years. He was deputy sheriff of Rockingham county, and jailer at Exeter, for many years; was postmaster of Exeter eight years; served on the capitol police at Washington, D. C., in 1865-66; and represented the town in the state legislature two terms. His death was caused by heart disease. He has always been very active in politics.

The ball given in Franklin hall on Friday evening last was a big success so far as numbers and financial results were concerned, though the floor was rather too full for much "spread" at dancing, 110 couples taking part in the grand march; however, the throng was a good-natured and happy one, and everybody seemed to enjoy the occasion. The promenade concert of an hour's duration, by an orchestra of seven pieces, preceding the dance, was decidedly meritorious, and was highly appreciated; and an excellent supper was served at one o'clock, F. Howard Newman being the caterer. The "small hours" were about used up when the ball ended.

The schooner Emily A. Staples, Coleman master, arrived at this port on Saturday last from Boston, and hauled up for the winter at Call's wharf, being the last of the brick fleet, we believe, to go into winter quarters. Capt. Coleman was accompanied this trip by Capt. Garland of the schooner D. K. Hom, the latter vessel having hauled up at C. E. Walker & Co.'s wharf some weeks ago. In a little over two months the brickers will commence fitting out again for another season's work.

There are now about 8000 ties on the Eastern railroad wharf at Noble's island, awaiting the wood-preserving treatment in the pits, of which there are four, each pit having a capacity of 600 ties a week; these ties are all from the British provinces, one vessel having landed 6000 and another 2100. There are on the wharf 150 tons of soft coal, awaiting transportation to the roundhouse; and three large cargoes are expected shortly—one to go to Jones' brewery, one to Salmon Falls and one to Great Falls.

The Baptist society at Cape Neddick rededicated their house Dec. 28th. The interior has had a general overhauling; the old pews have been taken out and replaced by new ones, the gallery taken down, the ceiling and walls frescoed, new carpets and desks put in, and the edifice put in thoroughly good condition every way.

We are pleased to learn that Stillman B. Allen, Esq., the eminent lawyer of Boston, who has been confined to his house two weeks by illness, is better, and is out again.

LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

TIME untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or Vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Fifty edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 $; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

Gentle Women

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures grayness, removes dandruff and itching, makes the Hair strong, giving it a curling tendency and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Honors, Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing hopeful burdens of suffering, or joy at relief from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of failing of the uterus, leucorrhœa, irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the name of many who have been relieved to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply at her home in Lynn, Mass.

For Kidney Complaints of either sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the liver. For Blood Purifier works wonders in its special line and this fair to equal the Compound in its popularity.

All unanswered here on an island of Mercy whose sole ambition is to do good to others.

Philadelphia, Pa. (Q) Mrs. A. M. D.

A Growing Place.

The St. Paul (Minn.) *Press* of Dec. 9th occupies seven columns with a review of the building operations of that city for the year 1882,—not a general and extended account, but a mere list of the buildings erected, each one occupying usually but a single line including the location and the cost. Some idea may be gained from it of the wonderful growth of a well situated western town. The number of residences built during the year was 2054, at a cost of $3,440,125. There were erected 106 stone and brick stores, with a total frontage of 4471 feet, costing $1,892,000; 191 frame stores, with a frontage of 4080 feet, costing $331,-000; 44 mills and manufactories were erected at a cost of $1,794,800; 12 churches and chapels, 5 school houses, and 16 buildings classed as miscellaneous, were built at a cost of $428,900. The aggregate cost of the building operations for the year exceeds $8,000,000, and the estimated increase of population exceeds 15,-000; 195 million feet of Minnesota lumber were used in St. Paul during the year.

New Hampshire items.

Fisherville has a prodigy, a boy ten years old, who has read 645 volumes from the public library, many of them a second time, and also his own nucleus of a library, numbering fifty volumes, besides many books from the family libraries of friends.

In the case where a widow sued the town of Wilton for damages on account of her husband being killed by falling through a bridge, the referees have awarded the plaintiff $3,000 damages, and $1,000 for costs. Gen. Charles H. Burns of Wilton is one of the referees.

A predicament—2 o'clock in the morning,—sleet on the sidewalk,—baby got the croup, and no Dr. Bull's Cough Syrup in the house.

Bertie G. Hughes, a young son of Isaac L. Hughes of Portland, Me., ate some phosphorous pills Dec. 27th, and died shortly after.

The two suits brought by William Stevens of Boston against the Stonington Steamboat company, to recover $30,000 for the loss of his wife and child, at the burning of the Narragansett in Long Island sound, will be withdrawn from court, a settlement having been made a few days ago.

Ugly And Hateful,

but I couldn't help it. Everything went wrong with me, and I thought I hadn't a friend in the world, dyspepsia caused this and for months I couldn't eat anything and just suffered in misery till I used Sulphur Bitters, three bottles cured me.—*D. Lewis, 22 Brandon Street, Boston.*

The post office authorities of Pittsburg, Pa., are in a curious tangle, and the matter has been brought to the attention of the department. It appears that on Christmas the employes presented their superior with several costly gifts, and Mr. Hatton says that this is in direct violation of the law, and that both parties are equally liable for giving and receiving the presents.

Scrofula. A medicine that destroys the germs of scrofula and has the power to root it out is appreciated by the afflicted. The remarkable cures of men, women and children as described by testimonials, prove Hood's Sarsaparilla a reliable medicine containing remedial agents which eradicate scrofula from the blood. 100 doses $1.00. Sold by all dealers. C. I. Hood & Co., Lowell, Mass.

At Beverly, West Virginia, Wednesday night of last week, a prominent farmer named A. Currence was burned to death with four of his children, and his wife was also fatally injured. Currence had lost much sleep through watching with a sick neighbor, and on Wednesday night was sleeping at home, while his wife and two children watched at the neighbor's bedside; the latter saw the flames of their homestead, but before they could get there the walls had fallen in, enveloping the five inmates. Mrs. Currence made frantic and unsuccessful efforts to rescue them, and received burns that will prove fatal. The charred bones were recovered Friday by neighbors.

Strength and health go together. Obtain this happy physical state by using a bottle of Brown's Iron Bitters.

MRS. VAN BUREN'S

LADIES' TONIC.

A Positive Cure for all Female Complaints.

Ladies' Tonic is prepared by the Women's Medical Institute of Buffalo, N. Y., and has been used successfully by ladies for years. It is a *sure cure* for all Female Complaints, Sick and Nervous Headache, Dyspepsia, and all weakness caused by those irregularities which are so common to womankind. This is no *Patent Medicine*, but is prepared, after years of experience, and recommended, knowing that it will give new life to any broken-down, worn out or over-worked member of the sex.

If you have tried other remedies without success, do not be discouraged, but give "LADIES' TONIC" a *single trial. It never fails* to give quick and *permanent relief.*

If you are troubled with *any* weakness or complaint common to our sex, by mails the address of your nearest druggist, and try "Ladies' Tonic," which we guarantee will positively cure you. One Bottle is Sufficient.

Women's Medical Institute is an Association of *Women and Mothers of years' experience,* who give advice and answer letters from ladies, *free.*

$500 will be given for any case of Female Weakness or Disability which "Ladies' Tonic" will not cure. This is a *bonafide* offer. Try "LADIES' TONIC" and judge from *experience* what "LADIES' TONIC" can do. Send stamp for circular.

Sold by Druggists. Price, $1.00

The great superiority of DR. BULL'S COUGH SYRUP over all other cough remedies is attested by the immense popular demand for that old established remedy.

LOG ROLLING.

While Wrestling with a Fallen Tree a Lumberman Receives Consequential Damages.

While on a hunting excursion in the great coal and wood region near Carbondale, Pa., the writer met William Coll, a lumberman. Accustomed to life and labor in the forest from early manhood, he was a true Knight of the Axe. Many a tree had fallen before his ringing strokes, and fleets of rafts had borne away to market the sawed products. Coll is a character, and he will be right in saying that all movements in unhindered labor are graceful, our friend William, a ripped for his work, and attacking a tree as Richard I assaulted the heavy doors of Front de Bœuf's Castle, must have presented an admirable picture.

One day, however,—but let him tell the story himself, as he told it to me:

"I was out in the woods, you know, trying to stay a log down a hill. Thinking I could get a better purchase on it from the lower side, I tackled it there with my log-rolling hook and threw my weight on the lever. She started, she did, but as luck would have it, before I could get out of the way, she rolled right over me. It hadn't been for a lot of small limbs and brush lying in the road, which lifted her up, she'd a crushed me flat. As it was I got up without a broken bone, but with some mighty bad bruises."

"Then you were all right," said his auditor.

"Not by a blamed sight, stranger. I took cold, rheumatism set in, and, if I hadn't heard of BENSON'S CAPCINE POROUS PLASTERS and used 'em, it's my opinion I should never have made another chip fly. But the Capcine took hold quick, and I'm 'bout as good as new. But there's one thing you kin calkilate on—I shall never wrastle with another log unless I have the advantage of the ground. For, as I told you before, if it hadn't been for them brushes I'd been smashed so you could 'a sold me for a door mat!"

The Capcine is the thing for rheumatism. It doesn't keep you waiting. The word CAPCINE is cut in the centre of the genuine. Price 25 cents. Seabury & Johnson, Chemists, New York.

Oh, My Back!

That's a common expression and has a world of meaning. How much suffering is summed up in it.

The singular thing about it is, that pain in the back is occasioned by so many things. May be caused by kidney disease, liver complaint, consumption, cold, rheumatism, dyspepsia, overwork, nervous debility, &c.

Whatever the cause, don't neglect it. Something is wrong and needs prompt attention. No medicine has yet been discovered that will so quickly and surely cure such diseases as BROWN'S IRON BITTERS, and it does this by commencing at the foundation, and making the blood pure and rich.

Logansport, Ind. Dec. 1, 1880.

For a long time I have been a sufferer from stomach and kidney disease. My appetite was very poor and the very small amount I did eat disagreed with me. I was annoyed very much from non-retention of urine. I tried many remedies with no success, until I used Brown's Iron Bitters. Since I used that my stomach does not bother me any. My appetite is simply immense. My kidney trouble is no more, and my general health is such, that I feel like a new man. After the use of Brown's Iron Bitters for one month, I have gained twenty pounds in weight. O. B. SARGENT.

Leading physicians and clergymen use and recommend BROWN'S IRON BITTERS. It has cured others suffering as you are, and it will cure you.

One of the most useful inventions of the age is James Pyle's Pearline Washing Compound, and judging from its extensive sale, it is safe to infer that housekeepers, generally, appreciate the fact.

Breakfast cocoa, as a beverage, is universally conceded superior to all other drinks for the weary man of business or the more robust laborer. The preparations of Walter Baker & Co. have long been the standard of merit in this line, and our readers who purchase "Baker's Breakfast Cocoa" will find it a most healthful, delicious and invigorating beverage.

—Archimedes resembled the modern gentleman of leisure in at least one particular—all the old philosopher wanted was a rest.

A Lesson In Spelling.

Since the introduction of spelling matches, many words have come prominently into notice—words that were previously, comparatively unknown. For instance, we find antiseptic, meaning; prevention and stopping all fermentation and decomposition, and analgesiant: painkiller. Then there is antipyretic: cooling down inflammation and fever heat. These three words, so often mis-spelled, are three of the cardinal virtues of something that will cure many a bad spell, and that is Salicylica, pronounced Sal-i-cyl-i-ca. Warranted to afford immediate relief, and guaranteed to cure rheumatism, gout or neuralgia.

—The clergyman in a certain town, as the custom is, having published the bans of matrimony between two persons, was followed by the clerk's reading the hymn beginning with these words: "Mistaken souls, who dream of heaven!"

Our Patent Laws offer to American Inventive Genius a better protection than afforded by those of any other country, and at a much less price. This is but a deserved recognition of those contributing so largely to the welfare of our whole country, yet many inventors fail of reaping their just reward by not having their claims properly presented to the commissioners. This can only be done through an agent conversant with the workings of the government office, posted as to Patents already granted, and capable to advise as to the patentability of a new article, and the wisdom of procuring Patents therefor in foreign countries. As for many years past, we are pleased to commend to inventors Mr. R. H. Eddy, of 76 State Street, Boston, as a leading and most successful Solicitor of Patents; one whose long experience and familiarity with the laws and technicalities relating to American and Foreign Patents render him second to no living expert in his own particular line.

—Says a London journal: "A fat woman is the dressmaker's despair. She is impossible to work on. The thin woman is her delight. It is easier to simulate than to dissimulate, or, in other words, to put on than take off."

The children of Israel were once fed by manna sent from heaven. This was an undoubted case of "God-send." The amelioration of human ills and ailments has been often undertaken and as often failed. Ely's Cream Balm, however, "has been weighed in the balance and not found wanting." It is a sovereign, speedy, certain and pleasant cure for catarrh and cold in the head. Thousands of persons have attested this fact. "Ely's Cream Balm is a God-sent," writes Mrs M. A. Jackson, of Portsmouth, N. H., on May 22d, 1882. "I had catarrh for three years, had tried nearly all remedies but to no purpose. Two or three times a week my nose would bleed quite freely, and I thought the sores in it would never heal. Your Balm has cured me." This preparation is not a liquid or a snuff, and is easily applied. Can you, reader, afford to experiment with injurious irritants and injections when a pleasant cure is at hand?

—A young man in a train was making fun of a young lady's hat to an elderly gentleman in the seat with him. "Yes," said his seat-mate, "that's my wife, and I told her if she wore that bonnet some fool would make fun of it."

The Boston *Pilot* says: "The article known as St. Jacobs Oil stands without an equal."

—If it be mean to push a man when he is going down hill, it is doubly the act of a coward to kick him in the face when he is manfully struggling up.

* * "Evil dispositions are early shown." Evil tendencies in our systems are to be watched and guarded against. If you find yourself getting bilious, head heavy, mouth foul, eyes yellow, kidneys disordered, systems of piles tormenting you, take at once a few doses of Kidney-Wort. —"I wonder now," said the hostess, reflectively, "who it was that ever invented this new way of eating fish with two forks, so as the better to handle the bones." "I don't know," said the footman behind her chair, gloomily, "but you can bet your sweet life it wasn't a servant who would have to wash them!"

What is needed is pure blood, as the influence of its purity upon the health cannot be overestimated. When it becomes impure, it gives rise to a large number of diseases, such as biliousness, sick headache, dyspepsia, loss of appetite, low spirits, nervousness, female complaints, etc. The success which has attended the use of Swedish Botanic Compound warrants us to say that for purifying and enriching the blood, creating an appetite, strengthening and renovating the whole system, nothing surpasses that great remedy.

To Please Her Husband.

Were the Words of a Good Lady, Mrs. Hawkins, who has long Suffered the Pain Common to Chronic Rheumatism. A Woman's Patience and Fortitude well Shown.

Your reporter from Mrs. Hawkins at 14 Exchange St., New Haven, Conn. "About four years ago," she said, "I was then a resident of Brooklyn, N. Y. I went over one morning to the Jersey City depot to see some friends off who were started for the west. There was a strong draft of air in the depot, and in standing by the train talking to my friends I caught a severe cold. I had no more than reached my home again when I was taken with a sudden chill and then fever set in. The success of all was that rheumatism settled all over me. I was entirely helpless. From this I have never recovered. You see my hands what a state they are in. Those are all chalky swellings and my limbs are very bad. While I remained in Brooklyn I tried all sorts of remedies, but I could never gain any relief. My physician said it was no use. I grew very thin and lost all strength. Finally, after coming here, to gratify my husband, I began to take Dr. Kennedy's FAVORITE REMEDY, and my general health has been better than ever before. I am stronger, have an excellent appetite, which I did not have for a long time. It has helped my rheumatism, and with a thorough trial I am in hopes of recovering completely."

Kennedy's FAVORITE REMEDY has been successfully used by thousands. It will build up a system which has been run down by overwork. It is the thing for the student and literary man to have at hand, and should be in the home of every mechanic. FAVORITE REMEDY is economical, safe and pleasant. Buy it and try it.

Laid With The Seal-Skin Sacque.

She sat in the crowded church that dreadfully cold Sunday, and kept her new sacque on, all the morning. She went with perspiration and the sacque into the chilly street, and caught an awful cold. And they labored in vain to cure that cold until they thought of Perry Davis's Pain Killer, and sent to the druggist's for a bottle. Then came relief. Suddenly checked perspiration bring sudden colds, chills, coughs, consumption.

The London *Observer*, in its retrospect of 1882, referring to the obituary record of the year, says: A year which has witnessed the disappearance of Charles Darwin from the ranks of science, Tait and Pusey from the church, and Longfellow, Rossetti and Trollope from literature, has certainly levied tributes from us with not too sparing a hand.

Mr. Lewis E. Staples has secured the agency for the Dorcas, Saxony, Knitting Worsted and Germantown yarns, which have become so popular throughout the east. The shades and colors are just what are wanted. oedtjan19

It was rumored at Denver, Col., Dec. 29th, that the property and franchises of the Denver Circle railroad and the Denver Circle Real Estate company, valued at $1,000,000, had been purchased by Thomas M. Nichols of New York for an eastern syndicate, of which himself and Ex-Gov. Marshall Jewell of Connecticut are said be the principal members.

Human Blood.—On the purity and vitality of the blood depend the vigor and health of the whole system. Disease of various kinds is often only the sign that nature is trying to remove the disturbing cause. A remedy that gives life and vigor to the blood, eradicates scrofula and other impurities from it as Hood's Sarsaparilla undoubtedly does, must be the means of preventing many diseases that would occur without its use. Niles' Calendar for 1883.

Stephen R. Niles of Boston is well known on both sides of the Atlantic for his comprehensive knowledge in regard to the business of advertising. There are advertising agents, and agents. Some of these possess in a liberal degree, veracity in stating the circulation, influence and value of different advertising mediums; others are found who have sought to profit by entering fields comparatively occupied, and where there seems no room for additional workers. But Mr. Niles knows his business. He has the confidence not only of the leading respectable and influential newspapers of the land, but of the most discriminating advertisers,—the men who require the greatest return for the outlay they make in the investment of advertising; for this in itself, is an essential part of a successful business.

In addition to these traits Mr. Niles is original in his ideas. He does not copy. He inaugurates his own notions. Last year his splendid Nile's Calendar was the admiration of every one who saw it, either in this country or in Europe; its artistic design and oriental imagery produced a picture of unequalled merit. This year he turns from the beautiful to the practical, and issues a calendar which gives the number of days from any given day to another; also a calendar of week days, showing the exact number of days, for example, upon which an advertisement may have appeared. In fine it is of much convenience, and unlike its predecessor of 1882, is wholly useful. A scale, showing the measure of every advertisement, is at either side of the calendar, that advertisers may judge for themselves of the length of their ads. and their probable cost. In the preparation of a calendar, no less than in selecting the best mediums of advertising, our friend on Washington street must be acknowledged to have proved a success.

News and Notes.

Naval officers are highly pleased with the performance of the new monitor Miantonomah, which has reached the Washington navy yard from Philadelphia, where she was launched.

Joseph Moulton of Newburyport, a jeweller, when about to enter his house on High street, at one o'clock Saturday night last, was attacked by three men and struck over the head with a sharp weapon, cutting through his hat and inflicting a severe wound on the forehead. They fled at his screams. This is the fourth attempt at highway robbery in eight months, in that city.

The court of queen's bench at Toronto, Ontario, has unanimously decided that there is no restriction in that province on the carrying of passengers, by land or water, on Sunday, thereby overruling a decision of thirty years ago, under which it has been held illegal for ferry boats to ply on that day.

Mrs. Maria Louise Dillon appeared in court at Chicago, Dec. 30th, and, after a very brief hearing was granted a decree of divorce from her husband, John Dillon, the actor. She was his second wife, and was married to him in 1872. The charge was desertion and habitual drunkenness. Dillon was in court, but made no defence. The decree was granted in less than twenty-four hours from the time of filing the notice.

A new steel steamer of 2200 tons, named the Chiapass, on her first voyage from Glasgow to Demarara and Trinidad, on Dec. 30th suddenly went down a few miles off Cork harbor, Ireland. It is supposed she struck a sunken wreck.

James Griffin of Chicago, aged seventy years, who recently killed one of the "Tilden street hoodlums," had his throat cut by one of the gang, Saturday, Dec. 29th. He had just been released from custody, being acquitted of murder in taking the life of the man who attacked him. Early Saturday morning the gang set fire to Griffin's house, and destroyed it with its contents. The ruffianly element of Chicago is rampant, and has established something very like a reign of terror. Highway robberies, with violence, are of almost nightly occurrence.

The court of queen's bench at Toronto delivered judgment Dec. 30th in the Phipps (Philadelphia almshouse embezzler) extradition case. Two judges decided that he be extradited, and one dissented. The case will be carried to the court of appeals.

At Baltimore, Md., Saturday night, Dec. 30th, Frederick Joseph of Washington and John Brennan of Baltimore were attacked by two negroes, and Joseph was probably fatally injured. Brennan was cut in the back with a razor, but was only slightly hurt. The negroes escaped.

Mary Isabella Martin, who was tried at Emporia, Kan., in November, for the murder, by poison, of Mrs. Larsine M. Ruger, and who has been feigning insanity since the verdict of guilty was rendered, has been pronounced sane by a competent board of physicians, and was on Friday sentenced to be hanged, after one year's confinement at hard labor in the penitentiary. The crime was committed for the purpose of obtaining $6,000 insurance upon the life of the deceased woman, the policy having been taken out a few weeks previous to her death, and made payable to the son of Mrs. Martin, who will be tried as an accomplice in February.

Leon Gambetta, the great French statesman, died at midnight Sunday night.

Fred Merrick and Peter Chaplear, youngsters who ran away from home in Worcester, Mass., have pulled up in jail at Paterson, N. J.

George O. Wood, son of B. O. Wood, was drowned in the Merrimac river at Haverhill, Mass., while skating Friday evening, Dec. 29th.

A race riot occurred at Ocohee, Ga., Dec. 29th. Asa Lawson was killed, and Marshall Webster and his son William were mortally wounded. All three are white men. Three colored brothers, Handy, Jefferson and Squire Washington, were dangerously wounded, and several others of both races were injured.

The new city government of Boston was inaugurated on Monday. Frederick E. Goodrich was elected city clerk.

Elisha Allen, minister of the Sandwich islands, fell dead in the cloak room at the White House, Washington, during the New Year's reception. The reception was immediately discontinued.

There was a slight shock of earthqake at Dover about ten o'clock Sunday night. At Rockland, Me., about the same time, there was a shock lasting thirty seconds; and at Halifax, N. S., about 11:30, quite a shake was felt.

Editor Chronicle: I see by your paper of this date that I have been made to say that Mr. Pomeroy "understated rather than overstated matters" concerning the portions of Colorado that I visited, "and particularly of the Atlantic-Pacific tunnel." I did not intend to be understood as making reference to the tunnel when I spoke of the growth and thrift of Colorado, and the opportunities for young men of ambition, courage and good habits.

So far as I have knowledge, Mr. Pomeroy certainly did not overstate the rapid growth, present enterprise and wealth, and future possibilities or probabilities of Colorado. When he spoke of the little county of Gilpin I expected to hear him say that little rocky county had "since 1859 turned out thirty-five millions five hundred thousand dollars of gold, and three millions of silver."

All I have to say of the Atlantic-Pacific tunnel is, it is a great undertaking, a great enterprise,—and may be a great success, and may be a stupendous failure, —no one as yet knows which. But intelligent gentlemen living near the tunnel, who had no direct interest in it, spoke of the enterprise very hopefully.

I have advised no man, old or young, to go to Colorado, for I do not wish to be responsible for any man's disappointment; but I do say that Colorado has a pure, healthful climate, grand scenery, intelligent, cordial people, and immense resources; consequently large opportunities for young men who are equal to the task of helping to develop those resources. And such young men as are not suited to such work had better stay at home, for they will never be able to "keep up with the procession" in Colorado. J. F. HALL.

Charles O'Neil's house in Keene was damaged to the amount of $1000 by fire on the night of Dec. 30th; insured.

Rev. James Doherty of St. Joseph's church, Manchester, has been appointed to succeed the late Rev. Father Bouvier as pastor of St. Mary's church at Salmon Falls.

George L. Curtice, a highly respected citizen of Stoddard, died on Friday morning last of paralysis. He was formerly in the grocery trade at Nashua. His age was about sixty years.

Rev. Father Canning of Machias, Me., goes to Exeter, and Rev. Father William Lonergon takes his place as pastor of the Catholic church at Machias.

Mrs. Caroline Doe of Barrington was burned to death Dec. 29th in consequence of her clothes taking fire from a stove while she was alone. She was about seventy-five years old, and when the accident was discovered she was enveloped in flames. She lived only a couple of hours after they were extinguished.

Miss Lizzie R. White of Dover was knocked down by a sled on the night of the 29th inst., and dangerously injured.

DIPHTHERIA!

THE PROSTRATION which follows Diphtheria, and the persistency with which it clings to the patient, are well known to all who have had any experience with this terrible disease.

The following letter shows how the restoring and invigorating properties of

Hood's Sarsaparilla

overcome it, and how by vitalizing and enriching the blood it neutralizes and eradicates the poisoned matter from it, bringing to the convalescent the color, life and vigor of robust health.

LOWELL, MASS.

MESSRS. C. I. HOOD & CO.: Gentlemen—My little girl had the diphtheria last April. The disease left her very weak, blood poor, with no appetite, and she could not seem to rally from its effects. HOOD'S SARSAPARILLA was recommended by a neighbor. After she had been taking it a few days we noticed a change for the better—she began to eat with a relish. It seemed to take out the poison the disease had left in her blood, the change being very noticeable in her face. She took it two months and fully regained her health, much to our delight. We now recommend HOOD'S SARSAPARILLA with a great deal of pleasure. Very truly yours,

J. R. SMITH,
19 Butterfield Street.

SECRET!

THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.

SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.

In has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate these diseases which are the result of the poisoning of the blood with Uric Acid.

SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated Hospitals of America and Europe. Highest Medical Academy of Paris reports 95 per cent. cures in three days.

REMEMBER

that **SALICYLICA** is a certain cure for **Rheumatism, Gout and Neuralgia.** The most intense pains are subdued almost instantly. Give it a trial. Relief guaranteed, or money refunded.

THE

NEW YORK TRIBUNE.

Strong, Clean, Enterprising.

The Largest Circulation Among the Best People.

Rejoicing with its readers in the better times which reign throughout the country, THE TRIBUNE finds itself at the beginning of a new business year enjoying its own fair share of the prevalent prosperity and prepared to make all its several editions thoroughly complete, entertaining and valuable. The dire aim of THE TRIBUNE is to be the best and foremost newspaper of America. It has its own telegraph line to Washington, it uses the cables free of, and it scours the world for the news, printing all that is worth, and all that is worth it in detail. The rest is put into bright short paragraphs. Its contents are fresh, choice, varied and thoroughly unobjectionable in every respect. THE TRIBUNE has long enjoyed the largest circulation among the best people. It intends to let no rival usurp its place. THE TRIBUNE is the organ of no individual, of no faction or clique, and of no interest adverse to the public good. It knows no service other than that of the people.

THE TRIBUNE believes the well-being of the country will be best preserved by keeping its Government in Republican hands. But it does not believe in Ring Rule, Bossism or Corruption in Office. It has done hard work, and taken great risks, in efforts to purify the Republican party. It expects to continue in that course, wherever or whenever this may seem needful—not doubting that this is the true road to a worthy Republican success in 1884.

Every year THE TRIBUNE offers to subscribers a few premium books of marked and standard merit. The terms are usually so arranged that either the paper or the book is a gift to the subscriber.

A SPLENDID WORK FOR FAMILIES.

For 1883 THE TRIBUNE offers a new premium, WOOD'S HOUSEHOLD PRACTICE OF MEDICINE, HYGIENE AND SURGERY. 2 vols., 19 and 942 pp., profusely illustrated, bound in cloth, and sold by agents for the invariable price of $10. It is written by eminent physicians of New York and Philadelphia, and published by the well-known standard medical book house of William Wood & Co. Every possible topic relating to the structure and functions of the human body is explained in this work with text and picture. The book teaches how to regain health when lost, and how to take care of it when regained. It explains what to do in emergencies. It will save many a human life and many an hour of suffering and anxiety. Any ordinary family it will pay for itself in a year's time. The terms are:

$10. { WOOD'S HOUSEHOLD PRACTICE and THE WEEKLY TRIBUNE five years.
$5. { WOOD'S HOUSEHOLD PRACTICE and THE SEMI-WEEKLY TRIBUNE five years; or with 20 copies of Weekly yr.
$25. { WOOD'S HOUSEHOLD PRACTICE and 20 copies of THE WEEKLY one year.

A circular with full description of the work sent on application.

A Chance for One Year Subscribers.

During the summer of 1882, THE TRIBUNE made the experiment of offering REDPATH'S HISTORY OF THE UNITED STATES. The book met with an unexpected welcome. The offer is continued one year. The book is a popular history of the United States, from the aboriginal time to the present day, coming down to the inauguration of President Arthur. It is a large octave, 753 pages, the retail price is $3.00. We will send THE WEEKLY TRIBUNE one year, and the History for $3.00, which is only the price of the book. We will send THE SEMI-WEEKLY TRIBUNE one year, and the History, for $4. In each case we pay the postage.

An Encyclopædia in 15 Volumes.

THE TRIBUNE has resolved to continue the encyclopædia premium upon exactly the same terms as before.

The Library of Universal Knowledge

Embraces Chamber's Encyclopædia complete, containing extensive American additions, making about 15,000 additional topics, adding to it over 25 per cent. of the freshest and most valuable matter on the whole, making 15 immense octavo volumes averaging nearly 900 pages to the volume. We offer:

The Library of Universal Knowledge with THE WEEKLY TRIBUNE 5 years for $25.

With THE SEMI-WEEKLY TRIBUNE, 5 years $35.

With ten copies of THE WEEKLY TRIBUNE one year, $19.

With twenty copies of THE WEEKLY TRIBUNE one year $29.

Young's Bible Concordance.

This famous work, containing 1,100 three-column pages, was originally published in England October, 1879, and was sold at $15. We offer the Concordance and one copy of THE WEEKLY TRIBUNE five years or five copies one year for $7; or with one copy of THE SEMI-WEEKLY TRIBUNE five years, or five copies one year, or ten copies of THE WEEKLY TRIBUNE one year for $12.

An Unabridged Dictionary.

THE TRIBUNE offers Webster's Unabridged Dictionary, or Worcester's Unabridged, to any One remitting $12 for the Dictionary and THE WEEKLY TRIBUNE five years; or $17 for the Dictionary and THE SEMI-WEEKLY TRIBUNE five years; $19 for the Dictionary and THE DAILY TRIBUNE one year.

A Portrait of Garfield.

THE TRIBUNE will send to its regular readers a portrait of Garfield, or one of Mrs. Garfield, 22 by 28 inches in size, good for parlor or library, for 10 cents each; to those not subscribers for 50 cents each.

Circulars describing THE TRIBUNE premiums are fully, and sample copies of the paper sent free on application. Address simply,

THE TRIBUNE, New York.

PHOTOGRAPHY!

V. NEWELL would respectfully inform the citizens of Portsmouth and vicinity that he is now prepared to make **Photographs, Ferotypes and Tintypes** of all sizes, for the whole high *relief* now so popular at the rooms formerly occupied by O. H. Cook, over Jos. Pettis's store, (entrance on High Str et,) where all kinds from the smallest to life size pictures will hereafter be finished neatly and promptly.

POLICE COURT--BATCHELDER J.

MONDAY, Jan. 1st.

Michael Owen, for drunkenness, was ordered to pay $6.90, fine and costs, and paid it.

Franklin C. Hoyt, charged with the same offence, had his case continued to Tuesday, the 2d inst.

A dancing party was given in Franklin hall on Monday evening, by some young ladies.

The annual ball of the Austin-Lincoln Association (colored) was given in the south wardroom on Monday night of this week, many prominent citizens being present during the earlier part of the entertainment.

"bon-bon dance" is to be given in Franklin hall this evening, under the management of a party of young gentlemen. Proctor's orchestra of Essex, Mass., will furnish the music. Gallery tickets can be had at Moses Brothers' store.

"The Professor," which is to be given in Music hall to-morrow evening, has its scenes in the White mountains of this state; the first act is in the interior of the Poggawamsett house The Professor has lost nothing in interest since its former representation in this city.

Major David Urch has contracted with Mr. Daniel Mason for 100,000 feet of lumber (which will be got out of the woods in Newington) to be used during the present year in thoroughly repairing the Newcastle upper bridges; the third bridge, from Goat island to Great island, will be entirely rebuilt.

Mr. Allen Greenough, who owns the Tucker Rogers farm, recently sold to Mr. Moses Philbrick of Rye a pair of four-year-old steers weighing 3550 pounds.

Charles H. Tucker has sold out his store near the south millbridge, to a man named Coleman.

Miss Ida Foster, employed in the shoe factory, was recently presented by some of her shopmates with a very beautiful opera-glass mounted in gold and mother of pearl.

About 18,000 lbs. of fish were brought into this port on Sunday, and 10,000 lbs. on Monday.

Mr. G. F. Hurd has been appointed purchasing agent of the Eastern railroad, vice George J. Fisher, resigned,—the latter having been appointed to a similar position on the Boston & Maine railroad.

The Marine Bicycle company have received application from S. B. Lewis & Co. importers at Hong Kong of American goods for China and Japan, for the sole agency for the sale of the Bicycle Co.'s marine pleasure crafts, in the various ports of those countries. In their letter received last week the firm say: "We have heard from America of the wonderful marine novelty, and have had many inquires concerning it; and we have no doubt we could sell many of them in the various ports." The letter also says "ship overland to San Francisco, that they may reach us before the hot season commences." This is the second order the company received from without the country for bicycles, the first coming from Mexico.

The schooner Sylph, Captain Simeon Hubley, was reported on Sunday to have that day landed in Boston 10,000 lbs. of fish, having previously taken in there, during the week, about 8000 lbs.

We are informed that proposals have been made by the school committee of Rochester to Mr. C. M. Lord, teacher in district one of this city, to go to Rochester and take charge of a school at $1000 for a year of thirty-three weeks, while here he teaches forty-one weeks. Mr. Lord is desired to succeed Mr. Applebee, late of Rochester, who has taken charge of a school in Lynn, Mass., at a salary of $1300.

The Christ church chimes were rung at midnight, Sunday night, to ring out the old year and ring in the new one; the selections were appropriate to the occasion, and the music of the bells was very pleasing.

The Eldredge Brewing Co. finished the first cutting of ice on their pond last week. Hon. Frank Jones will commence hauling ice for his brewery from the pond at the foot of Peverly hill to-day.

The Eastern and the Boston, Revere Beach & Lynn railroads have compromised on cheap fares. The agreement as made is that the Eastern take off its fivecent trains between East Boston and Lynn, (which was done on Monday,) and that both roads increase their fares between Boston and Lynn to twenty cents, or six tickets for $1. The season ticket rates will be as established last October, $15 per quarter.

It is said that a considerable quantity of split stone belonging to the city, and scattered along the southerly part of the city farm in the vicinity of the Dennett street extension, has mysteriously disappeared since the new street was built some years ago, and efforts made by a committee to find out definitely where the stone went have failed.

From a list of the officers and students of Hampton academy for the year ending August, 1830, it appears that that once famous educational institution had that year one hundred and six students, of whom fifty-eight were males and forty-eight females. But four of the number were from this city, namely: Sarah E. Salter, Lucy B. Tilton, Mary W. Tucker and Hezekiah Hutchings; Rev. Chas. Burroughs of this city was one of the trustees. Josiah Bartlett and Robert F. Gerrish of Kittery, and Amos Tuck, then of Parsonsfield, Me., were students at the academy that year.

It is reported that Dr. J. C. Stewart of York, who attended the late Dr. Eli Q. Adams of Kittery Point during his fatal illness with malignant diphtheria, is now down with the same disease. Several new cases of the complaint are reported from Kittery Point.

Hon. David H. Buffum, who died at his home in Somersworth, N. H. last week, was a native of North Berwick. In 1857, in company with the late Hon. John H. Burleigh of South Berwick, he organized the Newichawanock Woollen Co. in the latter town.

George Christenson of Kennebunkport has contracted to build two schooners, one of which, a first-class schooner of 140 tons for A. M. Smith & Co. of Portland, is to be launched in May.

The memorial exercises of the late Dr. E. Q. Adams were held in the Baptist church at Kittery Point on Sunday afternoon, in the presence of a large concourse who came from near and far to thus testify to the esteem in which the deceased was held. Rising Star Commandery, United Order of the Golden Cross, of that town, and large representations from the commanderies at Eliot and York, were also present to assist in the impressive exercises of the order, which were conducted by Rev. Mr. Plummer, a close friend of the late doctor. The lodge of Knights of Honor of Kittery was also well represented. A portrait of the dead, with insignia of the Golden Cross draped in crape, and floral tributes, made an impressive scene.—*Times.*

Charles Sherman and James P. Williams of Lynn have brought suit against the Boston, Revere beach & Lynn railroad, the former in $5,000 and Williams in $1,000. Plaintiffs say they were injured on defendant's road in the accident which occurred at the Point of Pines on Dec. 11th, when the train was thrown from the track. Sherman is a variety actor, and it is said had one of his knees badly injured.

There was a large supply of fresh cod and haddock in the Boston market during last week, and prices ruled low; trade was dull, and dealers had hard work to find buyers for their supplies. For market cod prices did not go over 2 3-4 cents a pound, and some cod and haddock sold as low as two and 2 1-2 cents; steak cod sold mostly at about four cents. Halibut was scarce, and for several days the market was bare. Frozen herring continue scarce, and none of any consequence are offered for sale. Smelts have been arriving in large quantities from New Brunswick, and ruled at very low prices; the regular range was from three to four cents a pound, but some lots were forced off at about two cents, — barely enough to pay cost of freight and handling.

—A party of enthusiastic excursionists down in Maine adopted a series of resolutions thanking everybody and everything that had contributed to the pleasure of their trip, including the moonlight and aurora borealis.

SOMETHING OF A MONOPOLY.

A gentleman of this city, desiring to fill Christmas and New Year's orders for rattan work, went to New York several weeks ago to buy stock for the same. He was chagrined and dismayed to find every importing house in that city for that article, under bonds to the Wakefield Rattan company not to sell to other parties in this country, and was obliged to return home without any. Wishing to exhaust all honorable means to fulfill promises to customers, he wrote to the Wakefield Co. for just enough rattan to complete his orders, and received a polite answer in return that they "only had enough for their own use." No wonder rattan work is so high priced as to be practically beyond the reach of the masses, when a single firm can control the entire business of the country.

LIFE INSURANCE!
The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.
Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.
Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled "THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, originality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Sixth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

Gentle Women

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures grayness, removes dandruff and itching, makes the Hair strong, giving it a curling tend ncy and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at relief from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, leucorrhœa, irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves the weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, accompanied with pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply at her home in Lynn, Mass.

For Kidney Complaints of either sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the liver. The Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

Foreign Missions.

The Protestant churches of this country expended for foreign missions, in the last year reported, over $2,600,000. It is the fashion among shallow thinkers to scoff at the idea that the boards of foreign mission accomplished much good, and by such persons the expenditure of large sums for the enlightenment of the heathen is considered a wicked waste of money. We seriously doubt, however, if it can be shown that in the expenditure of $2,600,000 for any other purpose there is less waste. All the evidence ever adduced has failed to substantiate the allegations of this class of unbelievers, while on the other hand it has tended to show that the management of the mission boards has, on the whole, been exceptionally honest and able, and that a vast amount of lasting good has been accomplished by the workers in the mission fields. It is true that home missionary work has been sadly neglected in this country, but that is not a good reason for misrepresenting the good work done abroad. Within a few years, however, there has been a marked improvement in the condition of things in the mission field at home. In our large cities, in particular, efforts to awaken a proper degree of interest in the matter of home missions have been successful. The work done to-day is far more comprehensive and more intelligent than that of a few years ago, and no doubt the improvement will continue to be marked for years to come. The poor and the ignorant we shall always have among us, and to relieve their wants there need be no fear that too much money will be raised. America can well afford to lead all other nations in liberal and wise missionary work, both at home and abroad.—*Boston Post.*

The way to produce a smile on the face of a man, suffering with a racking cough, is to make him a present of a bottle of Dr. Bull's Cough Syrup.—Just try it and you will be astonished at the result.

On Saturday, Dec. 29th, twenty-five bandits raided the Palvadere ranch, near Matamoras, Mex., killed Don Jose Trevino, the proprietor, and carried off his son, and it is supposed that he also has been murdered. In the fight which occurred a number of persons were wounded. A body of cavalry went in pursuit of the raiders.

San Francisco's leading sensation just now is a $50,000 policeman under arrest for stealing $5,000 worth of dry goods. What adds to the sensation is the general impression that Mr. Policeman also stole the greater portion of his $50,000.

Ladies of all ages who suffer from loss of appetite; from imperfect digestion, low spirits and nervous debility may have life and health renewed and indefinitely extended by the use of Mrs. Lydia E. Pinkham's remedies for all complaints incident to the female constitution. We have not only a living faith in Mrs. Pinkham, but we are assured that her medicines are at once most agreeable and efficacious.

Wm. H. Bulkeley, republican candidate in the late election for governor of Connecticut, has written to Charles J. Cole, chairman of the state republican committee, refusing, under any circumstances, to accept the governorship in case the democratic black ballots of New Haven, declared illegal by the supreme court, should be rejected. The letter of Gen. Bulkeley will probably prevent any controversy in the legislature over the matter.

"Do Likewise."

Dr. R. V. Pierce, Buffalo, N. Y.:—"Five years ago I was a dreadful sufferer from uterine troubles. Having exhausted the skill of three physicians, I was completely discouraged, and so weak I could with difficulty cross the room alone. I began taking your "Favorite Prescription" and using the local treatment recommended in your 'Common Sense Medical Advisor.' In three months I was perfectly cured. I wrote a letter to my family paper, briefly mentioning how my health had been restored, and offering to send the full particulars to any one writing me for them and inclosing a stamped envelope for reply. I have received over four hundred letters. In reply, I have described my case and the treatment used, and earnestly advised them to 'do likewise.' From a great many I have received second letters of thanks stating that they had commenced the treatment and were much better already."

LOG ROLLING.

While Wrestling with a Fallen Tree a Lumberman Receieves Consequential Damages.

While on a hunting excursion in the great coal and wood region near Carbondale, Pa., the writer met William Coll, a lumberman. Accustomed to life and labor in the forest from early manhood, he was a true Knight of the Axe. Many a tree had fallen before his ringing strokes, and free of rafts had borne away to market, the sawed products. Coll is a character, and if Oscar Wilde is right in saying that all movements in unhindered labor are graceful, our friend William, s ripped for his work, and attacking a tree as Richard I assaulted the heavy doors of Front de Bœuf's Castle, must have presented an admirable picture.

One day however—but let him tell the story himself, as he told it to me:

"I was out in the woods, you know, trying to sta t a log down a hill. Thinking I could get a better purchase on it from the lower side, I tackled it there with my log-rolling hook and threw my weight on the lever. She started, I did, but as luck would have it, before I could get out of the way, she rolled right over me. It it hadn't been for a lot of small limbs and brush lying in the road, which lifted her up, she'd a crushed me flat. As it was I got up without a broken bone, but with some mighty bad bruises."

"Then you were all right," said his auditor.

"Not by a blamed sight, stranger. I took cold, rheumatism set in, and, if I hadn't heard of BENSON'S CAPCINE POROUS PLASTERS and used 'em, it's my opinion I should never have made another chip fly. But the Capcine took hold quick, and I'm 'bout as good as new. But there's one thing you kin calkilate on—I shall never wrastle with wild lumber unless I have the advantage of the ground. Fur, as I told you before, if it hadn't been for them brushes I'd been smashed so you could 'a sold me for a door mat."

The Capcine is the thing for rheumatism. It doesn't keep you waiting. The word CAPCINE is cut in the centre of the genuine. Price 25 cents. Seabury & Johnson, Chemists, New York.

Oh, My Back!

That's a common expression and has a world of meaning. How much suffering is summed up in it.

The singular thing about it is, that pain in the back is occasioned by so many things. May be caused by kidney disease, liver complaint, consumption, cold, rheumatism, dyspepsia, overwork, nervous debility, &c.

Whatever the cause, don't neglect it. Something is wrong and needs prompt attention. No medicine has yet been discovered that will so quickly and surely cure such diseases as BROWN'S IRON BITTERS, and it does this by commencing at the foundation, and making the blood pure and rich.

Logansport, Ind. Dec. 1, 1880.
For a long time I have been a sufferer from stomach and kidney disease. My appetite was very poor and the very small amount I did eat disagreed with me. I was annoyed very much from non-retention of urine. I tried many remedies with no success, until I used Brown's Iron Bitters. Since I used that my stomach does not bother me any. My appetite is simply immense. My kidney trouble is no more, and my general health is such, that I feel like a new man. After the use of Brown's Iron Bitters for one month, I have gained twenty pounds in weight. O. E. SARGENT.

Leading physicians and clergymen use and recommend BROWN'S IRON BITTERS. It has cured others suffering as you are, and it will cure you.

SULPHUR BITTERS

THE GREAT

German Remedy.

TRUTHS FOR THE SICK.

For those deathly Bilious Fevers, I depend on SULPHUR BITTERS, it will cure you.

Ladies in delicate health, who are all rundown, should use SULPHUR BITTERS.

The Giant Dyspepsia is cured by using SULPHUR BITTERS.

$1,000 will be paid for a case where SULPHUR BITTERS will not assist or cure. It never fails.

Operatives who are closely confined in the mills and workshops; Clerks, who do not procure sufficient exercise, and all who are confined in doors, should use SULPHUR BITTERS. They will not then be weak and sickly.

Cleanse the vitiated blood when you see its impurities bursting through the skin in Pimples, Blotches, and Sores. Rely on SULPHUR BITTERS, and health will follow.

General Debility needs a gentle tonic. Use SULPHUR BITTERS, and you will not be troubled.

SULPHUR BITTERS will cure Liver Complaint. Don't be discouraged; it will cure you.

Don't be without a bottle. Try it; you will not regret it.

SULPHUR BITTERS will build you up and make you strong and healthy.

MODERN MANNERS.

SUMMER.

Two summer weeks—oh, short the time!
How swift the sweet days roll!
Then every morning brought a row,
And every night a stroll.

Those two were never seen apart,
No matter what the weather,
For rain or shine, in doors or out,
But brought those two together.

WINTER.

On Beacon street they meet, they pass—
A bow, and that is all,
Says she: "The fool I met at York—
Hope he won't come to call."

He sees her bow and lifts his hat,
Politeness to the letter.
Says he: "By Jove, I've seen that girl,
I wonder where I met her?"

"Young Folks' History of Mexico. By Fred A. Ober. Second Series. Boston; D. Lothrop & Co." Price $1.50. Mexico which, until within the past few years, has been almost an unknown country, is fast taking its place among the important and progressive nations of the world. Although it is only divided by an imaginary boundary from the United States, the two countries have had nothing in common; and though possessed of a climate and scenery equal in healthfulness and beauty to those of Italy, tourists and travellers have rarely turned their faces in that direction. The attention of capitalists of the United States has been of late drawn to that country, as the opportunity to extend its railway system has appeared to be a fertile field for the railway projector. This at once leads a class of persons, not otherwise likely to be interested therein, to become familiar with the history and geography of this rich country. In this volume we have a readable and enjoyable history by Mr. Ober, who has spent considerable time in Mexico and has seen the regions of which he writes. The book has many illustrations, and although designated as a "Young folk's history" will be found excellent reading for adults who seek to become familiar with the interesting history of our southern neighbors.

One of the most useful inventions of the age is James Pyle's Pearline Washing Compound, and judging from its extensive sale, it is safe to infer that housekeepers generally, appreciate the fact.

—A German banker, for his services to his government in arranging a loan, is created a baron, and prepares to take a walk abroad accompanied by his son and heir. According to custom the young man respectfully takes his place on his sire's left. "You may walk on the right side," says the new baron, ceremoniously; "you have one titled ancestor more than I." And as his heir seems surprised at this statement, he adds majestically, "I am that titled ancestor, sir!"

Capt. O'Farrell, after whom O'Farrell avenue is named, and who is known to everyone in Chicago, said to one of our representatives: I am only happy to say that I did use St. Jacobs Oil; my right leg was crippled in a most awful manner with inflammatory rheumatism, and my sufferings were extreme. I tried more physicians than I care to count, and they gave me no more ease and freedom from pain than if I did not have them in attendance. I heard about St. Jacobs Oil, used it and was cured.—*Chicago Times.*

—Mr. Drake says that in Boston "there was a time that it was lawful to get intoxicated only at a church raising, and less than a century ago the omission of wine at a funeral would have called for remarks not at all flattering to the relatives of the dead." Why have funerals degenerated.

"Ladies' Tonic."

The Great Female Remedy is prepared by the Women's Medical Institute of Buffalo, N. Y., and is their favorite prescription for ladies who are suffering from any weakness or complaints common to the sex. It is sold by druggists at $1.00 per bottle. Ladies can obtain advice free. Send stamp for names of those who have been cured.

—A New York belle met with a sad loss while returning from a summer resort lately. By some means her diary, containing the names of all the gentlemen she had become engaged to, dropped out of the car window, and now she can tell which of her male friends have a right to kiss her.

"Nothing like it in the country." "Please send me a box of Hale's Honey of Horehound and Tar. There is nothing like it in the country, and while I am here I want to cure everybody of coughs and colds." Females in delicate health should take Colden's Liquid Beef Tonic. Colden's, no other. Of druggists.

—Pennsylvania brought forth a tomato measuring seventeen inches in circumference, and it was kept until it decayed because they didn't want to spoil the curiosity by cutting it. If the vegetable had been of ordinary size it might have been put to some practical use, as food, or a missile to shy at the head of a lecturer.

Breakfast cocoa, as a beverage, is universally conceded superior to all other drinks for the weary man of business or the more robust laborer. The preparations of Walter Baker & Co. have long been the standard of merit in this line, and our readers who purchase "Baker's Breakfast Cocoa" will find it a most healthful, delicious and invigorating beverage.

—A stranger dropped in one morning before breakfast at a Washington drug store, and called for a bottle of Congress water. The intelligent clerk ducked beneath the counter and promptly produced a bottle of old Monongahela. The customer tasted it and then, depositing his glass, remarked: "Do you call that Congress water?" "That's it," answered the pill compounder, smiling pleasantly; "every congressman who comes in here drinks it."

A good name at home is a tower of strength abroad. Ten times as much Hood's Sarsaparilla used in Lowell as of any other.

—Only works of necessity are now permitted in New York on Sunday. It is a question among some of the people whether all of the sermons delivered on that day come legitimately under that head.—*Boston Transcript.*

What is needed is pure blood, as the influence of its purity upon the health cannot be overestimated. When it becomes impure, it gives rise to a large number of diseases, such as, biliousness, sick headache, dyspepsia, loss of appetite, low spirits, nervousness, female complaints, etc. The success which has attended the use of Swedish Botanic Compound warrants us to say that for purifying and enriching the blood, creating an appetite, strengthening and renovating the whole system, nothing surpasses that great remedy.

—Josh Billings says: "Whenever I find a real handsome woman engaged in the wimmin's right bizziness, then I am goin' to take mi hat under mi arm and jine the procession."

The Real Secret of the success of the noted silver polish, Electro-Silicon, lies in the fact that it cleans and polishes gold and silverware quicker and better than any other known article. Absolutely harmless. Avoid imitations. Druggists. Depot, 72 John St. N. Y.

To Please Her Husband.

Were the Words of a Good Lady, Mrs. Hawkins, who has long Suffered the Pain Common to Chronic Rheumatism. A Woman's Patience and Fortitude well Shown.

Your reporter from Mrs. Hawkins at 14 Exchange St., New Haven, Conn. "About four years ago," she said, "I was then a resident of Brooklyn, N. Y. I went over one morning to the Jersey City depot to see some friends off who were started for the west. There was a strong draft of air in the depot, and in standing by the train talking to my friends I caught a severe cold. I had no more than reached my home again when I was taken with a sudden chill and then fever set in. The outcome of all was that rheumatism settled all over me. I was entirely helpless. From this I have never recovered. You see my hands what a state they are in. Those are all chalky swellings and my limbs are very bad. While I remained in Brooklyn I tried all sorts of remedies, but I could never gain any relief. My physician said it was no use. I grew very thin and lost all strength. Finally, after coming here, to gratify my husband, I began to take Dr. Kennedy's FAVORITE REMEDY, and my general health has been better than ever before. I am stronger, have an excellent appetite, which I did not have for a long time. It has helped my rheumatism, and with a thorough trial I am in hopes of recovering completely."

Kennedy's FAVORITE REMEDY has been successfully used by thousands. It will build up a system which has been run down by overwork. It is the thing for the student and literary man to have at hand, and about the home of every mechanic. FAVORITE REMEDY is economical, safe and pleasant. Buy it and try it.

Lady With The Seal-Skin Sacque.

She sat in the crowded church that dreadfully cold Sunday and kept the new sacque on all the morning. She went with perspiration and the sacque into the chilly street, and caught an awful cold. And they labored in vain to cure that cold until they thought of Perry Davis's Pain Killer, and sent to the druggist's for a bottle. Then came relief. Suddenly checked perspiration bring sudden colds, chills, coughs, consumption.

Insufficient Naval Appropriations.

Secretary Chandler will send to Congress a letter requesting further appropriations for the general maintenance of the navy yards for the present fiscal year. This appropriation covers the expense of gas, coal, water, horses, watchmen, etc.; and that made for this year was $220,000—just one-half of that made for the year before. The secretary now finds himself with only $24,000 on hand, which will last until the middle of February. He will ask Congress to appropriate about the same amount for the time from February 15th to March 31st as a deficiency, on the ground that the naval appropriations of the present year were not available until about the 5th of August, until which time the expenses were met out of last year's appropriations. For the remaining three months of the fiscal year, from March 31st to June 30th about $75,000 will be necessary; and the secretary will give notice that, if this appropriation is not made, he will shut up four or five navy yards. Which yards he will select to be closed, the secretary declines to say, but the statements in his annual report leave little doubt that those at Pensacola, League Island, Boston and Portsmouth, and possibly Norfolk, will be the ones. If all five should be closed, only the New York and Washington yards on the Atlantic and Mare island on the Pacific would be left in active operation.

It is possible some of the yards would have been closed before now had it not been for a clerical blunder in the naval appropriation bill. As the house originally passed the bill, it provided "that if the secretary of the navy shall find that work at all the navy yards now maintained cannot be carried on during the current fiscal year with advantage to the service and economy to the government for the amounts in this act appropriated for the maintenance and civil establishment at the navy yards," he should close the yards which could be best dispensed with, and report his action to Congress. The senate struck out the words "for the maintenance and civil establishment at the navy yards," leaving it at the discretion of the secretary to close any of the yards if he thought they could not be carried on with advantage to the government. The conference committees agreed to this, but in engrossing the bill the house provision crept back by accident, and the closing of the yards was made to depend upon the condition of these minor appropriations. The appropriations for civil establishments, which covers clerks, writers, etc., was found sufficient with economy, and the question then was whether Congress intended that the navy yards should be closed merely because there was no money for gas, water, etc., and the secretary felt that he could not so hold.

If Congress would deal with the navy yard question on the basis of the facts brought to its attention in his annual report, it would accomplish a reform which would reflect credit on the republican party. While preparing his report the secretary sent to all the navy yards for a statement showing the number of naval officers, seamen and marines, and of civil employes and workmen engaged in the navy yards on the 16th of November, and the pay-roll for workmen and employes for that day. It appeared that in the seven yards there were 326 naval officers, 2,501 enlisted men and marines, and of employes and workmen 4,462; making a total of 7,289 persons connected with the navy yards, and a pay-role for the employes and workmen alone of $11,319 per day. The only work in progress on ships of war was on seven ships. The cost of the work being done was almost entirely "made" work, which could have been done much more cheaply in ship yards. A commission is now looking into the advisability of selling some of the yards, the present number of which, the secretary plainly says in his report, "will be required by any present or prospective wants of the country."

Naval estimates for the coming year have been subjected to some criticism, evidently through misunderstanding. It has been stated that they exceed $27,000,000, and it has been pointed out that the sum is $11,000,000 in excess of the appropriations for the present year, the inference being drawn that Mr. Chandler is growing extravagant. The facts are that the chiefs of the bureaus furnished the secretary with their estimates as required by law, and the time being too short to allow him to revise them as carefully as he wished, he transmitted them in full to the secretary of the treasury to be printed in the volume of estimates; but in his report he revised them from $27,042,678 down to $20,836,297—about the estimates of last year. The bureaus asked $2,080,000 for building hulls of two new cruisers, and $1,800,000 for machinery. Mr. Chandler reduces both items to $1,000,000 each. For completing the monitors the bureaus asked $2,000,000—reduced to $1,000,000. Repairs and improvements at navy yards were reduced from $3,562,444 to $1,192,571. Of this last item, $200,000 is for the dock at Mare island. Deducting this, and the $3,582,000 allowed for the hulls and machinery of the cruisers and monitors, the estimates are reduced to a little more than $16,000,000—about the appropriation for this year.—*Washington cor. N. Y. Tribune.*

News and Notes.

A heavy snow storm set in at San Francisco, Cal., about noon last Sunday, and continued with great violence over four hours. The snow fell to a depth of five or more inches. Such a fall of snow has been unknown in that city for over thirty years, and old pioneers state they never saw a storm of equal violence and endurance. A number of sleighs, the first ever seen in the city, were out on the streets.

At Bridgeport, Conn., Jan. 1st, a colored woman named Phebe Brush, thirty-five years old, was found dead, having been murdered with an axe by some person who approached her from behind while sitting in a chair. She had for some years lived apart from her husband, and was seeking a divorce.

The body of an unknown woman about forty-five years old was found in a house on Depot street, Calais, Me., Jan. 1st. A man's cap, covered with blood, was found near the body, and is supposed to belong to a man named Toomey.

At Tazewell court house, Va., Dec. 24th, Bluford Smith, colored, killed a white man named Kinza, and was lodged in jail. On the night of Dec. 28th a mob broke open the jail, and shot Smith to death.

Two negro women, both married, died in Springfield, Mass., last week, from the effects of illegal operations performed by a Boston doctor, one Dillingham.

Shortly after midnight on Sunday last, while watch meeting services were being held in the Reformed Evangelical church at Reading, Pa., a large cannon filled with stones and powder was discharged near by. The front wall was stove in and nearly all the window panes shattered. Great excitement was caused among the audience, but no one was hurt. Eight arrests have been made.

Ira Berry of Portland, Me., grand secretary of Masons of Maine, fell from a high stepladder in the grand lodge library, Monday night, and broke his right leg between the knee and the ankle. His advanced age, eighty-one years, would render it serious if it were not for his excellent health.

Andrew Finnegan and John Hodgdon of Bangor, Me., were bound over Saturday to the February term of the supreme court of Maine in $200 each, for keeping a gambling den.

Miss Lizzie G. Shaw, youngest daughter of Charles Shaw of Dexter, Me., was married last week to Thaxter Shaw of Montreal. The bride's presents included a diamond ring, diamond pin, diamond bracelet, and a marriage settlement of $50,000.

In October, 1881, two tramps entered the Utah & Northern railroad station at Franklin, Idaho, and pointing a cocked pistol at Agent Hinkley demanded the combination of the safe. The pistol went off and killed Hinkley. The tramps fled, but were soon caught, and Michael Mooney, the one who held the pistol, was hanged at Maladon, Friday. He died game and refused to disclose anything respecting himself, his family or life.

At Waterbury, Vt., Dec. 30th, Mrs. May Prior, who had been married only a year, attempted suicide by taking opium. She may recover, but her condition is critical.

Saturday evening, Dec. 30th, a party of roughs assaulted a Frenchman named Henry Barrell in Windsor, Vt., and after knocking him down and severely beating him, gave him seven deep stabs in the back, so that his life is despaired of. Sunday evening a part of the assaulting party were arrested.

Samuel Starkweather was knocked out of a sleigh at Pownal, Vt., Saturday night, Dec. 30th, by two men who robbed him of a watch, $80 in money, and other articles valued at $40.

Nelson Raymond of Worcester, Mass., sixteen years old, shot his brother Joseph, ten years old, while playing with a revolver, Dec. 30th. The boys were less than three feet apart, and the bullet passed through Joseph's heart.

—"The regeneration of feminine attire," says an English writer, "will never be compassed by the way of trouserdom."

Under the heading of "North Berwick" the Biddeford *Journal* says: "The sum of the ages of the four surviving members of the Hayes family of this town, of which Col. Hayes is one, is 321 years. Col. Elijah Hayes is 82; Charles Hayes, of Portsmouth, N. H., 80; Betsey Dennett, 83 years, 5 months; Lois R. Hayes, 75 years, 7 months. Within a few months they have enjoyed a reunion at the old homestead, Col. Hayes', and also at Mrs. Dennett's, Riverside. All are possessed in a good degree of both mental and physical strength, and are more or less interested in the general routine of life's responsibilities."

Among the deputy sheriffs selected by Sheriff-elect Getchell of York county are N. E. Spinney of Kittery, J. C. Stewart of York, W. S. Matthews of Berwick, and W. E. Towne of Kennebunk.

Among the real estate transfers in York county during the month of December are the following: Kittery—Charles W. Riley et als., of Boston, to Charles W. Cottle of Kittery, thirteen acres of land for $436. Eliot—Albion T. Spinney et al., of Ashland, Pa., to Martin T. Tobey of Eliot, real estate for $130. York—Moses French of Manchester, N. H., to Stephen Peaslee of Canaan, N. H., land at Union Bluff, York, for $150; Moses French to Stephen Peaslee, land at Union Bluff for $100; Moses French to Stephen Peaslee, land at Union Bluff for $187.

On Monday, Jan. 1st, Charles H. Junkins assumed the duties of postmaster at York Corner, the late postmaster, Mr. Moulton, having resigned.

Willie Butler, twelve years old, son of Wm. N. Butler of South Berwick, was fatally injured while sliding down hill in that town on Saturday of last week.

The Kennebunk & Kennebunkport railroad has paid on account of land for locating the railroad, to persons in Kennebunk, as follows: George Wise, $303; John Larrabee, $300; Franklin E. Furbush, $400; Jacob Butland et al., $250; Robert T. Hatch, $250; Wm. A. Redlon, $250; Charles W. Drown, $275.

Maj. Dizon and the Prize.

About the first thing we heard on the street was that Maj. J. M. Dixon, ex-Postmaster at Ennis, Texas, had drawn the capital prize of $75,000 in The Louisiana State Lottery; we sought the Major and found him with a remarkably flushed face and a smile as though he had just been married or was going to in a few minutes, covered every part of his face. We congratulated him $75,000 worth, but he said that was too steep and at once reduced it to $15,000; upon being pressed for the particulars, he said his wife was the real owner of the ticket that drew that prize.—*Ennis, Texas, Commercial Recorder, Nov. 23d.*

DIPHTHERIA!

THE PROSTRATION which follows Diphtheria, and the persistency with which it clings to the patient, are well known to all who have had any experience with this terrible disease.

The following letter shows how the restoring and invigorating properties of

Hood's Sarsaparilla overcome it, and how by vitalizing and enriching the blood it neutralizes and eradicates the poisoned matter from it, bringing to the convalescent the color, life and vigor of robust health.

LOWELL, MASS.

MESSRS. C. I. HOOD & CO.: Gentlemen—My little girl had the diphtheria last April. The disease left her very weak, blood poor, with no appetite, and she could not seem to rally from its effects. HOOD'S SARSAPARILLA was recommended by a neighbor. After she had been taking it a few days we noticed a change for the better—she began to eat with a relish. It seemed to drive out the poison the disease had left in her blood, the change being very noticeable in her face. She took it two months and fully regained her health, much to our delight. We now recommend HOOD'S SARSAPARILLA with a great deal of pleasure. A mother's gratitude.

19 Butterfield Street.

"That Extreme Tired Feeling."

"The first bottle has done my daughter a great deal of good; her food does not distress her now, nor does she suffer from *that extreme tired feeling* which she did before taking HOOD'S SARSAPARILLA."

SECRET!

THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.

SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.

In has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate these diseases, which are the result of the poisoning of the blood with Uric Acid.

SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Highest Medical Academy of Paris reports 95 per cent. cures in three days.

Probabilities for New England:—

Fair weather, northerly shifting southerly winds, falling followed by rising temperature, stationary or lower pressure.

The Thermometer at the CHRONICLE Office, at 4:00 o'clock this morning, indicated 10 degrees above zero.

Sky clear.

WHAT SHALL WE DO ABOUT IT?

In another column we give a statement from the Washington correspondent of the New York *Tribune* concerning the insufficiency of the naval appropriations. While the closing of the navy yards at League island or Boston, where other fields of labor are open to workmen employed on the public works, would be of comparatively slight consequence to the population of Philadelphia or Boston, the effect upon Portsmouth and Kittery of closing this yard would be disastrous. It would at once cause a material reduction of our population, the closing of many places of business, the increase of vacant tenements, and would in many ways be unfortunate for our community. In the view of the possible situation of affairs, should not something be done to prevent a result so injurious to our locality? If a similar state of affairs existed in other places, doubtless some co-operation of the citizens would at once be inaugurated, to obviate the dreaded results. Who will move in the matter?

THOMAS H. ODION.

Mr. Thomas H. Odion died on Tuesday, Jan. 2d, after a long illness. He was a native of this city, and son of Thomas Odion, a well-known spar-maker of former years, who recently died in Temple at an advanced age. He learned the trade of spar-maker with his father, and was a superior mechanic; and in the days when shipbuilding was flourishing on the Piscataqua, he sparred many of the finest vessels ever constructed here. Of late years he has been engaged in the coal and wood business, in partnership with Mr. Benjamin Russell. In his early manhood he was active in politics, though we believe he never held any office other than that of common councilman, and school committee; he was always a democrat. He was twice married, his first wife dying without issue; his second wife survives him, with a son and daughter, the son being now on the editorial staff of the New York *Sun*. He leaves a handsome property.

FLOATING DOWN RIVER.

Mr. Daniel Mason and assistants left the Newington shore of Great bay at seven o'clock last Monday morning, with a raft of logs 300 yards long and containing about 50,000 feet of timber, to bring it to his steam mill in this city—a job attended with much difficulty and danger, as it necessitated going under three bridges with a strong current rushing them through the passes, and there was a very excellent chance of such an unwieldy raft running ashore somewhere on the way down. The raft however arrived safely at the mill about seven o'clock in the evening, having stopped but once (at Eliot) on account of the tide; the party were wet through and well tired out at the end of the trip. The timber is to be immediately sawed, and used for repairing the Newcastle bridges.

POLICE COURT--BATCHELDER J.

TUESDAY, Jan. 2d.

Franklin C. Hoyt was allowed to go on probation, he having signed the temperance pledge and announced his intention to keep it.

RAILROAD ACCIDENT.

The Eastern railroad express freight train which arrives in this city from Boston at three o'clock A. M., when at the Plains on the morning of the 2d inst. from some unknown cause had five of the cars run off the track. One of them, belonging to the European & North American railroad, was badly damaged, both axles being broken and the ends and sides stove in; the car of the Jackson & Co. and Frye & Co. express companies was slightly injured, as were also the other three cars which were derailed. There was no hindrance to other trains on account of the accident, as it happened close by a turn-out, giving the up trains a chance to take their track. The wrecked train was brought into this city about nine o'clock in the forenoon.

MEMORIAL RESOLUTIONS.

The Portsmouth Bible Students' Union, at their regular meeting Monday evening, Jan. 1st, passed the following resolutions:

1st. Resolved: In the sudden death of Dr. E. Q. Adams of Kittery Point, Me., Dec. 26th, the whole community, loses a beloved physician, the church an active, consistent worker, and the Bible Students' Union an earnest, intelligent Christain member.

2d. Resolved: The "B. S. U." hereby extends to his stricken family their hearty sympathy. May the Great Physician soothe their sorrows and heal their wounds. 2d Cor., 1: 3-7.

E. B. GOODALL, *Pres.*
J. H. YEOMAN, *Sec.*

CALLENDER'S MINSTRELS.

"Callender's Consolidation," comprising Callender's Genuine Georgia minstrels and Haverly's European Colored minstrels, numbering nearly fifty persons in all, will give a grand variety entertainment at Music hall on Monday evening, Jan. 8th. They claim to have "the greatest educated fowl, the greatest drum corps, the greatest brass band, the greatest rooster, the greatest tenor singer and the greatest female chorus in this astonishing country."

"The Professor," supported by the Madison Square Theatre Co. of New York, will this evening do some remarkable courting on the stage at Music hall, and cause much fun by the scrapes he will thereby get into; but the fun is all clean, and all comes out right in the end. See advertisement.

The St. John's chapel was well filled on Monday evening last, on the occasion of readings by Rev. S. B. Duffield of Boston, in aid of the Chase Home for Children. The entire receipts of the evening, $37, were paid to the treasurer of the home.

It is said that the wheeling on the roads in this vicinity was never better than at present.

No work was done on the navy yard, Monday, on account of it being New Year's day.

The employes in the department of yards and docks at the navy yard were put on three-quarters time, Tuesday morning.

The docket of the January trial term of the Supreme court, to begin on the 16th inst., contains 186 actions on the civil list, thirty-five on the equity side, and twelve state actions. On the sessions docket are five entries. Hon. A. P. Carpenter is to hold the term.

The steamer James Sampson was hauled off on Tuesday to effect some slight repairs to her machinery, her passengers across the river being carried by the Mystic.

On Sunday last Rev. Ira S. Jones, for five years pastor the of the Christian church at Rye, read a letter of resignation, to take effect in three months unless the earlier termination of his pastorate should be mutually agreed upon.

The bon-bon dance at Franklin hall, Tuesday evening, was attended by about seventy-five couples, and the galleries were filled with lookers-on during the earlier hours of the night. The grand march was led by Mr. Frank Moses and lady; and Proctor's orchestra, from Essex, Mass., furnished satisfactory music.

The schooner Cocheco, Capt. R. H. Seaward, sailed from Perth Amboy, N. J., Dec. 30th, for Jacksonville, Florida, with railroad iron at $2 a ton, and three cars on deck, for which she gets a lump sum. At Jacksonville Capt. Seaward expects to load lumber for Mexico or Jamaica, whichever he can get the best terms for on arriving at Jacksonville. We should like to see Capt. Seaward commanding a good vessel out of his home port, for he is one of the most energetic, judicious and successful skippers in the coasting business; the down-east owners of the Cocheco were fortunate in securing his services when they purchased the vessel from her former Portsmouth owners.

The ladies of Storer Relief Corps, G. A. R., are making earnest efforts looking toward the securing of a permanent relief fund, and as the first step in that direction are to give an entertainment and supper in their hall on Daniel street next Monday evening.

Mr. W. Frank Laskey of this city started on Tuesday of this week for Minneapolis, Minn., to engage in the tent and awning manufacturing business. Mr. Laskey is a young man of much enterprise and energy, and will no doubt succeed admirably; by his going, Minneapolis will be the gainer of just the kind of material that the western country requires, and Portsmouth is the loser of a bright and intelligent young man of good reputation and exemplary habits.

Early on Saturday morning of last week a daughter of J. S. Hoyt of Newington was awakened by the movements of a man in her room, and after watching him a few moments spoke to him, when he fled from the house in a hurry. His motive no doubt was robbery, but he got nothing save a big scare.

Mr. Amazeen's horse "Yankee Locke," and one of R. H. Beacham's fast animals, were having a little trial of speed over the ice on the north pond, Tuesday, but when near the roundhouse the Beacham horse fell, breaking both shafts of the sleigh and putting a stop to the race. No other injury was done.

There are from fifty thousand to seventy thousand pounds of fresh fish in this city, packed in ice, waiting for a rise in prices. It is said one fish-buying firm has paid out $5000 since the 10th of December.

The wife of Warren Brooks, of Ogunquit, who some months ago eloped in company with her husband's fishing mate and all the joint stock of fish, has returned a second time to her first love, and the pair are now living together quite happily. The aggrieved husband said at first that though he was sorry to lose his fish he thought he had got rid of his wife very cheaply, and when she returned to him after an absence of several weeks he refused her permission to enter his house.

LIFE INSURANCE!
The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.
Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.
Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

KNOWLEDGE IS POWER.

READ!

THE SCIENCE OF LIFE

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

25th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of disease, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25, by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than may be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

Gentle Women

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures grayness, removes dandruff and itching, makes the Hair strong, giving it a curling tend ncy and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Messrs. Editors—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is unknown, devoted to her work, which is the outcome of a life-study, and is enabled to keep six fully assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purpose. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, irregular and painful Menstruation, all Ovarian troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It dissolves tumors in an early stage of development, and in fact in every stage, in all conditions, and in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any address required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply at her home in Lynn, Mass.

For Kidney Complaint of either sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All root respect her as an Angel of Mercy whose sole ambition is to do good to others.

Philadelphia, Pa. Mrs. L. M. D.

Rev. Edward J. Colcord on Sunday last resigned the pastorate of the Baptist church in Amherst, after a service of sixteen months.

A meteor of remarkable size and brilliancy was observed in Concord on Sunday night. It was a ball of fire in the southeast, seemingly four inches in diameter, which shot through less than a degree toward the southwest and exploded like a rocket, but without noise. People who had retired were startled by their rooms being suddenly illuminated as by lightning.

The annual meeting of the Odd Fellows' Mutual Relief Association of Strafford county was held at Dover, Jan. 1st. The officers' reports showed twenty-one deaths during the year, and $1,100 paid each family of deceased members. The following officers were elected: President, S. S. Chick, Great Falls; vice president, James F. Seavey, Dover; secretary, A. S. Parshley, Rochester; treasurer, Charles R. Tapley, Farmington. A board of directors, comprising three members from each lodge in the district, was elected.

Shepherd Tuttle, of Nottingham, shot himself in the side with a shotgun on Saturday, Dec. 30th, expiring in ten minutes. He was subject to fits of mental aberration. He was a farmer, forty-five years of age, and leaves a widow and children.

N. H. Eastman, the Nashua salesman whose disappearance from Dover caused much uneasiness to his friends, was heard from in Boston Jan. 1st. No reason is assigned for his absenting himself.

A citizen of the Quaker City, M. F. Freed, living at 122 Vine St., recently spoke as follows: "Being afflicted with a distressing cough Dr. Bull's Cough Syrup was recommended to me for relief. I am happy to say that a few doses not only gave me instant relief, but effected a complete cure."

Some $16,000 which had accumulated from the estate of Dennis Doyle of New York city, who disappeared in 1806, was paid by the county treasurer of Staten Island, last week, to James Doyle a gardener of Boston. The amount originally was $3,800, and has been lying in the court of chancery.

John Morrisey, the renowned ex-pugilist, sporting man, and lately member of Congress, died at Hot Springs, Ark. The prime cause of his death has been ascribed to chronic heart disease. Dr. Graves' Heart Regulator is the only certain cure for this malady ever discovered. When used as directed it has never been known to fail in effecting a cure. It would, if taken, have saved Morrisey. At druggists.

Smallpox is very prevalent in the eastern and southern sections of Baltimore, but confined principally to localities bordering on the river fronts. Seventy-one deaths from smallpox were reported for the week ending Saturday, Dec. 30th. On the 1st inst. a case occurred in the city jail, and in consequence over 300 prisoners, confined for minor offences, were discharged.

Catarrh.

The remarkable results in a disease so universal and with such a variety of characteristics as catarrh, prove how effectually Hood's Sarsaparilla, acting through the blood, reaches every part of the human system. A medicine, like anything else, can be fairly judged only by its results. We point with pride to the glorious record Hood's Sarsaparilla has entered upon the hearts of thousands of people it has cured of catarrh.

W. P. Abner (colored,) who shot his wife and himself Nov. 27th at Norwich, Conn., died Dec. 30th. His wife is recovering.

Many who never complain are nevertheless seriously ill. Use Brown's Iron Bitters and there will be no cause of complaint.

As Llewellyn Davis of Seymour, Conn., was endeavoring to draw the ball from a pistol, Sunday, it was discharged, the ball entering the breast of his wife, inflicting probably a fatal wound.

Dr. Pierce's "Pellets," or sugar-coated granules — the original "Little Liver Pills," (beware of imitations)—cure sick and bilious headache, cleanse the stomach and bowels, and purify the blood. To get genuine, see Dr. Pierce's signature and portrait on Government stamp. 25 cents per vial, by druggists.

MRS. VAN BUREN'S

LADIES' TONIC.

A Positive Cure for all Female Complaints.

Ladies' Tonic is prepared by the Women's Medical Institute of Buffalo, N. Y., and has been used successfully by ladies for years. It is a *sure cure* for all Female Complaints, Sick and Nervous Headache, Dyspepsia, and all weaknesses caused by those irregularities which are so common to womankind. It is no *Patent Medicine*, but is prepared, after years of experience, and recommended, knowing that it will give new life to any broken-down, worn out or over-worked member of the sex.

If you have tried other remedies without success, do not be discouraged, but give "LADIES' TONIC" a single trial. It *never fails to give quick and permanent relief.*

If you are troubled with *any* weakness or complaint common to our sex, lay aside the doctor's prescription or nostrum, and try "Ladies' Tonic," which we guarantee will positively cure you. One Bottle is Sufficient.

Women's Medical Institute is an Association of Women and *Mothers of years' experience*, who give advice and impart secrets for ladies' use *Free*.

Too will be given for any case of Female Weakness or Debility which "Ladies' Tonic" will not cure. This is a *bona fide* offer, made by *responsible* ladies who know *from experience* what they offer. "LADIES' TONIC" can do what it claims. Send stamp for circular.

LOG ROLLING.

While Wrestling with a Fallen Tree a Lumberman Recieves Consequential Damages.

While on a hunting excursion in the great coal and wood region near Carbondale, Pa., the writer met William Coll, a lumberman. Accustomed to life and labor in the forest from early manhood, he was a true Knight of the Axe. Many a tree had fallen before his stinging strokes, and fleets of rafts had borne away the fruits of his sawed products. Coll is a character, and if Oscar Wilde is right in saying that all movements in unhindered labor are graceful, our friend William, a rigged for his work, and attacking a tree as Richard I assaulted the heavy doors of Front de Boeuf's Castle, must have presented an admirable picture. One day, however, that let him tell the story himself, as he told it to me:

"I was out in the woods, you know, trying to start a log down a hill. Thinking I could get a better purchase on it from the lower side, I tackled it there with my log-rolling hook and threw my weight on the lever. She started, she did, but as luck would have it, before I could get out of the way, she rolled right over me. If it hadn't been for a lot of small limbs and brush lying in the road, which lifted her up, she'd a crushed me flat. As it was I got up without a broken bone, but with some mighty bad bruises."

"Then you were all right," said his auditor.

"Not by a blamed sight, stranger. I took cold, rheumatism set in, and, if I hadn't heard of BENSON'S CAPCINE POROUS PLASTERS and used 'em, it's my opinion I should never have made another chip fly. But the Capcine took hold quick, and I'm 'bout as good as new. But there's one thing you kin calklate on:—I shall never wrastle with another log unless I have the protection of the ground. Fur, as I told you before, if it hadn't been for them brushes I'd been smashed so you could 'a sold me for a door mat."

The Capcine is the thing for rheumatism. It doesn't keep you waiting. The word CAPCINE is CUT in the centre of the genuine. Price 25 cents.

Oh, My Back!

That's a common expression and has a world of meaning. How much suffering is summed up in it.

The singular thing about it is, that pain in the back is occasioned by so many things. May be caused by kidney disease, liver complaint, consumption, cold, rheumatism, dyspepsia, overwork, nervous debility, &c.

Whatever the cause, don't neglect it. Something is wrong and needs prompt attention. No medicine has yet been discovered that will so quickly and surely cure such diseases as BROWN'S IRON BITTERS, and it does this by commencing at the foundation, and making the blood pure and rich.

Logansport, Ind. Dec. 1, 1880.

For a long time I have been a sufferer from stomach and kidney disease. My appetite was very poor and the very small amount I did eat disagreed with me. I was annoyed very much from non-retention of urine. I tried many remedies with no success, until I used Brown's Iron Bitters. Since I used this my stomach does not bother me any. My appetite is simply immense. My kidney trouble is no more, and my general health is such, that I feel like a new man. After the use of Brown's Iron Bitters for one month, I have gained twenty pounds in weight. O. B. SARGENT.

Leading physicians and clergymen use and recommend BROWN'S IRON BITTERS. It has cured others suffering as you are, and it will cure you.

The Giant Dyspepsia is cured by using SULPHUR BITTERS.

$1,000 will be paid for a case where SULPHUR BITTERS will not assist or cure. It never fails.

Operatives who are closely confined in the mills and work shops; Clerks, who do not procure sufficient exercise, and all who are confined in doors, should use SULPHUR BITTERS. They will not then be weak and sickly.

Cleanse the vitiated blood when you see its impurities burst through the skin in Pimples, Blotches, and Sores. Rely on SULPHUR BITTERS, and health will follow.

General Debility Sleeplessness, Loss of Appetite, Low Spirits, Want of Energy, Nervousness, etc., are cured by using SULPHUR BITTERS, and you will not be troubled.

SULPHUR BITTERS will cure Liver Complaint. Don't hesitate, but commence at once and persevere in using SULPHUR BITTERS, and you will be cured.

Don't be without a bottle. Try it; you will not regret it.

He had just returned from his summer vacation, and describing the beauties of mountain scenery to a lady friend, he asked: "Have you ever seen the Catskill-mountains?" and she answered: "No! but I have seen the Bulls-cough-syrup!"

—When the conductor tore off the coupon from the ticket of a lady passenger on a Connecticut railroad, the other day, she threw the remainder out of the window, and subsequently explained that she had seem him tear the ticket up, and thought the piece was of no account.

One of the most useful inventions of the age is James Pyle's Pearline Washing Compound, and judging from its extensive sale, it is safe to infer that housekeepers, generally, appreciate the fact.

—Once when a well-known New England authoress was in England, an aristocratic lady asked her: "Have you any large, old trees in America?—oh, I beg pardon; your country hasn't been settled long enough for that."

Breakfast cocoa, as a beverage, is universally conceded superior to all other drinks for the weary man of business or the more robust laborer. The preparations of Walter Baker & Co. have long been the standard of merit in this line, and our readers who purchase "Baker's Breakfast Cocoa" will find it a most healthful, delicious and invigorating beverage.

The all-night trains on the Sixth Avenue elevated railroad in New York, which ran after twelve o'clock at night, have been discontinued, and now young Gothamites who at the club harmoniously chant their intention not to return to the paternal roof up town until the early morn, can get no more elevated after midnight.

A Lesson In Spelling.

Since the introduction of spelling matches, many words have come prominently into notice—words that were previously, comparatively unknown. For instance, we find antiseptic, meaning; prevention and stopping all fermentation and decomposition, and analgesant: painkiller. Then there is antipyretic: cooling down inflammation and fever heat. These three words, so often mis-spelled, are three of the cardinal virtues of something that will cure many a bad spell, and that is Salicylica, pronounced Sal-i-cyl-ica. Warranted to afford immediate relief, and guaranteed to cure rheumatism, gout or neuralgia.

The entire population of the jail at Goldendale, Washington territory, has skipped out, taking all the blankets, a needle gun and 150 pounds of ammunition.

Over 1,000,000 young salmon have been distributed in seven Maine rivers during the past year, 300,000 of them in the Penobscot, and 200,000 each in the Kennebec and Androscoggin.

"Ladies of all ages who suffer from loss of appetite; from imperfect digestion, low spirits and nervous debility may have life and health renewed and indefinitely extended by the use of Mrs. Lydia E. Pinkham's remedies for all complaints incident to the female constitution. We have not only a living faith in Mrs. Pinkham, but we are assured that her medicines are at once most agreeable and efficacious.

John Frost, sixty years old, of Levant, Me., recently had a leg broken in two places while felling a tree, and was four hours crawling to his home, dragging the broken limb.

Among the sights in Bangor, Me., Dec. 30th, was a pung load of handsome pickerel from Webb's pond, Waltham; also two loads of deer, twenty-six in all, killed in the vicinity of Union river. One of the deer was a curiosity, a large portion of his body being as white as snow.

The children of Israel were once fed by manna sent from heaven. This was an undoubted case of "God-send." The amelioration of human ills and ailments has been often undertaken and as often failed. Ely's Cream Balm, however, "has been weighed in the balance and not found wanting." It is a sovereign, speedy, certain and pleasant cure for catarrh and cold in the head. Thousands of persons have attested this fact. "Ely's Cream Balm is a God-sent," writes Mrs M. A. Jackson, of Portsmouth, N. H., on May 22d, 1882. "I had catarrh for three years, had tried nearly all remedies but to no purpose. Two or three times a week my nose would bleed quite freely, and I thought the sores in it would never heal. Your Balm has cured me." This preparation is not a liquid or a snuff, and is easily applied. Can you, reader, afford to experiment with injurious irritants and injections when a pleasant cure is at hand?

Charles E. Upton, the bank defaulter of Rochester, N. Y., is reported to have said that the cause of his ruin was the electric storm of November 19th. A dispatch ordering his brokers to sell his oil stock was delayed nine hours, and thereby his last chance to unload at a profit was lost. Before the dispatch could be delivered the bottom had dropped out of the oil market.

Alexander H. Stevens has been governor of Georgia for two months, and in that time has pardoned from the penitentiary forty-eight convicts, of whom twelve were under sentence for murder and five for rape. There is no great wonder that the vengeance of the individual or of Judge Lynch is so frequently appealed to in that region.

What is needed is pure blood, as the influence of its purity upon the health cannot be overestimated. When it becomes impure, it gives rise to a large number of diseases, such as billiousness, sick headache, dyspepsia, loss of appetite, low spirits, nervousness, female complaints, etc. The success which has attended the use of Swedish Botanic Compound warrants us to say that for purifying and enriching the blood, creating an appetite, strengthening and renovating the whole system, nothing surpasses that great remedy.

Mrs. Jay V. Stillwell of Mount Vernon, Ohio, now on her deathbed with consumption, has confessed that in March, 1877, at Maryville, Mo., she killed her first husband, Benjamin Swigart, with the aid of her mother and brother; and that later the same parties murdered a stranger for his money, at a boarding house. Also that at Rulo, Nebraska, in May, 1880, in presence of her mother, she strangled her own daughter, aged fourteen years; and that she has three times attempted to kill her present husband, to obtain the insurance on his life.

To Please Her Husband.

Were the Words of a Good Lady, Mrs. Hawkins, who has long Suffered the Pain Common to Chronic Rheumatism. A Woman's Patience and Fortitude well Shown.

Your reporter from Mrs. Hawkins at 14 Exchange St., New Haven, Conn. "About four years ago," she said, "I was then a resident of Brooklyn, N. Y. I went over one morning to the Jersey City depot to see some friends off who were started for the west. There was a strong draft of air in the depot, and in standing by the train talking to my friends I caught a severe cold. I had no more than reached my home again when I was taken with a sudden chill and then fever set in. The outcome of all was that rheumatism settled all over me. I was entirely helpless. From this I have never recovered. You see my hands what a state they are in. Those are all chalky swellings and my limbs are very bad. While I remained in Brooklyn I tried all sorts of remedies, but I could never gain any relief. My physician said it was no use. I grew very thin and lost all strength. Finally, after coming here, to gratify my husband, I began to take Dr. Kennedy's FAVORITE REMEDY, and my general health has been better than ever before. I am stronger, have an excellent appetite, which I did not have for a long time. It has helped my rheumatism, and with a thorough trial I am in hopes of recovering completely."

Kennedy's FAVORITE REMEDY has been successfully used by thousands. It will build up a system which has been run down by overwork, it is the thing for the student and literary man to have at hand, and should be in the home of every mechanic. FAVORITE REMEDY is economical, safe and pleasant. Buy it and try it.

Lady With Tender-Skin Sacque.

She sat in the crowded church that dreadfully cold Sunday, and kept her new sacque on all the morning. She went with perspiration and the sacque into the chilly street, and caught an awful cold. All they labored in vain to cure that cold until they thought of Perry Davis's Pain Killer, and sent to the druggists for a bottle. Then came relief. Suddenly checked perspiration bring sudden colds, chills, coughs, consumption.

Many leading women of Boston are signing a petition to the Massachusetts legislature asking that a matron be employed at all station houses during the evening to take care of the unfortunate outcasts that may be brought in. The movement originated with the Moral Education society.

Sprains, lameness, pains and stitches, weak back or disease of the spine will be immediately relieved on application of a *Hop Plaster* over the affected part. It's penetrative power is wonderful. Warranted to be the best made.

The investigation before the coroner at Calais, Me., as to the cause of the death of Mrs. Carr, found dead in a house in that town on the 1st inst., resulted in a verdict of death by apoplexy. The physicians found a clot of blood in the brain and bruises on the face, and the excessive bleeding might result from falling on the floor, as stated by Toomey, the man at first suspected of murdering the deceased. Toomey and his wife were committed for drunkenness and disorderly conduct, and taken to Machias jail.

Maine Legislature.

The republicans of the Maine legislature on the evening of the 2d inst. nominated John L. Cutler of Penobscot for president of the senate, Charles W. Tilden of Hallowell for secretary, G. E. Minot of Belgrade for assistant secretary, and Charles H. Lovejoy of Sidney for messenger; J. Manchester Haynes of Augusta was nominated for speaker of the house, Oromandel Smith of Litchfield for clerk, Frank L. Pullen of Newport for assistant clerk, Charles H. Getchell of Jackson for messenger. The fusionists nominated William M. Rust of Waldo for president of the senate, and C. A. Spofford of Deer Isle for speaker of the house. The legislature convened at ten o'clock in the forenoon on the 3d, and the republican candidates were elected.

A Modern Deluge.

The floods in the rivers of Europe are unprecedented. On the 2d inst. it was stated that the Danube was still rising at Vienna, and the race course was flooded; all traces of the quays and banks of the river were lost, these places being marked merely by eddies in the torrent. At Frankenthal, Bavaria, 6000 persons had been driven from their homes by the flood. A despatch from Wiesbaden reported that "500 houses have been destroyed by the floods in the villages around Worms. From Mayence downward the entire plain between Mannheim and Worms is an immense lake." Hundreds of houses were reported submerged in the northeastern portion of North Brabant.

A despatch of Jan. 3d from Frankfort, Germany, says that a boat carrying passengers from Oppau to Ludwigshaben was dashed against a tree by the current, and thirty-five persons were drowned.

Despatches of the 3d inst. reported the market square at Dusseldorf flooded. At Badenherin seventy houses had fallen; and at Rexheim, Morsch and Oppau the destruction was still greater. At Robstat the entire town, with the exception of the church and houses of the clergy, was flooded, the water reaching the roofs of many buildings. The condition of Friesenheim was appalling.

News and Notes.

Joseph Berry of Newburyport, Mass., a teamster, was attacked on the turnpike by three tramps, Jan. 2d, who demanded his money. He was struck in the head with a stone and severely cut, but escaped, and went into Newburyport to have his wounds dressed.

Peter McGray has asked the city councils of Newport, R. I., to pay him $8000 damages for injuries sustained by falling down an embankment in that city, whereby he was crippled for life.

In West Meriden, Conn., Dec. 30th, John F. Hazlett, twenty-five years of age, in avoiding one train stepped in front of another, and was so badly hurt that he died next day.

Advices from Capetown, South Africa, bring alarmig accounts of the ravages of smallpox at that point. During the past two months 9,000 persons have been affected by the disease, and 2,400 deaths have occurred. The rapid and fatal spread of the disease is attributed to the fact that the negroes refuse to allow vaccination. The physicians confess their inability to suppress the epidemic.

The United States consul at St. Helena has informed the national board of health that the American bark Hercules, with a number of malignant cases of smallpox on board, has left that port, bound for New Bedford.

On the 2d inst., near Upper Cross, county of Tipperary, Ireland, three "emergency bailiffs" were attacked by some peasants, and a fight ensued in which one of the peasants, named Gleeson, was killed, and others wounded. Five of the attacking party were arrested.

Bridget McDonough, aged fifty-two years, fell down stairs in Lawrence, Mass., Dec. 31st, and died Jan. 2d.

Seven young ruffians of Windsor, Vt., have been held without bail to answer to a charge of murderous assault on Henry Barrell, a young farmer whom they knocked down, beat and repeatedly stabbed on the night of Dec. 30th, inflicting probably fatal injuries.

On the 1st inst., at Camden, Me., the factories, mills and works on the river commenced running on short time, for lack of water. This is never known to have happened before in the winter. The drought is said to be the same in other parts of the state.

As thirty penitentiary convicts, mostly negroes, and two white guards, engaged at the Cowee tunnel, on the Western North Carolina railroad, in Jackson county, N. C., were crossing the Tuckaseegee river on Saturday morning, Dec. 30th, one of the convicts discovered that the flat was leaking and gave an alarm, which created a panic. The men all rushed to one end of the flat, bearing it down, and it immediately filled and sank. The Tuckassegee there is swift and deep, with rapids just below. The men clung together in knots, those who could not swim clinging to those who could, and nineteen were carried into the rapids and drowned. Only twelve convicts and one guard were saved.

At Little Rideau, East Hawkesbury, Canada, a hired man murdered R. W. Cooke and wife, and also their eldest daughter and one of their sons. Cooke was murdered with an axe, in the barn yard. Mrs. Cooke and daughter were strangled in the wood-shed, and the son was killed in bed with an axe. Another son, who had his thigh broken, may recover. Fannie Cooke, who went to her brother's assistance, received a severe wound in the breast, but will probably recover. The murderer escaped temporarily.

The Massachusetts legislature organized on the 3d inst. George G. Crocker was elected president of the senate; Geo. A. Marden was chosen speaker of the house, and E. A. McLaughlin clerk.

The report of the naval advisory board created by the act of Congress of August 5th, 1882, as to the wisdom and expediency of completing the ironclad steamers Monadnock, Puritan, Amphitrite and Terror was laid before Congress Jan. 2d. In a letter transmitting the report, Secretary Chandler approves the conclusions of the board, and recommends that provision be made by Congress for the completion of the monitors accordingly.

Officer John Delaney, of New York, on the 2d inst. attempted to arrest Patrick McGowan, a noted ruffian, and bartender in "Billy McGloy's" liquor shop. McGowan shot the officer in one of his eyes, and was in turn shot dead. The officer will lose his eye, and may lose his life.

Hon. Samuel Calley, ex-mayor of Salem, Mass., hung himself Jan. 1st, a few hours after retiring from the office of mayor.

Miss Eliza M. Hawthorne, sister of Nathaniel Hawthorne, died in Beverly, Mass., Jan. 1st, aged over eighty years.

J. D. Taylor, republican, has been elected to Congress by 1500 majority, to fill the vacancy occasioned by the death of Hon. John Updegraff, of the 17th Ohio district.

The fighting among the Creek Indians in the Indian territory is ended, and all the parties have gone to their homes.

The body of a dead man was found in Hunt's hotel, Cincinnati, Jan. 2d. He had registered as Dr. Thorne of Indiana, but left a letter for the hotel proprietor, saying that his name was Dr. J. B. Thompson of Salisbury, Conn., and directing him to telegraph his wife at that place and to his sister in Brooklyn. He had $150 in money and a gold watch on his person. His death resulted from morphine.

New Hampshire Items.

In Keene, a few days ago, Mrs. Russell Peck, aged seventy years, was pushed down by some boys while walking on a slippery sidewalk, and had one hip broken.

Brev.-Col. John D. Devin, U. S. A., on the retired list, son-in-law of Hon. Oliver Wyatt of Dover, died very suddenly in Washington, D. C., Dec. 31st. He was born in Gorham in 1829; served through the Mexican war as a volunteer; afterward worked for B. F. Haley of Newmarket and Oliver Wyatt of Dover, clothiers; entered the army again in 1861, as a lieutenant, and some years ago was placed on the retired list with the rank of brevet colonel, in consequence of disabilities incurred in the line of duty.

The new city government of Dover was inaugurated on the 3d inst. Reuben A. Libby was re-elected city marshal, and John Canney was elected assistant marshal. The election of other officers was postponed.

Ten degree below zero at Plymouth on the morning of the 3d inst.

The new city government of Manchester was inaugurated Jan. 2d.

The annual meeting of the state board of health was held in Concord on the 2d inst.

The Supreme court for Hillsborough county came in at Manchester on the 2d inst., Judge Stanley presiding. The afternoon was devoted to eulogies from members of the bar, and resolutions, in memory of the late Judge Aaron W. Sawyer and Judge George F. Sawyer of Nashua.

In Rochester, on Sunday, Dec. 31st, a German lad named Summerfield was coasting when his sled ran against a tree, and one of his legs was broken in two places, and his head and shoulders badly bruised.

ST. MARY'S BENEVOLENT ASSOCIATION.

At the annual meeting of the St. Mary's Benevolent Association, held Wednesday evening, Jan. 3d, the following officers were elected for the ensuing year:

A Cough, Cold or Sore Throat

Should be stopped. Neglect frequently results in an incurable Lung Disease or Consumption 'Brown's Bronchial Troches" do not disorder the stomach like cough syrups and balsams, but act directly on the inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Cough, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years "Brown's Bronchial Troches" have been recommended by physicians, and have always given perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Sold at 25 cts a box everywhere. eod&wtjan82

For SOZODONT all ladies cry,
And gentlemen, or high or low,
For nothing else that they can buy,
Will give the mouth its freshest glow—
Will keep the teeth so sound and white,
And make the breath a sweet delight.

A Card.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. DIPHTHERIA!

THE PROSTRATION which follows Diphtheria, and the persistency with which it clings to the patient, are well known to all who have had any experience with this terrible disease.

The following letter shows how the restoring and invigorating properties of

Hood's Sarsaparilla

overcome it, and how by vitalizing and enriching the blood it neutralizes and eradicates the poisoned matter from it, bringing to the convalescent the color, life and vigor of robust health.

LOWELL, MASS.

MESSRS. C. I. HOOD & CO.: Gentlemen—My little girl had the diphtheria last April. The disease left her very weak, blood poor, with no appetite, and she could not seem to rally from its effects. HOOD'S SARSAPARILLA was recommended by a neighbor. After she had been taking it a few days we noticed a change for the better—she began to eat with a relish. It seemed to take out the poison the disease had left in her blood, the change being very noticeable in her face. She took it two months and fully regained her health, much to our delight. We now recommend HOOD'S SARSAPARILLA with a great deal of pleasure. Very truly yours,

J. R. SMITH,
19 Butterfield Street.

"That Extreme Tired Feeling."

"The first bottle has done my daughter a great deal of good; her food does not distress her now, nor does she suffer from *that extreme tired feeling* which she did before taking HOOD'S SARSAPARILLA."

Sold by all druggists. Price $1 a bottle or six bottles for $5. Prepared by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

Hood's Tooth-Powder, Only 25 Cents.

PHOTOGRAPHY!

L. V. NEWELL would respectfully inform the citizens of Portsmouth and vicinity that he is now prepared to make **Photographs, Ferrotypes and Tintypes** of all sizes, for those who wish for *first-class work*, at the rooms formerly occupied by O. H. Cook, over Jos. Pettigrew's store, (entrance on High Str et,) where all work from the smallest to life size pictures will hereafter be finished neatly and promptly.

A Common-sense Remedy.

SALICYLICA.

No more Rheumatism, Gout or Neuralgia.

Immediate Relief Warranted.

Permanent Cure Guaranteed.

Five years established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylica.

SECRET!

THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.

SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.

In has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate these diseases which are the result of the poisoning of the blood with Uric Acid.

SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Highest Medical Academy of Paris reports 86 per cent. cures in three days.

REMEMBER

that **SALICYLICA** is a certain cure for **Rheumatism, Gout and Neuralgia.** The most intense pains are subdued almost instantly.

Give it a trial. Relief guaranteed or money refunded.

Testimonials.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

PORTSMOUTH ATHENÆUM.

The proprietors of the Portsmouth Athenæum held their annual meeting at the library rooms on Wednesday, Jan. 3d, William H. Rollins, Esq., president, presiding.

The attendance was unusually large, more than one-third of the issued shares being represented. Some discussion was made as to the right to vote by proxy, after which a ballot for president was taken, resulting as follows:

Whole number of votes	33
Necessary for a choice	17
Scattering	13
William H. Rollins	20

And Mr. Rollins was declared elected.

A note from Rev. James DeNormandie, declining the use of his name as a candidate for director, was read. On a ballot for directors Joseph H. Foster received twenty-eight votes, John S. Pray twenty-three, John S. H. Frink thirty, Francis E. Langdon nineteen, T. Salter Tredick thirty-three, and these gentlemen were declared elected.

Considerable interest seemed to be evinced in the matter of the purchase of books, the care of the rooms, taking books from the library, etc. Remarks were made by Messrs. Calvin Page, James W. Emery, John S. H. Frink, John Sise, F. E. Potter, T. Salter Tredick, Jos. Hiller Foster, J. B. Upham, Jr., and Chas. H. Mendum. The proprietors, who had shown a commendable regard for the ancient and time-honored institution by a large attendance, discussed its wants, the mode of purchases of books, and the subject of librarian and janitor, in a business like manner, and these subjects were left with the board of directors.

Geo. Annable was re-elected secretary and treasurer by unanimous vote, and the meeting then dissolved.

PORTSMOUTH AQUEDUCT.

At the annual meeting of the Portsmouth Aqueduct Co., held at their office on Wednesday, the 3d inst., the following officers were elected:

John Jacob Pickering, William L. Dwight, William Augustus Peirce, Oliver Ayers and Titus Salter Tredick, directors;

John J. Pickering, president;

Oliver Ayers, treasurer and proprietor's clerk.

A BRICKER'S RECORD FOR 1882.

The schooner Hattie Lewis, of which Mr. George Scott of this city is managing owner, during the season of 1882 made twenty-six trips, carrying 1,038,920 bricks and forty-seven cords of wood, stocking $2296.66; her bills were $257.02, leaving (after paying the crew) $568.53 to divide among her owners, or $31.78 to a sixteenth.

The smallest load of brick carried was 36,700; the largest load, 44,660; average load, 41,556. On her twenty-six trips she passed through bridges 266 times.

She was just thirty days in making her last trip, running $55 in debt during that time; she encountered seven snow storms and four rain storms on that trip, had three very heavy westerly gales and three ordinary westerly gales, and threatening weather seven-eighths of the rest of the time. The fall of 1882 was one of the worst ones for coasting for many years.

PISCATAQUA COUNTY.

Mr. Editor: The proposition introduced in the board of aldermen some weeks ago, to sell a part of the city farm for the purpose of raising money to pay bonds of the city soon to fall due, has revived the talk about dividing this county by setting off Portsmouth, Newcastle and Rye, and perhaps Greenland and Newington, a separate county. It is argued that this city has to bear a very large proportion of the county expenses,—about two-thirds, I believe,—including of course the expenses of the county poorhouse and house of correction at Brentwood, while we have at the same time a city farm and buildings of our own, ample for the accommodation of all the poor and all the petty criminals of the proposed new county, and where they could be quite as well cared for as now, at much less cost to this city. The court house would accommodate the courts and county officers of the new county just as well as it now accommodates the Rockingham county courts, so there need be no expense incurred for new buildings for such purposes. Looking at the subject from all points, it seems to me that a division of the county would be a grand thing for Portsmouth; can it be *done? Hurrah for Piscataqua county! DASH.

*Guess not. The fact mentioned by "Dash," that Portsmouth pays a large part of the county taxes, would make the other towns of the county oppose a division, tooth and nail.—*Ed.*

POLICE COURT--BATCHELDER J.

WEDNESDAY, Jan. 3d.

Samuel Blatchford was before the court on a charge of being a common drunkard. He was allowed to go.

Billy Kersands, Billy Rice—the black Billy Rice—and all the other black stars of the colored opera, will appear in the entertainment by Callender's Consolidated minstrels at Music hall, on Monday evening. Reserved seat tickets at Myers' bookstore.

The barque Harvard, commanded by Capt. Pray of this city, arrived at Melbourne, Australia, Nov. 19th, from Boston, having had her foreyard carried away and her decks swept in a gale Nov. 12th.

Cook, the photographer, in another column calls the attention of the public to the fact that he still occupies the studio on Congress street where he has long been located, and as formerly is ready to satisfactorily answer all calls in his line for the highest quality of work.

The number of marriage licenses issued by the city clerk during the year 1882 was 136. In December licenses were issued to eighteen couples, of whom in nine cases one or both of the parties were natives of Maine, and in eight cases one or both parties belonged in this city; the remaining couple both belonged in Massachusetts.

About 100,000 tons of coal were hauled over the Concord & Portsmouth railroad from the Concord railroad wharf in this city during 1882.

A schooner from Eastport with a cargo of frozen herring put into the lower harbor on Wednesday of this week, but finding no market decided to proceed to Gloucester.

The internal revenue receipts for this district during the month of December, 1882, show a decrease from the receipts of the same month in 1881, when the total was $23,788.65, against $21,906.29 last month.

The schooner Princeton, Johnson master, which left this port on the 2d inst. for Portland, when off Portland Head light was struck by a squall, and had her jib blown away.

About 30,000 lbs. of cod and haddock were brought in by various vessels on Wednesday.

The tug Mary J. Finn, having in tow two scows from Boston and bound to Portland, arrived at this port on Wednesday afternoon, the 3d inst. The tug having taken in a supply of coal and water, will proceed on her way to-day.

President Phillips of the Eastern railroad on the 3d inst. made the official announcement of the appointment of Payson Tucker as general manager of the road, and of George F. Hurd as purchasing agent.

Mr. John Whipple Smith's annual benefit ball will probably be given in one of the halls in Franklin block this year.

While schools of smelts have abounded around the wharves, very few have appeared in Great bay; it is suggested by some persons that the Portsmouth & Dover railroad bridge prevents them from passing up, but this can hardly be the reason for their scarcity there, as they have been taken in great numbers on the bay during several winters since the bridge was built.

A prominent director of the Boston & Maine railroad is quoted as saying that he should oppose any arrangement for a union with the Eastern railroad that would allow of the payment of dividends to the stockholders of the latter.

It is suggested that a health commission of some kind might find a good field for study at Kittery Point, where outbreaks of diphtheria are much more frequent than in this city, though the Point has no such reservoir of pestilence as our north pond is supposed to be, and is as favorably situated for drainage as any place that can be mentioned. There must be some reason for the frequent visits of this terrible disease to that beautiful spot, and science should be able to find out what that reason is, and obviate it.

The January term of the supreme judicial court of Maine for York county convened at Saco on Tuesday, the 2d inst., Judge Symonds presiding. There are about 380 cases upon the old docket and about 100 new cases. Among the grand jurors in attendance were Pascal M. Langton of Kittery, Albert A. Fernald of Eliot, Horace B. Tibbetts of Berwick and Oscar W. Clark of Wells; traverse jurors, James E. Clark and William A. Fernald of Kittery, George E. Ireland of Eliot, Hiram H. Thompson of York, Daniel N. Davis of Berwick, Samuel C. Spillings of North Berwick, and Henry A. Pope of Wells.

Freeman C. Ham of South Berwick and Dana S. Beacham of Limerick have been appointed deputy sheriffs of York county.

The commissioners of York county, in the case of the Laconia company's appeal from the decision of the fish commissioner, locating a fishway over the company's dams in Saco river, have rendered their decision sustaining his right to locate a way over the dams, but condemn the plans as presented by him for their construction.

A sneak thief, a stranger, was arrested at Biddeford on the 2d inst. for stealing an overcoat from the store of Elias Clark, and another coat belonging to Field & Donnel was on his person. The coats were worth about $30.

St. Joseph's Catholic church, of Biddeford, has purchased an estate in that city for $7000, and will immediately fit it up at large expense, for a convent.

LIFE INSURANCE!
The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.
Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.
Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

Ears for the Million
Foo Choo's Balsam of Shark's Oil
Positively Restores the Hearing, and is the Only Absolute Cure for Deafness Known.
This Oil is abstracted from peculiar species of small White Shark, caught in the Yellow Sea, known as CARCHARODON RONDELETII. Every Chinese fisherman knows it. Its virtues as a restorative of hearing was discovered by a Buddhist Priest about the year 1410. Its cures were so numerous and many so seemingly miraculous, that the remedy was officially proclaimed over the entire Empire. Its use became so universal that for over 300 years no Deafness has existed among the Chinese people. Sent, charges prepaid, to any address at $1.00 per bottle.

Hear What the Deaf Say!
It has performed a miracle in my case. I have no unearthly noises in my head, and hear much better.
I have been greatly benefited.
My deafness helped a great deal—think another bottle will cure me.
"Its virtues are unquestionable, and its curative character absolute, as the writer can personally testify, both from experience and observation. Write at once to Haylock & Jenney, 7 Dey Street, New York, enclosing $1.00, and you will receive by return a remedy that will enable you to hear like anybody else, and whose curative effects will be permanent. You will never regret doing so."—*Editor of Mercantile Review.*

A GOOD THING FOR CLERKS, FARMERS, EVERYBODY.
If you are a GOOD PENMAN you are independent and always sure of a comfortable living. *This beautiful art can be learned by an hour's study and practice for a few evenings in your own home*, by the use of SHAYLOR'S COMPENDIUM OF PENMANSHIP, which is an Illustrated Analysis of Plain Business and Ornamental Writing, with Book of Instructions how to become not only a Beautiful Penman but which will also Qualify You for a TEACHER *of the art*. Besides the above the Compendium consists of Engraved Fac-Similes of beautifully written Notes, Letters, Checks, Specimens of Ornamental Writing, Birds, Animals, &c., and Autograph Business Letter for reproduction by your practice.
The specimens of Artistic and Ornamental Pen work are Incomparably Superior to those of any other system, and are from the pens of those using Shaylor's Compendium. The instructions are so complete and the rules so simple and plain that you cannot fail, with a little pleasurable practice to become a competent professor of penmanship, and there is no occasion for you to go to a writing school or business college.
The Compendium complete sent by mail to any address on receipt of One Dollar, and it will be worth a hundred times that amount to you.
SOLID GOLD RINGS FREE. With a view of stimulating each purchaser of the Compendium to the highest excellence in penmanship, we will on the first of each month send an *Elegant Solid Gold Ring* free to one of the twelve purchasers who by sending copies of their old and new signatures to us, show the most improvement. These rings will be a pleasant memento of your accomplishment in this beautiful art.
Agents wanted everywhere. At this season of the year you can make from $40 to $50 weekly at your own home, as Shaylor's Compendium, costing only a trifle, enables anyone to quickly and easily become an elegant penman. Sells at sight, requires no talking. Send for confidential terms to agents. ROBERTS & CO., 7 Murray St., New York. n22,otfeb89

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

WHILE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

28th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of disease, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 5-; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that the married or single can either require or wish to know but what is fully explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be returned in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

Gentle Women

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures grayness, removes dandruff and itching, makes the Hair strong, giving it a curling tendency and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe]

Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Women," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a lifetime, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering or joy as release from it. Her Vegetable Compound has medicinal virtues that are evil purposes. I have personally investigated it and am satisfied of the truth of this.

Guaranteed of its genuine merits, it is recommended and recommended by the best physicians in our country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, leucorrhœa, irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It contains no alcohol or stimulant.

For cleansing, it is a perfect cure for all those painful ailments. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. Pinkham.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

Yours, &c., M. D.

Disciplining a Teacher.

Freddie Hurd, a Massachusetts youth, was sent to the school kept by Walter C. Frost, and he has recently had a case tried in Middlesex county. Freddie's writ alleged that Frost, as schoolmaster, shook, pulled and dragged him about. There were three counts in the writ. On the first count the jury found damages for one cent, which seems to establish the price of a shake of a scholar in the Bay state. On the second count, $150 was given; so if a teacher so far forgets himself as to pull his pupil, it will cost him a hundred and a half, although it is worth more than that to pull some stupid scholars through a term. The intelligent jury apparently rose to the importance of the question, as the result of their chalk on the third count shew a damage of $297.13 for being dragged and otherwise injured. The teacher will remember hereafter that with such an estimate, Freddie does not belong to the common herd, and will not be pulled and dragged with impunity.

The King of Managers Speaks.

Mr. J. H. Haverly was recently speaking to one of our reporters, and in the course of conversation, said: "I think that, unquestionably, St. Jacobs Oil is the greatest medicine of the age, and the most meritorious in the market."—*N. Y. Graphic.*

—Cards supplied: A man who read at the end of a friend's marriage notice, "No cards," sent him a euchre deck by the first mail.

We Challenge the World to produce an article like Electro-Silicon, that imparts equal brilliancy with equal ease to gold and silverware, without injuring the finest surface. Sixteen years in household use. Avoid Imitations. Grocers. Depot 72 John St., N. Y.

—Heard in an office: "I see that the old-fashioned warming pans are coming into style again." "So I have noticed. Great folly—useless expense. I don't want one. My wife always goes to bed first."

"Ladies' Tonic,"

The Great Female Remedy is prepared by the Women's Medical Institute of Buffalo, N. Y., and is their favorite prescription for ladies who are suffering from any weakness or complaints common to the sex. It is sold by druggists at $1.00 per bottle. Ladies can obtain advice free. Send stamp for names of those who have been cured.

—One great unpleasantness attending a man's getting married is his utter insignificance on the occasion. The bride is the object of attention as the star performer of the show, and he is regarded merely as a necessary property.—*Post.*

***"Evil dispositions are early shown." Evil tendencies in our systems are to be watched and guarded against. If you find yourself getting bilious, head heavy, mouth foul, eyes yellow, kidneys disordered, systems of piles tormenting you, take at once a few doses of Kidney-Wort. It is nature's great assistant. Use it as an advance-guard—don't wait to get down sick. Read advt.

—The master of ceremonies at a Saratoga hotel always asked a new guest for whom he was about to make it pleasant: "Shall I introduce you, sir, to a porch girl' or a 'dancing girl?'" The porch girl was chosen every time.

Catarrh.

The remarkable results in a disease so universal and with such a variety of characteristics as catarrh, prove how effectually Hood's Sarsaparilla, acting through the blood, reaches every part of the human system. A medicine, like anything else, can be fairly judged only by its results. We point with pride to the glorious record Hood's Sarsaparilla has entered upon the hearts of thousands of people it has cured of catarrh.

—Little things have a great influence on men's lives. If a fellow is so unlucky as to sneeze during his wedding ceremony he knocks his future happiness endways, for his wife will never forgive him.

Many who never complain are nevertheless seriously ill. Use Brown's Iron Bitters and there will be no cause of complaint.

LOG ROLLING.

While Wrestling with a Fallen Tree a Lumberman Receieves Consequential Damages.

While on a hunting excursion in the great coal and wood region near Carbondale, Pa., the writer met William Coil, a lumberman. Accustomed to life and I bor in the forest from early manhood, he was a true hunter and a true man. Many a tree had fallen before his ringing strokes, and fleets of rafts had borne away to market the sawed products. Coil is a character, and if Oscar Wilde is right in saying that all movements in unhindered labor are graceful, our friend William, s ripped for his work, and attacking a tree as Richard I assaulted the barbed ranks of Front de Bouef's Castle, must have presented a admirable picture.

One day, however,—but let him tell the story himself, as he told it to me:

"I was out in the woods, you know, trying to start a log down a hill. Thinking I could get a better purchase on it from the lower side, I tackled it there with my log-jiling hook and bore my weight on the lever. She started, she did, but as luck would have it, before I could get out of the way, she rolled right over me. If it hadn't been for a lot of small limbs and brush lying in the road, which lifted her up, she'd a crushed me flat. As it was I got up without a broken bone, but with some mighty hard bruises."

"Then you were all right," said his auditor.

"Not by a blamed sight, stranger. I took cold, rheumatism set in, and, if I hadn't heard of BENSON'S CAPCINE POROUS PLASTERS and used 'em, it's my opinion I should never have made another chip fly. But the Capcine took hold quick, and I'm bout as lively as new. But there's one thing you kin calkilate on—I shall never wrastle with another log unless I have the advantage of the ground. Fur, as I told you before, if it hadn't been for them brushes I'd been smashed so you could 'a sold me for a door mat."

The Capcine is the thing for rheumatism. It doesn't keep you waiting. The word CAPCINE is cut in the centre of the genuine. Price 25 cents. Seabury & Johnson, Chemists, New York.

Oh, My Back!

That's a common expression and has a world of meaning. How much suffering is summed up in it.

The singular thing about it is, that pain in the back is occasioned by so many things. May be caused by kidney disease, liver complaint, consumption, cold, rheumatism, dyspepsia, overwork, nervous debility, &c.

Whatever the cause, don't neglect it. Something is wrong and needs prompt attention. No medicine has yet been discovered that will so quickly and surely cure such diseases as BROWN'S IRON BITTERS, and it does this by commencing at the foundation, and making the blood pure and rich.

Logansport, Ind. Dec. 1, 1880.

For a long time I have been a sufferer from stomach and kidney disease. My appetite was very poor and the very small amount I did eat disagreed with me. I was annoyed very much from non-retention of urine. I tried many remedies with no success, until I used Brown's Iron Bitters. Since I used that my stomach does not bother me any. My appetite is simply immense. My kidney trouble is no more, and my general health is such, that I feel like a new man. After the use of Brown's Iron Bitters for one month, I have gained twenty pounds in weight. O. D. SARGENT.

Leading physicians and clergymen use and recommend BROWN'S IRON BITTERS. It has cured others suffering as you are, and it will cure you.

SULPHUR BITTERS

THE GREAT

German Remedy.

TRUTHS FOR THE SICK.

For those deathly Bilious Spells, depend on SULPHUR BITTERS, it will cure you.

Ladies in delicate health, who are all run down, should use SULPHUR BITTERS.

The Giant Dyspepsia is cured by using SULPHUR BITTERS.

$1,000 will be paid for a case where SULPHUR BITTERS will not assist or cure. It never fails.

Operatives who are closely confined in the mills and workshops; Clerks, who do not procure sufficient exercise, and all who are confined in doors, should use SULPHUR BITTERS. They will not then be weak and sickly.

Cleanse the vitiated blood when you see its impurities bursting through the skin in Pimples, Blotches and Sores. Rely on SULPHUR BITTERS and health will follow.

General Debility needs a gentle tonic. Use SULPHUR BITTERS, and you will not be troubled.

SULPHUR BITTERS will cure Liver Complaint. Don't be discouraged; it will cure you.

Don't be without a bottle. Try it; you will not regret it.

SULPHUR BITTERS will build you up and make you strong and healthy.

IN SANCTUARY.

While pale with rage the wild surf springs
Athwart the harbor bar,
The safe ships fold their snowy wings
Beneath the evening star.
In this calm haven rocked to sleep,
All night they swing and sway,
Till ma tles o'er the morning deep
The golden blush of day.

Here, safe from all the storms of fate,
From worldly rage and scorn,
Thus let me fold my hands and wait
The coming o the morn;
While all night long to moon-lit turf
The wind brings in from far
The moaning of the baffled surf
Athwart the harbor bar.

Wm. Winter, in Harper's Magazine.

One of the most useful inventions of the age is James Pyle's Pearline Washing Compound, and judging from its extensive sale, it is safe to infer that housekeepers, generally, appreciate the fact.

At Faribault, Minn., Jan. 2d, Chief of Police Shipley was shot dead by L. M. Sage, whom he was trying to arrest. The murderer escaped.

The business manager of the Leadville (Col.) *Chronicle*, Mr. Mark. L. Goldenberg, says that he has the highest confidence in St. Jacobs Oil, and believes it is a splendid specific for rheumatism.

The Richmond *Whig* notes, as a very curious result of our free institutions, that 100 years after our Declaration of Independence, written by Thomas Jefferson of Virginia, had proclaimed the civil and political equality of all men, there are in Virginia the grossest pretensions of class superiority and the loudest denials of equal rights.

"Ladies' Tonic,"

The Great Female Remedy is prepared by the Women's Medical Institute of Buffalo, N. Y., and is their favorite prescription for ladies who are suffering from any weakness or complaints common to the sex. It is sold by druggists at $1.00 per bottle. Ladies can obtain advice free. Send stamp for names of those who have been cured.

Breakfast cocoa, as a beverage, is universally conceded superior to all other drinks for the weary man of business or the more robust laborer. The preparations of Walter Baker & Co. have long been the standard of merit in this line, and our readers who purchase "Baker's Breakfast Cocoa" will find it a most healthful, delicious and invigorating beverage.

At Pittsburg, Pa., Jan. 2d, the Allegheny Valley railroad recovered a verdict for $466,000 in a suit against its late president, Wm Phillips. The money, it was charged, was misappropriated by Phillips.

A Lesson In Spelling.

Since the introduction of spelling matches, many words have come prominently into notice—words that were previously, comparatively unknown. For instance, we find antiseptic, meaning; prevention and stopping all fermentation and decomposition, and analgesiant: painkiller. Then there is antipyretic: cooling down inflammation and fever heat. These three words, so often mis-spelled, are three of the cardinal virtues of something that will cure many a bad spell, and that is Salicylica, pronounced Sal-i-cyl-i-ca. Warranted to afford immediate relief, and guaranteed to cure rheumatism, gout or neuralgia.

Thomas Maguire, aged eighteen years, employed in the foundry of the stove company at Portland, Me., was caught in a shaft Tuesday morning, Jan. 2d, and instantly killed.

"Nothing like it in the country." "Please send me a box of Hale's Honey of Horehound and Tar. There is nothing like it in the country, and while I am here I want to cure everybody of coughs and colds." Females in delicate health should take Colden's Liquid Beef Tonic. Colden's, no other. Of druggists.

Five children of Samuel Hart have died of scarlet fever in Brooklyn within a week. This disease and diphtheria are quite prevalent in the western part of Long Island.

John Morrisey, the renowned ex-pugilist, sporting man, and lately member of Congress, died at Hot Springs, Ark. The prime cause of his death has been ascribed to chronic heart disease. Dr. Graves' Heart Regulator is the only certain cure for this malady ever discovered. When used as directed it has never been known to fail in effecting a cure. It would, if taken, have saved Morrisey. At druggists.

While returning home in a sleigh, Jan. 2d, the wife of Joseph Barrett, of Stowe, Vt., who was holding her three-months-old baby in her lap, discovered that the child had died from suffocation.

"Do Likewise."

Dr. R. V. Pierce, Buffalo, N. Y.:—"Five years ago I was a dreadful sufferer from uterine troubles. Having exhausted the skill of three physicians, I was completely discouraged, and so weak I could with difficulty cross the room alone. I began taking your "Favorite Prescription" and using the local treatment recommended in your 'Common Sense Medical Advisor.' In three months I was perfectly cured. I wrote a letter to my family paper, briefly mentioning how my health had been restored, and offering to send the full particulars to any one writing me for them and inclosing a stamped envelope for reply. I have received over four hundred letters. In reply, I have described my case and the treatment used, and earnestly advised them to 'do likewise.' From a great many I have received second letters of thanks stating that they had commenced the treatment and were much better already."

Mrs. E. F. Morgan, New Castle, Me. 5

Miss Jane Faxon, of West Hartford, Conn., stepped in front of an engine in the railway station in Hartford, Jan. 2d, and received injuries which will probably prove fatal. Her leg was cut off below the knee by the engine.

If you fail to receive benefit from other preparations, try Hood's Sarsaparilla; it's the strongest, the purest, the best, the cheapest.

Governor St. John, of Kansas, is to start out upon an extended temperance-lecturing tour soon after his retirement from office, during which he will speak in New York city and Brooklyn, and possibly come as far east as Boston.

Ugly And Hateful,

but I couldn't help it. Everything went wrong with me, and I thought I hadn't a friend in the world, dyspepsia caused this, and for months I couldn't eat anything and just suffered in misery till I used Sulphur Bitters, three bottles cured me.—*Dr. Lewis, 32 Bowdoin St., Boston.*

The treasurer of the Buffalo base ball club has finished a statement of the earnings and expenses of the club for the past season, which shows that the club travelled 10,700 miles, played 123 games, witnessed by 122,469 persons, and took in $34,166. The expenses were $17,500, and the profits $16,666.

When you don't just know what ails you; when you feel aches and pains all over; when you feel tired and faint, use Brown's Iron Bitters. A wonderful reviver.

To Please Her Husband.

Were the Words of a Good Lady, Mrs. Hawkins, who has long Suffered the Pain Common to Chronic Rheumatism. A Woman's Patience and Fortitude well Shown.

Your reporter from Mrs. Hawkins at 14 Exchange St., New Haven, Conn. "About four years ago," she said, "I was then a resident of Brooklyn, N. Y. I went over one morning to the Jersey City depot to see some friends off who were started for the west. There was a strong draft of air in the depot, and in standing by the train talking to my friends I caught a severe cold. I had no more than reached my home again when I was taken with a sudden chill and then fever set in. The outcome of all was that rheumatism settled all over me. I was entirely helpless. From this I have never recovered. You see my hands what a state they are in. Those are all chalky swellings and my limbs are very bad. While I remained in Brooklyn I tried all sorts of remedies, but I could never gain any relief. My physician said it was no use. I grew very thin and lost all strength. Finally, after coming here, to gratify my husband, I began to take Dr. Kennedy's FAVORITE REMEDY, and my general health has been better than ever before. I am stronger, have an excellent appetite, which I did not have for a long time. It has helped my rheumatism, and with a thorough trial I am in hopes of recovering completely."

Kennedy's FAVORITE REMEDY has been successfully used by thousands. It will build up a system which has been run down by overwork in the thing for the student and literary man to have at hand, and should be in the home of every mechanic. FAVORITE EMEDY is economical, safe and pleasant. Buy it and try it.

COMMONWEALTH DISTRIBUTION CO.

In the city of Louisville, on

WEDNESDAY JAN. 31st, 1883.

These drawings occur on the last day of each month (Sundays excepted.) Repeated adjudication by Federal and State Courts have placed this company beyond the controversy of the law. To this company belongs the sole honor of having inaugurated the only plan by which their drawings are proven honest and by which they stand.

WILLIAM H. HACKETT.

Seven Per Cent. First Mortgages.

FOR SALE, in sums of five hundred dollars and upwards five years to run principal and interest payable where the lender desires. These mortgages are secured on improved farms in Iowa, Kansas and Dakota, valued at three times the amount of the mortgage. These loans are very popular with many conservative investors and the demand for them is increasing. We receive our loans most of Trust Companies of high character and experience and believing them one of the best and most profitable investments to be had, we cheerfully and heartily recommend them to investors. "Money sent to us by check or P. O. order will be invested by us with our best care." Correspondence solicited.

Lad, With The Seal-Skin Sacque.

She sat in the crowded church that dreadfully cold Sunday, and kept her new sacque on all the morning. She went with perspiration and the sacque into the chilly street, and caught an awful cold. And they labored in vain to cure that cold until they thought of Perry Davis's Pain Killer, and sent to the druggist's for a bottle. Then came relief. News and Notes.

Gov. Butler of Massachusetts on the 4th inst. delivered his inaugural address. It is a lively state paper, and fills fourteen columns of the Boston *Traveller*. The governor in closing announced that he was not a candidate for re-election.

The secretary of state at Washington has received the following from Minister Morton at Paris, respecting the death of Gambetta: "The death of Leon Gambetta has caused a profound sensation in France. In his death the government and the people of the United States have lost a devoted friend, whose great admiration for our country and its institutions was expressed on all occasions. His death is to members of the legation a great loss and personal sorrow."

At Syracuse, N. Y., in a family quarrel on New Year's night, Joshua Gifford, an old man of seventy-seven years, was attacked by his wife with a butcher knife. He defended himself with a stove poker, striking her on the dead and killing her. Gifford gave himself up.

W. R. Morley, the distinguished chief engineer of the Atchison, Topeka & Sante Fe railroad system, was accidentally shot and killed at Santa Rosalia, Mexico, Jan. 3d.

Capt. Thomas F. Sandsbury has been appointed keeper of the new Muskeget life saving station near Nantucket. Capt. Sandsbury was awarded a gold medal for heroism displayed near Nantucket during the disastrous gale of March 31st, 1879.

A democratic congressman proposes to offer in the house a bill providing that graduates of the West Point military academy shall serve for three years after graduation as non-commissioned officers in the army, before being commissioned as lieutenants.

The sentence of Fincenone Bandiero, who was sent to the Massachusetts state prison in 1880 for three years, as an accessory after the fact to the murder of J. Frank Frye, on Joy street, Boston, expired Wednesday morning, the 3d inst., and he was released.

A few months since, public mention was made that the personal friends of the late Delano A. Goddard of the Boston *Advertiser* had made up a handsome sum and presented the same to his widow. Very recently Mrs. Goddard has declined to accept the amount, some $25,000. It was intended as a recognition of a hard-working, excellent gentleman, who was always looking after other people's interests to the neglect of his own.

Rev. Titus Coan died at Hilo, Sandwich islands, Dec. 2d, aged eighty-two years. Dr. Coan was the veteran missionary of the American board, and had been known for years as the apostle of the Sandwich islands, having been there for over fifty years.

The last of the indebtedness incurred on account of the World's Peace Jubilee at Boston in 1872 was discharged about a week ago. Some members of the executive committee were compelled to pay large sums out of their private purses.

A Denver despatch says that by a mutual agreement Mrs. Augusta L. Tabor has obtained a divorce from her husband, Ex-Gov. Tabor, with alimony of $250,000; she had previously demanded $1,000,000, but seemed satisfied with the compromise. She withdrew all offensive charges, and previous suits lapse.

"There is no man," said John Greenleaf Whittier on his seventy-fifth birthday, "who ought to write much after he is seventy, unless perhaps it may be Dr. Holmes. He ought to write from now until he is one hundred. He is charming in everything he writes, and there is such a wonderful variety in his work that it seems a pity he should ever stop."

Nimrod Owens, (colored,) Michael Longevin and Matthew Hassett, laborers, were killed at Auburn, N. Y., Jan. 2d, by the caving in of earth upon them while cutting down a high bank for a new street.

The European Floods.

Vienna despatch of the night of Jan. 3d: "Ten thousand persons have been rendered homeless by the floods in the districts near Worms, and they are in danger of starvation. The great Rhine dam at Mannheim gave way to-night. A steamer and forty-five boats rescued the people by torchlight. The village of Friesenheim has been deserted, and a third of the inhabitants of Oppau have abandoned their homes. The Danube has risen to a height of 470 centimetres. The large railway bridge over the Danube has been demolished."

Despatches of the 4th inst. reported the inundation of Pressburg, thirty-four miles from Vienna, by the Danube. The Paris & Lyons railway on the French frontier is washed away, and railway communication between Switzerland, France and Italy is interrupted. The rivers Saone and Doubs in France had lift their banks; several villages were inundated, and thirty-two houses had fallen at Longepierre.

Books, Magazines, etc.

A New Volume. With the first number in January, "Littell's Living Age" began its one hundred and fifty-sixth volume. The field of periodical literature, especially in England, is continually broadening, and including more and more the work of the foremost authors in all branches of literature and science. Presenting, in compact and convenient form, all that is most valuable of this work, the Living Age becomes more and more a necessity to the American reader. The first weekly number of the new volume and new year—a convenient one with which to begin a subscription—has the following table of contents: Miss Burney's Novels, "Contemporary Review;" Au Pair, "Temple Bar;" Peasant Properties in Auvergne, "Contemporary;" The Story of L. E. L., "Gentleman's Magazine;" Poor Matthias, by Matthew Arnold, "Macmillan;" The Ladies Lindores, "Blackwood;" Gainsborough's Letters to William Jackson, "Leisure Hour;" In an Inn Garden, "Temple Bar;" with poetry and miscellany. For fifty-two numbers of sixty-four large pages each (or more than 3,300 pages a year,) the subscription price ($8) is low; while for $10.50 the publishers offer to send any one of the American $4.00 monthlies or weeklies with the Living Age for a year, both postpaid. Littell & Co., Boston, are the publishers.

"Our Little Ones and the Nursery," for January, 1883, is the Holiday Number of this charming magazine, and is the most attractive one yet issued. It contains five full page, and about twenty other not less beautiful illustrations, all drawn by eminent artists expressly for this work, and engraved in the highest style of art by Mr. George T. Andrew. These pictures are instructive and elevating to the taste, as well as exceedingly pleasing to the little ones. The poems, stories, and descriptive articles are all by the best writers, and all are such as will interest the pets of home, as well as improve their minds and hearts. The publishers announce that *no cheap edition of the bound volume* for the present year will be put upon the market through the book trade. All who desire the magazine therefore, must subscribe or purchase the numbers; $1.50 a year; $1 for eight months. A specimen free. Russell Publishing Co., Boston, Mass.

A Curious Bridal Couple.

As odd a looking bride and groom as one ever sees, and who, after the circumstances surrounding them were known, set tongues a-wagging and made laughing contagious, were seen at the Union depot this morning. The couple consisted of an old man fully seventy years of age, over six feet in height, with flowing gray hair, and carrying on his arm a pair of that kind of saddle-bags worn thirty years ago, and a girl just fourteen years old, who in height would reach about the old man's vest pocket. They are on their wedding tour. They came in from some point in Alabama last night, and are bound for some point in Oregon. A passenger on the same train on which they came in last night says that during the entire day they were the centre of observation, because of their childlike lovingness and general greenness. The old man is by profession a Methodist minister going to a conference in Oregon, and combines pleasure with business by taking along with him a veritable and living Christmas present.—*St. Louis paper.*

— Hon. William M. Evarts visited President Arthur at the White House recently, and his very first remark was, "There has been a great change here since Mr. Hayes left." "Ah!" returned the president, "I suppose that coming right out of the fresh air you notice it more readily. My secretary, Mr. Phillips, has been mixing a little hot rum, spiced."

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of "Mrs. Winslow's Soothing Syrup. "It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere Twenty-five cents a bottle. eod&wtjan22

Don't Forget the "Sozodont," but use it regularly after every meal. It imparts a pleasant flavor to the mouth, changes offensive secretions into healthful, invigorates the gums, and cleanses the interstices of the teeth. Like old Hercules, it purifies the Augean stables which some have in their mouth.

A Luxurious Trip.

Hon. Simon Cameron and Mr. Charles A. Dana, editor of the New York *Sun*, are to make a luxurious trip to California. They will start from Philadelphia on the 15th of February, in a car exclusive to themselves and several lady members of their families, to be gone about six weeks. Mr. Dana's somewhat famous cook, a colored man known as Daniel Webster, will go along as caterer, and Mr. Cameron will also draw upon his household staff for servitors. The two distinguished travellers will use the car instead of a hotel, and it will be elaborately provisioned and furnished. They will ride up and down the Pacific coast and to and fro on it, beside stopping at several points this side of the Rocky mountains.

—The Chicago *Tribune* defines a boat race to be an event which consists of two men committing robbery with boats.

—"George Peabody," says a New York paper, "was never married for a singular reason." Than it goes on at some length to give the reason, because the girl married another man. And we have read that article a dozen times and have pondered over it deeply, and hanged if we can see yet why that should be called "a singular reason."—*Hawkeye.*

—A man never loses anything by being polite. A Camden gentleman, waiting for a train, saw a woman slip upon something and nearly fall. He hurried to her assistance, and helped her to rise, and as he did so she dropped a valise, which proved to be his own, that he had left in the depot a few minutes before, and which she was attempting to steal.

How the People Are Humbugged

By Co-Operative and Mutual Aid Societies.

The Insurance Department Reports of several States furnish interesting data for judging of the Real Economy, Insurance Reliability, and Business Prudence of placing money with these concerns, under the impression that it furnishes

CHEAP LIFE INSURANCE.

Having duly considered the "lesson" afforded by the following statement, taken from those Official State Reports, let the reader consider the DEFINITE Insurance Contract offered by THE

Mutual Life Insurance Co.

OF NEW YORK,

under which no "Assessments" are *possible*, and the benefit to be received definitely decided at time of application, with such an annual return of the unregulated premiums as each year's experience shall develop.

Forty-three organizations, known as "Co-operative Companies," "Mutual Aid or Relief Associations," "Benefit Societies," &c., report to the State Departments of New York, Pennsylvania, Ohio, Indiana, West Virginia, Massachusetts, &c., the following

OUTRAGEOUS MISUSE

— OF THE —

Assessments Collected.

Maximum Value of Certificates (or policies) upon which policies were in force in 1881.....	$2,356,925.00
These "Certificates" proved to be worth as claims.....	$511,284.36
But the collections for these claims were.....	$594,207.94
Difference between collection and disbursement, illustrating *Economy in Cost (?)*	$82,923.58
	$511,284.36

ANOTHER WAY OF PUTTING IT.

These unfortunates hold Certificates representing a supposed value to their beneficiaries of $2,356,925.

The real value proves to have been about 21¾ per cent. or $511,284.36, by waiving their claim of $82,923.58 of the amount collected ($594,207.94) and this is called *Cheap Insurance.*

QUERY.

Who ever heard of any respectable Life Insurance Company selling $2,356,925 of Insurance, here represented, for $511,284.36, at a discount like the above and at such a cost?

DIPHTHERIA!

THE PROSTRATION which follows Diphtheria, and the persistency with which it clings to the patient, are well known to all who have had any experience with this terrible disease.

The following letter shows how the restoring and invigorating properties of **Hood's Sarsaparilla** overcome it, and how by vitalizing and enriching the blood it neutralizes and eradicates the poisonous matter from it, bringing to the convalescent the color, life and vigor of robust health.

LOWELL, MASS.

MESSRS. C. I. HOOD & CO.: Gentlemen—My little girl had the diphtheria last April. The disease left her very weak, blood poor, with no appetite, and she could not seem to rally from its effects. HOOD'S SARSAPARILLA was recommended by a neighbor. After she had been taking it a few days we noticed a change for the better—she began to eat with a relish. It seemed to take out the poison the disease had left in her blood, the change being very noticeable in her face. She took it two months and fully regained her health, much to our delight. We now recommend HOOD'S SARSAPARILLA with a great deal of pleasure. Very truly yours,

J. R. SMITH,
19 Butterfield Street.

"That Extreme Tired Feeling."

"The first bottle has done my daughter a great deal of good; her food does not distress her now, nor does she suffer from *that extreme tired feeling* which she did before taking HOOD'S SARSAPARILLA."

Sold by all druggists. Price $1 a bottle or six bottles for $5. Prepared by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

PHOTOGRAPHY!

I. V. NEWELL would respectfully inform the citizens of Portsmouth and vicinity that he is now prepared to make **Photographs, Ferrotypes and Tintypes** of all sizes, for those who wish fur *first-class work*, at the rooms formerly occupied by O. H. Cook, over Joe Pettigrew's store, (entrance on High Str et,) where all work from the smallest to life size pictures will hereafter be finished neatly and promptly.

A Common-sense Remedy.

SALICYLICA.

No more Rheumatism, Gout or Neuralgia.

Immediate Relief Warranted.

Permanent Cure Guaranteed.

Five years established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylica.

SECRET!

THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.

SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.

In has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate these diseases which are the result of the presence of the Poison Uric Acid.

SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used in all celebrated physicians of America and Europe. Highest Medical Academy of Paris reports 56 per cent. cures in three days.

REMEMBER

that **SALICYLICA** is a certain cure for **Rheumatism, Gout and Neuralgia.** The most intense pains are subdued almost instantly.

PATENTS!

R. H. EDDY,

No. 76 State St., opposite Kilby, Boston,

Secures Patents in the United States; also in Great Britain, France and other foreign countries. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior skill for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents.

Testimonials.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1879.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me in 1840, my first patent. Since then you have acted for me and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DILLER.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, Thursday evening, January 4th, Mayor Treat in the chair:

Present the full board, except Ald. Anderson.

The records of the last meeting were read and approved.

Communication of Wm. S. Willey was taken from the table, and referred to the committee on claims.

Adjourned.

RELIEF CORPS ENTERTAINMENT.

The ladies of Storer Relief Corps, G. A. R., proposing to raise a permanent relief fund, will give an entertainment (both literary and musical) and a supper at their hall on Daniel street on Monday evening, Jan. 8th, to which the public are most cordially invited. Tickets (including supper) twenty cents each.

The gross earnings of the Eastern railroad in November, 1882, were $267,620.-95, a decrease of $5412.80 from the earnings in November, 1881, when the total was $273,063.75.

The *Times* of the 4th inst. said: "A little bird whispered to us this morning the engagement of our beautiful and accomplished soprano singer Miss Nellie W. Locke of this city to Mr. J. D. P. Wingate, editor of the Exeter *Gazette*."

John R. Reding, John F. Leavitt, John P. Sweetser and Charles Davis have been drawn to serve as jurors from ward two at the supreme court at Exeter, to report Jan. 16th.

It is reported that the new Christ church will be opened for divine service during the coming summer, even should a regular minister not be secured.

Miss Ida Foster, lately employed in the Portsmouth shoe factory, left this city on Wednesday, the 3d inst., for Allegheny City, Pa.

The water running out of the north millpond on Thursday emitted a fearful stench, fairly sickening many persons as they crossed the bridge.

Col. Wm. H. Sise has been confined to his house for several days by illness.

The high wind filled the streets with clouds of dust on Thursday last, and the day was the most uncomfortable one experienced for weeks.

The coal dealers of this city will close their places of business during the funeral services of the late Thos. H. Odion this forenoon.

Tickets for the grand variety entertainment to be given at Music hall next Monday evening by Callender's Consolidated minstrels, are now on sale at Myers' bookstore. Callender's Georgia minstrels and Haverly's European minstrels combined — nearly fifty genuine colored performers, no burnt cork—make a troupe of unequalled merit.

Information was received in this city on Thursday of this week to the effect that the clothing store of Doe & Kelsey, at Newmarket, was burglarized in the morning on that day, and goods to the estimated value of $300 stolen.

It was stated on Thursday afternoon, the 4th inst., that Mr. Adolph Girard, foreman at the Portsmouth shoe factory, had tendered his resignation to Manager Whitcomb, to take effect on Saturday, the 6th, Mr. Girard intending to accept a similar position with C. B. Leonard of Lynn, Mass., where for many years he was formerly employed. Mr. Girard came to Portsmouth with Mr. Knight the first superintendent of the Portsmouth Shoe Co., and has been much esteemed by the employes who have been under his charge during the past three years. We hope the report of his intended departure is incorrect.

Mr. Valentine Doane, who has his fishing vessels laid up in Gloucester, is making preparations to fit out one of them, probably the Gov. Goodwin, for the Grand banks.

Skaters on the north millpond were scarce, Thursday of this week, owing to the piping nor'wester which prevailed that day.

A man named Tucker, of Kittery, recently wound up a drunk of the largest size which he had been earnestly engaged in carrying on for a long time, by giving his wife a terrible beating. He was taken before Trial Justice Dennett, who fined him $50, with costs added, and ordered him to give bonds to keep the peace for three months.

Rev. Geo. Moore Payne of York, executor of the estate of Emelia Parsons, who died last summer, among the effects of the deceased found in an ancient trunk some old silver coins, one bearing the date of 1727, one 1730, and others of very old dates. The coins have been left with Messrs. Richardson, Hill & Co. of Boston for disposal.

On Sunday, Dec. 31st, as a number of boys were "coasting" on a hill in South Berwick, one of the party, a French boy twelve years old, was thrown from his sled, and struck in the side by another sled which was following close behind him. He was insensible when picked up, several ribs being broken, and fatal internal injuries were feared.

Stewart's blacksmith shop at Kennebunk village was destroyed by fire early in the morning on the 3d inst.; insured $400 on building and $200 on contents.

Mr. Payson Tucker, who has just been chosen general manager of the Eastern railroad, is one of the most successful railroad men in the country. During the seven or eight years he has been in charge of the Maine Central he has succeeded in giving the company and the public the most efficient service any community has ever had. He has the faculty to organize and inspire a corps of employees, and at the same time he has adopted a liberal policy which has not only made his line popular with the business men of Maine, but has encouraged the planting of many new industries along the line of the Maine Central. A year ago Mr. Tucker's rare capacity for railroad management attracted the attention of the Northern Pacific directors and he was offered the position of general manager, which he declined. Mr. Tucker was born in and has been bred to railroad business.—*Boston Journal.*

THE SOUTH-END STREET EXTENSION.

Mr. Editor: There is a pretty show of precedent for building highways through "deserted shipyards" at the north part of the town, and the south end is entitled at least to "the crumbs that fall," etc. If "South Ender" looked at the petitions, the characters, employments, etc., it will take all the wind out of his argument. Three new houses have been constructed; in justice to them as well as the old dense population, including one of our prominent lawyers who has since the improvements were begun made two nice little marks there. Then also with a view to have a free run for our fire engines in case of a spreading fire, our city fathers should promptly embrace the opportunity to do cheaply a work that will be of vast advantage to our city.

Some people seem almost to ignore the idea of beauty if not of music also. Now at the south end we need stirring up on both these points, and I would not only magnify and improve our beautiful features, but I would, if my purse was long enough, have Harlow's band there with "From all that dwell below the skies" at every sunrise—then something else at sunset. NOT QUITE "DESERTED."

—The stealer of a horse in Minnesota could not find a saddle, and took a sack of feathers to ride on. The sack had a hole, the feathers were slowly strewn along the road for seventy miles, and by means of them the rascal was caught.

—The Lawrence *Eagle* says that recently a clergyman prayed at Haverhill, "We approach Thee, O Lord, under the auspices of the Essex County Agricultural society." Under such auspices it is hard to believe that the reverend gentleman didn't get the ear of the Lord.—*Post.*

—We are not captious, but when a photographer puts a bottle of whiskey where we can see it and then says "Now look natural!" we are prepared to tell him that we don't go around with a hanker-for-whiskey look in our eyes, and he can't do any more work for us.

—"I don't miss my church as much as you suppose," said a lady to her minister, who called on her during her illness, "for I make Betsy sit at the window as soon as the bells begin to chime, and tell me who are going to church, and whether they have got on anything new."

—"Now, my dears, you must do as the Romans do," said old man Scroggins to his daughters on their arrival in Italy. And the first thing the girls saw was a boy trying to stand on his head in the corner of a railway station.

—The Detroit *Free Press* man says: "It costs money to be good." It is suspected that the last time he was in church he put a silver dime in the contribution basket in mistake for a cent. Such errors will occur if a man is wealthy.

—Response of a gilded youth to one of his friends who has just announced formally his approaching marriage: "I should like to be able to congratulate you both, but, you see, as I do not know the lady I can't conscientiously congratulate you; while, as I do know you, I can't conscientiously congratulate the lady."

A Michigan boy ate a bar of soap, drank a lot of soda water and went to bed to cure his cold. The doctor had a hard time to pull him through, but the boy now says the next time he catches a cold he will use Dr. Bull's Cough Syrup.

Professor Robert Odlum, of Washington, D. C., was cured of severe rheumatism by St. Jacobs Oil, the Great German Remedy.

—"We never need an alarm clock," said Mrs. McGill, "for our house is contagious to our neighbor's hennery, and the shrill carrion of their chandelier awakens me every morning."

—Teacher: "And what was the reply when Cambronne was called upon to surrender?" Boy (slightly mixed:) "The old blackguard dies, but never surrenders!"

—"What shall I write about?" asked a young reporter of the managing editor. "Oh, write about the first thing that comes to hand," was the brief order. The scribe drew his pay that night for an article on "door-knobs."

Ears for the Million
Foo Choo's Balsam of Shark's Oil
Positively Restores the Hearing, and is the Only Absolute Cure for Deafness Known.
This Oil is abstracted from peculiar species of small White Shark, caught in the Yellow Sea, known as CARCHARODON RONDELETH. Every Chinese fisherman knows it. Its virtues as a restorative of hearing was discovered by a Buddhist Priest about the year 1410. Its cures were so numerous and many so seemingly miraculous, that the remedy was officially proclaimed over the entire Empire. Its use became so universal that for over 300 years no Deafness has existed among the Chinese people. Sent, charges prepaid, to any address at $1.00 per bottle.
Hear What the Deaf Say!
It has performed a miracle in my case.
I have no uncanthy noises in my head, and hear much better.
I have been greatly benefited.
My deafness helped a great deal—think another bottle will cure me.
"Its virtues are unquestionable, and its curative character absolute, as the writer can personally testify, from experience and observation. Write at once to Haylock & Jenney, 7 Dey Street, New York, enclosing $1.00, and you will receive by return a remedy that will enable you to hear like anybody else, and whose curative effects will be permanent. You will never regret doing so."—*Editor of Mercantile Review.*

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Sixth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, never once out of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25, by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that the married or single can either require or wish to know but what is fully explained.—(London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—(Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

Gentle Women

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures gray ness, removes dandruff and itching, makes the Hair strong, giving it a curling tendency and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Sleeplessness, Sick Headache, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at once, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1, per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. E. Pinkham, Lynn, Mass.

For Kidney Complaint of *either* sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are *the best in the world* for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

LOG ROLLING.

While Wrestling with a Fallen Tree a Lumberman Receieves Consequential Damages.

While on a hunting excursion in the great coal and wood region near Carbondale, Pa., the writer met William Coll, a lumberman. Accustomed to life and I boy in the forest from early manhood, he was a true Knight of the Axe. Many a tree had fallen before his ringing strokes, and fleets of rafts had borne away to market the sawed products. Coll is a commanding figure, and he is right in saying that all movements in unhindered labor are graceful, our friend William, a ripped for his work, and attacking a tree as Richard I assaulted the heavy doors of Front de Bœuf's Castle, must have presented a admirable picture.

One day, however,—but let him tell the story himself, as he told it to me:

"I was out in the woods, you know, trying to sta t a log down a hill. Thinking I could get a better purchase on it from the lower side, I tackled it there with my log-rolling hook and threw my weight on the lever. She started, she did, but as luck would have it, before I could get out of the way, she rolled right over me. If it hadn't been for a lot of small limbs and brush lying in the road, which lifted her up, she'd a crushed me flat. As it was I got up without a broken bone, but with some mighty bad bruises."

"Then you were all right," said his auditor.

"Not by a blamed sight, stranger. I took cold, rheumatism set in, and, if I hadn't heard of BENSON'S CAPCINE POROUS PLASTERS and used 'em, it's my opinion I should never have made another chip fly. But the Capcine took hold quick, and I'm 'bout as good as new. But there's one thing you kin calkilate on:—I shall never wrastle with another log unless I have the advantage of the ground. For, as I told you before, if it hadn't been for them brushes I'd been smashed so you could 'a sold me for a door mat."

The Capcine is the thing for rheumatism. It doesn't keep you waiting. The word CAPCINE is CUT in the centre of the genuine. Price 25 cents. Seabury & Johnson, Chemists, New York.

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

Oh, My Back!

That's a common expression and has a world of meaning. How much suffering is summed up in it.

The singular thing about it is, that pain in the back is occasioned by so many things. May be caused by kidney disease, liver complaint, consumption, cold, rheumatism, dyspepsia, overwork, nervous debility, &c.

Whatever the cause, don't neglect it. Something is wrong and needs prompt attention. No medicine has yet been discovered that will so quickly and surely cure such diseases as BROWN'S IRON BITTERS, and it does this by commencing at the foundation, and making the blood pure and rich.

Logansport, Ind. Dec. 1, 1880.
For a long time I have been a sufferer from stomach and kidney disease. My appetite was very poor and the very small amount I did eat disagreed with me. I was annoyed very much from a non-retention of urine. I tried many remedies with no success, until I used Brown's Iron Bitters. Since I used that my stomach does not bother me any. My appetite is simply immense. My kidney trouble is no more, and my general health is such, that I feel like a new man. After the use of Brown's Iron Bitters for one month, I have gained twenty pounds in weight. O. B. SARGENT.

Leading physicians and clergymen use and recommend BROWN'S IRON BITTERS. It has cured others suffering as you are, and it will cure you.

Breakfast cocoa, as a beverage, is universally conceded superior to all other drinks for the weary man of business or the more robust laborer. The preparations of Walter Baker & Co. have long been the standard of merit in this line, and our readers who purchase "Baker's Breakfast Cocoa" will find it a most healthful, delicious and invigorating beverage.

In 1882 the Concord police made 223 arrests, of which 118 were for drunkenness.

A Lesson In Spelling.

Since the introduction of spelling matches, many words have come prominently into notice—words that were previously, comparatively unknown. For instance, we find antiseptic, meaning; prevention and stopping all fermentation and decomposition, and analgesiant: painkiller. Then there is antipyretic: cooling down inflammation and fever heat. These three words, so often mis-spelled, are three of the cardinal virtues of something that will cure many a bad spell, and that is Salicylica, pronounced Sal-i-cyl-i-ca. Warranted to afford immediate relief, and guaranteed to cure rheumatism, gout or neuralgia.

One man was killed, two more fatally hurt and six seriously injured, Jan. 3d, by the explosion of a boiler in Sellman's mills, at Fillmore Centre, Mich.

The children of Israel were once fed by manna sent from heaven. This was an undoubted case of "God-send." The amelioration of human ills and ailments has been often undertaken and as often failed. Ely's Cream Balm, however, "has been weighed in the balance and not found wanting." It is a sovereign, speedy, certain and pleasant cure for catarrh and cold in the head. Thousands of persons have attested this fact. "Ely's Cream Balm is a God-sent," writes Mrs. M. A. Jackson, of Portsmouth, N. H., on May 22d, 1882. "I had catarrh for three years, had tried nearly all remedies but to no purpose. Two or three times a week my nose would bleed quite freely, and I thought the sores in it would never heal. Your Balm has cured me." This preparation is not a liquid or a snuff, and is easily applied. Can you, reader, afford to experiment with injurious irritants and injections when a pleasant cure is at hand?

A despatch from Wilkesbarre, Pa., states that Gen. William Lilley is authority for the statement that out of $3,000,000 of war claims recovered after the rebellion from the federal government, $1,200,000 have not yet been paid into the treasury of Pennsylvania.

A GOOD INVESTMENT. — One of our prominent business men said to us the other day — "In the spring my wife got all run down and could not eat anything; passing your store I saw a pile of Hood's Sarsaparilla in the window, and I got a bottle. After she had taken it a week she had a rousing appetite, and did her everything. She took three bottles, and it was the best three dollars I ever invested." C. L. Hood & Co., Lowell, Mass.

To Please Her Husband.

Were the Words of a Good Lady, Mrs. Hawkins, who has long Suffered the Pain Common to Chronic Rheumatism. A Woman's Patience and Fortitude well Shown.

Your reporter from Mrs. Hawkins at 14 Exchange St., New Haven, Conn. "About four years ago," she said, "I was then a resident of Brooklyn, N. Y. I went over one morning to the Jersey City depot to see some friends off who were started for the west. There was a strong draft of air in the depot, and in standing by the train talking to my friends I caught a severe cold. I had no more than reached my home again when I was taken with a sudden chill and then fever set in. The outcome of all was that rheumatism settled all over me. I was entirely helpless. From this I have never recovered. You see my hands what a state they are in. Those are all chalky swellings and my limbs are very bad. While I remained in Brooklyn I tried all sorts of remedies, but I could never gain any relief. My physician said it was no use. I grew very thin and lost all strength. Finally, after coming here, to gratify my husband, I began to use Dr. Kennedy's FAVORITE REMEDY, and my general health has been better than ever before. I am stronger, have an excellent appetite, which I did not have for a long time. It has helped my rheumatism, and with a thorough trial I am in hopes of recovering completely."

Kennedy's FAVORITE REMEDY has been successfully used by thousands. It will build up a system which has been run down by overwork. It is the thing for the student and literary man to have at hand, and should be in the home of every mechanic. FAVORITE EMEDY is economical, safe and pleasant. Buy it and try it.

Lady With The Seal-Skin Sacque.

She sat in the crowded church that deadfully cold Sunday, and kept her new sacque on all the morning. She went with perspiration and the sacque into the chilly street, and caught an awful cold. And they labored in vain to cure that cold until they thought of Perry Davis's Pain Killer, and sent to the druggist's for a bottle. Then came relief. Suddently checked perspiration bring sudden colds, chills, coughs, consumption.

At Groton, Conn., George Avery, a grocer whose store had been frequently robbed, dug a pit seventeen feet deep, covering it lightly, just where a burglar would step in getting at the till; and on the morning of Jan. 2d found Henry Johnson of New York in it. The thief was held in $1,500.

"Home, sweet home" has been sung in every land, but no home is complete without a good supply of Adamson's Botanic Balsam, for the cure of coughs, colds, and lung trouble. Price, 35 and 75 cts. New size, 10 cts.

The Civil Service Bill.

The Pendleton civil service bill passed the house with a rush on the 4th inst., and the president will of course approve it. When the bill came up, Mr. Cox of New York said it had been debated for many days in the senate, and he proposed in good faith that the Pendleton bill be put upon its passage without debate. His proposition was greeted with loud applause, and the cries of "vote! vote!" "Let it be voted upon to-day," said Mr. Cox, "with a view that the house can then go to the practical work of the session." After some discussion the bill was read at length. At the conclusion of the reading there were loud cries of "vote!" and Mr. Kasson moved the previous question; it was carried by a storm of "yeas," amid applause. The speaker ruling that thirty minutes' debate should be allowed, a number of brief speeches were made, none of which were particularly interesting. The bill was passed, yeas 155, nays forty-seven.

Starting a New Navy.

On the 4th inst. a communication from the secretary of the navy was laid before the senate, containing recommendations for the construction of a steel cruiser of about 4000 tons displacement, to cost, it is estimated, $1,576,854; three steel cruisers of about 2500 tons displacement, to cost each, estimated, $1,031,225; one iron dispatch boat or fast clipper of about 1500 tons displacement, to cost, estimated, $460,000; and one cruising torpedo boat, to cost $38,000.

Accompanying this letter were the estimates in detail furnished by the naval advisory board, through Commodore Shufeldt, its president, as follows:

For the 4000-ton steel cruiser, to be cased with wood, to be of two-thirds sail power, and to be armed with four eight-inch breech-loading rifles and ten six-inch breech-loading rifles and machine guns. Hull, $828,000; machinery, $448,000; ordnance, $224,854; equipment, $76,000.

For each of the three 2500-ton steel cruisers, to be single deckers, not to be cased with wood, to be of two-thirds sail power, and to be armed with two eight-inch breech-loading rifles, and nine six-inch breech-loading rifles and machine guns. Hull, $507,000; machinery, $297,500; ordnance, $168,725; equipment, $58,000.

For the dispatch boat or clipper, to have a sea speed of fifteen knots, to be built of iron and be armed with one six-inch breech-loading rifle and four revolving guns. Hull, $220,000; machinery, $175,000; ordnance, $30,000; equipment, $25,000.

For the torpedo boat, to be 100 feet long, $38,000.

The total amount estimated for these vessels is given as $5,168,529.

The European Floods.

A despatch of the 4th from Wiesbaden to the London *News* reported 3000 persons homeless at Ludwigshafen, 2000 at Mannheim and 2000 at Worms. More dikes had given way at Mayence. A despatch from Vienna said the bridge of boats at Ottensheim broke adrift on the 3d, with a number of persons on it; the boats in an hour and a half floated down to Linz, where those on board managed to run them ashore.

News and Notes.

Frederick Jacobs of Scranton, Penn., fired two shots at his wife, and thinking he had killed her shot himself three times, causing death. Jealousy was the cause.

Dr. Ernest L. R. Thomson of New Haven, Conn., was arrested Jan. 4th for abortion performed upon Mary Canavan of Middletown, Dec. 24th. He was also the attending physician of the unfortunate Ida S. Perkins, who died from the effects of abortion Christmas day, at the house of Virginia M. Beecher in New Haven. Mrs. Ellen Clements, a boarding house keeper of that city, at whose house the operation was performed, and Mrs. Emma Van Epps, a dressmaker of Hartford, have also been arrested, charged with complicity in the crime. Dr. Thomson is a physician of long practice, and hitherto highly esteemed. He was bailed in $2,000 and the women in $500 each, to appear in the city court next day.

A large number of petitions are being received at Washington in opposition to the Harris bill to transfer the revenue marine to the navy department.

The navy department has been requested to furnish the house of representatives with all the information in its possession about the English navy.

The body of the late Hon. E. H. Allen, Hawaiian minister to the United States, arrived in Boston on Thursday morning, the 4th inst., accompanied by the sons and daughters of the deceased. On Friday morning the remains were taken to Bangor, Me., to be buried on Saturday, from the house of Mrs. Fred Hobbs in that city.

Bark Star of the West, formerly the steamer R R. Cuyler, sailed from New York last October for Bremen with a cargo of refined oil, and has not since been heard from. The vessel and cargo were valued at $50,000. She was commanded by Capt. Joseph M. Fickett of Portland, Me., and had a crew of thirteen men. Capt. Fickett's wife was also on board.

The *Railway Age* puts the total mileage of new railroad built in this country in 1882 at 10,800. The amount of capital which has been invested in railways during the past year is, it says, almost incredible. Allowing $25,000 per mile as a fair average of the cost of a road equipped and in operation, the 10,800 miles of which we have record have cost $270,000,000, to which is to be added the vast and unknown sum expended in preparing roadbeds on which track is not yet laid.

Gov. Bell prefaces a note of commendation for the Boston *Journal*, with the sound advice that every New Hampshire man should first of all give a liberal support to the press of his own state. The governor does not forget that he was once an editor of a New Hampshire newspaper.

At a meeting of the Dover city councils, held on Thursday evening, 4th inst., Wm. F. Nason was elected city solicitor; Chas. A. Fairbanks, city physician; George H. DeMerritt, city messenger; Ezra H. Twombly, assessor; John F. Shapleigh, superintendent of burials; Charles H. Hall, Thomas Printy and Elbridge Smith, health officers.

Silas Coffin, the oldest man in Rindge, N. H., died on Wednesday, the 3d inst., aged 60 years and 6 months. The deceased was the inventor of the bobbin used in the making of woolen goods.

A Second Prize of $10,000.

Mr. John T. Garvin, the Metropolitan horse car driver, who drew a prize of $15,000 in the Louisiana State Lottery about a year ago, has just drawn another prize of $10,000. Truly, a handsome Christmas present. Last year when the good luck was announced, he was spending thanksgiving with his relatives in the country, and this year when the good news came to Boston he was on a Christmas visit. On Saturday, he called at our office, and assured us that the story was true. He had just received information through the Continental National Bank that the ticket was cashed, and that the money was on its way here. He said that he held parts of five tickets, and that one of them drew the capital prize of $100,000, of which he had one-tenth. He says he intends to continue to invest moderately, as he don't know of an easier way to make a fortune. After drawing the prize last year, he invested his money in bonds and savings banks, and continued on the road till August, when he resigned, in order to attend to his invalid wife, who has now partially recovered her health. He now proposes to go into the grocery business. Mr. Garvin is about fifty-four years old, and is a fine specimen of a New Hampshire boy. He is strictly temperate in his habits, using neither liquor nor tobacco, and seems to have a well-balanced mind, so that there is no danger of his misusing his suddenly acquired riches. He now resides at No. 26 Willard place, South end, with more comfortable surroundings than he had a year ago, when he was living on $1.75 per day. Of course this second streak of luck has increased the excitement among his numerous acquaintances, and they are convinced a small sum of money invested in a lottery ticket is not entirely thrown away.—*Boston Commercial and Shipping List of January 3d.*

Still Another Prize of $10,000 for Boston Men.

After writing the notice of Mr. Garvin's luck, we learned that Mr. T. F. Bell, of 826 East Fifth street, South Boston, had drawn another one-tenth of the capital prize of $100,000, at the late drawing of the Louisiana State Lottery. Our reporter called upon Mr. Bell, on Monday, who is a prominent builder, in comfortable circumstances. Bell said that he and Mr. Joseph Lyon began about a year ago to invest fifty cents a month each in Louisiana Lottery tickets, and that they have now been rewarded by this $10,000, which they have divided equally between them. The money came promptly to hand by the Adams Express Co., a few days ago. Mr. Lyon is a bookkeeper in the store 615 Broadway, South Boston, and has a wife and three children. He is elated over his good luck, and says that the $5,000 is a big fortune for him. It will enable him to secure a house of his own, and make his family comfortable. As both these gentlemen are old residents of South Boston, and known to be of the strictest integrity, their statements can be relied upon.—*Boston Commercial and Shipping List, of Jan. 3d.*

The Gloucester Fisheries.

The receipts of codfish and halibut at Gloucester, Mass., for the past year, were considerably smaller than usual; the mackerel catch was but little in excess of that of the previous year, but good prices made the season successful, and the fleet is to be considerably augmented and business correspondingly extended during next year.

The total receipts of codfish were 42,906,175 pounds, a falling off from last year of 3,804,405 pounds; total halibut, 7,781,085 pounds, a decrease of 938,405 pounds; mackerel, 170,091 barrels, an increase of 6240 barrels; frozen herring, 18,330,000 fish, an increase of 5,012,000 fish.

Other receipts for 1882 were: Haddock, 2,020,000 pounds; hake, 1,604,051 pounds; pollock, 2,345,700 pounds; cusk, 405,500 pounds; pickled herring, 5323 barrels; mixed fish, cured, 32,084 quintals; smoked herring, 1730 boxes; imported fish oil, 330 casks; imported tongues and sounds, 10 1-2 barrels; hake sounds, twenty bags. The number of vessels built and added to the Gloucester fleet in 1882 was forty-four, of 3760 tons, a larger number than in any previous year since 1875.

RELIEF CORPS ENTERTAINMENT.

How the People Are Humbugged

By Co-Operative and Mutual Aid Societies.

The Insurance Department Reports of several States furnish interesting data for judging of the Real Economy, Insurance Reliability, and Business Propriety of placing money with these concerns, under the impression that it furnishes

CHEAP LIFE INSURANCE.

Having duly considered the "lesson" afforded by the following statement, taken from these Official State Reports, let the reader consider the DEFINITE Insurance Contract offered by THE

under which no "Assessments" are possible, and the benefit to be received definitely decided at time of application, with such an annual return of the unexpired premium as each year's experience shall develop.

Forty-three organizations, known as "Co-operative Companies," "Mutual Aid or Relief Associations," "Benefit Societies," &c., report to the State Departments of New York, Pennsylvania, Ohio, Indiana, West Virginia, Massachusetts, &c., the following

OUTRAGEOUS MISUSE

Assessments Collected.

Maximum Value of Certificates (or policies) upon which policies were paid in 1881	$2,305,525.00
These "Certificates" proved to be worth as claims	$511,384.36
But the collections for these claims were	$594,207.94
Difference between collection and disbursement, illustrating *Economy in Cost* (!)	$82,823.58 — $511,384.36

ANOTHER WAY OF PUTTING IT.

These unfortunates hold Certificates representing a supposed value to their beneficiaries of $2,305,525.

The real value proves to have been about 21½ per cent. or $511,384.36, by waiving their claim of $82,823.58 of the amount collected ($594,207.94) and this is called *Cheap Insurance.*

QUERY.

Who ever heard of any respectable Life Insurance Company settling $2,305,525 of insurance honestly contracted for, at a discount like the above and at such a cost?

DIPHTHERIA!

THE PROSTRATION which follows Diphtheria, and the persistency with which it clings to the patient, are well known to all who have had any experience with this terrible disease.

The following letter shows how the restoring and invigorating properties of

Hood's Sarsaparilla overcome it, and how by vitalizing and enriching the blood it neutralizes and eradicates the poisoned matter from it, bringing to the convalescent the color, life and vigor of robust health.

LOWELL, MASS.

MESSRS. C. I. HOOD & CO.: Gentlemen—My little girl had the diphtheria last April. The disease left her very weak, blood poor, with no appetite, and she could not seem to rally from its effects. HOOD'S SARSAPARILLA was recommended by a neighbor. After she had been taking it a few days we noticed a change for the better—she began to eat with a relish. It seemed to take out the poison the disease had left in her blood, the change being very noticeable in her face. She took it two months and fully regained her health, much to our delight. We now recommend HOOD'S SARSAPARILLA with a great deal of pleasure. Very truly yours,

J. R. SMITH,

SECRET!

THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.

SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.

In has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate these diseases which are the result of the poisoning of the blood with Uric Acid.

SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Hahnes Medical Academy of Paris reports 95 per cent. cures in three days.

REMEMBER

that **SALICYLICA** is a certain cure for **Rheumatism, Gout and Neuralgia.** The most intense pains are relieved almost instantly. Give it a trial. Relief guaranteed or money refunded.

A PRUDENT RULE.

The Eastern and Maine Central railroads will hereafter decline to receive for transportation the bodies of persons who have died of smallpox, scarlet fever, typhoid fever, diphtheria, or other contagious or infectious diseases, whether in hermetically sealed cases or otherwise. Bodies will be received only when accompanied by a certificate signed by a well known and respectable medical officer, distinctly stating the name of the disease or nature of the casualty that occasioned death; and affirming that it was not caused by a contagious or infectious disease. Owing to the stringent rules of the city of St. John, N. B., the St. John & Maine railway gives notice, furthermore, that dead bodies will not be transported on passenger trains in New Brunswick, but must be taken on freight trains.

DEATHS IN RYE, 1882.

The following list of the deaths in Rye during the year 1882 is furnished us by J. T. Walker, Esq., who has annually for many years supplied us with a similar list:

	yrs.	mos.
Feb. 11, Andrew J. Jenness, aged	67	
March 9, Samuel Caswell	64	
March 12, Daniel Philbrick	76	
March 18, Florence M. Philbrick	1	
March 21, Miss Mar ha H. Garland	36	4
March 24, Widow Elizabeth R. Downs	72	
March 26, Miss Mary B. Marden	88	7
June 15, Mrs. Abigail M. Locke	76	8
June 23, Elvin Lock	73	5
Oct. 27, Benjamin W. Marden	82	3
Oct. 29, John Drake	79	
Nov. 23, E ra I Chester Goss	1	4
Nov. 29, Miss Abigail C. Wedgewood	61	1
Nov. 14, Daniel Lord	85	2
Nov. 15, Hardison Foss	61	11
Dec. 27, Widow Polly Wedgwood	86	7

It will be seen by looking at the ages given, that of the sixteen persons who died in the town last year but one was between the ages of two years and sixty-one. The average age of the decedents was sixty-one years and ten months; and the average age of thirteen of the sixteen (leaving out two infants and one young woman) was seventy-three years and five months. Nine of the persons who died were males, and seven females.

SUNDAY SERVICES.

Rev. John A. Goss will deliver a lecture in the Court street Christian church on Sunday evening at 7:30 o'clock; subject, "True Bravery." All are welcome.

Elder D. T. Taylor will preach in the Advent church on Sunday.

Rev. S. B. Duffield will preach in the Episcopal church.

At the Pearl street church, Sunday evening, Rev. J. Herbert Yeoman will give an illustrated lecture on "The Leprosy of Sin."

The thermometer at the CHRONICLE office, Friday morning last at four o'clock, indicated a temperature of two degrees above zero,—twenty degrees lower than the same thermometer indicated at the same hour on the previous morning; and yet Friday morning was quite comfortable compared with that of Thursday, when a high wind was blowing.

The funeral services of Mr. Thomas H. Odion were conducted at the Unitarian church on Friday forenoon, Rev. Mr. De-Normandie officiating. A delegation of Odd Fellows and a good number of friends and business men attended, the coal dealers of the city closing their places of business during the time of the funeral. An opportunity was given for those who wished, to look at the remains. The flag was displayed at half-mast during the day from the pole at Liberty bridge.

On Friday forenoon a horse belonging to Mr. J. Albert Walker, when in the act of dumping half a ton of coal from the Concord railroad wharf into a wherry belonging to Mr. Charles Huntress of Eliot, backed overboard; the tide at the time was sufficiently low for the horse to keep his head above the water, and a part of his harness was cut, when he cleared himself of the rest, and was towed by two boats to Noble's island, and taken to the stable, where he was properly cared for. The horse seemed apparently uninjured. One side of the boat was stove in.

Eight thousand lbs. of fresh fish were brought into this port on Friday.

The late Thomas H. Odion was one of the projectors of the Portsmouth Mercantile Library association, and was one of the directors at the time of his death.

The chairs of the Sunday school room in Christ church are being put down.

On Thursday forenoon of this week a dog of the Irish setter breed, packed in a box destined for Lewiston, Me., was taken in an express team to the depot for transportation, when on the arrival of the 10:50 train from the east he got frightened, broke some of the slats of his cage, sprang from the wagon, and ran towards Deer street, taking with him the largest part of the box, it having been attached to his collar with a strong line. There was some scattering and merriment among the bystanders, but the dog was finally secured, and sent to his destination in the care of the baggage-master.

The body of Hon. E. H. Allen, late Hawaiian minister to the United States, passed through this city on the 11:05 A. M. train, Friday the 4th inst., en route for Bangor.

President Jackson and General Manager Tucker of the Eastern railroad have been making a trip over the line for the purpose of inspecting it.

Mayor Treat ordered the gates of the north millpond opened early last Friday morning, to let the tide ebb and flow into the immense cesspool, hoping thereby to sweeten it somewhat. Those of our citizens who have not believed in a different system of sewerage for our city ought to have been in the vicinity of the north millbridge at about one o'clock on Friday afternoon last, in which case we opine that if their olfactories had been in good condition their conversion would have been suddenly and lasting as to this great need of Portsmouth.

The old academy building in Hampton is ready to be moved to a location nearer the centre of the town; the workmen are only waiting for snow to make it easier crossing the fields with the structure.

The officers of the Grand Commandry of Knights Templar, state of New Hampshire, will make their annual official visit to De Witt Clinton Commandry of this city on the evening of Monday, Jan. 15th, when after the exemplification of the work a banquet will be served in the banquet hall.

The approaching retirement from active duty of General George Thom, U. S. A., engineer in charge of river and harbor improvements in this district, was referred to several days ago. It is announced that Colonel Charles E. Blunt has been appointed to succeed General Thom, entering upon the discharge of his duties immediately, and General Thom will sail for Europe in a few days.

Mr. Walter Kennard, of Eliot, is home for a few days recruiting from sickness. Mr. Kennard holds a position on board the steamer Pennsylvania, which runs between Philadelphia and Liverpool; he is now third officer, and has abilities which will further his promotion. On the steamer Indiana, of the same line is Captain Sargent of Kittery, William Walker, (chief officer,) James Walker and James Rand, of this city. This line—the "American"—has five chartered steamers, to which four new steamers now building by the company will be added.

The Newington people had another of their series of sociables and picnic suppers in the town hall on Thursday evening last, and had a very pleasant time, as usual. On the previous Thursday evening about 250 persons were present, with about fifty sleds, and when tired or warmed with dancing, parties would go out for a spell at "coasting" down hill, the sliding being excellent; on this occasion the sociable did not dissolve until about three o'clock in the morning, though ordinarily the break-up comes not long after twelve. The first "school lyceum" entertainment of the season was given in the school house on Wednesday evening, Jan. 3d, when there was quite a large attendance of parents and others to hear the debates of the scholars.

The house and barn on the Frederick Foye place, so-called, at Pine hill, Berwick, were burned early in the morning on the 2d inst., with all their contents, including a horse, cattle and other live stock in the barn. The only person about the place when the fire broke out was a young girl, who narrowly escaped with her life. The property was purchased recently by a Mr. Hayes, whose insurance amounted to $2500, the loss being considerably more.

PORTSMOUTH TO YORK.

[From the Manchester Union]

A long and growing want that has been sensibly felt for a steamboat service between Portsmouth and York beach promises to be fulfilled the coming season. A project with this end in view has now taken definite shape. Mr. Samuel C. Forsaith of this city has for two years or more had this matter under consideration, and put forth considerable effort in looking about for ways and means. On Tuesday he closed a bargain for the steamer City of Bangor which last season run between Portsmouth and Boston. She is a new boat but about three years old; is 125 feet in length by 28 feet beam, trim, neat and in every way staunch and seaworthy. She is licensed to carry outside 373 passengers, and her capacity is really much more. A stock company is to be formed with a capital of $20,000 in shares of $100 each for the plant and operation of the line. It is understood that the name of the boat will be changed to City of Portsmouth. There is every assurance that the undertaking will succeed, for in a single day and on the only attempt one-half of the stock was subscribed for. The balance is promised from leading and prominent gentlemen.

There will be landings at the Marshall house, York harbor, and at Concordville bluff. Funds for this purpose are already pledged, and the landings will be built by those interested at the places named, free of charge to the company, as an inducement to forward the enterprise. Eventually there will be a landing at the Hotel Bartlett. Terminal facilities will be furnished at the landings for the transportation of passengers free. It is proposed to have the line, which will be in charge of Mr. R. B. Beaumont, running by the middle of June. That the project will be welcomed by the public is most certain for the want of better communication with York. It is a section that is looked upon with high favor by New Hampshire people particulary, and is a summer resort that is growing into large possibilities in the near future. We most cordially commend the project to success and appreciate the enterprise of the gentlemen who have inaugurated it.

Ears for the Million

Foo Choo's Balsam of Shark's Oil

Positively Restores the Hearing, and is the Only Absolute Cure for Deafness Known.

This Oil is abstracted from peculiar species of small White Shark, caught in the Yellow Sea, known as CARCHARODON ROMDELETII. Every Chinese fisherman knows it. Its virtues as a restorative of hearing was discovered by a Buddhist Priest about the year 1130. Its cures were so numerous and many so seemingly miraculous, that the remedy was officially proclaimed over the entire Empire. Its use became so universal that for over 800 years no Deafness has existed among the Chinese people. Sent, charges prepaid, to any address at $1.50 per bottle.

Hear What the Deaf Say!

It has performed a miracle in my case.

I have no unearthly noises in my head, and hear much better.

I have been greatly benefited.

My deafness helped a great deal—think another bottle will cure me.

"Its virtues are unquestionable, and its curative characteristics obvious. The writer can personally testify, both from experience and observation. Write at once to Haylock & Jenney, 7 Dey Street, New York, enclosing $1.50, and you will receive by return a remedy that will enable you to hear like anybody else, and whose curative effects will be permanent. You will never regret doing so."—*Editor of Mercantile Review.*

☞ To avoid loss in the Mails, please send money by registered letter. Only imported by HAYLOCK & JENNER, Sole Agents for America. 7 Dey st. N. Y. *101,86

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be a levisted and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE, OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Sixth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, chief one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE, OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that the married or single can either require or wish to know but what is fully explained.—London Lancet.

THE SCIENCE OF LIFE, OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

Gentle Women

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article a'ways makes the Hair grow freely and fast, keeps it from falling out, arrests and cures grayness, removes dandruff and itching, makes the Hair strong, giving it a curling tend ncy and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

Recommendations, etc., are its forte, and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaints of either sex this compound is unsurpassed as an unequalled diuretic.

"Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the Liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

The Admiral's Story.

The late Admiral Bailey, who was dined at the Astor house in New York after the capture of New Orleans, "explained" that battle as follows: "Mr. President and gentlemen—hem, thank ye." And then, after a long pause, "Well, I suppose you want to hear about that New Orleans affair?" "Yes! yes!" echoed through the hall. "Well, d'ye see, this was the way of it," resumed the orator, hitching up his trowsers. "We were lying down the river below the forts, and Farragut he—he signaled us to go in and take 'em. Being as we were already here short, it didn't take much time to get under way, so that wasn't so much of a job as you seem to think; and then the engineers they run the ships, so all we had to do was to blaze away when we got up to the forts, and take 'em according to orders. That's just all there was about it." And the concise narrator, feeling that he had accomplished everything demanded of him, sat down in the midst of thunders of applause.

A Michigan boy ate a bar of soap, drank a lot of soda water and went to bed to cure his cold. The doctor had a hard time to pull him through, but the boy now says the next time he catches a cold he will use Dr. Bull's Cough Syrup.

Mrs. Kate Chase Sprague is reported to be spending the winter in New York, stead of taking her intended trip abroad, and her daughters are pursuing their studies under the care of private teachers.

What is needed is pure blood, as the influence of its purity upon the health cannot be overestimated. When it becomes impure, it gives rise to a large number of diseases, such as biliousness, sick headache, dyspepsia, loss of appetite, low spirits, nervousness, female complaints, etc. The success which has attended the use of Swedish Botanic Compound warrants us to say that for purifying and enriching the blood, creating an appetite, strengthening and renovating the whole system, nothing surpasses that great remedy.

MRS. VAN BUREN'S

LADIES' TONIC.

A Positive Cure for all Female Complaints.

Ladies' Tonic is prepared by the Women's Medical Institute of Buffalo, N. Y., and has been used successfully by ladies for years. It is a *sure cure* for all Female Complaints, Sick and Nervous Headache, Dyspepsia, and all weaknesses caused by those irregularities which are so common to womankind. This is no *Patent Medicine,* but is prepared, after years of experience, and recommended, knowing that it will give new life to any broken-down, worn out or over-worked member of the sex.

If you have tried other remedies without success, do not be discouraged, but give "LADIES' TONIC" a *single trial. It never fails* to give *quick* and *permanent relief.*

If you are troubled with *any* weakness or complaint common to our sex, lay aside the doctor's prescription a moment, and try "Ladies' Tonic," which we guarantee will positively cure you. One Bottle is Sufficient. Women's Medical Institute is an Association of *Writer women* of years of experience, who give advice and answer letters from ladies, *free.*

Tonic will be given for any case of Female Weakness or Inability which "Ladies' Tonic" will not cure. This is a *bona fide* offer, made by responsible ladies who know *from experience* what "LADIES' TONIC" can do. Send stamp for circular.

Sold by Druggists. Price, $1.00

LOG ROLLING.

While Wrestling with a Fallen Tree a Lumberman Receives Consequential Damages.

While on a hunting excursion in the great coal and wood region near Carbondale, Pa., the writer met William Coll, a lumberman. Accustomed to life and labor in the forest from early manhood, he was a true Knight of the Axe. Many a tree had fallen before his ringing strokes, and fleets of rafts had borne away to market the sawed products. Coll is a character, and if anyone is right in saying that all movements in unhindered labor are graceful, our friend William, s ripped for his work, and attacking a tree as Richard I assaulted the heavy doors of Front de Beuf's Castle, must have presented a admirable picture. One day, however,—but let him tell the story himself, as he told it to me:

"I was out in the woods, you know, trying to stat a log down a hill. Thinking I could get a better purchase on it from the lower side, I tackled it there with my log-rolling hook and threw my weight on the lever. She started, she did, but as luck would have it, before I could get out of the way, she rolled right over me. If it hadn't been for a lot of small limbs and brush lying in the road, which lifted her up, she'd a crushed me flat. As it was I got up without a broken bone, but with some mighty bad bruises."

"Then you were all right," said his auditor.

"Not by a blamed sight, stranger. I took cold, rheumatism set in, and, if I hadn't heard of BENSON'S CAPCINE POROUS PLASTERS and used 'em, it's my opinion I should never have made another chip fly. But the Capcine took hold quick, and I'm 'bout as good as new. But there's one thing you kin calkilate on—I shall never wrastle with another log unless I have an advantage of the ground. Fur, as I told you before, if it hadn't been for them brushes I'd been smashed so you could 'a sold me for a door mat."

The Capcine is the thing for rheumatism. It doesn't keep you waiting. The word CAPCINE is CUT in the centre of the genuine. Price 25 cents. Seabury & Johnson, Chemists, New York.

Daily Chronicle.

A despatch of Jan. 4th from St. Albans, Vt., to the Boston *Journal*, says: "John Edwards, a colored man, employed as a farm laborer by Charles Martin at Rochester, ran away yesterday with Kitty Marsh, thirteen years old, daughter of Charles Marsh, a well-to-do farmer of the same town. Edwards stole a valuable pair of horses and a sleigh from his employer, and calling at the school-house where the girl was, she accepted an invitation to take a short ride with him. The child not returning home, these facts were learned by her parents from the other children, and an alarm was given. The search has since been rigorously prosecuted all over the northern part of the state by citizens and police. This morning it was learned at Vergennes that the man and his victim spent the night at the Stevens house, and started north early this morning. It is not believed that the flight was prearranged on the part of the girl, though her subsequent movements may have been voluntary. It is feared they will reach Canada before they can be overtaken. Edwards has served time for larceny, and was formerly employed on Mr. Marsh's farm."

Ancient Law Makers.

About the beginning of the fifth century, the Salians, after their settlement in Gaul, under their King, Pharamond, they framed a body of laws which have since been known as Salic; but at that time those lawmakers knew nothing of the wonderful discovery which works harmoniously with nature's laws, and which is a positive boon to those suffering from rheumatism, gout or neuralgia. We refer to that common-sense remedy, Salicylica.

Albra Plummer, from Lewiston, left the train at Clinton, Me., on the evening of Thursday, Jan. 4th, for the house of friends three miles distant. Friday morning he was found dead within forty rods of his destination, partly frozen. Heart disease was the cause. He leaves a widow and one child.

To Please Her Husband.

Were the Words of a Good Lady, Mrs. Hawkins, who has long Suffered the Pain Common to Chronic Rheumatism. A Woman's Patience and Fortitude well shown.

Your reporter from Mrs. Hawkins at 14 Exchange St., New Haven, Conn. "About four years ago," she said, "I was then a resident of Brooklyn, N. Y. I went over one morning to the Jersey City depot to see some friends off who were started for the west. There was a strong draft of air in the depot, and in standing by the train talking to my friends I caught a severe cold. I had no more than reached my home again when I was taken with an sudden cold and then fever set in. The outcome of all was that rheumatism settled all over me. I was entirely helpless. From this I have never recovered. You see my hands what a state they are in. Those are all chalky swellings and my limbs are very bad. While I remained in Brooklyn I tried all sorts of remedies, but I could never gain any relief. My physician said it was no use. I grew very ill and lost all strength. Finally, after coming here, to gratify my husband, I began to use Dr. Kennedy's FAVORITE REMEDY, and my general health has been better than ever before. I am stronger, have an excellent appetite, which I did not have for a long time. It has helped my rheumatism, and with a thorough trial I am in hopes of recovering completely."

Kennedy's FAVORITE REMEDY has been successfully used by thousands. It will build up a system which has been run down by overwork. It is the thing for the student and literary man to have at hand, and should be in the home of every mechanic. FAVORITE REMEDY is economical, safe and pleasant. Buy it and try it.

A Strange Reminiscence.

The Escape of a well known ex-Army Surgeon from an Unforseen Danger.

(Baltimore American.)

Messrs. Editors: I seldom appear publicly in print, but the facts connected with my experience which follow are so striking, and bear so closely upon the experience of others, that I venture to reproduce them entire:

In the month of September, 1879, I was practicing medicine in New Orleans. The summer had been excessively hot and everybody was complaining of being exhausted and feeling tired. It was not an unfrequent occurence to have patients ask for something to relieve this weary sensation, and that I should also partake of the same universal lassitude or weakness, did not alarm me. I supposed that over-work and exposure had produced a temporary physical prostration; therefore I made a trip to St. Paul, Minn., thinking that a rest of a few weeks in a cooler climate would soon reinvigorate me. Little did I dream, however, what was in store for me. After getting settled in my new quarters, I took a short walk every day, and patiently awaited a return of strength, but in spite of all my efforts I seemed to be losing strength; and even any slight exercise became laborious and tiresome. During this time I had frequent dull aching pains in my head, and through my back and hips, occasional shooting pains in various parts of the body, with soreness, shortness of breath, and palpitation of the heart. My feet and hands would be like ice one day, and burn with heat the next. I had no desire for food, and what I did eat distressed me; my sleep became disturbed with the frequent desire to urinate. The quanity of fluid passed would at one time be small and at another quite profuse. Then for days I would be perfectly free from this desire and nothing seemed to be the matter; nevertheless my debility gradually increased. My eyelids were puffed out; my bowels were alternately torpid and too active, the urine would be clear some days, on others it would be of high color and deposit a brick-dust sediment, and at still others there would be a whitish appearance and a thin greasy scum would rise to the top. The pains in my head, back, chest, joints, bowels and bones were horrible in the extreme. I went in vain from place to place and consulted the best medical authorities the country affords; I would have a chill one day and a burning fever the next. I suffered excruciatingly with a numbness of my feet and hands, and at the base of the brain and between my shoulders; at times my limbs and body would bloat and physicians said I was suffering from the dropsy and could not recover.

How I could be so blind to the terrible trouble which was devouring me, I do not know; but there are thousands to-day who are suffering from the same cause and are as ignorant of its nature as I was. My skin was the color of marble at one time, and then again it would be like saffron, and this terrible restlessness, and I might say wildness was followed by a dull, heavy, drowsy sensation. I was wasted to a mere skeleton except when the dropsical bloat occurred. I tried all the celebrated mineral waters of this country and Europe; all kinds of medicine and all kinds of doctors. Still no help came. I lay at my hotel in Philadelphia, where I was temporarily sojourning, gives up to die by friends and physicians alike, when there providentially came into my hands a little pamphlet, which I carefully read, and from which I got a view of my real condition, which no other agency had revealed. Acting on its advice, I had my water analyzed at once, and to my surprise, albumen and tube casts were found in large quantities. A skillful physician was sent for and apprised of the fact. He said I had Bright's Disease, and that death was certain. My friends importuned me to take a remedy which had won a great reputation for the cure of all forms of kidney diseases, and I therefore laid aside my prejudice and commenced its use. At first my stomach rejected it and I had to use small quantities; but after the first five days my stomach retained full doses. This was one year ago last October, and my improvement was rapid and permanent. I have regained 50 of the 65 pounds of flesh I lost during my illness, and I feel as well to-day as I ever did, and I can unreservedly state that my life was saved by Warner's Safe Kidney and Liver Cure, the remedy I used.

It may seem strange that I, being a physician and an ex-army surgeon, did not have my water analyzed before; but such is the fact. I had the symptoms of every other disease, and I did not suspect that my kidneys were in the least particular out of order; and here is just where I was in the greatest danger, and where most people who read this article are in danger. I find that I am only one of thousands who are suffering from kidney disorders, which, neglected, surely terminate in Bright's disease. I know that physicians may treat these disorders for months without knowing clearly what the trouble is, and even after ascertaining the cause, be unable to prevent it. When death, however, finally overtakes the helpless victim they diagnose its real cause, attributing it to heart disease, convulsions, apoplexy, vertigo, paralysis, spinal meningetis, blood and uremic poisoning, etc., etc.

Words, of course, fail to express my thanks to H. H. Warner & Co., of Rochester, N. Y., for giving the world such a needed and certain specific as the Safe Kidney and Liver Cure, but such as they are I gladly give them; while to the thousands to whom I have lectured upon the laws of health and hygiene I commend this letter most cordially, and warn them to beware of the insidious nature of a disease over which physicians confess they have no control, and which in one form or another, is carrying more people to untimely graves than any other malady.

Home.—In calling attention to an article advertised in our columns, we are pleased to notice an excellent sign in regard to it, viz.: that the testimonials relating to Hood's Sarsaparilla are from New England people, and many are from Lowell, the home of this medicine. We are assured that the sale of this article in Lowell, where it is best known, is wholly unprecedented in the annals of proprietary medicines. We leave it with you to decide as to the probable merits of an article with such a solid foundation.

Mrs. Stillwell of Mount Vernon, Ohio, who recently confessed the murder of her first husband and another man, and her fourteen-years-old daughter, has made further confession that she murdered her mother at Ottumwa, Iowa, after she had been injured in a railroad accident. She says she is guilty of other crimes which she will not divulge. When asked of what her father died she said, "Cut throat." Her father mysteriously disappeared. Her physician pronounces her of sound mind.

Treasury vs. Navy.

There is music in the air at Washington. It is stated that the ancient mariners who, though coming to the surface only when invited officially to give their views upon naval matters, nevertheless most completely run the navy department in these days, had devised a scheme whereby the redundant product of the Annapolis naval school (which throws upon their kindly regards such a crowd of sons-in-law *et omne genus*) should seek the shelter of the revenue marine, the coast life-saving service, and positions of that nature, now filled by trained officers and men, who, familiar with their duties and under a different regime from the kind by which the navy has long suffered, have so efficiently under the treasury department discharged the special duties of their respective departments.

Now it seems that the secretary of the navy has been urged to obtain employment for his surplus officers, who want duty pay, by having Congress place these hitherto ably-managed branches of the treasury service under the navy department. This, of course, creates a stir from Eastport to Alaska, and the protest which has gone to Congress from all over the country will, we fear, have the effect to diminish the appropriation which otherwise might be voted for naval expenditures, as the navy will now be obliged to act upon the defensive. Sec'y Folger is to bring the guns of his revenue cutters to bear upon the shattered hulks of the navy, and if we may credit the correspondents at Washington there is being prepared by Capt. Clark of the revenue marine an answer to the arguments used by Secretary Chandler why the revenue marine should be transferred to the navy department. The house committee is waiting for this document before reporting Mr. Harris' bill for this purpose. Inspired by Secretary Folger, Captain Clark will show that not only the revenue marine is almost a model service as at present constituted, a fact acknowledged even by Secretary Chandler, but will carry the war into the enemy's country by showing that the navy department is the most extravagantly conducted of any branch of the public service, and not calculated, as at present conducted, to improve upon the management of the bureaus under the treasury. The document will be a powerful arraignment of the aristocratic naval establishment, and full of uncomplimentary facts. The whole force under Secretary Folger is fighting this transfer, inasmuch as in Mr. Chandler's report it is stated to be properly but the initiative step to a similar transfer of the life-saving, marine hospital and coast survey services.

We expect to see the splinters fly; and the slender form of the secretary of the navy will be exposed to the fire of the establishment over the way, as he directs the fight from the quarter deck, while the retired advisers who projected the conflict will "generally go below," and, awaiting the result of the contest, devise some new expedient to care for the husbands and sons of their cousins and their sisters and their aunts, who may overflow from the naval academy.

Another Big Steal.

M. L. Polk, a nephew of the late President Polk, and a man of large family and high social position, has for six years past been treasurer of the state of Tennessee. He left Nashville on the 3d inst., and since his departure it has been discovered that he is considerably short in his accounts, a very brief examination disclosing a deficit of $380,000, besides which the discrepancies between Polk's books and the accounts at one bank alone amount to $30,000. The treasurer's official bond is for $100,000. At the last session of the legislature a bill was introduced to increase the bond, but the bill was stolen from the desk of the clerk of the senate the night before it was to come up for final passage, on the day before the adjournment; so the contemplated increase was not made. It is supposed the stolen money was lost in stock gambling.

Polk is fifty-one years old, was a graduate of West Point, and served four years on the frontier. He was captain of artillery in the confederate army in Cheatham's division, and lost a leg at the battle of Shiloh. He afterward served on the staff of Gen. Leonidas Polk, to whom he was related. After the war he resided on a farm near Bolivar, Tenn., until elected state treasurer six years ago.

Cuticura

THE NEW BLOOD PURIFIER

Resolvent

I will now state that I made a miraculous cure of one of the worse cases of skin disease known. The patient is a man forty years old; had suffered fifteen years. His eyes, scalp and nearly his whole body presented a frightful appearance. Had had the attention of twelve different physicians, who prescribed the best remedies known to the profession, such as iodide potassium, arsenic, corrosive sublimate, sarsaparilla, etc. Had paid $300 for medical treatment with but little relief. I prevailed upon him to use the Cuticura Resolvent internally, and the Cuticura and Cuticura Soap externally. He did so and was completely cured. The skin on his head, face, and many other parts of his body, which presented a most loathsome appearance, is now as soft and smooth as an infant's, with no scar or trace of the disease left behind. He has now been cured 12 months.

Reported by
F. H. BROWN, Esq., Barnwell, S. C.

Scrofula Sore.

Rev. Dr. Dorr, in detailing his experience with the Cuticura Remedies, said that through Divine Providence one of his parishioners was cured of a scrofula sore, which was slowly drinking away his life, by the Cuticura Resolvent internally, and Cuticura and Cuticura Soap externally. The poison that had fed the disease was completely driven out.

Eczema.

Sixteen months since an eruption broke out on my leg and both feet, which turned out to be Eczema, and caused me great pain and annoyance. I tried various remedies with no good results, until I used the Cuticura Resolvent internally and Cuticura and Cuticura Soap externally, which entirely cured me so that my skin is as smooth and natural as ever.

THE PROSTRATION which follows Diphtheria, and the persistency with which it clings to the patient, are well known to all who have had any experience with this terrible disease.

The following letter shows how the restoring and invigorating properties of

Hood's Sarsaparilla overcome it, and how by vitalizing and enriching the blood it neutralizes and eradicates the poisoned matter from it, bringing to the convalescent the color, life and vigor of robust health.

LOWELL, MASS.

MESSRS. C. I. HOOD & CO.: Gentlemen—My little girl had the diphtheria last April. The disease left her very weak, blood poor, with no appetite, and she could not seem to rally from its effects. HOOD'S SARSAPARILLA was recommended by a neighbor. After she had been taking it a few days we noticed a change for the better—she began to eat with a relish. It seemed to take out the poison the disease had left in her blood, the change being very noticeable in her face. She took it two months and fully regained her health, much to our delight. We now recommend HOOD'S SARSAPARILLA with a great deal of pleasure.

ANOTHER WAY OF PUTTING IT.

These unfortunates have contributed, having a supposed value to their beneficiaries of $2,395,525.

The real value proves to have been about 21½ per cent. or $511,384.36, it by waiving their claim of $402,823.56 of the amount collected ($508,207.94) and this is called *Cheap Insurance.*

QUERY.

Who ever heard of any respectable Life Insurance Company settling $2,395,525 of insurance, benevolently contracted for, at a discount like the above and at such a cost?

A PLEASANT REUNION.

Not long since two Dover ladies, Mrs. H. Flagg, aged eighty-two years, and Miss M. Melcher, aged seventy-six, visited Mrs. J. Flagg of Rochester, aged eighty-five; a friend who boarded with Mrs. Flagg, aged eighty-seven years, made one of the party, and during the day two ladies of the neighborhood came in, one of them being aged eighty-two and the other eighty-one years. The united age of the six was nearly 500 years, and the average age more than eighty-two. They passed the hours talking of events which happened early in the present century, and were again the gay, frolicking girls they were before the times of stoves and matches, locomotives and telegraphs,—when they lighted their fires in open fireplaces by means of flint and steel or with a borrowed coal, rode on the pillion behind their mothers on the backs of their patient nags, and waited weeks for news from towns and cities not far away.

THE WEEK OF PRAYER.

From Sunday, Jan 7th, to Saturday, Jan. 13th, inclusive; recommended by the Evangelical Alliance.

Sunday, Jan. 7th. Sermons — "For there is one God and one mediator between God and men, the man Christ Jesus, who gave himself a ransom for all." I Tim. ii: 5, 6.

Monday, Jan. 8th. Praise and Thanksgiving—For the long-suffering love and faithfulness of God, and for his continued mercy and goodness; for the progress of the gospel, the continued presence of the Holy Spirit; for the large measure of peace among the nations; and for all temporal blessings. Ps. xxxvi:5-10; Col. 1:3-13; Ps. lxxxv.

NEWS EXTRAORDINARY.

The Washington, D. C., *Republican*, a day or two since, startled the public with the following announcement:

The navy department is informed of the arrival of the Lancaster at Leghorn, Italy, December 13th, en route for Geneva.

This, we presume, is from official sources. Our navy being small is perhaps a reason why it is more conveniently handled. Whether old War Horse Nicholson is going to take the Lancaster over the tops of the Alps, and outdo Hannibal and Napoleon, doesn't appear. Possibly he may have decided to send through the Mont Cenis tunnel. A Boston newspaper sent the Tallapoosa from this port to Warner, N. H., last summer; but the magnificent Lancaster lying in Lake Leman—why, it just leaves Captain Eads nowhere!

Biggest minstrel show of the season at Music hall to-night. Callender's consolidation — fifty performers. Tickets at Myers' bookstore; see advertisement.

The annual meeting of the Rockingham Masonic Mutual Relief Association was held at Masonic hall on Friday evening of last week; several reports were read and accepted, after which the meeting adjourned to Friday evening, Jan. 19th, when officers for the ensuing year will be elected.

A very fine specimen of the Arctic owl was placed in the window of Preston's drug store last week, and attracts much attention from the passers-by. The bird was brought in from the Shoals by Capt. Grogan, keeper of White Island light, and was stuffed and set up by Mr. Edwin R. Peason.

Piscataqua Commandery, United Order of the Golden Cross, of Eliot, has elected the following officers for the ensuing year:—Noble commander, William H. Staples; vice noble commander, Sarah E. Shapleigh; keeper of records, J. L. M. Willis; financial keeper of records, J. H. Dixon; prelate, William Shapleigh; herald, L. W. Adams; warder of inner gate, Clara I. Foss; warder of outer gate, John D. Fernald.

The annual meeting of the Rockingham Odd Fellow's Mutual Relief Association will be held at Odd Fellow's hall on Tuesday evening, Jan. 9th, at 7:30 o'clock. A full attendance is requested.

Hon. Frank Jones sold from his Portsmouth brewery last year 153,000 barrels of ale, and from his Boston brewery 100,000 barrels. This we think is about 30,000 barrels more than he ever before brewed in a single year.

Hon. Jas. M. Buffum of Lynn, Mass., had a narrow escape on Friday last. He attempted to board an Eastern railroad train after it had started out of the Central station for Boston, and was thrown violently to the ground, but fortunately clear of the wheels; the train stopped, and Mr. Buffum, who was not seriously hurt, got aboard and went to Boston.

One wheel of a two-horse wagon which was loaded with brewers' grains and bound to Newington, went to pieces Saturday forenoon near the Elm street ward room; another vehicle was procured and the load taken to its destination.

Some of the newsboys on the railway trains are beginning to learn that the price of the Boston *Journal* has been reduced to two cents. They are taught by the passengers, however.

RELIEF CORPS ENTERTAINMENT.

The ladies of Storer Relief Corps, G. A. R., proposing to raise a permanent relief fund, will give an entertainment (both literary and musical) and a supper at their hall on Daniel street on Monday evening, Jan. 8th, to which the public are most cordially invited. Tickets (including supper) twenty cents each.

At its meeting on the 5th inst., the house committee on naval affairs agreed to recommend the committee on appropriations to provide for the construction of the following ships of war: One steam cruising vessel of war of between 5,000 and 6,000 tons, to cost $2,700,000; one steam vessel of war, of not less than 4,000 tons, full steam power and not less than two-thirds sail power, armed with rifled cannon of great power, and with machine guns, to cost $1,576,854; three steam cruising vessels of war, not less than 2,500 tons, full steam, and not less than two-thirds sail power, armed with rifled cannon and with machine guns, to cost, for all, $3,093,675; one despatch boat, or clipper, to be armed with breech-loading guns.

In Newburyport there is much excitement over the recent assault on Joseph Moulton, and attempted robbery. A town meeting at the city hall, Jan. 5th, called by the mayor and aldermen to express public indignation, was largely attended. Resolutions were offered by Rev. Dr. Spalding, and passed, and a reward of $500 offered for the capture of the perpetrators. The suspected leader of the three ruffians has escaped, and is supposed to have fled to Boston.

The democrats of Boston were enthusiastic for civil service reform before the late municipal election; but the first act of the new democratic civil service reform government was to turn out the city clerk, whom the *Post* acknowledges has been a "faithful and efficient officer" for a quarter of a century, and put in his place a man who knows absolutely nothing of the duties of the important position, and whose only special qualification is that he votes and works for the straight democratic ticket.

The U. S. S. Alaska has been ordered to Honolulu, to be there at King Kalakaua's coronation. The Lackawanna, now at Honolulu, will remain there, and it is expected that the Wachusett will be ordered there. The principal naval powers will send war ships to Honolulu. The avowed object is to pay proper courtesy, but it is understood that the real object is to protect foreign interests in case of trouble, which may arise from opposition to the extravagant arrangements for the coronation. A rumor is circulated of possible revolution.

A correspondent of the Boston *Post*, writing from Augusta, Me., says: "The event of the future which is most interesting to society people here is the wedding of Miss Alice Blaine, daughter of the ex-secretary, to Col. Coppinger of the regular army. This will occur next month in Washington. It will be the first wedding in the Blaine family, none of the other sons and daughters being married, or, so far as is publicly known, having any present intention of marrying. The groom-elect is a son of an Irish nobleman, was born in Ireland, and is a communicant of the Roman Catholic church. He is forty-nine years of age, tall, and of fine personal appearance. Miss Blaine is some twenty-five years younger than Col. Coppinger, whom, by the way, according to Dame Rumor, she first met at one of our far western military posts, where the colonel was stationed, and where Miss Blaine was visiting the family of the commandant. It is said that the bride-elect will shortly embrace the Roman Catholic faith."

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of "Mrs. Winslow's Soothing Syrup. "It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere Twenty-five cents a bottle. eod&wtjan82

WASHINGTON, Jan 4—The lighthouse board has modified its original action in regard to the lights at Cape Elizabeth, Me. It has been decided to substitute for the present lights (two in number,) one light of the first order with ten second flash. Such a light will put the point on a level with Barnegat and Hatteras, which are now the only points on the Atlantic coast provided with lights of this rder. The board is of the opinion that such a light at Cape Elizabeth will answer all the requirements of navigators in that section.

A Common-sense Remedy.
SALICYLICA.
No more Rheumatism, Gout or Neuralgia.
Immediate Relief Warranted.
Permanent Cure Guaranteed.
Five years established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylica.

SECRET!
THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.
SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.
Its has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate those diseases which are the result of the poisoning of the blood with Uric Acid.
SALICYLICA works with marvelous effect on the acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. (Highest Medical Authority of Paris reports 95 per cent. cures in three days.
REMEMBER
that **SALICYLICA** is a certain cure for **Rheumatism, Gout and Neuralgia.** The most intense pains are subdued almost instantly. Give it a trial. Relief guaranteed or money refunded.

THE SCIENCE OF LIFE

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

25th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of disease, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that the married or single can desire require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases, requiring skill and experience. Address

HEART DISEASE

IS YOUR HEART SOUND?

Now

Many people think themselves afflicted with Liver or Kidney or liver trouble, or dyspepsia, while if the truth were known, the real cause is at the heart.

The renowned Dr. Clendinning, startlingly says "one third of my subjects show symptoms of heart disease."

The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely that asks for kind treatment, and not disease.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. It is known as Dr. Graves' Heart Regulator and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise. (1)

Gov. Robie of Maine sensibly suggests that telephone companies in that state should be taxed. We think by next summer our legislature will enact some law which will give the state some control over these companies, providing for their proper taxation and regulating their charges.

Congress, at its last session, passed a bill declaring the title to Black point, near the Presidio, in California, to be in Gen. Fremont's wife, and referred the matter to the court of claims, only to ascertain its value at the time she was dispossessed by the government, over twenty years ago, with an allowance of six per cent interest per annum during the whole term. The sum to be realized will provide an ample fund for the support of the general and his family in the coming years. This piece of good fortune is said to be due to the deft hand and untiring energy of his brilliant wife, Jessie Fremont.

It is plain enough now why the state treasurer of Tennessee refused to pay the interest on the state bonds as required by law; he had stolen all the money that had been paid into the treasury.

MRS. VAN BUREN'S

LADIES' TONIC.

A Positive Cure for all Female Complaints.

Ladies' Tonic is prepared by the Women's Medical Institute of Buffalo, N. Y., and has been used successfully by ladies for years. It is a *sure cure* for all Female Complaints, Sick and Nervous Headache, Dyspepsia, and all weaknesses caused by those irregularities which are so common to womankind. This is no *Patent Nostrum*, but is prepared, after years of experience, and recommended, knowing it will give satisfaction and relief to every woman who will make a trial of the article.

If you have tried other remedies without success, do not be discouraged, but give LADIES' TONIC a *single trial*. It *will do all that is claimed for it*, and *permanently relieve*.

If you are troubled with any weakness or complaint peculiar to our sex, lay aside the doctor's prescription for a time, and try "Ladies' Tonic," which we guarantee will positively cure you. One Bottle is Sufficient.

Women's Medical Institute is an Association of *Women and Mothers of women*, experienced, who give advice and answer letters free. Address, as above.

Tonic will be given for any case of Female Weakness or disability which "Ladies' Tonic" will not cure. This is a *bona fide offer*, made by responsible ladies, who know *from experience what "LADIES TONIC"* can do. Send stamp for circular.

LOG ROLLING.

While Wrestling with a Fallen Tree a Lumberman Receives Consequential Damages.

While on a hunting excursion in the great coal and wood region near Carbondale, Pa., the writer met William Coll, a lumberman, who he ascertained to life and l bor in the forest from early manhood, he was a true Knight of the Axe. Many a tree had fallen before his ringing strokes, and fleets of rafts had borne away to market the sawed products. Coll is a character, and if Oscar Wilde is right in saying that all movements in unhindered labor are graceful, Coll is a graceful man. I spoke for his work, and attacking a tree as Richard I assaulted the heavy doors of Front de Beuf's Castle, must have presented a admirable picture.

One day, however,—but let him tell the story himself, as he told it to me:

"I was out in the woods, you know, trying to cut a log down a hill. Thinking I could get a better purchase on it from the lower side, I tackled it there with my log-rolling hook and threw my weight on the lever. She started, she did, but as luck would have it, before I could get out of the way, she rolled right over me. If it hadn't been for a lot of small limbs and brush lying in the road, which broke my fall, she would crushed me flat. As it was I got up without a broken bone, but with some mighty bad bruises."

"Then you were all right," said his auditor.

"Not by a blamed sight, stranger. I took cold, rheumatism set in, and, if I hadn't heard of BENSON'S CAPCINE POROUS PLASTERS and used 'em, it's my opinion I would never have made another chip fly. But the Capcine took hold quick, and I'm 'bout as good as new. But there's one thing you kin calkilate on:—I shall never wrastle with another log unless I have the advantage of the ground. Fur, as I told you before, if it hadn't been for them brushes I'd been smashed so you could 'a sold me for a door mat."

The Capcine is the thing for rheumatism. It doesn't keep you waiting. The word CAPCINE is CUT in the centre of the genuine. Price 25 cents. Seabury & Johnson, Chemists, New York.

THE

New Hampshire Gazette !

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

no longer from Dyspepsia, Indigestion, want of Appetite, loss of Strength lack of Energy, Malaria, Intermittent Fevers, &c. BROWN'S IRON BITTERS never fails to cure all these diseases.

Boston, November 26, 1881.
Brown Chemical Co.
Gentlemen:—For years I have been a great sufferer from Dyspepsia, and could get no relief (having tried everything which was recommended) until, acting on the advice of a friend, who had been benefited by Brown's Iron Bitters, I tried a bottle, with most surprising results. Previous to taking Brown's Iron Bitters, everything I ate distressed me, and I suffered greatly from a burning sensation in the stomach, which was unbearable. Since taking Brown's Iron Bitters, all my troubles are at an end. Can eat any time without any disagreeable results. I am practically another person. MRS. W. J. FLYNN, 30 Maverick St., E. Boston.

BROWN'S IRON BITTERS acts like a charm on the digestive organs, removing all dyspeptic symptoms, such as tasting the food, Belching, Heat in the Stomach, Heartburn, etc. The only Iron Preparation that will not blacken the teeth or give headache.

CAPTURED.

Near the beginning of our late civil war, Lieutenant Graham was stationed with a few men to guard a gap in the Virginia mountains. The blockade of the whole south at that time was very rigorous, and supplies of any kind were rarely smuggled through the Union lines.

One morning, as the lieutenant sat smoking in the door of his tent, one of his outlying pickets presented himself, red and blown with running.

"I've got 'em, sir! It's some ov thim rebels—hookin' it across the lines. I brought 'em to with a round turn!"

"Where?" exclaimed the lieutenant as he jumped to his feet. He was young and zealous, and had not yet had a chance to prove his zeal. "Rebels breaking the lines, eh! Well done, Wright!"

"Carrying provisions, sir?"

"No doubt! No doubt! Arms and ammunition, of course. Where are they? Were they taken prisoners?"

The man looked sheepish. "They're back in the woods, sir. I jest fetched it along."

"It? What on earth"—The lieutenant followed Wright, who ran to the woods, dashed behind a copse and hauled out a little girl of about ten years of age, carrying a basket. A donkey stood beside her.

"There they be, leftenant! She was footin' it past the pickets, singin' Dixie to herself as easy as yer please."

"Take your hands off the child! I thought you had captured a dozen men, you braggart! Who are you, my child?"

"I'm Dora Nettley, sir."

Dora was a chubby, freckled child, with honest brown eyes, which reminded the lieutenant of his little sister away out in Michigan. Still, important information, maps and despatches had often been carried by women and children since the war began, and this might be a bearer of information, child though she was.

"Where did you come from, Dora?"

"From Martinsourg, sir."

"And what have you in that basket?"

The child's face grew red, she shut her lips tight and remained silent.

"Search it, Wright."

"Here's tea, sir, and a little package of sugar, and here's a bottle of quinine pills."

"Where are you going with these things, Dora?"

She looked wildly from side to side, her chin quivered, said then she burst into passionate sobs:

"Oh, let me go, sir! It's my mother. She is down on the plantation all alone. The negroes have all followed your army, and my mother's alone and sick. I just thought I'd buy her a little tea and sugar and the medicine."

"How do you know she is sick?"

"Patsey told me. Patsey's the coachman. He followed the soldiers up to Martinsburg. He said there was nobody to take care of her."

"And you rode from Martinsburg here on this donkey?"

"Yes, sir."

"And meant to pass the lines?"

Dora nodded and her eyes sparkled. This kind-faced lad was not so terrible a foe, after all. "I was just going down the gap Road. I have ridden it on 'Spot' a hundred times before."

Wright's face was eagerly turned to the officer. "Oh, lit the child go, leftenant. What harrum kin she do with her bit of tay for her sick mither. I wish I'd been in bether business whin I tech'd you, sissy."

"I wish you had," said Dora, simply.

"How does it happen that your mother is alone?" asked the lieutenant. "Where is your father?"

Dora's cheeks glowed a fiery red. She was a quick-witted child, and had seen the pity and sympathy in the officer's eyes. If she could hide the fact that her family were actively concerned with the Confederates, there was a chance that she would be allowed to pass. But—to lie!

"Where is your father, Dora?" he repeated.

"In the army!" she faltered.

"Fighting for the Union?" said Graham, quickly.

There was a long pause. "He is with Lee," she said at last.

"And your brothers?"

"They are with Dick Ashby."

The young officer turned away impatiently. He had hoped to find a pretext for being of service to the child.

"Walk down the field a bit, leftenant, an' kape yer back this way," whispered Wright. "I'll give her the wink to be off. And what harrum's done?"

"No. I am sorry, Dora, but I can not let you pass through the gap. It is against orders."

She did not make any noise, but dropped on the grass and buried her face in her hands. "I want mother!" she sobbed. "Oh, I want mother."

"Yo see, child," explained Wright, "no support or comfort kin be carried to the inimy."

"She's not an enemy," cried Dora, angrily. "She's mother."

"Come with me, Dora," said the lieutenant. He lifted her on the donkey and led her to the farmhouse, where the wife of General R— had her quarters. She was a gentle, motherly woman, and he told her the story.

"I am going to the commanding officer to telegraph for a permit for her to pass the lines. You can discover whether she has anything contraband concealed about her. But I would stake my life on the honesty of the child."

"You will have a ride of twenty miles in the hot sun, lieutenant," said Mrs. R—. "Do you know the child?"

"No, but I cannot help thinking what if that poor woman yonder were my mother, and this child little Alice?"

Mrs. R— took the girl up to a little chamber, which she told her should be

The children of Israel were once fed by manna sent from heaven. This was an undoubted case of "God-send." The amelioration of human ills and ailments has been often undertaken and as often failed. Ely's Cream Balm, however, has been weighed in the balance and not found wanting." It is a sovereign, speedy, certain and pleasant cure for catarrh and cold in the head. Thousands of persons have attested this fact. "Ely's Cream Balm is a God-sent," writes Mrs M. A. Jackson, of Portsmouth, N. H., on May 22d, 1882. "I had catarrh for three years, had tried nearly all remedies but to no purpose. Two or three times a week my nose would bleed quite freely, and I thought the sores in it would never heal. Your Balm has cured me." This preparation is not a liquid or a snuff, and is easily applied. Can you, reader, afford to experiment with injurious irritants and injections when a pleasant cure is at hand?

Congress has passed the Pendleton civil-service-reform bill, most of the democrats voting for it; but how long would it take the same democrats to repeal it, should they carry the national election of 1884?

Extreme Tired Feeling.

A lady tells us "the first bottle has done my daughter a great deal of good, her food does not distress her now, nor does she suffer from that extreme tired feeling which she did before taking Hood's Sarsaparilla." A second bottle effected a cure. No other preparation contains such a concentration of vitalizing, enriching, purifying and invigorating properties as Hood's Sarsaparilla.

—A farmer wants to know where the red ears of corn come from. If he lives where husking bees are popular, they probably come from the red kernels which his daughters slipped into the seed-bag. A little knowledge of human nature will solve many hard problems.

When you don't just know what ails you; when you feel aches and pains all over; when you feel tired and faint, use Brown's Iron Bitters. A wonderful reviver.

—"Mr. Editor,—Will you please answer who was David's wife's mother? and you will greatly oblige a reader. Lizzie." Certainly, with pleasure. David's wife's mother was David's mother-in-law.

Sprains, lameness, pains and stitches, weak back or disease of the spine will be immediately relieved on application of a *Hop Plaster* over the affected part. It's penetrative power is wonderful. Warranted to be the best made.

—"Father, I wish to live so as to show the world my contempt for wealth," remarked a young philosopher, who was just recovering from the effects of a fifty-cent cigar. "That's easy enough," said the old man; "become an editor."

"Humanity's great hope for the future is alone to be realized in improved conditions of matrimony. What a profound obligation does this fact involve! Those who realize the responsibility can hardly do better than take advice from Mrs. Lydia E. Pinkham, whose wonderful remedies for the cure of all diseases peculiar to women are so justly celebrated. Send for pamphlet.

—An exchange asks in bold head lines "Why do women work?" Well, some women work because they enjoy it, and others because their husbands are busy in politics, and the woman of the house is obliged to hustle around and earn the daily bread.

What is needed is pure blood, as the influence of its purity upon the health cannot be overestimated. When it becomes impure, it gives rise to a large number of diseases, such as biliousness, sick headache, dyspepsia, loss of appetite, low spirits, nervousness, female complaints, etc. The success which has attended the use of Swedish Botanic Compound warrants us to say that for purifying and enriching the blood, creating an appetite, strengthening and renovating the whole system, nothing surpasses that great remedy.

To Please Her Husband.

Were the Words of a Good Lady, Mrs. Hawkins, who has long Suffered the Pains Common to Chronic Rheumatism. A Woman's Patience and Fortitude well Shown.

Your reporter from Mrs. Hawkins at 14 Exchange st., New Haven, Conn. "About four years ago," she said, "I was then a resident of Brooklyn, N. Y. I went over one morning to the Jersey City depot to see some friends off who were started for the west. There was a strong draft of air in the depot, and in standing by the train talking to my friends I caught a severe cold. I had no more than reached my home again when I was taken with a sudden chill and then fever set in. The outcome of all was that rheumatism settled all over me. I was entirely helpless. From this I have never recovered. You see my hands what a state they are in. Those are all chalky swellings and my limbs are very bad. While I remained in Brooklyn I tried all sorts of remedies, but I could never gain any relief. My physician said it was no use. I grew very pale and lost all strength. Finally, after coming here, to gratify my husband, I began to take Dr. Kennedy's FAVORITE REMEDY, and my general health has been better than ever before. I am stronger, have an excellent appetite, which I did not have for a long time. It has helped my rheumatism, and with a thorough trial I am in hopes of recovering completely."

Kennedy's FAVORITE REMEDY has been successfully used by thousands. It will build up a system which has been run down by overwork. It is the thing for the student and literary man to have at hand, and should be in the home of every mechanic. FAVORITE REMEDY is economical, safe and pleasant. Buy it and try it.

"A Fisherman" writes to the Boston *Journal* that every business but that of the lone fisherman seems to be represented in the Massachusetts legislature. Every one knows that the fishing interest is the first thing that suggests itself to the statesmen beneath the gilded dome, for when they turn their eyes toward the ceiling in their lofty flights of oratory, they see the dried codfish which so long has swam in the upper air of the house of representatives, and which suggests crackers, cheese and coffee and such like to the taste of the law makers of the Bay state.

Land, from New York Dec. 28th for Liverpool, was run down off the latter port in a fog by a steamer from Glasgow, and sunk; ten lives were lost, two of the persons drowned being passengers. The city of Brussels was at Queenstown, Ireland, at eight o'clock in the morning on the 6th inst., and proceeded on her way after a brief stop; she should have reached Liverpool in the morning on the 7th.

Despatches of the 8th. from London, say the City of Brussels was stopped by the fog half an hour before being struck. The steamer which struck her was the Kirby Hall, which cut her almost in two amidships, and stove her main bulkheads, sending her to the bottom in a few minutes. The officers of the lost steamer behaved with the greatest courage and coolness.

News and Notes.

A sharp earthquake shock was felt in northern Ohio early in the morning on the 6th inst. People were aroused from sleep, and shaky chimneys thrown down.

The secretary of the navy on the 6th inst. sent a request to Congress for an appropriation of $20,000 to enable the naval advisory board to conduct certain experiments with reference to deflective armor for vessels, in furtherance of the provisions of the act of Aug. 5th, 1882, authorizing the construction of two steel cruisers for the navy.

A despatch of Jan. 6th from Chattanooga, Tenn., says: "Information from a reliable source now puts the defalcation of State Treasurer Polk at $500,000. The *Times* of this city charged defalcation when the treasurer refused to pay the January interest, and much indignation was occasioned at the time, in consequence of the publication. The *Times* denounces the spirit of repudiation abroad in states, as largely responsible for the looseness of the laws, their nonenforcement, and the carelessness of official obligations."

Two children, John and Thomas Kevins, aged eight and ten years, who were sent from Virginia City, Nev., to North Adams six weeks ago, were received in Palmer, Friday. They lost their tickets, and were sent from Boston to the Christian brothers' school in Palmer. A press despatch from North Adams came to the notice of the Palmer authorities, and the children were sent home.

Health Officer Townsend, of Washington, D. C., on the 8th inst. issued a quarantine order against Baltimore, where the smallpox is making extensive ravages.

Miss Lizzie McDonald of Baltimore, for eleven years a sister of charity, was recently married in that city to Mr. Moore, the ceremony taking place in the Roman Catholic cathedral.

Francis Sibley, a commercial traveller of Worcester, Mass., was fatally injured while trying to board a moving train at Hartford, Conn., Saturday night.

A schooner rounded to at some distance from its wharf at Bath, Me., the other day, and while the lookers-on were waiting for a boat to be lowered and rowed ashore with a hawser, according to the natural order of things, they saw something very different. A dog sprang from the schooner into the river, swam to the wharf with the end of a line in his mouth, and when the hawser to which the line was attached had been hauled in and made fast, swam back to the schooner, seized a rope that was flung to him, and was drawn on board.

A tramping peddler, calling himself Patrick Dorson, is being hunted for by the citizens of Wareham, Mass., for frightening women into giving him food, etc. He uses revolvers and daggers when his hideous countenance does not accomplish the desired result.

Adelbert R. L. Lynes, a brakeman, fell from a train near Milford, Conn., Jan. 6th, and was cut in two by the wheels.

The standing committee of the Episcopal churches in the Springfield, Ill., diocese have unanimously refused to give their consent to the consecration of Rev. Hugh Miller Thompson of New Orleans, lately elected bishop of the diocese of Mississippi.

New Hampshire Items.

The mills in Dover, Great Falls, Salmon Falls and Rochester driven by water power, are all running short time for want of water.

An effort is being made at Dover to establish a free library. Mayor Lothrup recommended some action in his inaugural, and the city council appointed a committee to confer with the Dover library association on the subject.

Miss Lizzie R. Whyte, whose skull was fractured by being knocked down by a sled at Dover on the 29th of December, has served notice on that city that she will sue for damages. Her condition is very critical, and her ultimate recovery is doubtful.

The Cocheco woollen mills at East Rochester are putting in a number of Knowles looms for the production of fancy goods.

J. D. P. Wingate, of the firm of Wingate & Shaw, publishers of the Exeter *Gazette*, has purchased the interest of J. H. Shaw, and assumed entire control of the paper.

There were 448 arrests made by the Dover police in 1882; 271 of the arrests were for drunkenness. Of property valued at $310 reported stolen, $285 worth was recovered by the officers; $2,437.77 were collected in fines and costs; 339 persons were lodged and fed at the police station during the year.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. eodtjan6,94

A Card.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. EASTERN RAILROAD LITIGATION.

The Eastern railroad corporation has recently filed a bill in equity against William C. Rogers of Boston, William A. Bacon of Falmouth and Willard P. Phillips of Salem. The defendants were appointed by the supreme court of Massachusetts as trustees for the Eastern railroad mortgage, authorized by an act of the Massachusetts legislature, April 28th, 1876. Among the property that stands assigned to them on the books of the corporation are 15,201 shares of the Maine Central railroad. The possession of this stock has practically given the Eastern road a controlling voice in the affairs of the Maine Central, and has afforded it a through route to Bangor, and beyond to the British possessions in the north and east. It has heretofore been understood that though this stock was in the hands of the trustees, the right to vote upon it remained with the Eastern road as long as that corporation had not lost the right of redeeming the same. It seems, however, that of late a question has arisen as to the integrity of this power of the Eastern railroad to vote upon the stock, some thinking that the trustees should do this. The present suit is an amicable one, instituted to definitely and conclusively decide the matter.

Elvin Newton sent fifty-six boxes of fresh fish, 35,000 lbs., to the Boston market by the Sunday night freight train over the Eastern railroad.

A temperance address will be delivered in the Methodist Episcopal church next Sunday evening by Miss Emma S. Allen, an eloquent advocate of prohibition by constitutional amendments, state and national. All are invited.

Mr. William G. Marshall of this city has been appointed road master on the Pittsburg railroad, which runs between Pittsburg and Rochester, N. Y.

On Monday Mr. John H. Brackett, representative-elect from Greenland to the Great and General Court of New Hampshire, went out on Great bay smelting, and broke through the ice into water ten feet deep; there was no more fishing for our genial friend that day, but being determined to spend the time worthily in some way he came into this city and paid a year's advance subscription to the best paper published in the county.

Cuticura

THE NEW BLOOD PURIFIER

Resolvent

I will now state that I made a miraculous cure of one of the worst cases of skin disease known. The patient is a man forty years old; had suffered fifteen years. His eyes, scalp and nearly his whole body presented a frightful appearance. Had had the attention of twelve different physicians, who prescribed the best remedies known in the profession, such as iodide potassium, arsenic, corrosive sublimate, sarsaparilla, etc. Had paid $300 for medical treatment with but little relief. I prevailed upon him to use the Cuticura Resolvent internally, and the Cuticura and Cuticura Soap externally. He did so and was completely cured. The skin on his head, face, and many other parts of his body, which presented a most loathsome appearance, is now as soft and smooth as an infant's, with no scar or trace of the disease left behind. He has now been cured 12 months.

Reported by
F. H. BROWN, Esq., Barnwell, S. C.

Scrofula Sore.

Rev. Dr. Dorr, in detailing his experience with the Cuticura Remedies, said that through Divine Providence one of his parishioners was cured of a scrofula sore, which was slowly draining away his life, by the Cuticura Resolvent internally, and Cuticura and Cuticura Soap externally. The person that had fed the disease was completely driven out.

Eczema.

Sixteen months since an eruption broke out on my leg and both feet, which turned out to be Eczema, and caused me great pain and annoyance. I tried various remedies with no good results, until I used the Cuticura Resolvent internally and Cuticura and Cuticura Soap externally, which entirely cured me so that my skin is as smooth and natural as ever.

ELLEN M. FRAILEY, 64 South St., Boston.

Cuticura.

The Cuticura treatment, for the cure of Skin, Scalp and Blood diseases, consists in the internal use of Cuticura Resolvent, the new Blood Purifier and the external use of Cuticura and Cuticura Soap, the great skin cures. Price of Cuticura, small boxes, 50c.; large boxes, $1. Cuticura Resolvent, $1 per bottle. Cuticura Soap, 25c.; Cuticura Shaving Soap, 15c.

DIPHTHERIA!

THE PROSTRATION which follows Diphtheria, and the persistency with which it clings to the patient, are well known to all who have had any experience with this terrible disease.

The following letter shows how the restoring and invigorating properties of **Hood's Sarsaparilla** overcome it, and how by vitalizing and enriching the blood it neutralizes and eradicates the poisoned matter from it, bringing to the convalescent the color, life and vigor of robust health.

LOWELL, MASS.

MESSRS. C. I. HOOD & CO. Gentlemen—My little girl had the diphtheria last April. The disease left her very weak, blood poor, with no appetite, and she could not seem to rally from its effects. HOOD'S SARSAPARILLA was recommended by a neighbor. After she had been taking it a few days we noticed a change for the better—she began to eat with a relish. It seemed to take out the poison the disease had left in her blood, the change being very noticeable in her face. She took it two months and fully regained her health, much to our delight. We now recommend HOOD'S SARSAPARILLA with a great deal of pleasure. Very truly yours,
J. R. SMITH,
19 Butterfield Street.

"That Extreme Tired Feeling."

"The first bottle has done my daughter a great deal of good; her blood does not distress her now, nor does she suffer from *that extreme tired feeling* which she did before taking HOOD'S SARSAPARILLA."

OF "LOCAL INTEREST" ONLY.

Secretary of War Lincoln, in response to questions propounded by Congress concerning the river and harbor appropriations, has returned a long list of the "improvements" provided for which in his opinion are of no general interest, and which if carried out will be of local benefit only. In this list is found the following:

Improving the Lamprey river, New Hampshire; continuing improvements, $10,000. This river has a high-water navigation to the wharves at Newmarket, about twenty-four miles from the mouth, and the object of the improvement is to facilitate communication with the wharves, thereby aiding the development of the town of Newmarket, giving it increased water facility. The amount of commerce to be benefited is small, and the interest local. Appropriated, act of August 2d, 1882, $10,000; drawn on requisition, July 1st to December 31st, 1882, $5000.

THE YORK STEAMBOAT.

The South Shore Steamship Co., of Boston, which for two years past has run steamers regularly between Boston and this city, has entered into an agreement with Hon. Frank Jones of this city, S. C. Forsaith and Amos Blood of Manchester, Col. Charles Sawyer of Dover, and Mr. Edward S. Marshall of the Marshall house at York harbor, Me., and will run the new steamer "City of Bangor" between Portsmouth and York during the coming summer.

A pier one hundred feet in length, with a floating stage and a house for passengers in waiting, will be built at Concordville, York beach; and barges will be in attendance each trip to take passengers to the Hotel Bartlett and other houses in the vicinity, and to the Marshall house at the harbor, without extra charge. It is intended to make two trips a day, the boat lying at York over night, and leaving there in the morning early enough to connect with the Boston and Concord trains, and with the Shoals by steamer Appledore; the line will make the connections in the afternoon, and in the evening for York. Work will commence after preparations to put into effect will be by R. B. Beaumont, of this city of the Boston; since its start, of the new enterprise the well known business engaged in this business.

FACTORY.

who resigned his the Portsmouth was on the 6th elegant present establishment, Newcastle, for

three years past at the head of the trimmers, succeeds Mr. Girard; and Mr. George A. Cobbett of this city in turn succeeds to the vacancy made by the promotion of Mr. Bickford. During the past eight months every officer of this factory, from the superintendent to the engineer in the fire room, has resigned, and it is a topic of remark that all are receiving larger salaries in similar positions elsewhere. Mr. Knights, Mr. Girard and Mr. Trask, the three former principal officers here, are all now in the establishment of C. B. Lancaster at Lynn, Mass.

The annual meeting of the New Hampshire Society for the Prevention of Cruelty to Children will be held at the office of the New Hampshire Society for the Prevention of Cruelty to Animals this day, Tuesday, Jan. 9th, at three o'clock P. M. J. R. MAY, Sec'y.

JOSEPH DAY ACKERMAN.

Our community learned with regret on Monday evening of the death of this widely known and ever respected citizen of Portsmouth.

In early years Mr. Ackerman was a driver of the stages of the Portland Stage company, between this place and Portland. After the stages had ceased running, when the Portland, Saco & Portsmouth railroad was opened for travel, he was for a while engaged in the livery stable business, and subsequently entered the service of the Eastern railroad company as conductor. He ran on the morning train from Portsmouth to Boston for many years, always to the great satisfaction of the managers. More than twenty-five years ago he resigned the office of conductor, to engage in the express business over the Eastern road with Christopher C. Jackson; and since then he has continued in that business. He was always noted for his prompt business ways, his undeviating integrity and personal probity.

Many years ago he became connected with the Middle street Baptist church, and as warden of the society and deacon of the church, devoted himself largely to the interests of the denomination in this city.

At the state election last November, he was chosen a representative to the legislature from ward two. He made no effort for the position, but in this case the office sought the man; and his death causes a vacancy in the delegation which, of course, cannot be filled until after the legislature meets.

For some time past his friends had alternately hoped and feared as to the result of a heart disease from which at times he suffered intensely. Though confined to his bed his death was quite unexpected, and some of the family had just left his room, at his suggestion, to go to the evening meal, when the event occurred.

Deacon Ackerman will be missed in our business streets. He was a genial, companionable man, always a firm and sympathizing friend, loyal to his church, devoted in his family relations, and in his life a consistent Christian. He leaves a widow, one daughter and three sons; the eldest son, James Day Ackerman, now resides in Boston, and has charge of the locomotives of the Eastern railroad at Prison point.

The annual meeting of the Rockingham Odd Fellow's Mutual Relief Association will be held at Odd Fellow's hall on Tuesday evening, Jan. 9th, at 7:30 o'clock. A full attendance is requested.

There has been only one arrival at this port this season of a trip of steak codfish, 10,000 lbs., which was brought in by one of the netters last week.

The members of the South Parish met in parish meeting at the Court street chapel on Monday evening. William H. Hackett was chosen moderator. The committee previously appointed to wait upon the pastor intimated that they were at present unable to submit any report, and the meeting after listening to certain information relating to a bequest to the parish, adjourned to assemble when a meeting shall be again called by the wardens.

The flag was flying from the Liberty bridge pole on Monday, that day (Jan. 8th) being the anniversary of the battle of New Orleans, and also of the birth of a well known ex-alderman of Portsmouth; we believe the flag was hoisted for both of 'em.

An unsuccessful attempt at burglary was made on Sunday night last, at John Kelley's clothing store on Market street, a ladder having been placed to a second store window in the rear, which however the thieves failed to open. The paint-shop of the carriage manufactory on Hanover street was previously entered, and a screw driver taken therefrom, and left in Kelly's yard.

Capt. Trefethen, of the steamer Mystic, had his back considerably hurt through slipping in the yard of his residence at Kittery one day last week, but has almost entirely recovered. By the way, Capt. "Rashe" indignantly denies the statement that the only flag displayed on the river, Christmas day, was the British ensign hoisted on a brigantine at the Eastern railroad wharf, as the Mystic's ensign and burgee were floating to the breeze all day. The steamer will shortly be taken off the river to receive a new boiler, and before she starts running again will have a new stern put on by Mr. Warren Keen, and be otherwise improved, which will make her a better boat than ever before.

It is announced that "Portsmouth has been selected as one of the relief stations in New England where a medical officer of the United States marine hospital service is to be detailed to examine vessels' crews in regard to vaccination."

Mr. Lemuel B. Caswell will send to the Messrs. Freeman of Boston by the steamer Acushnet, on her next trip, the remainder of his stock of pickled herring and mackerel, dried fish, etc., the product of his fishing at Smuttynose island last summer.

Messrs. Yeaton and Smith are cutting one hundred cords of wood for Woodbury Seavey, at his place in Rye.

On Friday evening of last week a slight fire was caused at the residence of Mr. John J. Pickering on Middle street, by a defect in the kitchen chimney; the fire was extinguished by the inmates of the house without an alarm being given, and with slight damage.

SALICYLICA.

No more Rheumatism, Gout or Neuralgia.

Immediate Relief Warranted.

Permanent Cure Guaranteed.

Five years established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylica.

SECRET!

THE ONLY DISSOLVER OF THE POISON OF URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.

SALICYLICA is known as a common-sense remedy, because it strikes circuit at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.

It has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate these diseases which are the result of the poisoning of the blood with Uric Acid.

SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Highest Medical Academy of Paris reports 56 per cent. cures in three days.

REMEMBER

that SALICYLICA is a certain cure for Rheumatism, Gout and Neuralgia, and that intense pains are subdued almost instantly.

Give it a trial. Relief guaranteed or money refunded.

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be a lasting and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Sixth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions! A gift from the great author and friend, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 2.; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most extraordinary work on Physiology ever published. There is something what ever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Argus.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conference with the author, who may be consulted on all diseases requiring skill and experience. Address

HEART DISEASE

IS YOUR HEART SOUND?

Now

Many people think themselves sick and doctor for kidney or liver troubles, or dyspepsia, while if the truth were known, the real cause is at the heart.

The renowned Dr. Clendinning, startlingly says "one-third of my subjects show signs of heart disease."

The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. He is known at **Dr. Graves' Heart Regulator** *and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

[Concluded from 1st page.]

her own until the little lieutenant returned; kissed her and left. She felt impatient with the dreadful turmoil and sorrows of the war. This poor mother, dying alone, perhaps, and the child wandering through the country! Why was there no one who could set it all right?

In the meantime Dora had hidden her basket, locked the door and kneeled down by the side of the bed. She was pouring with all the strength of her little heart to God to help her. And on the other side of the mountain, in a solitary house, her mother lay alone, her hands covering her pale, worn face, while she too spoke to the same friend, who had been her friend in whom she had trusted all her life.

Down to the valley galloped the lieutenant—a stranger to them both—promptly, he thought, by a casual likeness of the child to his sister. Yet was there not some One who heard their prayers and made of this man the agent to answer them? The One who could and would in His own good time set all this turmoil and all others right.

At the end of the day Lieutenant Graham opened the gate of the farm-house. Mrs. R— with Dora hurried to meet him.

"I know by your face you have succeeded," she said.

"Yes; the general is the most inexorable of foes as far as men are concerned, but he has a wife and children of his own. Here is a permit and an order for a guard to take the child through the pass."

The officer himself rode with the guard into the gap. "Good-by, my little prisoner. You will soon be with your mother, and I hope you will find that she will not need the medicine you are carrying to her," he said as they parted.

Dora's eyes were full of tears. "You have been so good to me," she said, dropping "Spot's" reins and holding out both hands. "I wish I could do something for you."

"Oh, be good to the first Yankee who falls into your hands, you little rebel," he replied, laughing.

There is a sequel to our little story. Mrs. Nettley, with her daughter, removed for safety to her brother's plantation in the eastern part of the state, where they remained during the war.

After a skirmish which took place in the neighborhood, Major Nettley's house, being spacious, was taken as a temporary hospital, to which the wounded of both sides were carried. Dora and her mother were busy among them, doing what they could to alleviate their sufferings until the surgeon had dressed their wounds.

There was one young man of about twenty who was wounded in the leg. Dora, as she raised his head to give him a drink of water, met his eyes. They had a strangely familiar look.

"What is your name?" she said, as she took the cup from his mouth.

"Felix Graham."

"What regiment?"

"Ensign, Fourth Michigan."

Dora ran to her mother, fairly stammering in her excitement.

"He is so like the lieutenant at the gap, mamma! And the same name! And I promised! I promised!"

Mrs. Nettley, in her turn, grew interested and excited. She went to the commandant when the time came for sending the wounded Union officers away.

"There is a young man among them," she said, "whose wound will probably prove fatal if he is moved. I owe a debt of gratitude, we believe, to one of his family—or at least to one of his name. If you will leave him I will nurse him as faithfully and well as I can."

Mrs. Nettly was a woman whose requests were granted. Felix Graham remained in her house for two months.

Four years after the war was over our old friend, Colonel Graham, (formerly lieutenant,) came home to Michigan from San Francisco, where he had engaged in business after his discharge from the army.

It was his first home-coming, and there was great rejoicing, and a gathering of all the Graham clan, big and little.

"But where is my new sister!" he said to Alice; "I wish I could have got back in time for the wedding. To think Felix went to Virginia for a wife, after all!"

"Here they come," said Alice, as steps were heard on the porch without, and the boys rushed out to meet Felix and the bride with "He's come! he's come!"

The door opened and Felix, bearded and sun-burned, came in; a shy, chubby young girl following him. Her eyes were brown, and oddly honest and frank. Colonel Graham, his hand out, stopped perplexed.

"Who?—Dora!" he said. "Dora?"

"Yes, Dora," she answered. "I kept my promise," laughing mischievously. "You told me to be good to the first Yankee who fell into my hands. Here he is: I thought the best thing I could do for him was to marry him."

Dora's mother and uncles followed her to Michigan. Since then there have been many family gatherings, where the Nettleys and Grahams—once such bitter foes—recall the events of the war, seeking only to remember how much that was human, and tender and brotherly was mingled with the terror and misery of that far-off time.

Many who never complain are nevertheless seriously ill. Use Brown's Iron Bitters and there will be no cause of complaint.

—A gentleman was talking to the owner of a ferocious dog, and asked him the question, "Do you think your dog could become fond of a stranger?" "Yes," replied the dog fancier, "if he was raw, but he wouldn't if the stranger was cooked."

Mrs Cole of Windham, N. H., declares that her life was saved by Hood's Sarsaparilla. She had 37 terrible scrofulous sores.

Philadelphia advices say at least 10,000 looms and probably 200,000 spindles are now idle in the cotton and woolen mills in that city, in consequence of the depression in trade. This enforces idleness upon 5,000 to 6,000 operatives, while probably ten times as many are working at reduced wages or shortened time.

***Better be wise by the misfortunes of others than by your own." Take warning in time. Avoid quack nostrums by which thousands annually perish. Use only such remedies as are demonstrated above suspicion, foremost among which is Kidney-Wort. For torpid liver, bowels or kidneys, no other remedy equals it. It is sold in both dry and liquid form by all druggists.

LOG ROLLING.

While Wrestling with a Fallen Tree a Lumberman Receieves Consequential Damages.

While on a hunting excursion in the great coal and wood region near Carbondale, Pa., the writer met William Coll, a lumberman. Accustomed to life and labor in the forest from early manhood, he was a true Knight of the Axe. Many a tree had fallen before his sharp axe, and fleets of rafts had borne away to market the sawed products. Coll is a character, and if Oscar Wilde is right in saying that all movements in unhindered labor are graceful, our friend William, a ripped for his work, and attacking a tree as Richard I assaulted the heavy doors of Front de Boeuf's Castle, he would have made a admirable picture.

One day, however,—but let him tell the story himself, as he told it to me:

"I was out in the woods, you know, trying to sta t a log down a hill. Thinking I could get a better purchase on it from the lower side, I tackled it there with my log-rolling hook and threw my weight on the lever. She started, she did, but as luck would have it, before I could get out of the way, she rolled right over me. If it hadn't been for a lot of small limbs and brush lying in the road, which lifted her up, she'd a crushed me flat. As it was I got up without a broken bone, but with some mighty bad bruises."

"Then you were all right," said his auditor.

"Not by a blamed sight, stranger. I took cold, rheumatism set in, and, if I hadn't heard of BENSON'S CAPCINE POROUS PLASTERS and used 'em, it's my opinion I should never have made another chip fly. But the Capcine took hold quick, and I'm 'bout as good as new. But there's one thing you kin calkilate on:—I shall never wrassle with another log unless I have the advantage of the ground. Fur, as I told you before, if it hadn't been for them brushes I'd been smashed so you could 'a sold me for a door mat."

The Capcine is the thing for rheumatism. It doesn't keep you waiting. The word CAPCINE is cut in the centre of the genuine. Price 25 cents.

BROWN'S IRON BITTERS never fails to cure all these diseases.

Boston, November 26, 1881.
Brown Chemical Co.
Gentlemen:—For years I have been a great sufferer from Dyspepsia, and could get no relief (having tried everything which was recommended) until, acting on the advice of a friend, who had been benefited by Brown's Iron Bitters, I tried a bottle, with most surprising results. Previous to taking Brown's Iron Bitters, everything I ate distressed me, and I suffered greatly from a burning sensation in the stomach, which was unbearable. Since taking Brown's Iron Bitters, all my troubles are at an end. Can eat any time without any disagreeable results. I am practically another person. Mrs. W. J. Fenn,
30 Maverick St., E. Boston.

BROWN'S IRON BITTERS acts like a charm on the digestive organs, removing all dyspeptic symptoms, such as tasting the food, Belching, Heat in the Stomach, Heartburn, etc. The only Iron Preparation that will not blacken the teeth or give headache.

A New "Niser."

A well-known place of physical refreshment in Concord—where the wearied representative seeks a restorative, where the dignified senator takes his evening smile, where the exhausted committee man is enabled to see the case through the light of the bottom of the tumbler, and where the representative from Sebastopol at a recent session, in his researches to find facts relative to the taxation of shipping, discovered that a "schooner" could be purchased for five cents—is presided over by Jack Adams, a man of such tender sensibilities that when, the other night, just as he was shutting up shop, he discovered a half frozen owl on the doorstep, he took the bird in and made it comfortable. When he retired for the night he left the owl perched upon the safe, to which one of its legs was fastened by a stout cord, and blinking with extreme gratitude and devotion. As soon as he had gone the owl bit the cord in two, devoured every fragment of food on a well-stocked lunch counter, sampled every kind of liquor in the saloon, broke all the bottles and decanters within reach, and in the morning when the doors were opened was standing solemnly behind the bar ready for business.

A sensation has been caused at Chicago by the publication of a black list compiled by the Western Association of General Passenger & Ticket Agents, comprising all persons known to have made any improper use of passes issued to them. The trial of Booker Robertson at Lynchburg, Va., for shooting and killing Capt. E. D. Craddock, Nov. 29th, 1882, in that city, was concluded Jan. 6th with a verdict of not guilty, which was received by an immense audience with applause, which officers vainly tried to quiet.

Ancient Law Makers.

About the beginning of the fifth century, the Salians, after their settlement in Gaul, under their King, Pharamond, they framed a body of laws which have since been known as Salic, but at that time those law-makers knew nothing of the wonderful discovery which works harmoniously with nature's laws, and which is a positive boon to those suffering from rheumatism, gout or neuralgia. We refer to that common-sense remedy, Salicylica.

To Please Her Husband.

Were the Words of a Good Lady, Mrs. Hawkins, who has long Suffered the Pain Common to Chronic Rheumatism. A Woman's Patience and Fortitude well shown.

Your reporter from Mrs. Hawkins at 14 Exchange St., New Haven, Conn. "About four years ago," she said, "I was then a resident of Brooklyn, N. Y. I went over one morning to the Jersey City depot to see some friends off who were started for the west. There was a strong draft of air in the depot, and in standing by the train talking to my friends I caught a severe cold. I had no more than reached my home again when I was taken with a sudden chill and I then fever set in. The outcome of all was that rheumatism settled all over me. I was entirely helpless. From this I have never recovered. You see my hands what a state they are in. Those are all chalky swellings and my limbs are very bad. While I remained in Brooklyn I tried all sorts of remedies, but I could never gain any relief. My physician said it was no use. I grew very ill and lost all strength. Finally, after coming here, to gratify my husband, I began to take Dr. Kennedy's FAVORITE REMEDY, and my general health has been better than ever before. I am stronger, have an excellent appetite, which I did not have for a long time. It has helped my rheumatism, and with a thorough trial I am in hopes of recovering completely."

Kennedy's FAVORITE REMEDY has been successfully used by thousands. It will build up a system which has been run down by overwork. It is the thing for the student and literary man to have at hand, and should be in the home of every mechanic. FAVORITE REMEDY is economical, safe and pleasant. Buy it and try it.

Home.—In calling attention to an article advertised in our columns, we are pleased to notice an excellent sign in regard to it, viz.: that the testimonials relating to Hood's Sarsaparilla are from New England people, and many are from Lowell, the home of this medicine. We are assured that the sale of this article in Lowell, where it is best known, is wholly unprecedented in the annals of proprietary medicines. We leave it with you to decide as to the probable merits of an article with such a solid foundation.

News and Notes.

The U. S. S. Pensacola arrived at Panama Dec. 27th, from Callao.

Russell Lester went from Muskeegee, I. T., to Vinita, Jan. 5th, to kill a man named Rutledge, with whom he had quarrelled. They met, and Rutledge put the contents of a double-barrelled shotgun into Lester's body, and he was taken back a corpse. Rutledge was arrested and taken to Fort Smith, Ark.

The wife of Charles E. Slocum of Plano, Ill., recently applied for a divorce, on the ground of infidelity. Friday night, Jan. 5th, Slocum sought her, confessed his guilt and promised to reform, and begged her to return to him. She refused, whereupon he drew a revolver, shot himself in the head, and died in ten minutes.

At Cheney, Washington territory, a Chinaman who murdered and robbed several Chinese women was recently taken from jail by a mob of citizens, and hanged.

The homicides in Chicago during the year 1882 are counted up at fifty-four, and only one of all the slayers was found deserving of the gallows.

THE PORTSMOUTH & YORK LINE.

The Boston *Traveller* of the 8th inst in its railroad article says: "According to present indications ample means of communication with York beach will be provided before another season. The establishment of a steamboat line will make no difference with the proposed railroad from Portsmouth to York, and the prime movers in this latter enterprise are pushing forward with great energy. The question of raising the required funds and securing the building of the road is no longer in doubt, and it is proposed to organize a company at once. The various narrow-gauge roads are being examined, and no decision has as yet been made as to whether the road shall be of three or two feet gauge. The former can be built and equipped ready for business for $100,000, while the latter will cost $90,000. Several thousand dollars' worth of stock have already been subscribed for, and the entire amount promises to be taken readily."

AROUND HOME.

Mr. Wilkes, the gentlemanly and efficient assistant manager and press agent of Callender's minstrels, is a native of Manchester, England, and has been in this country but a few months; he is an ex-newspaper man, leaving a situation on the *Dramatic News* to accept his present position. Mr. Wilkes on Tuesday for the first time in his life saw a sleigh, and thought it a comical contrivance; he also expressed the opinion that we are favored with large quantities of ice and snow in this region. Just let him wait till he reaches the British Provinces, whither the company is bound.

Capt. Samuel Hiltz is fitting out the sloop Island Belle, and will fish from this port the rest of the winter.

A South Seabrook correspondent of the Newburyport *Herald* says "It is reported that Judge Batchelder of Portsmouth will put in a claim for Seabrook beach, through titles granted to one of his ancestors."

The recent light snow has given the fox hunters a fine chance to capture the wily creatures. Monday forenoon one was shot by T. M. Bean of Newington, and another by Charles Card of Dover point.

Twelve thousand pounds of fresh fish were sold here on Tuesday, the 9th inst. The schooner Mary S. Hontvet arrived at this port from Gloucester, Mass., on that date, having sold at that place 30,000 lbs. of Georges haddock. The Boston fresh fish market was reported as heavily glutted.

A large number of claims by the former owners of ships owned in this port, and their legal representatives, has been sent to the Court of Commissioners of Alabama claims at Washington, D. C., this week. Hon. Jas. W. Emery is counsel for many of the parties in this city.

Two of the big steam colliers which have frequently brought cargoes to this port during a number of years past, have recently got into trouble. The Williamsport was towed into Delaware breakwater on the 7th inst., having lost her propeller, and the Allentown, from Philadelphia bound for Salem, got aground below Chester, Pa., on the 8th; lighters were sent to the aid of the latter at once.

We are informed that Miss Edith Wendell, the favorite young soprano of this city, started on Saturday morning last for Chicago, being accompanied by Miss Daisy Hall of Boston, a young contralto of much merit; at Chicago they join Camilla Urso, the great violinist, for a concert tour through the west and south.

For two or three days past men have been engaged in trying to spear eels through holes cut in the ice on the north mill pond. We have not supposed that any living creature could be found in that cesspool; and if eels are found there bedded in the putrid mud, they must be totally unfit for human food.

The towboat Mary J. Finn, which arrived at this port from Boston on Wednesday of last week with two scows in tow for Portland, after taking in coal and water made a start with her tow next day, but soon returned, the weather not wearing a favorable look. She remained quiet until Monday of this week, when she made another attempt to proceed to her destination, but found the wind blowing strong from the eastward, and a heavy sea running outside the harbor, so she came back once more and made a berth at C. E. Walker & Co.'s wharf, where she took in some more coal to be in readiness to make a fair start in case there should ever be any more good weather. She finally got away at seven o'clock Tuesday morning, and as she had not returned at sundown has probably completed her trip before this time.

There are about a hundred livery stable horses wintered in this city, and their owners are pining for a nice little snow storm. There are few places in New England of the size of Portsmouth that can show finer turnouts of teams, sleighs or hacks.

It is reported that several pounds of eels, taken from the north mill pond, were sold at one of the stores last Saturday.

Storer Post, G. A. R., of this city, will have a public installation of officers on Wednesday evening, the 17th inst., in their hall on Daniel street.

A man named Goodwin refused to pay taxes in Kittery on the ground that he belonged down east. The authorities subsequently obtained evidence that while living at the place where he said he belonged, he claimed Kittery as his residence. He was accordingly again presented with the bill, but would not pay until the collector drew a revolver, as the story goes. He has since prosecuted Selectman Philbrick for assault and battery, although the latter says he never saw Goodwin. The trial will take place this week.

On Tuesday morning, the 9th inst., a freight car ran off the track as the train to which it was attached was going through the Salem tunnel, blockading the way for a short time. The trains bound east were made up at this end of the tunnel, and passengers, baggage, etc., from Boston were transferred to them. The train due here at ten o'clock A. M. was delayed only forty minutes.

Mr. Albert H. Hanscom, who during the summer months held the position of general freight agent on the steamboat Mt. Desert, running from Rockland to Mt. Desert, is at home for a few days on a visit.

The late Joseph D. Ackerman was a conductor on the Eastern railroad for twelve years, before going into the express business; when a boy he had some experience as a sailor, but did not long follow a seafaring life. He was a Knight Templar and Odd Fellow of long standing, and at the time of his death was a member of the United Order of the Golden Cross.

Kittery Point has within a few weeks lost by death two of its most prominent citizens—Dr. Eli Q. Adams, the only resident physician of the place, and Rev. James H. Rowell, pastor of the Christian church at the Point, who died on the 7th inst.

John A. Wheeler, for fourteen years past postmaster at Kennebunkport, died Jan. 6th, at the age of sixty-two years.

The following-named members of the Massachusetts legislature are natives of York county: John W. Leighton, born in Eliot on Feb. 26th, 1828; Geo. W. Littlefield, born in Kennebunk; Samuel M. Davis, born in Parsonsfield on Feb. 24th, 1820; David M. Richardson, born in Limington.

Alfred Willett, a provision dealer of Biddeford, on the night of the 6th inst. reported at the police station in that city that he had been robbed of $800 by several men who clapped a plaster over his mouth, knocked him down, and took the money from his vest pocket. Notwithstanding the fact that he carried the plaster (a piece of brown paper with molasses on it) to the police station, the officials discredit his story—and more than ever since he announced that in consequence of the robbery he can only pay his creditors thirty or forty cents on a dollar.

Cuticura

THE NEW BLOOD PURIFIER

Resolvent

I will now state that I made a miraculous cure of one of the worst cases of skin disease known. The patient is a man forty years old; had suffered fifteen years. His eyes, scalp and nearly his whole body presented a frightful appearance. Had had the attention of twelve different physicians, who prescribed the best remedies known to the profession, such as iodide potassium, arsenic, corrosive sublimate, sarsaparilla, etc. Had paid $500 for medical attendance with but little relief. I prevailed upon him to use the Cuticura Resolvent internally, and the Cuticura and Cuticura Soap externally. He did so and was completely cured. The skin on his head, face, and many other parts of his body, which presented a most loathsome appearance, is now as soft and smooth as an infant's, with no scar or trace of the disease left behind. He has now been cured 12 months.

Reported by

F. H. BROWN, Esq., Barnwell, S. C.

Scrofula Sore.

Rev. Dr. Dorr, in detailing his experience with the Cuticura Remedies, said that through them Providence one of its parishioners was cured of a scrofula sore, which was slowly drinking away his life, by the Cuticura Resolvent internally, and Cuticura and Cuticura Soap externally. The poison that had fed the disease was completely driven out.

Eczema.

Sixteen months since an eruption broke out on my leg and both legs swelled, which turned out to be Eczema, and caused me great pain and annoyance. I tried various remedies with no good results, until I used the Cuticura Resolvent Internally and Cuticura and Cuticura Soap externally, which entirely cured me so that my skin is as smooth and quiet as ever.

ELLEN M. FRAILEY, 64 South St., Boston.

Cuticura.

The Cuticura treatment, for the cure of Skin, Scalp and Blood diseases, consists in the internal use of Cuticura Resolvent, the new Blood Purifier and the external use of Cuticura and Cuticura Soap, the great skin cures. Price of Cuticura, small boxes, 50c.; large boxes, $1. Cuticura Resolvent, $1 per bottle. Cuticura Soap, 25c.; Cuticura Shaving Soap, 15c.

DIPHTHERIA!

THE PROSTRATION which follows Diphtheria, and the persistency with which it clings to the patient, are well known to all who have had any experience with this terrible disease.

The following letter shows how the restoring and invigorating properties of

Hood's Sarsaparilla

overcome it, and how by vitalizing and enriching the blood it neutralizes and eradicates the poisoned matter from it, bringing to the convalescent the color, life and vigor of robust health.

LOWELL, MASS.

MESSRS. C. I. HOOD & CO. Gentlemen—My little girl had the diphtheria last April. The disease left her very weak, blood poor, with no appetite, and she could not seem to rally from its effects. HOOD'S SARSAPARILLA was recommended by a neighbor. After she had been taking it a few days we noticed a change for the better—she began to eat with a relish. It seemed to take out the poison the disease had left in her blood, the change being very noticeable in her face. She took it two months and fully regained her health, much to our delight. We now recommend HOOD'S SARSAPARILLA with a great deal of pleasure. Very truly yours,

J. R. SMITH,
19 Butterfield Street.

"That Extreme Tired Feeling."

"The first bottle has done my daughter a great deal of good; her food does not distress her now, nor does she suffer from *that extreme tired feeling* which she did before taking HOOD'S SARSAPARILLA."

Sold by all druggists. Price $1 a bottle or six bottles for $5. Prepared by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

Hood's Tooth-Powder, Only 25 Cents.

THE WEEK OF PRAYER.

Wednesday, Jan. 10th. Prayer for Families—For parents, children, and the household—that all connected with the training and education of the young may be deeply impressed with the vital importance of scripture instruction, and that the absolute need of the power of the Holy Spirit in all departments of this great work may be realized; for the cultivation of every moral virtue, for integrity, purity and piety in the home life; and for a special blessing upon Sunday schools. Prov. viii: 17-21, 32-35; Acts ii: 16-21.

CORPORATION ELECTIONS.

The annual elections of the several banking establishments of this city were held on Tuesday, Jan. 9th, and officers chosen as follows:

New Hampshire National Bank—Edwin A. Peterson, True M. Ball, Daniel Marcy, Thomas A. Harris, Henry F. Wendell, Washington Freeman, Frank A Philbrick, directors; Edwin A. Peterson, president; Lafayette S. Butler, cashier.

Portsmouth Trust & Guarantee Company—Jeremiah F. Hall, Frank Jones, Ezra H. Winchester, Daniel Marcy, John Sise, William D. Fernald, Jeremiah Sanborn, Edwin A. Peterson, Calvin Page, Samuel J. Gerrish, directors: Jeremiah F. Hall, president; Frank Jones, vice president; Charles H. Rollins, treasurer. [Resolutions of respect to the memory of the late Thomas H. Odion were offered by Calvin Page, Esq., and after remarks by Messrs. Page, Hall and Hackett, were unanimously adopted.]

First National Bank—Edward P. Kimball, Wm. H. Hackett, Wm. L. Dwight, Ezra H. Winchester, John H. Broughton, William H. Goodwin, Robert C. Peirce, directors; E. P. Kimball, president; Robert C. Peirce, acting cashier.

National Mechanics & Traders' Bank—John Sise, William H Rollins, Charles H. Mendum, John S. Pray, Joseph W. Peirce, Andrew P. Preston, directors; John Sise, president; James P. Bartlett, cashier.

Rockingham National Bank—John J. Pickering, George W. Haven, John S. H. Frink, T. Salter Tredick, William A. Peirce, Francis E. Langdon, directors: John J. Pickering, president; John P. Hart, cashier.

A SILLY BILL.

The bill to establish the "Bureau of Mercantile Marine of the Navy Department," introduced in the house by Representative B. W. Harris of Massachusetts, has the following section:

SEC. 14. That the powers and duties relating to the registry, enrollment, or license of vessels and their admeasurement for tonnage, now exercised or performed by the collectors and surveyors of customs, shall hereafter be exercised or performed by the local inspectors of steam-vessels; and all records relating to said registry, enrollment, and license, or to the sale, transfer, or hypothecation of vessels, now required to be kept in the offices of the collectors of customs, shall hereafter be kept in the offices of the local inspectors.

This will give all owners of vessels and parts of vessels on the coast a chance to make a journey of fifty or a hundred miles to examine the records of vessel conveyances, or to take out a license. As we have no local inspectors of steam vessels in New Hampshire, our citizens would be compelled to transact their business of this nature in Boston and Portland—an inconvenience almost unparalleled in public business, and yet nothing could be saved in the way of fees. The whole bill is a wretched conglomeration of nonsensical ideas, and if Mr. Harris seriously favors the passage of the bill it is well for the country that his successor in Congress is chosen.

CAPITAL WANTED.

Major Urch is trying to organize a stock company in this city for the manufacture of his patent anchor. We hope he will succeed. The major is in constant receipt of inquiries concerning his invention, and as to when he will manufacture the same for the market. The anchor is a good one, and must find a ready sale. This is the opinion of every sea captain and business man who has examined it, as well as of the committee who conducted the remarkable test of its strength and holding qualities nearly a year ago. Capital is the thing needed, and there is enough of it lying idle in this city, if rightly used, to start several industries here, and we think none would pay better than the one above alluded to.

WHO ARE THEY?

The thieves who broke into the clothing store of Doe & Kelsey at Newmarket one night last week, effected an entrance in the same way as was attempted on Sunday night at John Kelly's clothing store in this city,—by placing a ladder to a second story window. There have been a number of burglaries committed in this section within a few months past, all bearing the same ear-marks; and when the thieves are found out,—as they will be in time unless they give up the business,—it will probably be discovered that the depredations are the result of "local enterprise," and all committed by the same persons. In the robbery of a clothing store in South Berwick, Me., of Myers & Co.'s store in this city, and of Doe & Kelsey's in Newmarket, entrance was in each case effected by breaking a pane of glass in a rear window, and then throwing back the catch; and in each case only the high-priced articles were taken, showing that the thieves are acquainted with the ready-made-clothing business. At the South Berwick robbery, and at Myers & Co.'s, the thieves left behind them suits of old clothes, but probably this was only a "blind," intended to convey the impression that the crimes were the work of tramps. Tramps would not be able to pick out the best articles every time on sight, nor could they dispose of hundreds of dollars' worth of such bulky goods without detection.

RELIEF CORPS SOCIABLE.

The entertainment and supper given by the Ladies Relief Corps of Storer Post, G. A. R., on Monday evening last, was a great success, and must have netted a snug little sum. The hall was thronged until midnight, and the tables, which fairly groaned beneath the weight of good things, were crowded from seven to eleven o'clock. The musical and literary portions of the entertainment were excellent, and favorably received; especially so were the readings of Miss Fannie Deverson, than whom we have no better lady reader in our city, her accentuation and pronunciation being wonderfully clear and distinct. The singing of Miss Grace Varrell and Miss Grace Wendell was finely done, the little misses being obliged to respond to several encores. The Grand Army quartette sang several pieces, and brought down the house, as they always do. We learn that the ladies of the Relief Corps are to give evening entertainments fortnightly, to raise money to meet the constant demands upon their relief fund.

THE CALLENDER CONCERT.

The concert at Music hall on Monday evening last, by Callender's minstrels, drew a fair audience, the gallery being filled, though there were a good many empty chairs on the lower floor. The entertainment offered was varied, interesting, and amusing; the singing was good, and much of it excellent, the chorusses being rich and harmonious; the zouave drill was the best thing of the kind yet put on the stage, the fight between a darkey and a bantam rooster was amusingly ridiculous, and the performance as a whole was the best of the kind we are likely to see this season, unless the same minstrels return, which we believe they propose to do in nine or ten weeks

---

The funeral of Mr. Joseph D. Ackerman will take place at noon on Thursday, Jan. 11th, from the Middle street church.

The Probate court was in session in this city on Tuesday of this week, Judge Leavitt presiding. The afternoon was devoted to the hearing of objections to the account of Daniel Marcy as administrator of the estate of Joseph Amazeen, in which it was sought to charge the administrator with certain items for which he did not admit he was chargeable. Decision reserved. Wiggin for Morse, one of the heirs; Frink & Batchelder for the administrator.

Col. Andrew H. Young of Dover, ex-collector of internal revenue for this district, was in town on Tuesday, and visited the office of the collector of internal revenue in the United States court house. Col. Young also visited Tenney's studio on Congress street, to examine the portrait of Dover's former distinguished lawyer, the late Daniel M. Christie.

The funeral services of the late Joseph Day Ackerman, on the part of De Witt Clinton Commandry of Knights Templar, will be conducted in the Middle street Baptist church, after the conclusion of the church services. The Commandry will assemble at the asylum at 11:15 o'clock A. M. and march to the church, and immediately after the services will return to the asylum, only the pall bearers accompanying the remains to the tomb.

Don't Forget the "Sozodont,"

but use it regularly after every meal. It imparts a pleasant flavor to the mouth, changes offensive secretions into healthful, invigorates the gums, and cleanses the interstices of the teeth. Like old Hercules, it purifies the Augean stables which some have in their mouth.

Why There was an Excitement.

On Tuesday, Dec. 19 (always Tuesday,) the 17th Grand Drawing of The Louisiana State Lottery, under the sole management of Gen'ls G. T. Beauregard of La., and Jubal A. Early of Va., took place. Here are some of the results of the scattering of the $342,500: Ticket No. 34,516 dr w the capital prize of $10,000, and it was sold in tenths at one dollar each. Among some of the holders were Miss Kingsley, a resident with Charles T. Yerkes, Esq., former President of the Kingston National Bank, No. 1721 Master st., Philadelphia; Mr. John Coleman, a carriver on Metropolitan Horse Railway at Roxbury District Station, Boston, Mass.—and here taught us need to notice a slight coincidence—first the same man in Nov '81 (only a year ago,) drew $15,000; Thos. F. Bell, of No. 826 East Fifth st., South Boston, Mass.; Harper's Price, 137 County st., Cincinnati, Ohio. Ticket No. 94,135, held in N. O., drew the second capital prize of $50,000. Ticket No. 31,541 drew the third capital prize, $20,000—sold in fractions also—among others twenty-tenths (costing two dollars) gave Mrs. Harriet Woodman, of Vesper P. O., Onondaga Co., N. Y., a Christmas present of $4,000; and a similar amount for like investments were paid to parties (we do not wish their good deeds known) in Ft. Wayne, Ind., and San Francisco, Cal. Tickets No. 13,242 sold to residents in Grenada, Miss., and L. Shelton, (through the Kentucky Nat'l Bank,) No. 24,196 in N. O., and Geo. C. & D. Ayres, Danville, Va.—each drew $ 0,000. Nos 14,083 in Chicago and New York; 45,357 in N. O. and St. Louis; 69,838 in Chicago and Washington, D. C.; 80,904 sold in St. Louis—each drew $5,000. The next drawing occurs February 15th.

Five years established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylica.

SECRET!

DU ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.

SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.

It has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate these diseases which are the result of the poisoning of the blood with Uric Acid.

SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. His best Medical Academy of Paris reports 95 per cent. cures in three days.

REMEMBER

that SALICYLICA is a certain cure for Rheumatism, Gout and Neuralgia. The most intense pains are subdued almost instantly. Give it a trial. Relief guaranteed or money refunded.

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt their manhood should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality imparted by the errors of youth, or too close application to business, may be restored and manhood regained.

Sixth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains 5 autotype and very expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt, price, only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

HEART DISEASE

Now IS YOUR HEART SOUND?

Many people think themselves sick and doctor for kidney or liver troubles, or dyspepsia, while if the truth were known, the real cause is at the heart.

The renowned Dr. Graves, of London, says: "one-third of my subjects show signs of heart disease."

The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. It is known as Dr. Graves' Heart Regulator *and can be obtained at your druggists, $1 per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

Memorial to a Revolutionary Hero.

In accordance with a vote of the town of Framingham, Mass., passed last April, the committee in charge of the matter has placed a neat granite memorial over the grave of Peter Salem, and it bears the following inscription: "Peter Salem, a Soldier of the Revolution, Died Aug. 16, 1816. Concord, Bunker Hill, Saratoga. Erected by the town, 1882." Peter Salem was the colored man who particularly distinguished himself in the revolutionary War by shooting down the gallant British major of marines, Pitcairn, at the battle of Bunker Hill, as he was mounting a redoubt and shouting, "The day is ours!" this being the time when Pitcairn fell back into the arms of his son. Peter Salem served faithfully in the war for seven years in the companies of minute men under the command of Capt. John Nixon and Capt. Simon Edgell of Framingham, and came out of it unharmed. He was a slave, and was owned, originally, by Capt. Jeremiah Belknap of Framingham, being sold by him to Major Lawson Buckminster of that town, and afterward becoming a free man when he joined the army.

Glad he did not Club Him.

Policeman Doyle, of New York, saw a drunken man fall in front of a rapidly driven truck, and dragged him from under the feet of the horses before he was crushed. He was taken to the station and there described himself as Daniel Tolls, an English sailor, aged thirty-five years. He said that he had intended to sail for Liverpool that day, but that he had a few hours before been robbed of £40 in a Chatham street dive. His vest and coat were torn. In searching his pockets the policeman found four metal tubes, six inches long by one inch in diameter. They were capped at one end, and were regarded as mysterious. The man, when asked what the tubes were, replied, "Dynamite cartridges." The policeman was so startled at this that he would have dropped the cartridges on the floor, but for a warning cry from Captain Webb, who divined what he was about to do. Handling them gingerly, he laid them upon the desk and then stepped back, exclaiming, "Suppose it had been necessary for me to club the man, and I had struck one of those cartridges? The Englishman said that he intended to take the cartridges on the vessel and use them in killing fish on the way over by dropping them into the water.

Constable Dan Weiser was shot and killed and his son Robert Weiser severely wounded, Jan. 6th, while attempting to arrest a young man named Thomas Cobb at the house of his father, five miles south of Valley Falls, Kansas. Cobb escaped. He is about nineteen years of age.

Postmaster Winstead of Lona, Ark., placed a double-barrelled-gun trap inside his door, so that when opened it would pull the trigger. Without thinking he went back and opened the door, and was instantly killed by the contents of the gun entering his body.

Your health depends on the purity of your blood. People who realize this are taking Hood's Sarsaparilla with the best results.

The horses attached to a hearse at the funeral of Miss Margaret Street at Slatterville, Md., became unmanageable, and the hearse collided with one of the carriages, and so excited John Robinson, one of the inmates, that he fell over into the arms of a friend riding with him, and instantly expired.

Our Progress.

As stages are quickly abandoned with the completion of railroads, so the huge, drastic, cathartic pills, composed of crude and bulky medicines, are quickly abandoned with the introduction of Dr. Pierce's "Pleasant Purgative Pellets," which are sugar-coated, and little larger than mustard seeds, but composed of highly concentrated vegetable extracts. By druggists.

Yorkey Pete, the noted St. Louis bootblack, who founded a boys' home in that city, and was for years regarded as a model leader of the wielders of the brush, has gone wrong. While on a trip further west, he boarded a railroad train at Truckee, Cal., robbed the passengers of a sleeping car, and has been sent to prison for two years.

Ugly And Hateful,

but I couldn't help it. Everything went wrong with me, and I thought I hadn't a friend in the world, dyspepsia caused this, and for months I couldn't eat anything and just suffered in misery till I used Sulphur Bitters, three bottles cured me.—*Dr. Lewis, 22 Bowdoin St., Boston.*

LOG ROLLING.

While Wrestling with a Fallen Tree a Lumberman Receives Consequential Damages.

While on a hunting excursion in the great coal and wood region near Carbondale, Pa., the writer met William Cobb, a lumberman, who confessed to life and I bor in the forest from early manhood, he was a true Knight of the Axe. Many a tree had fallen before his ringing strokes, and fleets of rafts had borne away to market the sawed products. Coll is a character, and if Oscar Wilde is right in saying that all movements in unhindered labor are graceful, our friend William, a tipped for his work, and attracted the eyes as Richard I assaulted the heavy doors of Front de Beuf's Castle, must have presented a admirable picture.

One day, however,—but let him tell the story himself, as he told it to me:

"I was out in the woods, you know, trying to cut a log down a little, thinking I could get a better purchase on it from the lower side, I backled it there with my log-rolling hook and threw my weight on the lever. She started, she did, but as luck would have it, before I could get out of the way, she rolled right over me. If it hadn't been for a lot of small limbs and brush lying in the road, which limited her up, she'd a crushed me flat. As it was I got up without a broken bone, but with some mighty bad bruises."

"Then you were all right," said his auditor.

"Not by a blamed sight, stranger. I took cold, rheumatism set in, and, if I hadn't heard of BENSON'S CAPCINE POROUS PLASTERS and used them, it's my opinion I could never have made another chip fly. But the Capcine took hold quick, and I'm 'bout as good as new. But there's one thing you kin calculate on:—I shall never wrastle with another log unless I have the advantage of the ground. Fur, as I told you before, if it hadn't been for them brushes I'd been smashed so you could a sold me for a door mat."

The Capcine is the cure for rheumatism. It doesn't keep you waiting. The word CAPCINE is CUT in the centre of the genuine. Price 25 cents. Seabury & Johnson, Chemists, New York.

THE

New Hampshire Gazette !

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter
Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a week's invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

no longer from Dyspepsia, Indigestion, want of Appetite, loss of Strength lack of Energy, Malaria, Intermittent Fevers, &c. BROWN'S IRON BITTERS never fails to cure all these diseases.

Boston, November 26, 1881.
BROWN CHEMICAL CO.
Gentlemen:—For years I have been a great sufferer from Dyspepsia, and could get no relief (having tried everything which was recommended) until, acting on the advice of a friend, who had been benefited by Brown's Iron Bitters, I tried a bottle, with most surprising results. Previous to taking Brown's Iron Bitters, everything I ate distressed me, and I suffered greatly from a burning sensation in the stomach, which was unbearable. Since taking Brown's Iron Bitters, all my troubles are at an end. Can eat any time without any disagreeable results. I am practically another person. Mrs. W. J. Flynn,
30 Maverick St., E. Boston.

Consumption Cure.

Dr. R. V. Pierce: Dear Sir—Death was hourly expected by myself and friends. My physicians pronounced my disease consumption, and said I must die. I began taking your "Discovery" and "Pellets." I have used nine bottles and am wonderfully relieved. I am now able to ride out. Elizabeth Thornton, Montongo, Ark. *a*

"Ladies' Tonic,"

The Great Female Remedy is prepared by the Women's Medical Institute of Buffalo, N. Y., and is their favorite prescription for ladies who are suffering from any weakness or complaints common to the sex. It is sold by druggists at $1.00 per bottle. Ladies can obtain advice free. Send stamp for names of those who have been cured.

—On Christmas eve a bright five-year-old girl in Hartford, Conn., wrote an affectionate letter to Santa Claus, enumerating presents she wished on the following morning. On going to bed she took her old dilapidated doll of last Christmas with her, and told her parents she "guessed she would take her old dolly to bed with her, for if Santa Claus should see how she had used it he wouldn't give her another one."

—Chicago girls never go to the theatre with a young man without taking along enough money to buy tickets for both. Then, if the chap discovers that he has been "robbed," they don't have to walk around until the play is over.

Sprains, lameness, pains and stitches, weak back or disease of the spine will be immediately relieved on application of a *Hop Plaster* over the affected part. It's penetrative power is wonderful. Warranted to be the best made.

—The Louisville *Courier-Journal* prints under the general head, "A horrible record of Christmas crimes," an account of a fashionable wedding at Covington. The bride and groom must feel happy over this classification of their matrimonial venture.

—"Hungry Joe," the baron steerer, who "took in" Oscar Wilde, ought to be pensioned with a good dinner every day for a month. It was just the finishing stroke needed for the conceit of that "aesthetic ass" before his departure for London, a very much played-out young man.—*Herald.*

For Thick Heads,

Heavy stomachs, bilious conditions, "Wells' May Apple Pills," anti-bilious, cathartic. 10 and 25c.

—The dangers of sleigh-riding are very great. A young man in Connecticut started to kiss the girl in the cutter beside him, while the horse was going at a three-minute gait. Just as he was about to sip the sweets from her pouting lips, the cutter struck a stone. The girl had her nose broken, and the young man lost two of his best front teeth. They have not spoken since.

Webster, the lexicographer, defines catarrh to be, "a discharge of fluid from the mucous membrance, especially of the nose, fauces, and bronchial passages," caused by a cold in the head. It is a disease common alike to all classes of society. Unlike an ordinary cold, it cannot be cured by family remedies, but requires an antidote from the ranks of *materia medica*. The preparation so universally known under the name of Ely's Cream Balm is a sovereign, unfailing cure for catarrh. It is a neat, pleasant, yet thoroughly efficacious remedy. "I have been troubled with catarrh so badly," writes B. F. Leipsner, A. M., of Red Bank, N. J., "for several years that it seriously affected my voice. I tried various remedies without relief. One bottle of Ely's Cream Balm did the work. My voice is fully restored and my head feels better than for years." 50 cents only.

—A poet in the New York *Sun* compares Freddie Gebhardt to a goat. This is frightfully absurd, as everybody knows that a goat's weak point is not his head.—*Post.*

Human Blood.—On the purity and vitality of the blood depend the vigor and health of the whole system. Disease of various kinds is often only the sign that nature is trying to remove the disturbing cause. A remedy that gives life and vigor to the blood, eradicates scrofula and other impurities from it as Hood's Sarsaparilla undoubtedly does, must be the means of preventing many diseases that would occur without its use. Sold by dealers.

—A New York despatch says that the "arrangements are being made for a club for authors in this city." New York is far behind the Golden West in this matter. Out that way, every leading news paper has a club for authors.

"Humanity's great hope for the future is alone to be realized in improved conditions of matrimony. What a profound obligation does this fact involve! Those who realize the responsibility can hardly do better than take advice from Mrs. Lydia E. Pinkham, whose wonderful remedies for the cure of all diseases peculiar to women are so justly celebrated. Send for pamphlet.

—General Ben Butler, the new governor of Massachusetts, has a vast amount of work before him this year. It is understood that he is to drive out the cormorants from the state government, and set up a clean administration. The evil-doers have been in terror ever since his election, and he has lately been looking at them in a way that ought to make them tremble.—*New York Sun.*

What is needed is pure blood, as the influence of its purity upon the health cannot be overestimated. When it becomes impure, it gives rise to a large number of diseases, such as biliousness, sick headache, dyspepsia, loss of appetite, low spirits, nervousness, female complaints, etc. The success which has attended the use of Swedish Botanic Compound warrants us to say that for purifying and enriching the blood, creating an appetite, strengthening and renovating the whole system, nothing surpasses that great remedy.

—"Is domestic cooking a necessity on the Sabbath day?" is a recent conundrum. In reply: A great deal of the domestic cooking done on Sunday and on other days as well is a positive crime. There is no necessity for such cooking at all.

Why are you ill? Why do you suffer? Everybody knows all aches and pains, all languor and debility are cured by Brown's Iron Bitters.

To Please Her Husband.

Were the Words of a Good Lady, Mrs. Hawkins, who has long Suffered the Pain Common to Chronic Rheumatism. A Woman's Patience and Fortitude well Shown.

Your reporter from Mrs. Hawkins at 14 Exchange St., New Haven, Conn. "About four years ago," she said, "I was then a resident of Brooklyn, N. Y. I went over one morning to the Jersey City depot to see some friends off who were started for the west. There was a strong draft of air in the depot, and in standing by the train talking to my friends I caught a severe cold. I had no more than reached my home again when I was taken with a sudden chill and then fever set in. The outcome of all was that rheumatism settled all over me. I was entirely helpless. From this I have never recovered. You see my hands what a state they are in. Those are all chalky swellings and my limbs are very bad. While I remained in Brooklyn I tried all sorts of remedies, but I could never gain any relief. My physician said it was no use. I grew very thin and lost all strength. Finally, after coming here, to gratify my husband, I began to use Dr. Kennedy's FAVORITE REMEDY, and my general health has been better than ever before. I am stronger, have an excellent appetite, which I did not have for a long time. It has helped my rheumatism, and with a thorough trial I am in hopes of recovering completely."

Kennedy's FAVORITE REMEDY has been successfully used by thousands. It will build up a system which has been run down by overwork. It is the thing for the student and literary man to have at hand, and should be in the home of every mechanic. FAVORITE REMEDY is economical, safe and pleasant. Buy it and try it.

Home.—In calling attention to an article advertised in our columns, we are pleased to notice an excellent sign in regard to it, viz.: that the testimonials relating to Hood's Sarsaparilla are from New England people, and many are from Lowell, the home of this medicine. We are assured that the sale of this article in Lowell, where it is best known, is wholly unprecedented in the annals of proprietary medicines. We leave it with you to decide as to the probable merits of an article with such a solid foundation.

Terrible Disaster.

At Milwaukee, Wis., Jan. 10th, the Newhall house, a six-story hotel, took fire at four o'clock in the morning, and was burned to the ground. It had long been considered a death-trap, and proved so. The employes of the hotel, numbering eighty-six, were mostly lodged in the sixth story; their escape was cut off, and many were either burned to death or killed by jumping from the windows. The house accommodated 800 guests, but fortunately was not full, or the loss of life would have been far greater; as it was, twenty or thirty guests are dead, and others wounded.

Thirty-two dead bodies were recovered from the ruins, or taken from the pavements, within a few hours, and it was believed the total number of lives lost was sixty or more, with over thirty other persons badly injured, some fatally. Mrs. John Gilbert, of the Minnie Palmer troupe, a bride of two days, was burned to death in sight of the multitude.

Three fire engines were sent from Chicago, and it is said the train made the run to Milwaukee, ninety miles, in about one hour.

Death of Mr. Morrill.

Hon. Lot M. Morrill of Maine died at Augusta on Wednesday, Jan. 10th, at ten o'clock in the forenoon, in the 68th year of his age. His life was a long and useful one, and throughout his extended public career there was no stain on his name. His political record is that of the statesman rather than the partisan.

Electric Lighting.

Rapid Development of the Business—Exceptionally Large Profits.

Lighting by electricity is no longer an experiment; its success as an illuminant, as well as an established commercial enterprise, capable of yielding handsome profits to those who invest their money in the introduction and development of the new light, is no longer a matter of conjecture. As a business enterprise, electric lighting is well established in this country, and we can see no reason why it will not yet assume as prominent a position among sound and legitimate business enterprises as the gas companies ever held. It is estimated that over 70,000 electric arc-lights are now in use in the United States, and if the different companies could supply the rapidly increasing demand for electric lights, this number would be nearly doubled during the coming year. If well managed, electric lighting will no doubt yield larger profits to its shareholders than gas, and give the consumer a greater quantity of light at less cost.

The rapid development of the electric light business throughout the United States is attracting the attention of capitalists, generally, as a chance for legitimate investment much above the average business investments of the present time. It is said that the original investors in the Brush Electric Light company are getting forty per cent on their stock. The New England Brush company has paid ten per cent since its organization, and on the 15th of this month the company pays a thirty per cent extra dividend. This is simply cited to show the value of stock in electric light companies as an investment. While all the electric light companies doing business in New England are to be commended for their energy and the rapid development of their business, none have made such strides in the way of extending their operations during the past few months as the American Electric & Illuminating company.

The American lights are now well and favorably known in Boston and elsewhere where the system is in use. The Massachusetts Charitable Mechanic association have recently adopted the American light for permanent use, in preference to the "Brush" lights, which it has used in the Mechanics' association building since it was opened. Nearly 100 American lights are now in use in this building. The American lights are now coming into general use by many of the best business houses in the city, and the demand for new lights is greater than the company can supply with their present facilities. The company invites comparison with any or all systems now in use, which of itself shows their faith in the intrinsic merits of their light.

The rapid development of the business, and the increasing public demand for its electric lights having far exceeded the expectations of the management, the company is now offering a block of eight per cent preferred treasury stock to the public for subscription, the proceeds of which will be used altogether for the purchase of additional electric apparatus to facilitate the rapid extension of its business.

Shares $10 each, and non-assessable. The preferred stock bears eight per cent per annum, payable four per cent semi-annually, on the 1st days of March and September of each year.

For every two shares of preferred stock subscribed for at par, one share of the common stock will be given as a bonus, and with the progress now being made by the company in extending its business, the common stock should sell for its par value within one year from date.

A movement is now on foot among the large stockholders and a number of prominent capitalists to have the stock regularly listed on the stock exchange, which, if done, will serve to make it one of the most active and best investment stocks on the market. Those who are looking for a chance to invest money profitably should call at the office of the company, No. 28 School street, Boston.—*Boston Daily Post*, Jan 8th, 1882.

News and Notes.

A horse recently ran away in Bangor, Me., plunged through a dozen streets, then took the railway track, ran two miles, crossing one bridge and jumping several culverts, and finally pulled up six miles from town unhurt.

As Mr. F. B. Merrill was being taken to the hospital, after losing a leg by falling under a moving train in Portland, Me., he coolly remarked: "What a fool I am! Here I have said so much, time and time again, about people jumping on and off trains, and now to be caught that way myself."

The secretary of the treasury has authorized the coinage of a five-cent nickel piece of a new design. The new coin weighs twenty-one millimetres, (which is one millimetre more than the present coin) and is a little larger and thinner than the new one now in circulation. On the face of the new coin is a female head surmounted with a fillet, upon which is inscribed the word "Liberty," the whole being surrounded by thirteen stars. The reverse side contains a wreath surrounding a Roman numeral representing the denomination of the coin.

C. L. Doxie, republican, has been elected to Congress by 1500 majority, to fill the vacancy caused by the death of Godlove S. Orth of Indiana.

Polk, the thieving treasurer of Tennessee, was captured in Texas near the Mexican line on the 9th inst. His nephew and servant, with a lot of the stolen money, got across the line.

None of the sound steamers were able to make their trips on the night of the 9th inst., on account of the storm.

The verdict of the coroner's jury at Bangor, Me., in the case of Dr. A. J. Pickard, killed by a Maine Central train, Dec. 26th, is that the neglect of employes of the railroad to sound the whistle and to ring the engine bell at the proper time, and the unusual and excessively fast rate of speed of the train at the time, thereby not giving warning of the approach of the train in season to avoid a collision, caused the death of the doctor.

Duane Brown, while chopping trees for George L. Spear in Braintree, Vt., Jan. 8th, was instantly killed by a limb of a tree striking him on the head.

Chauncy Gowly, a farmer aged about fifty years, living at Berlin, four miles from Montpelier, Vt., while returning home from Montpelier late Saturday evening, Jan. 6th, fell from his sleigh and froze to death.

At J. H. Gates & Co.'s mill in Burlington, Vt., Jan. 8th, Alfred J. Goodhue was using a circular saw when a piece of timber flew and struck him, completely crushing in the side of his face, breaking his forehead and cheek bone, and jaw. The surgeons hope to save his life.

By a boiler explosion at Bethlehem, Pa., Jan. 9th, four men and a woman were killed; several other persons are missing.

By an explosion in Jones & Nesbitt's mine at Coulterville, Ill., Jan. 8th, ten men were killed out of twelve in the mine at the time.

Michael Franklin, who had both legs cut off by a Grand Trunk train at Portland, Jan. 8th, died next day.

At a meeting of the state fish commission, held at Manchester on the 9th inst., Geo. W. Riddle of Manchester was elected chairman. One hundred thousand Penobscot salmon eggs have been ordered by the commissioners from Stanley, Me., for a hatching house to be placed in Ossipee river; 20,000 white fish are to be placed in Newfound and Squam lakes. Prof. Baird will be asked to furnish 50,000 German cusk.

Eccentricities of Pronunciation.

Extraordinary as the irregularities and inconsistencies of the pronunciation of ordinary English words are known to be, they sink into insignificance when compared with the vagaries and affectations of the pronunciation of proper names. Notable examples:

Beauchamp is pronounced Beecham; Cholmondeley, Chumley; Marjoribanks, Marshbanks; Blythe, Bly; Brougham, Broom; (this pronunciation applies not only to the great statesman, but to the carriage which bears his name—Brawham or Bruham is not heard in good society) Buchan is pronounced Buccan, with the a cent on the first syllable; Peppe Pep-is; Beauclere, Bo-clare; Wemyss, Weems; Dillwyn, Dillun; Strachan, Strawn; Heathcote, Hethcut; Knollys, Knowles; Menzies, Mynges; Tyrrwhitt, Territ; Tollemache, Tolmash; Bethune, Beeton; Milnes, Mills; Dalziel, Deal; Charteris, Charters; Geoghegan, Gaygan; Glamis, Glams; Ruthven, Riven; Duchesne, Dukarn; Du Plat, Du Plair; Eyre, Air; Gower, Goer; McLeod, McLoud; Vaux and Molyneux are pronounced as spelt, and the final "x" is sounded in both cases. In Devereux and Des Veux, the "x" is not sounded; while Meux is pronounced Mews.

Fantastic and arbitrary as these pronunciations may be thought, it is important to remember them.—*London Magazine.*

With a navy full of fledgling officers with nothing to do at present but have "a good time," and with no prospect of fighting for them to engage in in this generation, the clerkships and similar places in our antiquated navy yards are filled by civilians. These ought to be turned out neck and heels, and the graduates of Annapolis set at work in their places. They will never earn their living in any other way. Secretary Chandler appears to have just the right ideas on this subject. The appropriations for the pay of civilians having run short, he proposes to detail youthful naval officers to do the work, in spite of their childish protests that it will be "humiliating." Do what Mr. Chandler may, there will be figure-heads enough left.—*St. Louis Globe-Democrat.*

Cuticura

THE NEW BLOOD PURIFIER

Resolvent

I will now state that I made a miraculous cure of one of the worst cases of skin disease known. The patient is a man forty years old; had suffered fifteen years. His eyes, scalp and nearly his whole body presented a frightful appearance. Had had the attention of twelve different physicians, who prescribed the best remedies known to the profession, such as iodide potassium, arsenic, corrosive sublimate, sarsaparilla, etc. Had paid $500 for medical treatment with but little relief. I prevailed upon him to use the Cuticura Resolvent internally, and the Cuticura and Cuticura Soap externally. He did so and was completely cured. The skin on his head, face, and many other parts of his body, which presented a most loathsome appearance, is now as soft and smooth as an infant's, with no scar or trace of the disease left behind. He has now been cured 18 months.

Reported by
F. H. BROWN, Esq., Barnwell, S. C.

Scrofula Sore.

Rev. Dr. Dorr, in detailing his experience with the Cuticura Remedies, said that through Divine Providence one of his parishioners was cured of a scrofula sore, which was slowly draining away his life, by the Cuticura Resolvent internally, and Cuticura and Cuticura Soap externally. The poison that had fed the disease was completely driven out.

Eczema.

Sixteen months since an eruption broke out on my leg and each week it would burst out to be Eczema, and caused me great pain and annoyance. I tried various remedies with no good results, until I used the Cuticura Resolvent internally and Cuticura and Cuticura Soap externally, which entirely cured me so that my skin is as smooth and natural as ever.

ELLEN M. FRAILEY, 64 South St., Boston.

Cuticura.

The Cuticura treatment, for the cure of Skin, Scalp and Blood diseases, consists in the internal use of Cuticura Resolvent, the new Blood Purifier and the external use of Cuticura and Cuticura Soap, the great skin cures. Price of Cuticura, small boxes, 50c.; large boxes, $1. Cuticura Resolvent, $1 per bottle. Cuticura Soap, 25c.; Cuticura Shaving Soap, 15c.

DIPHTHERIA!

THE PROSTRATION which follows Diphtheria, and the persistency with which it clings to the patient, are well known to all who have had any experience with this terrible disease.

The following letter shows how the restoring and invigorating properties of

Hood's Sarsaparilla overcome it, and how by vitalizing and enriching the blood it neutralizes and eradicates the poisoned matter from it, bringing to the convalescent the color, life and vigor of robust health.

LOWELL, MASS.

MESSRS. C. I. HOOD & CO.: Gentlemen—My little girl had the diphtheria last April. The disease left her very weak, blood poor, with no appetite, and she could not seem to rally from its effects. HOOD'S SARSAPARILLA was recommended by a neighbor. After she had been taking it a few days we noticed a change for the better—she began to eat with a relish. It seemed to take out the poison the disease had left in her blood, the change being very noticeable in her face. She took it two months and fully regained her health, much to our delight. We now recommend Hood's SARSAPARILLA with a great deal of pleasure. Very truly yours,

J. E. SMITH,
19 Butterfield Street.

"That Extreme Tired Feeling."

"The first bottle has done my daughter a great deal of good; her food does not distress her now, nor does she suffer from that *extreme tired feeling* which she did before taking Hood's SARSAPARILLA."

Sold by all druggists. Price $1 a bottle or six bottles for $5. Prepared by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

THE WEEK OF PRAYER.

Thursday, Jan. 11th. Prayer for the Church Universal—For the outpouring of the Holy Spirit—that all ministers of Christ and those preparing for the ministry may deeply realize their responsibilities and the need of the Spirit's teaching and power; that their testimony before the world may be open and faithful; that sound doctrine and holiness of heart and life may prevail in the churches, and false teaching and superstition be counteracted; that all the children of God may be filled with earnestness and zeal in seeking to gather in the lost; for a rich blessing upon efforts to promote union and brotherly love; and for afflicted Christians everywhere. Acts iv: 31-33; Eph. iii: 14; iv: 16.

THE ELIOT BRIDGE.

The annual meeting of the Eliot Bridge Co. was held at Dover on the 9th inst., and the following directors chosen: Col. John Bracewell of North Adams, Mass., Charles H. Sawyer, Charles W. Woodman, T. J. W. Pray and James E. Lothrop of Dover, John E. Staples of York, and Sylvester Bartlett of Eliot. A dividend of four per cent was declared.

The treasurer's report showed a cash balance of $410.09 on hand at the end of the year 1882, after paying all expenses, including a dividend which amounted to $255.

Enquiry having been made as to what the people of Eliot, York and Kittery were doing toward improving their means of communication with Dover via this bridge, a director said he had been informed that the report of the committee on laying out the new road over Rocky hill was pending in the supreme court of Maine, on a motion to recommit the report with directions to notify the Eliot Bridge company of the hearing, as the 6th section of the new charter directed that any new road from the bridge toward York beach that was for the necessary convenience of the bridge, should be built and maintained by the Bridge Co. It was, however, the opinion of the directors, and in accordance with a vote of the Eliot Bridge Co. of Maine, that no other road than the one which the company has built would be for the *necessary* convenience of the bridge, and the company would not under any circumstances build or maintain any other road, the bridge being independent, and now paying a dividend.

A correspondent writes to the Dover *Democrat* as follows concerning the bridge:

The annual report of the treasurer shows two things: 1st, that the receipts for toll have been considerably larger than those of the previous year; and 2d, that the building of this bridge has contributed very materially to the business of Dover. By a record kept at the bridge during the past year, it appears that 3505 wagons, raled as "market wagons" at eighty cents toll, and 2440 carriages, rated as "pleasure carriages" at ten cents toll, passed over the bridge. In addition to these, were coaches at twenty cents, carts at twelve cents, cattle, horses, sheep, swine, etc. In the month of December, sixty-six carts at twelve cents paid toll, and some of these were loaded with hay from Kittery. Of the 3505 "market" wagons, a large proportion were strictly for market purposes, bringing in country produce, and carrying away goods from our stores; and had it not been for this bridge it is probable that hardly one of these wagons wound have found its way to this place. From reports of our merchants, we can say that no better class of buyers come to Dover than those from Eliot and York. If this bridge was a free one, as such bridges ought to be, the circle of Dover trade would be extended to the immediate vicinity of Portsmouth, and would thus sweep in a very rich and prosperous farming community.

In the afternoon the Eliot Bridge Co. of Maine had a meeting in Dover city hall, and did the routine business necessary to keep up their organization under the Maine charter.

The Florences will appear at Music hall on the 25d inst., in "The Mighty Dollar."

The billiard match held at Mr. M. Garity's saloon on Daniel street, Tuesday evening, the 9th inst., between Mr. Robert Rich of Boston and Mr. Robert Shannon of this city, 500 points, for $30 a side, was easily won by Mr. Rich, he coming out ahead by ninety-one points. There was a large attendance of spectators, who enjoyed the novelty of seeing some extra billiard playing. Efforts are being made to have another match game between Mr. Rich and a player from a neighboring town.

On Wednesday forenoon of this week the driver of a pung coming down Elm street let the reins slip from his hand, and they getting entangled around the horse's legs set him off on a run, the man holding on to the seat for dear life. After turning into Vaughan street the reins got caught in the runners and the horse was brought to a stop. The driver recovered his reins, and then punished the horse for his own carelessness.

The steam collier Pottsville, one of the Reading company's vessels which has brought many cargoes to this port, went ashore on the night of Jan. 9th on the Jersey coast. Her crew, eighteen in number, were taken off next morning by the life-saving crew.

Five car-loads of timber for the new schooner to be built at the Freeman's point shipyard by Mr. Fernald, arrived at Noble's island on the 10th inst. over the Portland, Saco & Portsmouth railroad.

The 10:55 A. M. train from Boston was twenty minutes late on arriving in this city on the 10th inst., owing to the storm.

When Rev. Mr. Dearborn, pastor of the 2d Methodist church of Kittery Foreside, arrived at his home on the evening of the 9th inst. from prayer-meeting, he found his house in possession of about seventy-five ladies and gentlemen; this was considerable of a surprise, but a still greater one was in store, when Hon. Usher B. Thompson in a few well-chosen words presented Mr. Dearborn and wife, in behalf of their many friends in Kittery, with $70 in money and a number of useful articles. The occasion was the reverend gentleman's birthday.

The funeral services of the late Joseph D. Ackerman, appointed to take place today (Thursday) at noon in the Middle street church, have been postponed to Sunday at one o'clock.

President Jackson and General Manager Tucker, of the Eastern railroad, have completed their tour of inspection, and report the entire line in a most satisfactory condition.

Dennis M. Shapleigh, Esq., representative from Kittery, is a member of the committee on legislative apportionment of the Maine legislature, and also a member of the committee on railroads. Senator Barak Maxwell, of Wells, is on the committee on interior waters, and chairman of the committee on pensions.

There are nearly a million of bricks at the several brick yards on the Piscataqua river, not counting the Durham yards.

Mr. William Hill, of Eliot, has five hands employed in cutting two hundred cords of firewood.

The tide on Wednesday, the 10th inst., was higher than for years past; the water stood a foot in depth over portions of Broughton's wharf, and there looked to be hardly room for a boat to pass under the central spans of Portsmouth bridge. The south millpond was up to the Richards avenue fence, and overflowed some of the gardens off the avenue.

The tugboat Mary J. Finn, which left this port for Portland on Tuesday morning, the 9th inst., with two large scows in tow, passed York at about eleven o'clock that forenoon, but had not arrived at Portland up to nine o'clock Wednesday morning.

Mr. John Lehee has this winter built a drag-boat which the knowing ones say will be a fast sailer; she is twenty-two feet long on the keel and twenty-seven feet over all, eight and a half feet beam, and four feet depth of hold. She will be sloop rigged.

The annual dance for the benefit of the veteran bill-poster, John H. W. Smith, will this year be given in Franklin upper hall, on Thursday night, Feb. 1st. Turner's quadrille band will furnish the music.

Gov. Butler has appointed Harrison W. Huguley, of the house of Dunbar & Co. of Boston, as one of his aides de camp, with the rank of colonel. Col. Huguley's wife is a daughter of Joseph G. Todd, Esq., formerly of this city. The colonel has always been a strong personal friend and adherent of Gov. Butler's, and the compliment of the appointment is due to that sagacious knowledge of men which has always been a prominent trait in the character of Gov. Butler, who could have had a staff a thousand strong had he had ated the hints of every one who kindly tendered advice on the subject.

The establishing of steamboat communication between this city and York will give the summer pleasure seekers at that place facilities for making excursions along the sea front of New Hampshire and the western end of the coast of Maine, which no doubt they will largely utilize. They can connect by stages with the Wentworth at Newcastle and the several beaches at Rye, and by railroad and stage with Hampton and Salisbury beaches; they will thus have within easy reach fine ocean views of a rockbound coast, intermingled with pebbly and sandy beaches, and inland views of pleasing scenery, forests and groves, orchards and meadows and cultivated fields. There are few places along the sea shore where in a distance of forty miles the excursionist can get so extended a variety of sights, all of which possess their peculiar attractions. A number of cottages are to be built at Wallis' sands, Rye beach, the coming spring, and this place will probably be added to the list of summer resorts to be visited. The steamer "City of Bangor" has all the qualifications for carrying large excursion parties, having accommodations for nearly four hundred passengers, and being nearly new, and a first-class sea-boat.

There's not a speck, there's not a stain
That on the teeth we chance to see,
But shadows forth decay and pain,
If not removed right speedily,
By SOZODONT, whose wondrous power
Works miracles in one short hour.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. codjan9,84

A Common-sense Remedy.
SALICYLICA.
No more Rheumatism, Gout or Neuralgia.
Immediate Relief Warranted.
Permanent Cure Guaranteed.
Five years established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylica.
SECRET!
THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.
SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.
In has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate these diseases which are the result of the poisoning of the blood with Uric Acid.
SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Highest Medical Academy of Paris reports 95 per cent. cures in three days.
REMEMBER
that SALICYLICA is a certain cure for Rheumatism, Gout and Neuralgia. The most intense pains are subdued almost instantly. Give it a trial. Relief guaranteed or money refunded.

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Sixth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of disease, acute and chronic, the result of many years of extensive and successful practice, either sex, one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 5; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—(Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author. He may be consulted on all diseases requiring skill and experience. Address

HEART DISEASE

IS YOUR HEART SOUND?

Now

Many people think themselves sick and doctor for kidney or liver troubles, or dyspepsia, while if the truth were known, the real cause is at the heart. The renowned Dr. Cheshunting, startlingly says "one-third of my patients show signs of heart disease." The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. It is known as Dr. Graves' Heart Regulator *and can be obtained at your druggists, $1 per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

Not a Successful Drummer.

A lieutenant of the navy, while on the South Atlantic station recently, had a commission from the manufacturers of a new rifle to try and sell a lot of them to Dom Pedro. The lieutenant intimated through the proper channels that he should feel honored if the emperor would examine the gun. His majesty readily granted an audience, and the young officer went to the palace with a very fine specimen rifle which had been presented to him by the company. The gun was exhibited and explained, and then handed to the emperor for examination. Dom Pedro took it, said in Portuguese that he was "awfully obliged," and motioned the chamberlain, or some other functionary, to show the gentleman out. There was no help for it, and the lieutenant backed to the doorway and withdrew without his rifle.

Mary Hartenstein died suddenly in New Haven, Conn., Jan. 7th, of heart disease. She was a young woman notorious as having charged Ex-Mayor Shelton with having procured an abortion upon her in August, 1881. Dr. Brown was also arrested, and both defendants were bound over to the superior court, where the cases are still on the criminal calendar. Her death removes the possibility of the cases ever coming to trial, as she was the principal witness. Shelton was mayor of New Haven from 1877 to 1879, and the girl was in his employ, in the fishhook and needle shop, when she charged him with being the cause of her trouble.

A young man named Hoogerzell, of Beverly, Mass., has been trying to frighten people by "playing ghost," with a sheet over him, and has twice come near being turned into the genuine article, one man having knocked him down with a stone tied in one corner of a handkerchief, while two revolver shots were fired at him on another occasion. Mr. Hoogerzell should have shouted his name at the people, if he wished to scare them.

"The action of St. Jacobs Oil in my case was almost miraculous, as I am now perfectly free from rheumatism, after being afflicted with it for thirty-four years," says Post Master J. E. Bonsall, of Liverpool, Pa.

Miss Lydia Story of Hopkinton, Mass., a maiden lady ninety-two years old, who lived alone, was found dead on the 3d inst., having apparently died while getting ready to make a fire.

Much distress and sickness attributed to dyspepsia and chronic diarrhœa is occasioned by humor in the stomach. Hood's Sarsaparilla is the remedy.

Mrs. Mary E. Hoey, proprietor of the Prescott house at Natick, Mass., was convicted on the 9th inst. of maintaining a gambling nuisance, and fined $50 and costs.

Foreign Appreciation. Palermo, Sicily, 9-18-'82. Electro Silicon Co., New York: Please forward per Italian steamer three dozen of your excellent plate powder, Electro-Silicon, and oblige. British Vice-Consul.

J. F. Brown, a blacksmith of Westport, Mass., started for Fall River on the 4th inst. to settle some accounts, and has not since been heard from. He had several hundred dollars in his possession and it is feared he may have been foully dealt with, though he was somewhat addicted to drink, and may have gone on a spree. He has a wife and one child.

"Better be wise by the misfortunes of others than by your own." Take warning in time. Avoid quack nostrums by which thousands annually perish. Use only such remedies as are demonstrated above suspicion, foremost among which is Kidney-Wort. For torpid liver, bowels or kidneys, no other remedy equals it. It is sold in both dry and liquid form by all druggists.

John A. Edwards, the mulatto who ran away from Rochester, Vt., with a white girl named Katy Marsh, thirteen years old, was caught on the 9th inst. at Willsboro', N. Y., and with his victim taken back to Vermont. The girl says the mulatto accomplished her ruin a year ago, during the absence of her parents from home; that she loves him, went with him willingly, and will marry him.

When you feel life is a burden, and nothing you try seems to ease your dyspepsia, find a sure relief in Brown's Iron Bitters.

The great superiority of DR. BULL'S COUGH SYRUP over all other cough remedies is attested by the immense popular demand for that old established remedy.

SUFFER

no longer from Dyspepsia, Indigestion, want of Appetite, loss of Strength lack of Energy, Malaria, Intermittent Fevers, &c. BROWN'S IRON BITTERS never fails to cure all these diseases.

Boston, November 26, 1881.
BROWN CHEMICAL CO.
Gentlemen:—For years I have been a great sufferer from Dyspepsia, and could get no relief (having tried everything which was recommended) until, acting on the advice of a friend, who had been benefitted by BROWN'S IRON BITTERS, I tried a bottle, with most surprising results. Previous to taking BROWN'S IRON BITTERS, everything I ate distressed me, and I suffered greatly from a burning sensation in the stomach, which was unbearable. Since taking BROWN'S IRON BITTERS, all my troubles are at an end. Can cat any time without any disagreeable results. I am practically another person. Mrs. W. J. FLYNN,
30 Maverick St., E. Boston.

BROWN'S IRON BITTERS acts like a charm on the digestive organs, removing all dyspeptic symptoms, such as tasting the food, Belching, Heat in the Stomach, Heartburn, etc. The only Iron Preparation that will not blacken the teeth or give headache.

Sold by all Druggists.

Clark's Manchester Directory, vol. 5, 1883; compiled and published by John B. Clark, Manchester; printed at the Mirror Steam Printing Works.

Clarke's directory of Manchester for the present year makes a volume of 479 pages, of which the names consume over four hundred. In a city like Manchester, a large share of whose residents are of foreign birth, and to a greater or less degree constantly changing their residence, the accurate compilation of a local directory is a labor perhaps disproportionate to the demand of the book. But the energetic editor and proprietor of the *Mirror*, who for thirty years, as publisher of that journal, has labored to attract attention to the growth, importance and claims of Manchester, is not the man to permit outsiders to enter his close and trespass on his domain. The directory contains information as to state associations, votes for governor, list of representatives and other matters of general interest, while its compilation of inhabitants, as far as we are able to judge, seems accurate and complete. In its mechanical execution it sustains the reputation of the *Mirror* establishment for excellence of work. A map of the city, as well as a plan of the location of the corporation blocks, accompanies the book. It is a work which not only should, but we are glad to know does, receive the hearty support of our fellow-citizens of the "metropolis of New Hampshire."

The court at Chicago has granted Mrs. George Scoville a divorce from her husband.

Catarrh.

The remarkable results in a disease so universal and with such a variety of characteristics as catarrh, prove how effectually Hood's Sarsaparilla, acting through the blood, reaches every part of the human system. A medicine, like anything else, can be fairly judged only by its results. We point with pride to the glorious record Hood's Sarsaparilla has entered upon the hearts or thousands of people it has cured of catarrh.

The late Matt Carpenter suffered for years with disease of the heart. So, too, did Fernando Wood. These men were intellectual giants, and also splendid specimens of manly physical proportions. A few bottles of Dr. Graves' Heart Regulator would have cured them of heart troubles, and have saved them for many long years yet to come. Get at druggists.

J. W. Luke, the go-between who returned $200,000 worth of bonds, stolen from Mr. Gilchrist of Troy, N. Y., last August, on the payment of $1,000, was on the 10th inst. indicted by the grand jury at Troy, for the robbery.

Ancient Law Makers.

About the beginning of the fifth century, the Salians, after their settlement in Gaul, under their King, Pharamond, they framed a body of laws which have since been known as Salic, but at that time those law-makers knew nothing of the wonderful discovery which works harmoniously with nature's laws, and which is a positive boon to those suffering from rheumatism, gout or neuralgia. We refer to that common-sense remedy, Salicylica.

William Blake was arrested, Jan. 9th, in a lumber camp near Bangor, and Wednesday was bound over to the February term of the supreme judicial court, for stealing pelts from Davis & Maxfield's slaughter house.

To Please Her Husband.

Were the Words of a Good Lady, Mrs. Hawkins, who has long Suffered the Pain Common to Chronic Rheumatism. A Woman's Patience and Fortitude well Shown.

Your reporter from Mrs. Hawkins at 14 Exchange St., New Haven, Conn. "About four years ago," she said, "I was then a resident of Brooklyn, N. Y. I went over one morning to the Jersey City depot to see some friends off who were started for the west. There was a strong draft of air in the depot, and in standing by the train talking to my friends I caught a severe cold. I had no more than reached my home again when I was taken with a sudden chill and then fever set in. The outcome of all was that rheumatism settled all over me. I was entirely helpless. From this I have never recovered. You see my hands what a state they are in. Those are all chalky swellings and my limbs are very bad. While I remained in Brooklyn I tried all sorts of remedies, but I could never gain any relief. My physician said it was no use. I grew very thin and lost all strength. Finally, after coming here, to gratify my husband, I began to take Dr. Kennedy's FAVORITE REMEDY, and my general health has been better than ever before. I am stronger, have an excellent appetite, which I did not have for a long time. It has helped my rheumatism, and with a thorough trial I am in hopes of recovering completely."

Kennedy's FAVORITE REMEDY has been successfully used by thousands. It will build up a system which has been run down by overwork. It is the thing for the student and literary man to have at hand, and should be in the home of every mechanic. FAVORITE REMEDY is economical, safe and pleasant. Buy it and try it.

KIDNEY-WORT

WILLIAM H. HACKETT.

Seven Per Cent. First Mortgages.

FOR SALE, in sums of five hundred dollars and upwards five years to run principal and interest payable where the lender desires. These mortgages are secured on improved farms in Iowa, Kansas and Dakota, valued at three times the amount of the mortgages. These loans are very popular, with many conservative investors and the demand for them is increasing. We receive on loans many of Trust Companies of high character and experience and believing them one of the safest and most profitable investments for the money, we cheerfully and heartily recommend them to investors. Money sent to us by check or P. O. order, will be invested by us with our best care. Correspondence solicited.

What a Queer Climate This Is!

First it snowed
And then it blowed,
And then began to rain;
And then it blowed
And then it snowed,
And then it rained again.

With cold in head
I'm almost dead;
But yet I won't complain;
Pain Killer saves
From wintry graves
And makes us well again.

Nobody ought to be without Perry Davis' Pain Killer.

Rev. Ithamar W. Beard, rector of St. Thomas' Episcopal church, recently elected a member of the Dover school board from ward three by the city council, declines to serve.

Home.—In calling attention to an article advertised in our columns, we are pleased to notice an excellent sign in regard to it, viz.: that the testimonials relating to Hood's Sarsaparilla are from New England people, and many from Lowell, the home of this medicine. We are assured that the sale of this article in Lowell, where it is best known, is wholly unprecedented in the annals of proprietary medicines. We leave it with you to decide as to the probable merits of an article with such a solid foundation.

The First Universalist chapel in Henniker was dedicated Dec. 10th. The sermon was by Rev. L. F. McKenney of Manchester, and the address in the evening by Rev. A. A. Miner, D. D., of Boston. The edifice seats about 150, and is elegantly furnished. Rev. H. S. Fiske is the minister.

Mr. Lewis E. Staples has secured the agency for the Dorcas, Saxony, Knitting Worsted and Germantown yarns, which have become so popular throughout the east. The shades and colors are just what are wanted. eodtjan19

Our New York Fashion Letter.

COIFFURES.

New Year receptions have revealed the fact that there is nothing new in the arrangement of the hair. The same carelessness; the same avoidance of sameness; the same freedom from doing the same things other people do, merely for the sake of doing the same. No. One draws her hair back plainly; No. Two has crimps; No. Three has a few puffs rising at the top; No. Four has this; No. Five has that, etc., etc. There are some things, however, that none of the above named numbers, nor any unnamed numbers, can do. Through every phase there must be moderation, and the one thing to be done is not to do too much. By moderation I mean especially a moderate quantity of hair; better not enough than a superfluity. Then, again, in the case of the lady who draws her hair back plainly, it is understood that some sort of overshadowing fringe rests in fringe-like fashion on her forehead. In some manner or form there must be some wavy, broken outline over the brow, and here a favorite device for those who do not wish to wear false fronts nor to hackle their own front hair into fragments is the circle of scallops, as fashionable now as ever. By far the greater number prefer the low coil at the back, from which occasionally two or three short curls may straggle. A flower or two appended is now and then seen, but tastes run toward some shell, gilt, jet, or silver ornament. The huge hairpin catching the half falling coil; the spike thrust in with abandon, headed by a ball or two, a blossom, a butterfly, perhaps — anything careless, and as if placed without thought.

JEWELRY.

In jewelry similar ideas prevail. No longer formal "sets," but trifles set here, there, anywhere, catching folds of lace at random, or placed at the throat in finish to the linen collar that barely peeps above the dress. One of the most unbecoming of ideas, nevertheless, is this linen collar, and one entirely out of keeping with the graceful softness belonging instinctively to woman. Happily the fashionableness of lace prevents it as a necessity, and for pinning lace scarfs in the easy ways prevailing at present we see a brooch often doing duty without reference to the "set" of which it may be a part. Not of necessity worn at the throat, as of yore, but on the shoulder, at the waist or elsewhere on the corsage, as fancy may incline. Earrings, if worn, are small and close to the ear, but Fashion cares little for earrings, and usually they are ignored save in case of a large pearl or diamond.

EVENING COSTUMES.

An evening costume of pale green plush and satin in Lord & Taylor's famous bay window reveals the fact that both these materials are used for full dress, a conviction that is strengthened by the sight in an inner sanctum of a superb toilette where the front breadth of delicate blue satin serves as a foundation to large velvet leaves of deep shaded brown put on at intervals. The back is princess, with a flowing train of rich brocade where leafy columns in dark brown traverse a groundwork of pale blue satin; neck square low, and short sleeves. An exquisite costume being made for Emily Winant was of white silk having the new broad rep combined with gorgeous velvet appliqué on white surface. Another dress was of ruby velvet plain and brocade, while one yet handsomer was a plain ruby velvet with dentelles of wide point lace. The momentous question of "necks" is settled in the most satisfactory way by allowing different ways. Square low, Pompadour, heart shaped, while if you want a square low and yet wish the neck covered, behold a cloud of tulle or lace added with high art dexterity. For rich goods, moreover, one must have the train. The round square, that is the square train with corners rounded, is chiefly in vogue, and often so contrived that for dancing it can be taken off. Sleeves are sleeves or not sleeves, just as much or little of a sleeve as one is inclined to, from the slight pretence of one, amounting really to nothing at all, to sleeves reaching well down to the wrist. Of course as the sleeve increases the glove decreases, and vice versa. Unless in a fancy dress there is small opportunity for pretty arms, since if you do not cover them with silk or satin, you must with the long, long, long kid glove, coming really almost to the shoulder. One's sole refuge here is lace. You can have a lace sleeve, which serves all the purposes of exhibition while pretending to conceal. Black lace gives an admirable pretence, and can be worn by ladies somewhat advanced without impropriety, while white lace too is largely used. But black lace is very becoming and therefore a safer choice.

LUCY CARTER.

Grooming Butler for the Presidential Race.

At the democratic banquet in Boston on the 8th inst., to glorify Jackson's victory at New Orleans and Butler's election as governor of Massachusetts, Ex-Gov. Plaisted of Maine nominated Gov. Butler for President. He said:

I trust the time will come when this distinguished son of Massachusetts will be able to speak not only to the whole people, as he has done, but for the whole people of the United States.

If anything can cause a premature blight to the Massachusetts candidate's chances, it will be the sponsorship of such a defunct politician as Plaisted.

The Fitz John Porter bill passed the senate on the 11th inst. by a vote of thirty-three to twenty-seven.

The United States senate has passed, by a vote of forty to fifteen, Senator Hoar's presidential-succession bill, which provides that in case the office of president becomes vacant, the place shall be filled by a cabinet officer until a president and vice president can be elected in due course of law, the secretary of state coming first, followed by the other secretaries in specified rotation.

A Vienna despatch says the inhabitants of Raab have abandoned the town. Many persons in trying to escape fell through the ice and were drowned. It is officially reported that 10,000 persons are now roofless, and that between 300 and 400 houses are inundated and partially destroyed.

Booth's theatre in New York was closed on the night of the 10th inst., owing to the sudden and dangerous illness of Charles R. Thorne, the leading actor.

Senator Ransom of North Carolina was on the 10th inst. unanimously nominated for re-election by the democrats of the state legislature.

On information being received at the treasury department in Washington, on the 10th inst., of the death of Hon. Lot M. Morrill, who was secretary of the treasury under President Grant from June, 1876, to March, 1877, the flags on the buildings were hung at half-mast, and the principal entrances draped in mourning.

The owners of the steamer Kirby Hall have lodged a claim for £6,000 damages to their vessel by the collision with the City of Brussels. The Messrs. Inman claim £160,000 as their loss on the City of Brussels, which is exclusive of claims for cargo lost, and the claims of the families of those who were drowned. The London *Times*, in a leading article on the disaster says: "The testimony is somewhat conflicting, as usual in such cases, but it seems probable that the main fault was with the steamer Kirby Hall. If vessels, manned and equipped as the Kirby Hall was, are sent on trial trips, it is no wonder collisions and wrecks occur." It is announced as improbable that the wreck of the City of Brussels can be raised, in which case the hull will be blown to pieces.

A Good Answer.

Bob Ingersoll has been asking the question: "What shall we do to be saved?" Now this is a very peculiar question and cannot be well answered, without first inquiring: "What's the matter?" Have you had bad luck? or what are you suffering with? Probably he refers to the terrible winter we have experienced, and he is suffering with a severe cold. If the latter should be the case, we would refer him to Rev. N. B. Grubb, of Schwenksville, Pa., who wrote the following a few days ago: "It is now nearly two years since I commenced to use Dr. Bull's Cough Syrup in my family, and I feel frank to say that it saved me many dollars for doctor bills. Our big and little children take it and it never failed to give relief and affect a cure. For croup it cannot be over-valued. I have never been backward in recommending it to my friends and neighbors."

Charles L. Brown, fourteen years old, was found on Wednesday, Jan. 10th, in the office of Deputy Sheriff John M. Fisk of Middlesex county, in Court square, Boston, where he was employed, handcuffed, gagged and apparently insensible. One of the two safes in the office had been tampered with, but not opened. The boy at first told a story of two men assaulting him, but finally confessed that he attempted to break into the safe, and then handcuffed and afterward gagged himself. He was locked up.

Thatcher Perkins, a native of North Berwick, where he was born in 1812, died in Baltimore, Md., Jan. 8th. He was one of the most prominent machinists and inventors of machinery in the country; he was twice master of machinery for the Baltimore & Ohio railroad, and was also at different times superintendent of the Central Ohio railroad, general superintendent of the Tredegar Iron Works at Richmond, Va., and superintendent of machinery for the Louisville & Nashville railroad. The greatest of his inventions was the locomotive known to railroad men as the Perkins ten-wheeler.

Capt. John Rankin, who died in Wells, Me., Jan. 8th, was born in Wells in 1802, and followed the sea for a period of almost sixty years, the earlier part in the West India trade, and for many years coasting. He was a man of sterling character, unassuming but faithful in every trust. A widow and large family mourn his death.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. eodtj.n9,88

PROF. BROWN,

Practical Optician,

is now making his annual visit to Portsmouth and vicinity, affording any who may be in need, another opportunity of having a perfect spectacle accurately adapted to their eyes. Just give you a call when he comes to this vicinity, if you do not see him well as you want to.

☞ Prof. Brown is the only Optician in N. H. who makes spectacles for a thousand and who carries a full stock of glasses, and all kinds of glasses. I regard it of great importance to those who are obliged to use spectacles to read, and certain kinds of glasses, lasting much longer than any other.

Call at the Kearsarge House where he is stopping will be promptly attended to.

For testimonials and testimonials see small circulars.

Office of Clerk of U. S. Circuit Court, District of New Hampshire, William H. Hackett, Clerk.

PORTSMOUTH, N. H., Jan. 8th, 1880.

Prof. Brown: I am happy to say in reply to your inquiry that the spectacles with which you provided me have found them adapted to my wants, and I have been able to read continually. I regard it of great importance to those who are obliged to use spectacles to read, should have some competent examiner of the eye to determine what is required, and that proper glasses and none only should be worn even to the most limited extent. Yours, truly,

WILLIAM H. HACKETT.

DIPHTHERIA!

THE PROSTRATION which follows Diphtheria, and the persistency with which it clings to the patient, are well known to all who have had any experience with this terrible disease.

The following letter shows how the restoring and invigorating properties of

Hood's Sarsaparilla

overcome it, and how by vitalizing and enriching the blood it neutralizes and eradicates the poisoned matter from it, bringing to the convalescent the color, life and vigor of robust health.

LOWELL, MASS.

MESSRS. C. I. HOOD & CO.: Gentlemen—My little girl had the diphtheria last April. The disease left her very weak, blood poor, with no appetite, and she could not seem to rally from its effects. HOOD'S SARSAPARILLA was recommended by a neighbor. After she had been taking it a few days we noticed a change for the better—she began to eat with a relish. It seemed to take out the poison the disease had left in her blood, the change being very noticeable in her face. She took it two months and fully regained her health, much to our delight. We now recommend HOOD'S SARSAPARILLA with a great deal of pleasure. Very truly yours,

J. R. SMITH,
19 Butterfield Street.

"That Extreme Tired Feeling."

"The first bottle has done my daughter a great deal of good; her food does not distress her now, nor does she suffer from that *extreme tired feeling* which she did before taking HOOD'S SARSAPARILLA."

THE WEEK OF PRAYER.

Friday, Jan. 12th. Prayer for the Nations—For sovereigns, rulers and magistrates; that all laws favorable to cruelty and vice, the opium traffic and intemperance, may be abolished; for the better observance of the Lord's day, for peace and good will among men, that all may yield obedience to the powers that be, and that the spirit of lawlessness may be subdued; for cessation of war; that the pursuit of literature, science, and art may be influenced by the fear of God; that all people may be turned from their sins, saved from unbelief, and brought to know Christ as their Saviour; that God's ancient people the Jews may be delivered from their oppressions, and all persecuted Christians be relieved. Present the full board.

The records of the last meeting were read and approved.

The committee on accounts, through Ald. Caswell, chairman, reported bills (including salaries) to the amount of $3663.66, accruing to Jan. 1st. Ordered to be paid. Other small bills, to the amount of $27.28, were also ordered paid.

Mrs. Jeremiah Noble appeared before the board relative to the steps of her house on Wendell street, which have recently been placed on the street, and asked leave to have them remain. Request denied.

Ald. Martin presented the petition of Andrew J. Smith and about sixty others, asking that said Smith be reimbursed in the sum of $200 for expenses incurred in defending himself in the courts in 1876 against a charge of manslaughter, in causing the death of a Mr. Canty, while Smith was doing duty as a police officer. Laid on the table.

Committee on north millpond were unable to report.

Adjourned for two weeks.

A SUCCESSFUL MINISTRY.

A correspondent of the Boston *Home Journal*, after correcting an error in a previous number of the paper in regard to an ancestor of the wife of the minister of the South Parish, proceeds to write:

Rev. Mr. DeNormandie succeeded Dr. A. P. Peabody, whose scholarly reputation is known throughout the country, when he accepted a call to Harvard college. The call to Mr. DeNormandie was unanimous, and he became the pastor of a people who had sat under the ministry of Dr. Peabody for some twenty-five years, whose unsurpassed eloquence and scholarly resources had called together a congregation for intelligence and wealth second to none in the state or country. Among the prominent members of his church and congregation were Gov. Goodwin, Hon. W. H. Y. Hackett, Hon. Richard Jenness, Hon. Edward F. Sise, Hon. Jonathan M. Tredick, William Jones, Esq., (father of Mrs. DeNormandie,) and many other families of note, the heads of which have passed within the vale during the ministry of Mr. DeNormandie. He came to Portsmouth when less than twenty-five years of age, to fill a pulpit which but few men of his years would have had the courage to occupy, and the then boys and girls of his Sabbath school are now in many instances the heads of families of his church; and his ministration has not only commanded the support of all the families he had when first entering upon his ministry, but many others have been added to his congregation, and he can well boast of the oldest and most successful pastorate of the present day in that city. No young man in the ministry ever had a more difficult task than Mr. DeNormandie undertook, and his success is unexceptionable; he has not only won the love and confidence of his own people, but as well he has the confidence of the whole people, gained by an upright life and able and consistent ministry. Should Dr Putnam's society prevail upon Mr. DeNormandie to accept their call, we can bespeak for them a living over of the days of Dr. Putnam's ministry, and we are sure Mr. DeNormandie will meet a society on the high plain of refined social culture which it has been his good fortune to minister to for so many years at Portsmouth.

KEROSENE.

Sixteen hundred and thirty-five barrels of kerosene were received in this city during the year 1882, of which number one hundred and twenty-seven barrels were condemned by the inspector.

The standard test in this state is 120 degrees; in Massachusetts 110 degrees; in New York 160 degrees. It is seldom that the oil when tested comes up to its standard as marked on the barrel, often falling off from ten to twenty degrees.

The average time allowed here in the trial of the quality of the oil is from twenty-five to thirty-five minutes, with a rise of two and a half degrees temperature in a minute. This is considered a fair and safe test, but it has met with considerable opposition from the Boston dealers, who have on several occasions visited this city and attempted to "drive the inspector into his boots," but returned home without effecting anything serious.

Mr. Judson F. Trafton, inspector of petroleum and its products for Portsmouth, has shown that he understands his business, and though he has several times been brought into collision with other inspectors he has practically evinced that his tests have been correct. Hardly a day passes but the newspapers tell of the loss of life from the bursting of kerosene lamps, and it is to the interest as well as the duty of the retail dealers to know that the inspector of oil is fully able to detect naphtha or any foreign substance in it, and give them its true standard, thus protecting them from receiving an inferior quality of oil, and securing their customers against accidents.

DR. GAGE,

"The man so celebrated for his wonderful cures in New Hampshire," at the Rockingham house this day, Friday, Jan. 12th, only. The wife of Samuel R. Meloon, No. 12 McDonough St., Portsmouth, was perfectly helpless and had almost despaired of recovery; Dr. Gage sent her medicine without seeing her, which put her upon her feet. Mrs. Carrie Colbath, Farmington, was prostrated; she wrote the doctor at Phenix hotel, Concord, procured medicines, and is restored. Postmaster Varney of Dover has gained nearly ten pounds in six weeks, under the doctor's treatment.

About 12,000 lbs. of fresh fish were sold here on the 11th inst., and brought four cents a pound.

There are on exhibition in Montgomery's music and art store two very fine crayon portraits, executed by Miss Fannie Peterson of Greenland. The likenesses are excellent, and the finish of the pictures artistic.

The pay train of the Eastern railroad made its monthly visit to this city on Thursday evening last at six o'clock.

Rev. Henry B. Hovey, of Brooklyn, N. Y., who was recently called to the pastorate of St. John's church in this city, has accepted, and will take charge of the parish the second Sunday in February. Mr. Hovey has been pastor of St. Barnabas' church in Brooklyn for several years, and during his ministration has largely increased the influence of that parish.

A valve in one of the pumps of the well at the Plains belonging to the Eastern railroad broke on Tuesday, the 9th inst., stopping the supply of water for a time, but the damage was speedily repaired. The water in the well is abundant, it rising during the night from five to seven feet.

An eel three and a half feet long, and upward of an inch and a half in diameter, was taken from a water pipe at the navy yard a few days ago.

The testimony of John Currier, Jr., the widely-known shipbuilder of Newburyport, was taken before United States Commissioner Hackett on Thursday, to be used before the Court of Commissioners of Alabama Claims. Mr. Currier is the oldest shipbuilder in New England, and ships from his yard have been famous, all over the world, for their excellent workmanship and sailing qualities.

The finding of the court martial which some weeks ago convened at this navy yard to try Chief Engineer Edward Wells for striking an enlisted man on board the U. S. S. Marion, was that Mr. Wells be reprimanded by the secretary of the navy; the finding has been approved, and the reprimand administered.

The Eastern railroad has petitioned the Maine legislature for permission to extend a line of rails to Mt. Desert, with a branch from Ellsworth to Lamoine.

In the Maine legislature there has been introduced a bill to suppress pigeon shooting and similar sports, providing that no person shall keep or have in possession any live pigeons, to be used for shooting purposes for amusement or as a trial of skill, the penalty for each offence being a fine of $50, or imprisonment, or both. This bill is apparently aimed at the Tremont Gun club, of Boston, all of whose pigeon-shooting matches have of late years taken place in Eliot, the statutes of Maine and New Hampshire barring out such sports.

The selectmen and collector of Kittery went to Saco on the 11th inst., on business connected with a charge of assault brought against them, or some one of them, by a man named Goodwin.

A salute of thirteen minute guns was fired from the navy yard battery at noon on Thursday last, in memory of the late Rear Admirals Hugh Y. Purviance, Jas. F. Schenck, James H. Strong, Fabius Stanley and Robert H. Wyman, all of whom died during the year 1882, and on account of whose deaths no salute had previously been fired at this yard. The flags at the yard were displayed at half mast from sunrise to sunset.

The police station is now connected with the telephone exchange.

John H. Stickney of this city was on the 11th inst. granted a patent for an improved brad-awl.

KITTERY, ME., Jan. 11th.

Messrs. Remick & Moody of this town have formed a copartnership, and intend to carry on a large wholesale and retail business in all kinds of fish, oysters, clams, etc. A large stock of fresh and dry fish has been ordered from Gloucester; for the bivalves they will depend on old York, and on H. W. Taylor for eels. They have rented one of the large buildings on the Traip estate for their market.

Yours, R.

Cuticura
THE NEW BLOOD PURIFIER
Resolvent

I will now state that I made a miraculous cure of one of the worst cases of skin disease known. The patient is a man forty years old; had suffered fifteen years. His eyes, ears, nose and mouth and his whole body presented a frightful appearance. He had had the attention of twelve different physicians, who prescribed the best remedies known to the profession, such as iodide potassium, arsenic, corrosive sublimate, sarsaparilla, etc. He had paid $500 for medical treatment with but little relief. I prevailed upon him to use the Cuticura Resolvent internally, and the Cuticura and Cuticura Soap externally. He did so and was completely cured. The skin on his head, face, and many other parts of his body, which presented a most loathsome appearance, is now as soft and smooth as an infant's, with no scar or trace of the disease left behind. He has now been cured 12 months.

Reported by
F. H. BROWN, Esq., Barnwell, S. C.

Scrofula Sore.

Rev. Dr. Dorr, in detailing his experience with the Cuticura Remedies, said that through Divine Providence one of his parishioners was cured of a scrofula sore, which was slowly draining away his life, by the Cuticura Resolvent internally and Cuticura and Cuticura Soap externally. The person that had fed the disease was completely driven out.

Eczema.

Sixteen months since an eruption broke out on my leg and body, which baffled cure by Eczema, and caused me great pain and annoyance. I tried various remedies with no good results, until I used the Cuticura Resolvent internally and Cuticura and Cuticura soap externally, which entirely cured me so that my skin is as smooth and natural as ever.

ELLEN M. FRAILEY, 64 South St., Boston.

Cuticura.

The Cuticura treatment, for the cure of Skin, Scalp and Blood diseases, consists in the internal use of Cuticura Resolvent, the new Blood Purifier and the external use of Cuticura and Cuticura Soap, the great skin cures. Price of Cuticura, small boxes, 50c.; large boxes, $1. Cuticura Resolvent, $1 per bottle. Cuticura Soap, 25c.; Cuticura Shaving Soap, 15c.

Five years established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylica.
SECRET!
THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.
SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.
It has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate these diseases which are the result of the poisoning of the blood with Uric Acid.
SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Highest Medical Academy of Paris reports 95 per cent. cures in three days.

that **SALICYLICA** is a certain cure for **Rheumatism, Gout and Neuralgia.** The most intense pains are subdued almost instantly. Give it a trial. Relief guaranteed or money refunded.

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

23th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 350 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

HEART DISEASE

Now IS YOUR HEART SOUND?

Many people think themselves sick and wait for for kidney or liver trouble, or dyspepsia, while if the truth were known, the real cause is at the heart. The renowned Dr. Cheadington, startlingly says "nearly all my patients have heart disease." The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention. Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. His known as Dr. Graves' Heart Regulator *and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

Washington Gossip.

The following bits of news are from the Washington correspondent of the Providence *Journal*:

The secretary of the navy has reconstructed his house, and added to it a dining room and music room, which make it admirably adapted for entertaining. Mrs. Chandler was, it will be remembered, a daughter of John P. Hale of New Hampshire, and she, with her sister, went with their father to Madrid when he was minister there. The wife of Senator Frye, of Maine, aided Mrs. Chandler at her last reception. Many think that Mr. Chandler will be elected senator from New Hampshire to succeed Senator Rollins, whose term expires on the 3d of March.

The ex-secretary of state is busily engaged just now in furnishing and fitting up the large chateau which he erected on a triangular piece of ground facing Dupont circle. He has superintended the finishing and the fitting up, and has taken care that every picture and engraving should be hung in its proper light. The house will probably not be open until the marriage of Mr. Blaine's oldest daughter, Miss Alice, who was wooed and won when on a visit to Leavenworth barracks, by a lieutenant-colonel much her senior in years. He is an Irishman by birth, and devoted to the church of Rome, having served when young, if I am not misinformed, in the Papal Guard. Her sister is in Paris, at the school connected with the convent of the Sacred Heart.

Naval Affairs.

A Strange Freak.

The wife of our esteemed citizen Mr. John Rowell, while suffering under a severe attack of the blues, tried to commit the crime of infanticide but was prevented by the opportune arrival of a neighbor. Her case has been considered by the best doctors incurable, but her husband was highly pleased when after using a course of Sulphur Bitters to find that she was entirely cured.—*Kingston Herald.*

James E. Owey, of North Adams, Mass., seventeen years old and six feet eight inches high, died a few days ago. His death was somewhat mysterious, as he suddenly became unconscious at eleven o'clock in the forenoon, and died at two o'clock in the afternoon on the same day.

LOG ROLLING.

While Wrestling with a Fallen Tree a Lumberman Receives Consequential Damages.

While on a hunting excursion in the great coal and wood region near Carbondale, Pa., the writer met William Coll, a lumberman. Accustomed to life and labor in the forest from early manhood, he was a true Knight of the Axe. Many a tree had fallen before his mighty strokes, and fleets of rafts had borne away to market the sawed products. Coll is a character, and if Oscar Wilde is right in saying that all movements in unhindered labor are graceful, our friend William, s ripped for his work, and attacking a tree as Richard I assaulted the heavy doors of Front de Bœuf's Castle, must have presented an admirable picture.

One day, however, we had let him tell the story himself, as he told it to me:

"I was out in the woods, you know, trying to start a log down a hill. Thinking I could get a better purchase on it from the lower side, I tackled it there with my log-rolling hook and threw my weight on the lever. She started, she did, but as luck would have it, before I could get out of the way, she rolled right over me. I'd been there for a lot of small limbs and brush lying in the road, which fitted her up, she'd a crushed me flat. As it was I got up without a broken bone, but with some mighty bad bruises."

"Then you were all right," said his auditor.

"Not by a blamed sight, stranger. I took cold, rheumatism set in, and, if I hadn't heard of DENSON'S CAPCINE POROUS PLASTERS and used 'em, it's my opinion I should never have made another chip fly. But the Capcine took hold quick, and I'm 'bout as good as new. But there's one thing you kin calkilate on:—I shall never wrastle with another log unless I have the advantage of the ground. Fur, as I told you before, it ith hadn't been for them brushes I'd been smashed so you could 'a sold me for a door mat."

The Capcine is the thing for rheumatism. It doesn't keep you waiting. The word CAPCINE is cut in the centre of the genuine. Price 25 cents.

no longer from Dyspepsia, Indigestion, want of Appetite, loss of Strength lack of Energy, Malaria, Intermittent Fevers, &c. BROWN'S IRON BITTERS never fails to cure all these diseases.

Boston, November 26, 1881.
BROWN CHEMICAL CO.
Gentlemen:—For years I have been a great sufferer from Dyspepsia, and could get no relief (having tried everything which was recommended) until, acting on the advice of a friend, who had been benefited by Brown's Iron Bitters, I tried a bottle, with most surprising results. Previous to taking Brown's Iron Bitters, everything I ate distressed me, and I suffered greatly from a burning sensation in the stomach, which was unbearable. Since taking Brown's Iron Bitters, all my troubles are at an end. Can say at any time without any disagreeable results. I am practically another person. MRS. W. P. FLYNN, 30 Maverick St., E. Boston.

BROWN'S IRON BITTERS acts like a charm on the digestive organs, removing all dyspeptic symptoms, such as tasting the food, Belching, Heat in the Stomach, Heartburn, etc. The only Iron Preparation that will not blacken the teeth or give headache.

"Avast There."

The Concord *Monitor*, a newspaper controlled by the Hon. Secretary of the Navy, has an article on the revenue marine, which from its crudeness and lack of authenticity we are induced to believe was not inspired by Mr. Chandler, because he knows better than to put forth such erroneous statements. The article asserts that—

We are blest with a double navy. In the first place we have the regular navy, officered by graduates of the naval academy, and serving on the ships of war of the United States, and all under the supervision of the Secretary of the Navy. Then we have a score or more of vessels, officered by appointees from the merchant marine, employed in waiting upon the custom-house officers, and under the charge of the Secretary of the Treasury. The first is the result of deliberate intention on the part of the framers of the constitution and the legislatory. The second is the growth of an accident. There was found to be a need for a small vessel to visit incoming ships, and to act as a sort of police in aid of the revenue laws. From small beginnings it has grown to be a navy of considerable size. The Treasury Department retains its grasp upon this navy on the theory that it relates to commerce, and that as the department has control of all matters relating to the revenue, it must manage this navy also. The Secretary of the Navy recommends that this state of things be changed, and that all the marine be placed under the control of the Navy Department, and officered by the graduates of the naval academy.

This may be very good doctrine for up-country readers, but persons conversant with the subject know better than this.

In the act of August 4, 1790, to provide more effectually for the collection of duties upon imported goods and on the tonnage of ships, when the revenue districts were established and a system of collecting the revenue was enacted, a section of the law provided that the president of the United States should cause to be built and equipped so many boats or cutters not exceeding ten as might be necessary to be employed for the protection of the revenue, the expense to be paid out of the product of duties on imports and tonnage dues. This was nearly four years before the passage of the act for the establishment and regulation of the navy, passed March 27, 1794, which was enacted after the depredations committed by the Algerine corsairs on our commerce rendered it necessary that a naval force which we could send abroad, should be provided for the protection of our merchant vessels.

The cutters (the name is applied to a small boat used by a man-of-war, and also to a sloop of peculiar rig.) gradually were required to be of larger size, so that in the war of 1812 they were an important aid in our coast defence, and captured prizes on the high seas. But their ordinary duty is entirely different from that performed by naval ships, and this branch of the service is no more akin to the navy, or properly subordinate to it, than would be the army, or the management of the Indian affairs of the Department of the Interior.

The collection of the revenue is, and ever has been, the business of the Treasury Department. The navy perhaps may be familiar with the expenditure of the public money, but not with its collection. Again, officers of the navy have not been trained to a knowledge of revenue laws. Often it appears, when a vessel of war comes home from China or the Mediterranean, that officers—innocently it is to be hoped—seek to land dutiable goods with a manifest intent not to increase the revenue by a contribution to the public funds; and just how "The economy and efficiency of the whole service, both revenue and naval, would seem to be greatly improved by the proposed change," as the *Monitor* puts it, is what those who have been familiar with the way and manner in which the duties of naval and revenue officers have been in times past performed, fail to see.

We more than half suspect that the *Monitor* man is not more than half posted upon the subject of which he so glibly affects to write, and perhaps he will do better to send his future editorials upon that subject to head-quarters, in order that the facts may be correctly stated, even if the reasoning be at fault on this new departure from a healthy administration of a branch of the government that is sought to be placed under a department in which, as even its most ardent friends not only admit but strenuously maintain, there is abundant room for improvement in many respects.

The Naval Appropriation Bill.

The naval appropriation bill, as prepared by the sub-committee of the committee on appropriations, recommends an appropriation of about $16,100,000, as against $14,830,476 for the current fiscal year, an increase of nearly $1,300,000. Among the provisions of the bill regarded with favor by the democratic congressmen are those providing that in time of peace no officer of the navy shall be promoted to the rank of lieutenant until after four years' sea service, no lieutenant to the rank of lieutenant-commander until after six years' sea service as lieutenant, no lieutenant-commander to the rank of commander until after four years' sea service, and no commander to the rank of captain until after three years' sea service. The provisions for the retirement of commodores at sixty years, captains at fifty-five, commanders at fifty-one, lieutenant-commanders at forty-seven and lieutenants at forty-five years, will be strongly opposed by the democrats; as will also be the appropriations proposed for breech-loading guns, special equipment of surveying vessels, and torpedoes—$260,000 in all—and for four steel cruisers and a torpedo boat.

The Milwaukee Horror.

Further details only add to the horrors of the Newhall house disaster in Milwaukee. The loss of life is believed to be much larger than was at first reported, though it is probable the exact number will never be known. There were fully 177 persons in the building when the fire broke out, and but sixty-seven were known to have been saved up to midnight on the 11th inst.

The place was notoriously regarded as a "death-trap," and the local insurance assessors refused to make a rate for risks on it; it was only insured for $104,000. "The burned hotel had actually no dividing walls of brick. It was a magnificent match box, worthy of an eastern watering place or a frontier town. Mr. Antisdel, who ran the concern, was taken to Plankington hotel in a condition bordering on idiocy. C. D. Nash, owner of the building, was overcome with grief when he heard of the loss of life."

Mr. Lansing Bonnell, now of New York city, who was the proprietor of the Newhall house about ten years ago, says: "I always considered the place a regular tinder-box, and it has been on fire, to my knowledge, at least thirty times."

Charles Kelsey, a colored lad about eighteen years of age, valet of Gen. Tom Thumb, was burned to death, but the rest of the company escaped unharmed. Bingham, the ventriloquist, a Boston boy, with Tom Thumb's troupe, escaped without injury. Mrs. Tom Thumb lost her diamonds and clothing.

A bridal tour was by this fire suddenly turned into a funeral. Miss Sutton was married in Chicago on Tuesday, the day before the fire, to John Gilbert of the Minnie Palmer troupe seventeen; hours later she was dead, and her husband dying. He jumped from a window with his wife in his arms.

A gentleman who occupied quarters in the hotel says the building had been set on fire at least four times during the past two years. The fire was started each time at night, near the elevator, so as to preclude any idea of saving the house, but luckily each fire was extinguished. With each recurring fire the regular borders would say that some one had a spite against the building and would yet burn it; they would avow their intention of leaving, but as time elapsed, the idea would be dispelled, only to recur when another attempt was made to burn the building.

The house of representatives spent the day on the 10th inst. discussing the shipping bill. Numerous amendments were offered, most of which were rejected. The Murch amendment, authorizing giving advance wages to seamen, was voted down. The Candler amendment, permitting seamen to give written orders on their wages to their relatives and to saving banks, was adopted. A modification of Cox's amendment was adopted, which provides that collectors of customs shall hereafter exercise the duties now performed by shipping commissioners; this will abolish the office of shipping commissioner. After many speeches had been made the bill went over to next day without action.

The thermometer was thirty below zero at Hanover, Littleton and Colebrook, twenty-nine below at Whitefield, and twenty-five below at Lancaster, on the morning of the 12th inst.

John Ryan, aged seventy-five years, was struck and fatally hurt by a Connecticut River railroad passenger train at Greenfield, Conn., Jan. 11th.

Miss Emma S. Allen of New York, the great speaker for constitutional amendments for the prohibition of the liquor traffic, and secretary of the National Prohibition Alliance, will address the people under the auspices of the Reform Club, Sunday evening, Jan. 14th. The meeting will be held in Music hall, instead of in the Methodist church as has been heretofore announced. It is a free lecture, but a collection will be taken in aid of the work. Everyone is invited.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Sy up for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. codjan9,84

PROF. BROWN,

Practical Optician,

Is now making his annual visit to Portsmouth and vicinity affording any who may be in need, another opportunity of having a perfect spectacle accurately adjusted to their eyes. Just give your name to his agent when he calls, if you do not see as well as you want to.

☞ Prof. Brown is the only Optician in N. H. who makes spectacles for astigmatism and who carries a full stock of glass (artificial) eyes. His glass eyes are of the best manufacture. Do not break while in use. Look more natural and retain their polish, lasting much longer than any others.

Orders left at the Kearsarge House where he is stopping will be promptly attended to.

For particulars and testimonials see small circulars.

Office of Clerk of U. S. Circuit Court, District of New Hampshire, William H. Hackett, Clerk.

PORTSMOUTH, N. H., Jan. 6th, 1880.

Prof. Brown: I am happy to say in reply to your enquiry, that the spectacles with which you a pplied me I have found better adapted to my wants than any I have been able previously to obtain. I regard it of great importance that the 6 of us who are obliged to use "helps to read" should have some competent examiner of the eye to distinguish what is required, and that proper glasses and none other should be worn even to the most limited extent. Yours truly,

WILLIAM H. HACKETT.

DIPHTHERIA!

THE PROSTRATION which follows Diphtheria, and the persistency with which it clings to the patient, are well known to all who have had any experience with this terrible disease.

The following letter shows how the restoring and invigorating properties of

Hood's Sarsaparilla overcome it, and how by vitalizing and enriching the blood it neutralizes and eradicates the poisoned matter from it, bringing to the convalescent the color, life and vigor of robust health.

LOWELL, MASS.

MESSRS. C. I. HOOD & CO.: Gentlemen—My little girl had the diphtheria last April. The disease left her very weak, blood poor, with no appetite, and she could not seem to rally from its effects. HOOD'S SARSAPARILLA was recommended by a neighbor. After she had been taking it a few days we noticed a change for the better—she began to eat with a relish. It seemed to take out the poison the disease had left in her blood, the change being very noticeable in her face. She took it two months and fully regained her health, much to our delight. We now recommend HOOD'S SARSAPARILLA with a great deal of pleasure. Very truly yours,

J. R. SMITH,
19 Butterfield Street.

"That Extreme Tired Feeling."

"The first bottle has done my daughter a great deal of good; her food does not distress her now, nor does she suffer from *that extreme tired feeling* which she did before taking HOOD'S SARSAPARILLA."

Sold by all druggists. Price $1 a bottle or six bottles for $5. Prepared by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

THE WEEK OF PRAYER.

Saturday, Jan. 13th. Prayer for Missions—That all missionaries and others engaged in mission work and in the circulation of the scriptures at home and abroad, may be filled with the Holy Spirit, and that great success may crown their efforts; that all converts may be kept steadfast in the faith, and made earnest and efficient in seeking to bring souls to the Saviour; that many more faithful laborers may be called into the Lord's vineyard, that the Mahommedans and the heathen may be won to Christ, and that the Jews may be constrained to receive Him as their long-expected Messiah. That the blessing of God and the power of the Spirit may abundantly rest upon the conference of Christians of various nations proposed to be held this year in Stockholm. Is. liii: 7-12. Ezek. xxxvii: 1-14; Luke xxiv: 46-49.

WOMAN'S TEMPERANCE LEAGUE.

At the regular meeting of the Woman's Temperance League, held Thursday afternoon, Jan. 11th, the following officers were elected for the ensuing quarter:

President, Mrs. James Sanborn;
1st Vice Pres., Mrs. Susan Deverson;
2d Vice Pres., Mrs. A. W. Haven;
Recording Secretary, Mrs. R. D. Smart;
Treasurer, Mrs. D. H. Spinney;
Corresponding Secretary, Miss Hannah Candage;
Chaplain, Mrs. Silas Philbrick.

G. A. R.

Storer Post, No. 1, G. A. R., had a special meeting on Thursday evening, the 11th inst., to fill a vacancy caused by the declination to serve of the member elected as junior vice commander at the annual meeting in December. Abel Jackson, previously elected officer of the day, was chosen to fill the vacancy; William Y. Evans was chosen officer of the day, and Charles H. Besselevre officer of the guard.

The next regular meeting will occur Wednesday evening, Jan. 17th, when there will be a public installation of officers at G. A. R. hall, Daniel street.

POLICE COURT--BATCHELDER J.

THURSDAY, Jan. 11th.

William Randall, better known as "Rap," charged with breaking and entering a schooner and stealing therefrom, was held in $100 for a higher court; jail in default of sureties.

FRIDAY, Jan. 12th.

John Crowley, for drunkenness, was fined $3, costs $6.90; county farm in default of payment.

SUDDEN DEATH.

On Thursday afternoon, Jan. 11th, as Mr. William Critchley was rising from a chair in his house on Bridge street to show some article to one of his sons, he fell to the floor and was dead in a few moments. Mr. Critchley has been a resident of this city for twenty-eight years, during which time he has been engaged in various pursuits. He was a good citizen, of social disposition and temperate habits, and was most highly esteemed by those who knew him best. He was in his 75th year.

ROUGH WEATHER.

The steam-tug Confidence, 85.59 tons register, came up to the Gas Co.'s wharf Thursday afternoon. She was on her way back to Boston from Portland, to which place she had towed the barque Woodside. The captain reported the weather very rough outside, and the steamer was crusted with ice to the top of her smoke stack. The tug and her tow put into the lower harbor on Monday evening, the 9th inst., on the way down, and left for Portland next morning at eight o'clock, one hour after the Mary J. Finn started for the same destination with two immense scows in tow; the latter was not seen by the Confidence on the passage, and at the time she left Portland, Thursday morning, had not been heard from.

The steam-tug Knickerbocker, of Bath, Me., 123.96 tons register and 130 nominal horse-power, laid at the Concord railroad wharf Thursday night. She took in water, and left for the eastward Friday morning.

The steam-tug Mary J. Finn, 51.24 tons register, owned by Moore & Wright of Portland and commanded by Capt. Byron Deane of the same city, which left this port early in the morning on the 9th for Portland, and concerning whose safety much uneasiness was felt on the 10th and 11th, she not having arrived at Portland or been heard from, put into Cape Porpoise with her tow (two large scows valued at $5000 each) to escape the gale and heavy sea which she encountered soon after sailing; there being no facilities for telegraphing at Cape Porpoise, information as to her safety was not received in Portland until a late hour on the 11th.

Mr. Joshua Frizzell was taken to the Concord asylum for the insane on Friday last. He recently invented a machine for cutting out bungs, and his deep interest in it caused temporary insanity.

The second annual ball of the Improved Order of Red Men will be given in Franklin hall on Tuesday evening, Jan. 23d.

Hon. Marcellus Eldredge has been elected a director in the Perkins Railway Chair company, to fill the vacancy occasioned by the death of Mr. N. F. Mathes.

At the late monthly meeting of the Rockingham Bicycle club the resignation of C. A. Hazlett as captain was accepted, and William Wallace McIntire was elected to fill the vacancy.

Friday, the 12th inst., was the coldest day of the season so far, in this city, the thermometer ranging from eight degrees below zero to four above, in different parts of the city. A milkman from Newington reported the thermometer on his place to be standing at fourteen below when he started on his morning trip.

The *Times* announces that Rider & Cunningham, clothiers, will close their business in this city and remove to Minnesota within a few weeks.

Mr. William H. Boss, who has for many years been station agent and freight master for the Eastern railroad at their station in Lynn, Mass., has been offered a responsible position on the Toledo, Cincinnati & St. Louis railroad, by President Phillips of the latter road, formerly president of the Eastern.

Thomas C. Shapleigh, formerly of Kittery, has been appointed clerk of courts for Polk county, Maryland.

The Callender minstrel troupe arrived in this city on the ten o'clock train from Newburyport, Friday forenoon, and took a special train over the Concord & Portsmouth railroad for Manchester, where they gave an entertainment Friday evening.

The steamer Acushnet did not arrive here from Boston until after noon of Friday, having been detained at Provincetown, Mass., too late to make her regular trip to this port on Thursday.

The school in Kittery taught by Miss Carrie H. Haley was closed some days ago in consequence of the prevalence of diphtheria in the district.

Miss Alice J. Sheldon, a graduate of the Portsmouth high school, whose admirable essay on "The Birds Around Portsmouth" was published in the local papers and received many commendatory notices, has recently been the recipient of a copy of volume one of the "Proceedings of the Linnæan Society of New York," a handsomely bound and finely printed volume of great attraction for all who are interested in the study of natural history in any of its branches. The frontispiece is an engraving of Linnæus, from a portrait owned by L. S. Foster, Esq., secretary of the society. One chapter of the book is devoted to the summer birds of the Catskill mountains, and remarks on the faunal and floral features of that region. The book is a deserved compliment to the fair author of the interesting essay, and will scarcely find a more appreciative reader wherever it may go.

England has an internal revenue collection service similar to ours; but English collectors are the product of non-partisan reform, ours are creatures of the "spoils system." The English officers have to look after 122,000 square miles of territory, and ours cover nearly twenty-five times as much, or 3,000,000 square miles; but it takes 5,900 English reformers to do the work in that country, while 3,850 spoilsmen do it here. The cost of collecting the United States internal revenue for six years, ending June 30, 1881, was 2.64 per cent upon the total collected, while the cost in England during the same period was 3.85 per cent, a difference of more than $200,000 a year in favor of the spoilsmen. And yet we are assured that we can only make our civil service economical and effective by importing the Johnny Bull system.

The *Cape Ann Advertiser* figures that the 275 barrels of mackerel taken in the bay of St. Lawrence, last year, by the schooner "Yankee Lass" of Boston, cost the United States, by remission of duties and interest on the Halifax award, not less than $1.400 per barrel. The Yankee Lass was the only United States vessel in the provincial waters last season.

Cuticura
THE NEW BLOOD PURIFIER
Resolvent

I will now state that I made a miraculous cure of one of the worst cases of skin disease known. The patient is a man forty years old; had suffered fifteen years. His eyes, scalp and nearly his whole body presented a frightful appearance. Had had the attention of twelve different physicians, who prescribed the best remedies known to the profession, such as iodide potassium, arsenic, corrosive sublimate, sarsaparilla, etc. Had paid $500 for medical treatment with but little relief. I prevailed upon him to use the Cuticura Resolvent internally, and the Cuticura and Cuticura Soap externally. He did so and was completely cured. The skin on his head, face, and many other parts of his body, which presented a most loathsome appearance, is now as soft and smooth as an infant's, with no scar or trace of the disease left behind. He has now been cured 12 months.

Reported by
F. H. BROWN, Esq., Barnwell, S. C.

Scrofula Sore.

Rev. Dr. Dorr, in detailing his experience with the Cuticura Remedies, said that through Divine Providence one of his parishioners was cured of a scrofula sore, which was slowly destroying a very his life, by the Cuticura Resolvent internally, and Cuticura and Cuticura Soap externally. The person that had fed the disease was completely driven out.

Eczema.

Sixteen months since an eruption broke out on my leg and both legs, which turned out to be Eczema, and caused me great pain and annoyance. I tried various remedies with no good results, until I used the Cuticura Resolvent internally and Cuticura and Cuticura Soap externally, which entirely cured me so that my skin is as smooth and natural as ever.

ELLEN M. FRAILEY, 64 South St., Boston.

Cuticura.

The Cuticura treatment, for the cure of Skin, Scalp and Blood diseases, consists in the internal use of Cuticura Resolvent, the new Blood Purifier and the external use of Cuticura and Cuticura Soap, the great skin cures. Price of Cuticura, small boxes, 50c.; large boxes, $1. Cuticura Resolvent, $1 per bottle. Cuticura Soap, 25c.; Cuticura Shaving Soap, 15c.

A Common-sense Remedy.
SALICYLICA.
No more Rheumatism, Gout or Neuralgia.
Immediate Relief Warranted.
Permanent Cure Guaranteed.
Five years established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylica.
SECRET!
THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.
SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.
It has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate these diseases which are the result of the poisoning of the blood with Uric Acid.
SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Highest Medical Academy of Paris reports 95 per cent. cures in three days.
REMEMBER
that SALICYLICA is a certain cure for Rheumatism, Gout and Neuralgia. The most intense pains are subdued almost instantly. Give it a trial. Relief guaranteed or money refunded.
Thousands of testimonials sent on application.

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be now treated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

258th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of disease arising from the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

HEART DISEASE

Now IS YOUR HEART SOUND?

Many people think themselves sick and doctor for kidney or liver troubles, or dyspepsia, while of the truth were known, it is of some of the heart. The renowned Dr. Clendinning, startlingly says "one-third of my subjects show signs of heart disease." The heart weighs about nine ounces, and yet man's whole strength of body passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves's celebrated physician has prepared a specific, all heart troubles and liver disorders. It is known as **Dr. Graves' Heart Regulator** *and can be obtained at your druggists, $1, per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

News and Notes.

The republicans of the Minnesota legislature on the 11th inst. nominated Senator Wm. Windom for re-election, but this does not insure his return, for fifty republicans would not go into the caucus, and Windom had but sixty-one votes, seventy-six being a majority of the legislature.

The republican joint caucus of the Illinois legislature on the 11th inst. nominated Gov. Shelby M. Cullom for United States senator.

Brig Goldfinder, from St. Domingo for Boston with logwood, was towed into Delaware breakwater Jan. 11th, with four men frozen to death, the captain badly frostbitten, and only one man able to work. The brig was shouded in ice.

The case of Miss Mary Alice Almont Livingstone against Henry Fleming, president of the New York Refining company, for $75,000 damages for seduction and breach of promise of marriage, was given to the jury in New York on the 11th inst, and in less than an hour they returned a verdict for the full amount claimed. Fleming is worth a million dollars, but the evidence in this case proved that that is all he is worth. The verdict was received with uproarious cheers by the spectators.

A boat has been picked up off the harbor of Cette, France, containing the dead bodies of four men belonging to a French coasting steamer. There were twenty-two persons on board the steamer, and all are supposed to have perished.

The prevalence of smallpox in Baltimore has caused the health department of Washington to adopt extraordinary measures to prevent the infection from spreading there.

George W. Swallow of Lowell, Mass., went to Lewiston, Me., on the 10th inst., and found his wife living with Earl D. Robertshaw. Mrs Swallow is the mother of five children, two of whom she took with her to Lewiston. Robertshaw was arraigned in the Lewiston municipal court, and ordered to recognize in $500; he could not get sureties and was taken to jail. Mrs. Swallow refused to go with her husband.

Sylvester Griffin, fifty years old, was found dead in his bed at Springfield, Mass., Jan. 11th, from the effects of blows supposed to have been inflicted by James Maloney. Griffin's nephew says that Maloney came to the house on the previous Sunday night and demanded liquor, which was refused. He then attacked Griffin, breaking his breast bone and injuring his head. Griffin kept a few groceries for sale, but it is not known that he ever sold liquor.

Nearly 8000 coal miners are idle along the Monongahela river.

* * "Better be wise by the misfortunes of others than by your own." Take warning in time. Avoid quack nostrums by which thousands annually perish. Use only such remedies as are demonstrated above suspicion, foremost among which is Kidney-Wort. For torpid liver, bowels or kidneys, no other remedy equals it. It is sold in both dry and liquid form by all druggists.

The net income of the clerk of the United States Supreme court, last year, was $29,477, or nearly four times the salary of the chief justice, and about six times the salary of a congressman. The regulations as to fees, etc., are to be revised.

LOG ROLLING.

While Wrestling with a Fallen Tree a Lumberman Receives Consequential Damages.

While on a hunting excursion in the great coal and wood region near Carbondale, Pa., the writer met William Coll, a lumberman. Accustomed to life and labor in the forest from early manhood, he was a true Knight of the Axe. Many a tree had fallen before his ringing strokes, and fleets of rafts had borne away to market the sawed products. Coll is a fine specimen, and if Oscar Wilde is right in saying that all movements in unhindered labor are graceful, our friend William, stripped for his work, and attacking a tree as Richard I assaulted the heavy doors of Front de Bœuf's Castle, must have presented a admirable picture. One day, however,—but let him tell the story himself, as he narrated it to me:

"I was out in the woods, you know, trying to stay a log down a hill. Thinking I could get a better purchase on it from the lower side, I tackled it there with my log-rolling hook and threw my weight on the lever. She started, she did, but as luck would have it, before I could get out of the way, she rolled right over me. If it hasn't been for a lot of small limbs and brush lying in the road, which lifted her up, she'd a crushed me flat. As it was I got up without a broken bone, but with some mighty bad bruises."

"Then you were all right," said his auditor.

"Not by a blamed sight, stranger. I took cold, rheumatism set in, and, if I hadn't heard of BENSON'S CAPCINE POROUS PLASTERS and used 'em, it's my opinion I'd ought never have made another chip fly. But the Capcine took hold quick, and I'm 'bout as good as new. But there's one thing you kin calkilate on:—I shall never wrastle with another log unless I have the advantage of the ground. For, as I told you before, if it hadn't been for them brushes I'd been smashed so you could 'a sold me for a door mat."

The Capcine is the thing for rheumatism. It doesn't keep you waiting. The word CAPCINE is CUT in the centre of the genuine. Price 25 cents. Seabury & Johnson, Chemists, New York.

New Life

is given by using BROWN'S IRON BITTERS. In the Winter it strengthens and warms the system; in the Spring it enriches the blood and conquers disease; in the Summer it gives tone to the nerves and digestive organs; in the Fall it enables the system to stand the shock of sudden changes.

In no way can disease be so surely prevented as by keeping the system in perfect condition. BROWN'S IRON BITTERS ensures perfect health through the changing seasons, it disarms the danger from impure water and miasmatic air, and it prevents Consumption, Kidney and Liver Disease, &c.

H. S. Berlin, Esq., of the well-known firm of H. S. Berlin & Co., Attorneys, Le Droit Building, Washington, D. C., writes, Dec. 5th, 1881:

Gentlemen: I take pleasure in stating that I have used Brown's Iron Bitters for malaria and nervous troubles, caused by overwork, with excellent results.

Beware of imitations. Ask for BROWN'S IRON BITTERS, and *insist* on having it. Don't be imposed on with something recommended as "*just as good.*" The genuine is made only by the Brown Chemical Co. Baltimore, Md.

"Mrs. Partington, what do use for a very bad cold?" asked Mrs. Dull. "Handkerchiefs, ma'am," answered the aged dame, looking over her spectacles. Handkerchiefs are a *desideratum* in the event of a cold, but a bottle of Dr. Bull's Cough Syrup is a necessity, because it not only relieves, but cures the worst cold or cough.

Major Poore has discovered evidence in the congressional library that Jefferson was inaugurated with similar display to that at the same ceremony with other presidents, and not with the severe simplicity which has been claimed.

Humor in the Stomach.

Much of the distress and sickness attributed to dyspepsia, chronic diarrhœa and other causes is occasioned by humor in the stomach. Several cases, with all the characteristics of these complaints, have been cured by Hood's Sarsaparilla. Other cures effected by this medicine are so wonderful that the simplest statement of them affords the best proof that it combines rare curative agents and when once used secures the confidence of the people.

To those who have used Swedish Remedies, they know full well the value of them. To those who from prejudice have not used them, we can say that they are the very best medicines for the diseases for which they are recommended. Swedish Lung Balsam cures coughs, colds, and all diseases of the lungs. When taken together with Swedish Botanic Compound (the great blood purifier), it will cure consumption in the first and second stages.

Hon. James G. Blaine is, as everyone knows a resident of Augusta, Maine, although he was born in Pa. Mr. Blaine is not reputedly a kinsman of Mr. F. W. Kinsman of Augusta, although there may be some remote ties between the gentlemen. Be that as it may, however, Mr. Kinsman writes to say, "Almost every day I receive testimonials similar to the one enclosed." That testimonial was from a man who had been cured of heart disease by using Dr. Graves' Heart Regulator. This remedy never fails.

During the storm Tuesday forenoon, the 9th in-t., a flock of about sixty wild geese lighted in Charles river, between Craigie's and West Boston bridges. Upon the attention of the passengers of a horse car being called to them by the driver, one well-informed passenger remarked that the storm must be very severe in the woods to drive them into the water.

When the melancholy Dane exclaimed, "I have that within me which passeth show," he was undoubtedly suffering from a severe attack of rheumatism or neuralgia. He said "it passeth show," because it could not be seen; but had he been aware of the well-known remedy for these troubles, he would have purchased Salicylica, the greatest discovery in *materia medica.*

Sydney Smith being ill, his physician advised him to "take a walk upon an empty stomach." "Upon whose?" asked Sydney. Still better steps to take would be the purchase of Dr. R. V. Pierce's "Golden Medical Discovery" and "Pleasant Purgative Pellets," which are especially valuable to those who are obliged to lead sedentary lives, or are afflicted with any chronic disease of the stomach or bowels. A man had a curious race for life near Meriden, Conn. He swallowed a large dose of morphine, intending suicide, but quickly changed his mind and started for the nearest physician, who was two miles away. He felt the dangerous drowsiness stealing over him, and ran with all his might. The exercise kept him awake, but his mouth became parched, his eyes filmy, and his strength less. He stopped to pray, but an instant of delay warned him that unless he depended on miraculous help there was no time to be lost on his knees. He at length stumbled into the doctor's office and fell senseless on the floor, but was saved by energetic treatment.

To Please Her Husband.

Were the Words of a Good Lady, Mrs. Hawkins, who has long Suffered the Pain Common to Chronic Rheumatism. A Woman's Patience and Fortitude well Shown.

Your reporter from Mrs. Hawkins at 14 Exchange St., New Haven, Conn. "About four years ago," she said, "I was then a resident of Brooklyn, N. Y. I went over one morning to the Jersey City depot to see some friends off who were started for the west. There was a strong draft of air in the depot, and in standing by the train talking to my friends I caught a severe cold. I had no more than reached my home again when I was taken with a sudden chill and then fever set in. The outcome of all was that rheumatism settled all over me. I was entirely helpless. From this I have never recovered. You see my hands what a state they are in. Those are all chalky swellings and my limbs are very bad. While I remained in Brooklyn I tried all sorts of remedies, but I could never gain any relief. My physician said it was no use. I grew very thin and lost all strength. Finally, after coming here, to gratify my husband, I began to take Dr. Kennedy's FAVORITE REMEDY, and my general health has been better than ever before. I am stronger, have an excellent appetite, which I did not have for a long time. It has helped my rheumatism, and with a thorough trial I am in hopes of recovering completely."

Kennedy's FAVORITE REMEDY has been successfully used by thousands. It will build up a system which has been run down by overwork. It is the thing for the student and literary man to have at hand, and should be in the home of every mechanic. FAVORITE REMEDY is economical, safe and pleasant. Buy it and try it.

Cause for Apprehension.

Why Mysterious Physical Troubles Arouse Special Dread.—A Professional Experience.

Few things give more pain than dread or apprehension. Most people are able to face apparent danger heroically, but the sudden and unexpected coming of some indefinite calamity very naturally strikes terror to even the bravest. For this reason lightning and tornadoes are considered terrible; their coming and going are so sudden, unannounced and unknown. For this same reason an unknown disease, some poison in the blood, some malady that is gradually undermining the life, is specially dreaded by all thinking people. And, indeed, there are good reasons for such dread, for modern science has discovered that some virulent disorders show the least signs in their beginnings, while they have the worst possible symptoms. We know of many persons who have dull and uncertain pains in various portions of the body; who are unnaturally tired one day and apparently well the next; who have an enormous appetite at times and a loathing of food soon thereafter. Such persons are really in a dangerous condition, even though they may not realize it. The following statement of a most prominent physician, who has had unusual opportunities for investigation is of so striking and important a nature that it will be read with interest by all:

O. ANDERSON, M. D., SUPERINTENDENT.

Messrs. Editors: I have, during my professional career of many years' practice, treated a large number of various disorders, of which, perhaps, none have given me more trouble than the mysterious disease known as acute nephritis; and while it may seem strange, it is, nevertheless, true, that the physician is generally greatly annoyed by this mysterious trouble, especially when the case is of hereditary origin. It is, doubtless, the first stage of the well-known, but terrible Bright's disease, as the kidneys contain large quantities of albumen; and while children and young people are especially liable to its attacks, it is prevalent with all classes, and usually continues until late in life.

One obstinate case which came under my observation, was that of a fireman of this city who applied to me for treatment. The case was diagnosed parenchymatous nephritis. The man was twenty-four years of age; plethoric and light complected. He stated that he had suffered from urinary troubles from childhood, and that he had "doctored" a hundred times, each time improving some; after which, in a short while, he would relapse into his former state of misery. I prescribed the usual therapeutics known to the profession with the same result that my colleagues had obtained. He got better for a while and then worse again; in fact, so bad that he had to lay off for some time. He suffered intense pain; so much so that I confess I had to resort to hypodermic injections of morphia. My druggist who knew how disgusted I was with the case, although not willing to desert the man, advised me to try a remedy from which he (the druggist) himself, had derived great benefit. As a drowning man catches at a straw, I prescribed this remedy, not letting my patient, however, know what I was giving him; and, although not a believer in nor a patron of "patent medicines," I must confess that after my fireman had taken one bottle he grew much better. I made him continue its use for a period of two months, with the most gratifying results; it really worked wonders and he owes his cure and present perfect health solely to the remarkable power of Warner's Safe Kidney and Liver Cure, the remedy which I prescribed, and he used.

Since the recovery of the man above mentioned, I have given considerable though; to the subject of acute nephritis, or kidney difficulty, and I find that its manifestations are most remarkable. It often appears without any special symptoms of its own, or possibly as a sequel to some other disease. It may be a sequel to scarlatina, diphtheria, and other illnesses, and even arise from pregnancy. The first symptoms frequently show themselves in the form of high, fierce and intense pains in the lumbar region, "the small of the back," troublesome micturitions and frequent changes in the color of the urine which at times diminishes perceptibly. If the urine is entirely suppressed, the case, probably, will terminate fatally in a very few days. Dropsy is a consequence of the suppression of urine, and the severeness of it is governed by the proportion of retention. The nervous system becomes prostrated, with subsequent convulsions and irregular circulation of the blood, which, in my estimation, eventually might cause a diseased heart to give out.

As I have remarked, in many kidney diseases—yes, even in Bright's disease itself—there is no perceptible pain in the back, and these troubles often assert themselves in various symptoms—for instance, in troublesome diarrhœa, blood poison, impaired eyesight, nausea, loss of appetite, disordered digestion, loss of consciousness, husky voice and many other complaints too numerous to mention. Indeed thousands of people are suffering from the first stages of Bright's disease to-day, and *they do not know it.*

In conclusion I would like to state that I have, since my success with the fireman, repeatedly prescribed Warner's Safe Kidney and Liver Cure, and if my professional brethren could only be brought so far as to overcome their prejudice against proprietary medicines they would, undoubtedly, find themselves recompensed for their supposed sacrifice of liberty, as well as by the great benefits that would accrue to the world.

Most sincerely,

O. ANDERSON, M. D.,
Superintendent.

Horrors of the Inquisition.

The "Inquisition" of olden times inflicted horrible torments on its victims, such as stretching them in all kinds of unreasonable shapes and breaking their bones. But these torments were not much worse than those which are experienced by people who now suffer from muscular rheumatism. Mr. L. O. Death of a Murderer.

Charles W. Cook, who was sent to state prison Oct. 29th, 1879, for the murder of Susan Hanson at Brookfield in November, 1874, died on the 9th inst. of consumption. It will be remembered that Miss Hanson had her head blown to pieces while sitting in her home one evening, by a shot fired through the window; that Joseph Buzzell was tried for the murder, and acquitted, and afterward tried and hung for being accessory to the murder before the fact, Cook swearing that he (Cook) did the shooting, while Buzzell stood by. At the time of the arrest and trial of Cook he was considered half-witted, but he developed remarkable shrewdness in prison; he left a long confession, adhering to his former statements except in one particular. He says in his confession that he did the shooting alone, and hurried home to bed, as Buzzell had arranged; the latter went to Wolfeborough on the day of the murder, but after getting there relented, and drove back at breakneck speed to Brookfield to prevent Cook's doing the killing, but arrived twenty minutes too late. Cook having killed the woman and gone to bed as Buzzell had directed. Buzzell burst into the room and asked if he had killed her. Cook answered: "You are twenty minutes too late." Buzzell groaned "Oh, my God! my God!" and was nearly crazed. This confession makes clear a number of points in the case that had always been obscure. Cook was within a few days of twenty-six years old at the time of his death, making him a few months over seventeen years old at the time of the murder.

DIPHTHERIA!

THE PROSTRATION which follows Diphtheria, and the persistency with which it clings to the patient, are well known to all who have had any experience with this terrible disease.

The following letter shows how the restoring and invigorating properties of *Hood's Sarsaparilla* overcome it, and how by vitalizing and enriching the blood it neutralizes and eradicates the poisoned matter from it, bringing to the convalescent the color, life and vigor of robust health.

LOWELL, Mass.

MESSRS. C. I. HOOD & CO.: Gentlemen—My little girl had the diphteria last April. The disease left her very weak, blood poor, with no appetite, and she could not seem to rally from its effects. HOOD'S SARSAPARILLA was recommended by a neighbor. After she had been taking it a few days we noticed a change for the better—she began to eat with a relish. It seemed to take out the poison the disease had left in her blood, the change being very noticeable in her face. She took it two months and fully regained her health, much to our delight. We now recommend HOOD'S SARSAPARILLA with a great deal of pleasure. Very truly yours,

J. E. SMITH,
19 Butterfield Street.

"That Extreme Tired Feeling."

"The first bottle has done my daughter a great deal of good; her food does not distress her now, nor does she suffer from *that extreme tired feeling* which she did before taking HOOD'S SARSAPARILLA."

Sold by all druggists. Price $1 a bottle or six bottles for $5. Prepared by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

Hood's Tooth-Powder, Only 25 Cents.

How the People Are Humbugged

By Co-Operative and Mutual Aid Societies.

The Insurance Department Reports of several States furnish interesting data for judging of the Real Economy, Insurance Reliability, and Business Prudence of placing money with these concerns, under the impression that it furnishes

CHEAP LIFE INSURANCE.

Having duly considered the "lesson" afforded by the following statement, taken from these Official State Reports, let the reader consider the DEFINITE Insurance Contract offered by THE

Mutual Life Insurance Co.

OF NEW YORK,

under which no "Assessments" are *possible*, and the benefit to be received definitely decided at time of application, with such an annual return of the required premium as each year's experience shall develop.

Forty-three organizations, known as "Co-operative Companies," "Mutual Aid or Relief Associations," "Benefit Societies," &c., report to the State Departments of New York, Pennsylvania, Ohio, Indiana, West Virginia, Massachusetts, &c., the following

OUTRAGEOUS MISUSE

— OF THE —

Assessments Collected.

Maximum Value of Certificates (or Other stocks, bonds and mortgages were paid in 188)	$2,395,525.00
These "Certificates" proved to be worth as claims	$511,384.36
But the collections for these claims were	$594,307.94
Difference between collection and disbursement, illustrating *Economy in Cost* (!)	$82,923.58
	$511,384.36

ANOTHER WAY OF PUTTING IT.

These unfortunates hold Certificates representing a supposed value to their beneficiaries of $2,395,525.

The real value proves to have been about 21¾ per cent, or $511,384.36, by waiving their claim of $82 923.58 of the amount collected ($594,307.94) and this is called *Cheap Insurance.*

QUERY.

Who ever heard of any respectable Life Insurance Company settling $2,395,525 of insurance, honestly contracted for, at a discount like the above and at such a cost?

Rider & Cunningham offer the entire stock of cloths and clothing, hats and caps, trunks, furnishing goods, etc., in their extensive store in National block, for sale at low prices. This is a genuine closing-out sale, as the proprietors are shortly to leave the city.

On and after this date the steamer Mystic will discontinue her eight o'clock P. M. trips, except on Saturday evenings.

On Saturday last the engine of the 8:20 A. M. train from this city to Boston ran off the track at Salisbury, Mass., and was badly damaged. The wrecking train in this city was immediately telegraphed for, and all the available force was sent with it; the track was soon cleared. The North Conway train from Boston came in two hours late, followed by the Portland train about one hour behind the regular time. The engine was put on the track during the day, and taken to the Eastern railroad machine shop at East Boston.

It is reported that Mr. James W. Goodwin, proprietor of the Kearsarge house, has about completed arrangements to move to Clinton, Mass., and take charge of the Clinton house in that city; the latter hotel is centrally located, contains one hundred rooms, is well furnished, and has bar, billiard room, stable accommodations and everything required for a first-class house. Two young men from out of town it is said will occupy the Kearsarge.

At the brokers' board in Boston, Saturday last, thirty-five shares of Eastern railroad stock were sold at $40 per share, and ten shares in the Portsmouth, Great Falls & Conway road at $30 per share; $91,500 of Eastern railroad six per cent bonds changed hands at 109 1-2 and 110. Two shares in the Concord road were sold at 102.

A man and woman calling themselves S. C. Brown and wife, and hailing from Conway, who booked at the Gibson house last Friday evening, and afterward endeavored to obtain board at the Riverside house, are "wanted" by the police, being suspected of robbing a man in Great Falls of a pocket-book.

Ten fishing vessels arrived at this port on Saturday, some with light fares and some with no fish at all, 12,000 lbs. being the estimated total received that day. Prices ruled at four and 4 1-2 cents per pound.

Mr. Twombly, night yard master at the Eastern railroad station in this city, when walking down the track on Saturday evening between the hours of seven and eight, found his way blockaded by a horse and wagon. The team belonged to a Greenland man, and the driver in a state of bewilderment had turned from Congress street into Cabot street, driving into a ditch and over an embankment four feet high on to the railroad track. He had gone some six hundred feet up the track before he was stopped. The horse after some difficulty was turned around, and led back over the tracks and Cabot street to Congress street, where he was pointed for Greenland, and then started off.

On Saturday afternoon about two o'clock Mr. C. Henry Kennison, who was at work on the new elevator at the Rockingham house, fell a distance of thirty-four feet, breaking one ankle bone and badly cracking another. He was standing on a plank placed across the elevator well, in the third story, when it broke and let him down, a knot in the middle of the plank, which greatly weakened it, having been concealed by lime with which the plank was covered; in his fall he caught hold of a box of bricks which was being sent up the elevator, and capsized it, this considerably breaking the force of his fall, though the bricks which followed him down bruised and cut him about the body. He was taken home, and attended by Dr. Parsons; and on Sunday was reported as being quite as comfortable as could be expected under the circumstances. Mr. Kennison is well known as the janitor and stage carpenter at Music hall.

The steamer Acushnet did not arrive at this port from Boston last week until Saturday morning at 6:30 o'clock. She brought a large freight, which was discharged during the low tide; and she left for Boston at twelve o'clock, noon, the same day.

The schooner Benjamin, of Pembroke, Me., bound from Boston for Millbridge, Me., with 125,000 bushels of corn, when coming into Portsmouth lower harbor on Saturday afternoon fouled a St. John schooner, and had her mainsail so badly torn as to render it worthless.

The amount of internal revenue collected from the breweries in this state in 1882 was nearly $254,000, of which the Portsmouth breweries paid about $227,000.

A gentleman from Salmon Falls who visited this city on Saturday says that the wells in the northern part of that town have entirely given out, and the families residing there are obliged to go some distance to the well at the railroad station to get their supplies. The mills are running on short time.

At the dinner of the Merchants' club of Boston, given at Young's hotel on Saturday, speeches were made by Gov. Butler, Lt.-Gov. Ames, President Crocker of the senate, Hon. P. A. Collins, member of Congress-elect, Col. Jonas French, and William H. Hackett of this city. The attendance was quite large, the speaking lasting until nearly eight o'clock P. M. Hon. Eustace Fitz presided.

The deaths in Hampton during the year 1882 numbered nineteen, as follows: Mrs. Oliver Godfrey, aged 72 years; Capt. Stephen Chase, 87 years; Miss Betsey Norris, 82 years; Capt. Nathaniel Batchelder, 74 years; Mrs. Fannie Knowles, 77 years; John Palmer, 79 years; Miss Sally Drake, 84 years; Miss Betsey Dearborn, 84 years; Mrs. Augustus W. Gookin, 25 years; Mrs. James Adgerson, 41 years; child of Henry Taylor, 2 years; Mrs. John Nudd, 48 years; Benjamin Shaw, 81 years; John Blake, 23 years; Miss Lizzie Shaw, 74 years; Mrs. Simon Brown, 80 years; Mrs. Randolph A. DeLancy, 68 years; Mrs. Carrie Elkins, 21 years; Mrs. James H. Marston, of Boston, 36 years. Thirteen of the nineteen decedents were females, and eleven were over seventy years of age, six being eighty or upward.

At the annual meeting of the stockholders of the Newmarket national bank, held on Saturday, Jan. 6th, the following directors were chosen; Joseph C. Burley, John B. Griffiths, Thomas H. Wiswall, Lafayette Hall, Napoleon B. Treadwell, Winthrop N. Dow and Joseph N. Cilley.

The Piscataqua Association of Congregational ministers holds its first meeting for 1883 at Rochester on Tuesday, Jan. 16th, with Rev. Henry S. Kimball; concio by Rev. George W. Christie; Christian experience, by Rev. P. Titcomb; exegesis by Rev. J. W. Kingsbury; sermon by Rev. J. O. Barrows; essay by Rev. L. D. Evans; review by Rev. J. H. Stearns, subject "The Orthodoxy of To-day."

There were fourteen deaths in South Newmarket during 1882.

When Horace Greeley said "go west" he meant it, and several young men in this city, and others from the suburban towns, are making preparations to follow his advice, and make an early start in the spring. Texas, Colorado and Minnesota are talked of as objective points.

Rev. B. F. McDaniel, recently of Exeter, was installed as pastor of the Barton square Unitarian church in Salem, Mass., Sunday evening, Jan. 7th. It is thought that the Unitarian society of Exeter will extend a call to Rev. George W. Cook of Dedham, Mass.

REAL ESTATE TRANSFERS.

The following are among the recent transfers of real estate left for record in the office of the register of deeds:

Portsmouth — Samuel Gove, Jr., of Portsmouth, to John G. Tobey of Kittery, land and buildings for $325; Frank E. Dearborn of Portsmouth to Charles E. Batchelder of Portsmouth, land, $375.

Greenland — Clara B. Lovering of Greenland to Asa Jewell of Exeter, land and buildings, $500.

South Newmarket — Hollis Pease of South Newmarket to Adelaine Swett of Freedom, land and buildings, $1000.

Newmarket—Samuel A. Haley of Newmarket to Hannah E. Meader et al. of Durham, land, $3000.

Raymond—Josiah S. James of Portsmouth to O. W. Fellows of Raymond, land and buildings, $800.

FUNERAL SERVICES.

The funeral services of Mr. Joseph D. Ackerman, held in the Middle street church (of which he was a communicant) on Sunday, were impressive. The office was crowded, the throng including many of our elder citizens who paid their last sad tribute to his memory. There were also in attendance the employes of the Eastern railroad in this city, and several members of express companies from other cities; the Knights Templar, to which organization he belonged, were present in full regalia. The exercises were as follows:

Voluntary on the organ;
Invocation;
Reading of the Scriptures;
Hymn, "Asleep in Jesus," choir;
Discourse and prayer;
Hymn, "Come ye disconsolate," choir;
Services by Knights Templar, who were assisted by the choir, who sang "Softly, sadly bearing forth," and "As bound by sudden storm."

After the services the family and friends viewed the remains. The pall bearers were John R. Holbrook, Henry F. Wendell, Dr. Samuel C. Whittier, Elbridge G. Peirce, Jr., William A. Hodgdon, James W. Knapp and Daniel E. Leavitt.

A Common-sense Remedy.

SALICYLICA.

No more Rheumatism, Gout or Neuralgia.

Immediate Relief Warranted.

Permanent Cure Guaranteed

Five years established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylica.

SECRET!

THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.

SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.

It has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate these diseases which are the result of the poisoning of the blood with Uric Acid.

SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Highest Medical Academy of Paris reports 95 per cent. cures in three days.

REMEMBER

that SALICYLICA is a certain cure for Rheumatism, Gout and Neuralgia. The most intense pains are subdued almost instantly. Give it a trial. Relief guaranteed or money refunded.

Thousands of testimonials sent on application.

$1 a Bot. 6 Bottles for $5.

Sent free by mail on receipt of money.

ASK YOUR DRUGGIST FOR IT.

But do not be deluded into taking imitations or substitutes, or something recommended as "just as good." Insist on the genuine with the name of WASHBURNE & CO. on each box, which is guaranteed chemically pure under our signature, an indispensible requisite to insure success in the treatment. Take no other, or send to us.

THE SCIENCE OF LIFE

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be a lasting and direful curse. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Sixth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. It and in beautiful French cloth, embossed, full gilt. Price only $1 5-, by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

Yours for Health
Lydia E. Pinkham

LYDIA E. PINKHAM'S VEGETABLE COMPOUND,

Is a Positive Cure

For all those Painful Complaints and Weaknesses so common to our best female population.

A Medicine for Women. Invented by a Woman. Prepared by a Woman.

The Greatest Medical Discovery Since the Dawn of History.

It revives the drooping spirits, invigorates and harmonizes the organic functions, gives elasticity and firmness to the step, restores the natural lustre to the eye, and plants on the pale cheek of woman the fresh roses of life's spring and early summer time.

Physicians Use It and Prescribe It Freely

It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach.

That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. For the cure of Kidney Complaints of either sex this Compound is unsurpassed.

LYDIA E. PINKHAM'S BLOOD PURIFIER will eradicate every vestige of Humors from the Blood, and give tone and strength to the system, of man, woman or child. Insist on having it.

Both the Compound and Blood Purifier are prepared at 233 and 235 Western Avenue, Lynn, Mass. Price of either, $1. Six bottles for $5. Sent by mail in the form of pills, or of lozenges, on receipt of price, $1 per box for either. Mrs. Pinkham freely answers all letters of inquiry. Enclose 3c. stamp. Send for pamphlet.

No family should be without LYDIA E. PINKHAM'S LIVER PILLS. They correct constipation, biliousness, and torpidity of the liver. 25 cents per box.

New Life

is given by using BROWN'S IRON BITTERS. In the Winter it strengthens and warms the system; in the Spring it enriches the blood and conquers disease; in the Summer it gives tone to the nerves and digestive organs; in the Fall it enables the system to stand the shock of sudden changes.

In no way can disease be so surely prevented as by keeping the system in perfect condition. BROWN'S IRON BITTERS ensures perfect health through the changing seasons, it disarms the danger from impure water and miasmatic air, and it prevents Consumption, Kidney and Liver Disease, &c.

H. S. Berlin, Esq., of the well-known firm of H. S. Berlin & Co., Attorneys, Le Droit Building, Washington, D. C., writes, Dec. 5th, 1881:

Gentlemen: I take pleasure in stating that I have used Brown's Iron Bitters for malaria and nervous troubles, caused by overwork, with excellent results.

Beware of imitations. Ask for BROWN'S IRON BITTERS, and *insist* on having it. Don't be imposed on with something recommended as *"just as good."* The genuine is made only by the Brown Chemical Co. Baltimore, Md.

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

It will drive the Humor from your system, and make your skin clean and smooth. *Those Pimples and Blotches* which mar your beauty are caused by impure blood, and can be removed in a short time, if you are wise and use the great blood purifier,

SULPHUR BITTERS.

Why suffer with Rheumatism? Why suffer with Headache? Why have Salt Rheum? Why have your blood in such a condition that a slight cut or bruise will fester and run for weeks? Why have your food turn sour on your stomach, causing you to belch up acid and wind? Why have that terrible Headache? Why have that feeling of pain, with Dizziness, Drowsiness, Dullness, Want of Appetite, Nausea, Bad Taste in the Mouth, Coated Tongue, Pain in the Side, Back, Limbs, Joints, Piles? Why? Because your Liver is out of order, and you need a good cathartic to assist nature and tone up your system. Why not take Sulphur Bitters? It is a sure cure for all these troubles, and will make you feel like other people do when their Liver is in good order. Sulphur Bitters is not a cheap rum or poor whiskey drink, but a medicine made from the purest and best medicinal roots and herbs, and is warranted to do all we claim for it, or money refunded. Sulphur Bitters is a sure cure for Dyspepsia, Indigestion, Biliousness, Fever and Ague, Fever Sores, Boils, Blotches, Tetter, Ringworm, Scald Head, Rheumatism, Neuralgia, Kidney Complaints, Dropsy, Gravel, Diabetes, Female Weakness, Nervous Debility, Sick Headache, Jaundice, Costiveness, Loss of Appetite, Dyspepsia, Liver Complaint, Chronic Diarrhœa, Chronic Rheumatism, Chronic Nervous Debility, Chronic Kidney Complaint, Chronic Liver Complaint, Chronic Blood Poison, Chronic Female Complaints, Chronic Constipation, Chronic Piles, Chronic Dropsy, Chronic Gravel, Chronic Diabetes, Chronic Nervous Prostration, Chronic Sick Headache, Chronic Jaundice, Chronic Dyspepsia, Chronic Indigestion, Chronic Fever and Ague, Chronic Fever Sores, Chronic Boils, Chronic Blotches, Chronic Tetter, Chronic Ringworm, Chronic Scald Head, Chronic Rheumatism, Chronic Neuralgia, Chronic Kidney Complaints, Chronic Dropsy, Chronic Gravel, Chronic Diabetes, Chronic Female Weakness, Chronic Nervous Debility, Chronic Sick Headache, Chronic Jaundice, Chronic Costiveness, Chronic Loss of Appetite, Chronic Dyspepsia

Horrors of the Inquisition.

The "Inquisition" of olden times inflicted terrible torments on its victims, such as stretching them in all kinds of unreasonable shapes and breaking their bones. But these torments were not much worse than those which are experienced by people who now suffer from muscular rheumatism. Mr. L. O. Morgan, of Syracuse, was a martyr to muscular rheumatism, but Perry Davis's Pain Killer made him well. Mention this to your friend who is tortured with rheumatism.

Portsmouth Chronicle.

TUESDAY, JAN. 16, 1883.

Gov. Butler of Massachusetts, being as is alleged displeased with the Boston *Post* for refusing to take off its hat whenever it looks in his direction, has ordered the copy of that lively paper hitherto sent to the executive mansion to be discontinued. Old Ben has been called a good many hard names in his time, yet he has never been accused of being a fool,—but it won't do for him to do too many such silly tricks as this. The *Post* still keeps a stiff upper lip.

Col. F. A. Conkling of New York apparently does not appreciate the officers of our navy. At a special meeting of the Chamber of Commerce, when the consideration of the bill to establish a bureau of mercantile marine in the navy department was brought up, Col. Conkling said that "if the resolutions should declare this whole scheme a swindle and the men who framed it fools," he should vote for it. "I have been brought," he continued, "in connection with many naval officers, and would here say that I would as soon have a saloon keeper in the fourth ward to administer ghostly comfort to a dying boy, or a blacksmith to observe the transit of Venus, as to trust a naval officer with the control of the mercantile marine or to supervise the commerce of this country. I would as soon hire a canal-boat captain to fight a first-class war-ship, as to employ one of these men to perform the duties mentioned in the bill."

Nothing the Matter.

A despatch of the 13th inst., from Concord, was as follows:

The attempts made in certain quarters to create a sensation as regards matters pertaining to the First National bank of this city are amusing, if nothing more. The simple facts are as follows: The charter of the bank expires by limitation on the 24th day of next month, and the question of its extension came before the stockholders at a special meeting holden to-day. Two of the directors, who own quite a large amount of the stock, have signified their intention of withdrawing from the association, under the provisions of the recent act of Congress. It is understood that they take this course because they have not been able to agree with the other directors in all matters pertaining to the management of the bank; it is said they have wanted to divide a portion of the bank's surplus, while the other directors have opposed such division, and that there are also other minor matters of difference between them. The bank is one of the strongest and most prosperous in the state, and has a very large surplus. It is claimed that two-thirds of the stockholders have already signed an application for an extension of the charter, and the meeting today was for the purpose of giving all the stockholders full information of the situation.

More Horrors.

A despatch of the 14th inst. from St. Petersburg, Russia, says that during the performance on the previous day at a circus in Berditscheff, in Russian Poland, a fire broke out in the building, and before the spectators could escape the whole structure was ablaze. Three hundred persons perished in the flames.

The Planters' hotel, one of the largest hotels in St. Louis, Mo., took fire about five o'clock Sunday morning, the 14th inst., and four persons lost their lives, three of them being employes of the hotel; a number of other persons were injured by jumping from windows. The damage to the building was slight, the total loss not exceeding $30,000.

Forty-one dead bodies had been recovered from the ruins of the Newhall house, Milwaukee, up to the 14th inst., and forty-two bodies were supposed to be yet in the pile of rubbish.

The New Jackson.

The New York *Tribune*, in an article referring to the unhealthy season for democratic presidential candidates, after showing how Gov. Cleveland of New York has disposed of his chances by opening his mouth, thus turns to the "celebrated case" in Massachusetts:

Governor Butler's luck has been equally bad, though due to widely different causes. There has been nothing platitudinous in his utterances, whatever else may be said of them. The trouble with him is an inordinate and irrepressible fondness for throwing bricks. Occupation of that sort is amusing, but there is no presidential capital in it. Butler's chief political doctrine is that everything and everybody eminently respectable ought to be attacked. A large majority of the voters of this country do not agree with him, and the more bricks he throws the more enemies he makes. He seems to be running for the presidency much as Andrew Jackson ran; indeed, he has as good as put himself forward as the Andrew Jackson of the period. He forgets that the country is sixty years older than it was when it made Jackson a hero. Slam-bang statesmanship has had its day. As a dignified democrat with independent proclivities and reform tendencies, General Butler might have some chance for securing a presidential nomination; but he would have to be born again to be that. He is first, last and always Butler, and his recent utterances have ruined his prospects by showing that his case is incurable.

News and Notes.

Saturday closed the filing of claims in the re-established court of commissioners of Alabama Claims. The total number of claims filed is between 5000 and 6000. The court will reconvene on Wednesday, and the government counsel will be prepared to go on with any case that may be presented.

Patrick Higgins was hung in the jail at Galway, Ireland, Jan. 15th, for complicity in the murder of the Huddys.

Gov. Butler has refused to interfere in the case of Joseph B. Loomis, sentenced to be hanged in Springfield, Mass., March 8th, for the murder of David Levett.

Senator Frye of Maine on the 15th inst. introduced in the senate a bill to authorize the president to abrogate the fishing clauses of the treaty of Washington on or after July 1st, 1883.

Washington has had a sleighing carnival on "the avenue."

The Ocean house at Swampscott, Mass., burned last fall, is to be re-built to contain 350 rooms, at a cost of $75,000.

Boston proposes a World's fair at the Mechanics fair building, during the coming summer.

AROUND HOME.

DeWitt Clinton Commandry of Knights Templar was on Monday evening last officially visited by Grand Commander Nathan P. Hunt, and other officers of the Grand Commandry of the state. The work was exemplified, after which a banquet was served in honor of the distinguished visitors.

The steamer Acushnet encountered a very heavy sea on her trip from this port to Boston on Saturday last. Parties watching her from the Newcastle shore, as she went out of the harbor, said the vessel appeared completely buried at times, but would clear herself handsomely, and went along at a good rate of speed.

The public installation of officers by Storer Post, G. A. R., will take place in Franklin upper hall on Wednesday evening, Jan. 17th, at 7:30 o'clock. Ladies and gentlemen are cordially invited to attend.

On Monday afternoon Mrs. Major Hooper fell on the ice on Water street, near the bakery of Mr. James W. Sowersby, and broke one of her arms. Mrs. Hooper, a most estimable lady and well known from her numerous works of charity, enjoys the highest esteem of hundreds who will sympathize with her in her misfortune. Water street in that vicinity is said to be in a bad condition, both street and sidewalk being one glare of ice.

The very high tides of last week made great inroads on the sandy and pebbly beaches in this vicinity. The ledges and rocky bluffs remain about as they were.

There was a large amount of floating ice in the harbor on Sunday last.

Another more westward is reported. Mr. John Griffin, hair dresser on Congress street, is to join the noble army of benedicts, and transfer his business to some western city.

Work has been commenced at boarding the roof of the house built over the receiving ship Constitution, at the navy yard.

A masquerade ball is announced as likely to come off Feb. 6th, in Franklin hall.

The water in the aqueduct reservoir has been lowered three feet.

Another hairdresser is reported as making arrangements to close his business here, and move to Holyoke, Mass.

On Monday evening a lady while coming down Congress street fell on the ice, the jar causing a faintness from which however she soon recovered, and pursued her walk.

We regret to learn that Mr. Choate Burnham of Boston, owner of the farm bearing his name at Gerrish's island, Kittery, has been confined to his bed for several weeks by severe injuries received through falling from a chair while adjusting a curtain in his office.

The school at Kittery Point taught by Miss Carrie Haley was not closed on account of the prevalence of diphtheria in the district, as was reported, but from the illness of the lady's father (who has since died) making her presence at home a necessity. There was not a known case of diphtheria at the Point on the 15th inst.

At about twelve o'clok last Sunday night, Fred Beamis and Charles E. Spinney, employes of the Eastern railroad, heard some one shouting in the vicinity of Eastern railroad wharf, and on reaching the end of the wharf saw a marine sitting in the stern of a boat, in a helpless condition. They immediately took a wherry and went to his rescue, towed him ashore, and acted the good samaritan by taking him in, warming him up, and then starting him for Kittery by the land route. The wind was blowing fresh and the tide running strong at the time, and had it not been for their timely assistance the marine would probable have gone against the piles of the Portsmouth bridge, which would have resulted in his being drowned. The boat is stored, waiting an owner.

Work is brisk at the Portsmouth shoe factory. Forty cases of shoes were sent to Haverhill, Mass., last week, to have button-holes worked, the girls in this factory having more than they could do. Six more button-hole machines have been added, however, during the past ten days, and it is thought that no more work will have to be sent away.

Samuel W. Emery has been appointed librarian of the Portsmouth Athenæum.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. codjan9,84

Office of Clerk of U. S. Circuit Court, District of New Hampshire, William H. Hackett, Clerk.
PORTSMOUTH, N. H., Jan. 8th, 1880.

P. S. Brown: I am happy to say in reply to your enquiry that the spectacles with which you supplied me I have found better adapted to my wants than any I have been able previously to obtain. I regard it of great importance that those of us who are obliged to use "helps to read" should have some competent examiner of the eye to determine what is required, and that proper glasses and none other should be worn even to the most limited extent. Yours truly,
WILLIAM H. HACKETT.

DIPHTHERIA!

THE PROSTRATION which follows Diphtheria, and the persistency with which it clings to the patient, are well known to all who have had any experience with this terrible disease.

The following letter shows how the restoring and invigorating properties of

Hood's Sarsaparilla

overcome it, and how by vitalizing and enriching the blood it neutralizes and eradicates the poisoned matter from it, bringing to the convalescent the color, life and vigor of robust health.

LOWELL, MASS.

MESSRS. C. I. HOOD & CO.: Gentlemen—My little girl had the diphtheria last April. The disease left her very weak, blood poor, with no appetite, and she could not seem to rally from its effects. HOOD'S SARSAPARILLA was recommended by a neighbor. After she had been taking it a few days we noticed a change for the better—she began to eat with a relish. It seemed to take out the poison the disease had left in her blood, the change being very noticeable in her face. She took it two months and fully regained her health, much to our delight. We now recommend HOOD'S SARSAPARILLA with a great deal of pleasure. Very truly yours,
J. E. SMITH,

The Insurance Department Reports of several States furnish interesting data for judging of the Real Economy, Insurance Reliability, and Business Prudence of placing money with these concerns, under the impression that it furnishes

under which no "Assessments" are *possible*, and the benefit to be received definitely decided at time of application, with such an annual return of the unexpired premium as each year's experience shall develop.

Forty-three organizations, known as "Co-operative Companies," "Mutual Aid or Relief Associations," "Benefit Societies," &c., report to the State Departments of New York, Pennsylvania, Ohio, Indiana, West Virginia, Massachusetts, &c., the following

OUTRAGEOUS MISUSE — OF THE — **Assessments Collected.**

Maximum Value of Certificates (or policies) upon which policies were paid in 1881.....	$2,395,925.00

ANOTHER WAY OF PUTTING IT.

These unfortunates held Certificates representing a supposed value to their beneficiaries of $2,395,925.

The real value proves to have been about 21¼ per cent, or $511,384.36, by waiving their claim of $82,823.58 of the amount collected ($594,207.94) and this is called *Cheap Insurance.*

A CALL ACCEPTED.

[From the Boston Journal.]

Rev. James De Normandie, of Portsmouth, N. H, has accepted the call of the Unitarian Church of Roxbury in place of Rev. John Gorham Brooks, resigned. The society is to be congratulated upon securing a preacher and pastor of the high reputation of Rev. Mr. De-Normandie. The letter of acceptance was read yesterday by Rev. Edward Everett Hale, and is as follows:

PORTSMOUTH, N. H., Jan. 12, 1883.

To the Members of the First Religious Society in Roxbury:

CHRISTIAN FRIENDS—On the 15th of December last I received, through your committee, an invitation to be your minister. It is no light matter to break asunder the pastoral ties without a disturbing incident for twenty years. I began my ministry here even before I graduated, so that I know nothing of other parishes; but I have been not a little influenced by the record of your society, which bears the same number of ministers in almost the same number of years, so that I naturally thought I might find some of the same elements of harmony, of unanimity, of culture, of Christian zeal and fellowship.

A question involving so many interests for each of us ought not to be hastily decided, and if the delay has seemed long to you, the perplexity and indecision have been more serious for me. After the most mature deliberation I have concluded to accept your invitation, in the confident hope that you all stand ready to work with me, that the sacred associations which cluster around your venerable church, and that higher Christian truth which forms the foundation and crown of all our churches, may have in us a renewed consecration and be carried to still greater prosperity — that in apostolic phrase, we may be "fellow-workers unto the kingdom of God."

I remain, in Christian sympathy,
Most truly yours,
JAMES DE NORMANDIE.

[Mr. DeNormandie has sent his resignation as pastor of the South Parish to the wardens, to take effect after the 2d Sunday in February.]

COMPLIMENT TO A GREENLAND MAN.

Bay City is one of the flourishing places in the great state of Michigan where the traveller can find excellent hotel accommodation. Mr. Theodore F. Pickering, son of the late Col. Stephen Pickering of Greenland, has for many years been a successful hotel man in Michigan. He is now manager of the new Frazer house, of Bay City, and recently the leading business men and citizens of that place, in a neat note referring to the fact that the hotel under his management ranked second to none in their state, tendered Mr. Pickering a complimentary benefit at the hotel, to be given Wednesday evening of this week, as a recognition of their appreciation of his efforts to give Bay City one of the best hotels in Michigan. The correspondence, including the reply of the beneficiary, is published in a recent number of the *Bay City Tribune*.

SPEAK UP, GENTLEMEN.

Mr. Editor: At the election for city officers, holden Aug. 1st, 1882, the following question was attached to all the tickets excepting those of ward four: "Is it expedient for the City Government to abate the nuisances arising from the ponds?" and the vote stood,—in the affirmative, 1585; in the negative, thirteen.

Being thus *instructed*, the city officials have consulted an eminent sanitary and civil engineer, and have received from him full plans and carefully prepared estimates. As work cannot be begun till the frost is out of the ground, the mayor, who is desirous to adopt the best of the five plans which have been offered, has urgently requested his fellow citizens to examine the plans at the city rooms, and to let him have the benefit of their opinions and advice in regard to them. They may feel perfectly assured that his sole purpose is to adopt the best means to remedy this yearly-increasing nuisance; and he at once rejected his own proposed plan, after hearing the objections presented by Mr. Bowditch, the engineer, in regard to it.

As this is a subject involving the health and prosperity of the city, and at the same time of great financial importance, it seems eminently proper that the citizens of Portsmouth should aid the officials by consulting and advising with them. The mayor is at the city rooms every day at eleven o'clock in the forenoon, and being fully posted on the subject, will be glad to answer all questions and to offer every explanation. H.

It really appears as though the members of the present city government mean to abate the long-standing nuisance, and that they desire to adopt such means to that end as the citizens shall approve. There are several plans proposed, varying widely in their estimated cost, and if the people are in earnest in wishing the authorities to carry out any one of these plans, they should make their wishes known. The tax-payer who has a preference and does not express it, will have no right to growl in case his favorite plan is not adopted.—*Ed.*

Mr. Editor: The mayor has invited examination of the five plans for abating the north pond nuisance, and any suggestions relative thereto. Those plans and public sentiment agree in fixing the nuisance upon the breweries; the writer therefore respectfully suggests that it is the first and imperative duty of the city authorities to present the breweries to the grand jury, (supposing they cannot decide the fact themselves,) for its determination as to what the nuisance is, and by whom it is committed. After, it will be time enough to discuss plans.

There can be no force in the claim understood to be made by the breweries, that the city permitted their refuse to be emptied into the pond, and that they thereby have acquired a right to do so,—for the obvious reason that there has always been an express regulation to the contrary, and that no power could have existed in the city officially to grant a privilege to the great injury of the health, property and prosperity of the citizens.

Within a few months precisely similar cases have been before the courts of New York, Connecticut, Vermont, and it is believed Massachusetts, and in each case, according to the published reports, as you will remember in the case of New York, the nuisance has been fixed upon breweries and other factories, and its abatement ordered to be made by those who committed it.

Let this case be tested, and the taxpayers will, if it is decided they *must*, be the more willing to meet the great expense. The mayor and councils may be assured that this is the opinion of very many

CITIZENS.

NAVAL "INVESTIGATIONS."

A board of naval officers has investigated charges brought against the superintendent of the rope walk at the Charlestown navy yard, of having had articles made at the shops upon the yard, for his private use. The report is expected to exonerate the superintendent. Of course the captain of the yard, who is chairman of the board, would not be likely to permit such goings-on under his charge, and he would not believe it possible that the workmen of the yard could be put to any work other than for the advantage of the navy department. There are all sorts of stories about town, after every discharge of men at a naval station, that work is done in families of officers by men rated as laborers or mechanics; that all kinds of articles are made, often quite expensively, for officers, by the mechanics of the yards, and charged to vessels in course of construction and repair; and that money is wasted in building and fitting pleasure boats, upon house decorations, furniture, etc.; but it always is shown, when a board of officers is convened to investigate such affairs, that "there is nothing in it." True, it is sometimes found, when a congressional committee suddenly lights upon one of these sins against the purity of the administration of affairs, that there is perhaps room for criticism, but the secretary will be told that "it is all right," "an ancient custom," "a way they have in the navy," etc., and as the story goes in naval circles, the admiral of the navy and a few of his sort can make nearly everything they attempt to elucidate as clear as a quill to the somewhat near-sighted head of the navy; nothing ever comes of stirring these matters, and the result of "not proven" is found written upon the wrapper, around which the red tape of the department is snugly secured before it is safely laid away in its pigeon hole to rot.

A HARBINGER OF SPRING.

The notes of a robin were heard on Middle street, on Monday afternoon of this week, and the lonesome-looking bird himself was found perched in an apple tree in the garden of Mrs. Bodge. Attempts were made to capture him, but redbreast flew into the thick hemlocks in the yard of Geo. W. Haven, Esq., where he was not pursued.

The adjourned meeting of the Rockingham Odd Fellows' Mutual Relief Association will be held at Odd Fellows' Hall this (Tuesday) evening, Jan. 16th, at 7:30 o'clock, for the purpose of electing a secretary.

Hon. Frank Jones recently received from the old established house of Lawrence Coffee & Co., produce commission merchants in Toronto, Ont., with whom he has extensive business relations, a present of a fine quarter of beef for his own use, sent to him as a specimen of the beef product of the Ontario region. This excellent quality of Christmas beef is from the shambles of Henry R. Frankland, butcher, packer and government contractor in the Lawrence market at Toronto; it is especially fat, juicy and satisfying to the taste, and if it is a sample of Canadian beef, there must be a "feast of fat things" in Ontario every Christmas season. The ox in the "present" instance weighed 1500 pounds.

E. B. Phillips, Esq., late of the Eastern railroad, is said to have been promised a salary of $18,000 as president of the Toledo, Cincinnati & St. Louis railroad. It is to be hoped that he will not be obliged to take this in stock.

Rev. A. P. Peabody, D. D., has been chosen president of the Associated Charities of Cambridge, Mass.

The sale of seats for W. J. Florence in the "Mighty Dollar," commences at Myers' bookstore, to-morrow (Wednesday) morning.

WHEAT BITTERS.
THE BEST AND The Richest
BLOOD, BRAIN and NERVE
-F-O-O-D-
CAREFULLY PREPARED, THOROUGHLY TESTED, ACCEPTABLE AND RELIABLE.
The Phosphates of the Wheat are its most valuable food property, and are, when properly prepared, the most acceptable nutriment with which to build up the system.
The Blood, Brain and Nerves are the forces which bear the strain of every day work and life, and in order to save sickness it is wise to BUILD FOR HEALTH.
Wheat Bitters are prepared, not by fermentation but by solution and are richest in the Phosphates, while the starch and impure matter are eliminated. These make in themselves a basis, to which is added the best and choicest medicinal qualities, necessary to make it a tonic and bitter. It is at once healthful, pleasant to the taste and must not be confounded with the thousand and one cheap alcoholic bitters which are sold as cure-alls. Medicine is doubly effective when used with food, so as to nourish and it corrects.
Sold by druggists, $1.00 per bottle.

A Common-sense Remedy.
SALICYLICA.
No more Rheumatism, Gout or Neuralgia.
Immediate Relief Warranted.
Permanent Cure Guaranteed
Five years established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylica.
SECRET!
THE ONLY DISSOLVER OF THE POISON, OR URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.
SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.
It has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate those diseases which are the result of the poisoning of the blood with Uric Acid.
SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Highest Medical Academy of Paris reports 95 per cent. cures in three days.
REMEMBER
that SALICYLICA is a certain cure for Rheumatism, Gout and Neuralgia. The most intense pains are subdued almost instantly. Give it a trial. Relief guaranteed or money refunded.
Thousands of testimonials sent on application.

THE unusual miseries that result from indiscretion in early life may be a lasting and dread. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and physical debility, premature decline of man, or vitality unpaired by the errors of youth, or too close application to business, may be restored and manhood regained.

26th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jeweled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, and more than 125 valuable prescriptions for all forms of disease, acute and chronic, the result of many years of extensive and successful practice, either cases of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 5; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

LOG ROLLING.

While Wrestling with a Fallen Tree a Lumberman Receieves Consequential Damages.

While on a hunting excursion in the great coal and wood region near Carbondale, Pa., the writer met William Coll, a lumberman. Accustomed to life and I bor in the forest from early manhood, he was a true Knight of the Axe. Many a tree had fallen before his mighty strokes, and fleets of rafts had borne away to market the sawed products. Coll is a character, and if Oscar Wilde is right in saying that all movements in unhindered labor are graceful, our friend William, slipped for his work, and attacking a tree as Richard I assaulted the heavy doors of Front de Bouef's Castle, must have presented a admirable picture.

One day, however,—but let him tell the story himself, as he told it to me:

"I was out in the woods, you know, trying to stack a log down a hill. Thinking I could get a better purchase on it from the lower side, I tackled it there with my log-rolling hook and threw my weight on the lever. She started, she did, but as luck would have it, before I could get out of the way, she rolled right over me. It it hadn't been for a lot of small limbs and brush lying in the road, which lifted her up, she'd a crushed me dat. As it was I got up without a broken bone, but with some mighty bad bruises."

"Then you were all right," said his auditor.

"Not by a blamed sight, stranger. I took cold, rheumatism set in, and, if I hadn't heard of BENSON'S CAPCINE POROUS PLASTERS and used 'em, it's my opinion I'd ought never have made another chip fly. But the Capcine took hold quick, and I'm 'bout as good as new. But there's one thing you kin calculate on:—I shall never wrastle with anotoer log unless I have the advantage of the ground. Fur, as I told you before, if it hadn't been for them brushes I'd been smashed so you could 'a sold me for a door mat."

The Capcine is the thing for rheumatism. It doesn't keep you waiting. The word CAPCINE is cut on the centre of the genuine. Price 25 cents. Seabury & Johnson, Chemists, New York.

New Life

is given by using BROWN'S IRON BITTERS. In the Winter it strengthens and warms the system; in the Spring it enriches the blood and conquers disease; in the Summer it gives tone to the nerves and digestive organs; in the Fall it enables the system to stand the shock of sudden changes.

In no way can disease be so surely prevented as by keeping the system in perfect condition. BROWN'S IRON BITTERS ensures perfect health through the changing seasons, it disarms the danger from impure water and miasmatic air, and it prevents Consumption, Kidney and Liver Disease, &c.

H. S. Berlin, Esq., of the well-known firm of H. S. Berlin & Co., Attorneys, Le Droit Building, Washington, D. C., writes, Dec. 5th, 1881:

Gentlemen: I take pleasure in stating that I have used Brown's Iron Bitters for malaria and nervous troubles, caused by overwork, with excellent results.

Beware of imitations. Ask for BROWN'S IRON BITTERS, and *insist* on having it. Don't be imposed on with something recommended as *"just as good."* The genuine is made only by the Brown Chemical Co. Baltimore, Md.

Horrors of the Inquisition.

The "application of cords" often times inflicted horrible torments on its victims, such as stretching them in all kinds of unreasonable shapes and breaking their bones. But these torments were not much worse than those which are experienced by people who now suffer from muscular rheumatism. Mr. L. O. Morgan, of Syracuse, was a martyr to muscular rheumatism, but Perry Davis's Pain Killer made him well. Mention this to your friend who is tortured with rheumatism.

Dr. Spalding's New Relations.

We regret that our neighbors at Dover are to be deprived of the eminently valuable ministrations of Dr. Geo. B. Spalding. The doctor is a good citizen, an able man, devoted to his work, and has at Dover a parish loyal to, indeed proud of, their pastor. But as we understand it, climatic influences have prevailed, and sanitary reasons have induced the good doctor to decide to leave Dover. As we remarked, we regret the necessity which causes the change. The members of the Congregational society of Dover, in their liberality, their devotion to their pastor and their love for him, are not behind any parish in the land. He has ever been the companionable, discreet, and at the same time energetic sin-rebuking minister that has been needed in Dover. His parish loved him for his good qualities, and it is a tie we are sorry to see sundered. As a neighbor we feel the removal of Dr. Spalding to be a loss; but if the health of his household may be improved and preserved by the change, we say "God speed." To our friends in Manchester we extend abundant congratulations. In the congregation he will hereafter address are many prominent men with whom we have pleasant acquaintance; some of them have besetting sins which the new pastor will not fail to rebuke, for he will be found courageous on all occasions when duty calls him. We are only too glad that he remains in the state, as a soldier of the cross, to battle for the right, to be the champion of progressive ideas, sound morals and correct living. Under his preaching the church at Manchester will thrive, and have full audiences, while we trust that the Dover people will find a worthy successor of the pastor from whom they part with such genuine and heartfelt regret.

Prince Napoleon, "Plon-Plon," issued a manifesto in Paris on the 16th inst., claiming the Napoleonic succession. He was promptly shoved in prison.

On Saturday, Jan. 13th, while two sons of Milo Black of Mansfield, Conn., nine and ten years old, were cutting hay from a stack, the stack blew down and they were buried beneath it. When taken out the you gest was dead and the other now lies in a precarious condition.

On Almy's pond, near Newport, R. I., Jan. 15th, where the Newport Ice company was harvesting its ice crop, a horse valued at $300 broke through, and carried the driver with him. The man was saved but the horse was drowned.

The divorce statistics of Maine for the past five years give an unpleasant picture of home life in that state. There have been, remarks the Portland *Argus*, about 2,400 divorces decreed during the period in question, and thus nearly 5,000 persons have been released from the bonds which were assumed with at least nominal solemnity. The ratio is probably one divorce to ten marriages in Maine.

AROUND HOME.

The public are cordially invited to attend the installation of officers of Storer Post, G. A. R., in Franklin upper hall this evening at 7:30 o'clock. Members will appear in uniform, and are notified to muster promptly.

The Newmarket *Advertiser* of the 13th inst. says: "Enormous catches of eels have been made here during the last three weeks, it being estimated that no less than three tons of the fish have been captured. They are caught with hooks and tongs, under the dam of the Newmarket Manufacturing Co., and in the sluice-way of No. 2 mill, being there in great quantities in the search for fresh water. George Keniston has caught about half of the entire number, and has found a ready sale for them in Dover, Great Falls, Boston, etc. Three or four persons caught fifteen bushels in one day in No. 2 sluice-way, and other large catches are reported. However, the supply is now becoming exhausted, and but very few comparatively are being caught this week."

There will no doubt be an active call for tickets to Judge Slote's reception at Music hall on Tuesday evening of next week, so those who wish to secure favorite seats will do well to look after them at once.

The water in the waiting rooms at the Eastern railroad station has been frozen for several days, and the efforts to thaw it out have been fruitless. Mr. Ayers, the efficient aqueduct manager, says the tide flows up from the north mill pond into the cellars, and being much colder than the fresh water, congeals it in severe weather. In the improvement of the station building some time since, it was the intention to place the boiler which furnishes steam for the building, in the cellar under the ladies' waiting room; the wall was built a foot thick, and covered with a surface of cement, but it did not prove proof against the entrance of the water, and other arrangements had to be made. On examination, Monday, the cellar show marks of the water having risen to within three feet of the upper floor.

Rev. J. K. Aldrich of Wellfleet, Mass., formerly settled at Rye, is reported to be very low with bronchial trouble, and not expected to live.

A friend informs us that twelve good stores and about eighty tenements are at present to let in this city.

Rev. Benjamin Knight, many years ago settled in Stratham as a Baptist minister, died in Salem, Mass., Jan. 14th, aged eighty-one years.

The livery-stable keepers were busy on Monday exercising their horses; with others, they complain of dull times.

Mr. George E. Mitchell, of Gerrish's island, Kittery, is cutting a large quantity of wood for the brickyards in York.

A post-office was established at East Lebanon, York county, last week, with Melvin Wentworth as postmaster.

On Saturday evening last Capt. Rastie Trefethen of Kittery, master of the steamer Mystic, received a box which was marked as containing a salmon trout. On opening the box, he discovered a conger eel, of the largest size, and is now puzzled to decide as to whether the sender made a mistake in the fish, or the trout changed his shape and elongated himself into another species of fish. The age of the creature is unknown.

On Wednesday evening, Jan. 24th, an entertainment will be given in Trefethen's hall, Kittery, for a benevolent object. There will be a zouave drill and skirmishing, by a party of young ladies; pantomime, "Mrs. Jarley's Wax-Works;" dialogue, in song; and tableau, "Good-night."

We noticed at Gerrish's island, Kittery, a day or two since, a huge watering trough sixteen feet in length, that had been made of part of the mainmast of the schooner E. H. Elliott, wrecked on the island the 18th day of last March.

The various granges of York county held a meeting at Biddeford on Monday of this week; remarks were made by Ivory Lord and others, but the principal speaker was Gov. Robie. The attendance was quite large.

Professor Ames, of Harvard college, has bought the Noah Trafton place at York Neck, and is erecting thereon an elegant cottage, of Queen Anne style and generous dimensions. Mr. Warren H. Riley, of Kittery Point, is in charge of the construction, and has had considerable difficulties to overcome in the tearing down and moving of old buildings, one barn having to be moved nearly half a mile over rough pasture lands; a new barn, forty feet by seventy on the ground, is being built.

PROF. BROWN,

Practical Optician,

Is now making his annual visit to Portsmouth and similarly affording any who may be in need, another opportunity of having a perfect spectacle accurately adjusted to their eyes. Just give your name to his agent when he calls, if you do not see me well as you want to.

☞ Prof. Brown is the only Optician in N. H. who makes spectacles for astigmatism and who carries a full stock of glass (artificial) eyes. His glass eyes are of the best manufacture. Do not break while in use. Look more natural and retain their polish, lasting much longer than any other.

Orders left at the Kearsarge House where he is stopping will be promptly attended to.

For particulars and testimonials see small circulars.

Office of Clerk of U. S. Circuit Court, District of New Hampshire, William H. Hackett, Clerk.

PORTSMOUTH, N. H., Jan. 26th, 1880.

Prof. Brown. I am happy to say in reply to your enquiry that the spectacles with which you supplied me have found better adapted to my vision than any I have been able previously to obtain. I regard it of great importance that those who are obliged to use "helps to read" should have some competent examiner of the eyes to det rmine what is required, and that proper glasses and none other should be worn even to the most limited extent. Yours truly,

WILLIAM H. HACKETT.

DIPHTHERIA!

THE PROSTRATION which follows Diphtheria, and the persistency with which it clings to the patient, are well known to all who have had any experience with this terrible disease.

The following letter shows how the restoring and invigorating properties of

Hood's Sarsaparilla

overcome it, and how by vitalizing and enriching the blood it neutralizes and eradicates the poisoned matter from it, bringing to the convalescent the color, life and vigor of robust health.

LOWELL, MASS.

MESSRS. C. I. HOOD & CO.: Gentlemen—My little girl had the diphtheria last April. The disease left her very weak, blood poor, with no appetite, and she could not seem to rally from its effects. HOOD'S SARSAPARILLA was recommended by a neighbor. After she had been taking it a few days we noticed a change for the better—she began to eat with a relish. It seemed to take out the poison the disease had left in her blood, the change being very noticeable in her face. She took it two months and fully regained her health, much to our delight. We now recommend HOOD'S SARSAPARILLA with a great deal of pleasure. Very truly yours,

J. R. SMITH,
19 Butterfield Street.

"That Extreme Tired Feeling."

"The first bottle has done my daughter a great deal of good; her food does not distress her now, nor does she suffer from *that extreme tired feeling* which she did before taking HOOD'S SARSAPARILLA."

The Insurance Department Reports of several States furnish interesting data for judging of the Real Economy, Insurance Reliability, and Business Prudence of placing money with these concerns, under the impression that it furnishes

These unfortunates hold Certificates representing a supposed value to their beneficiaries of $2,395,525.

The real value proves to have been about 21¼ per cent. or $511,384.36, by waiving their claim of $22,823.58 of the amount collected ($504,207.94) and this is called *Cheap Insurance.*

Cuticura

THE NEW BLOOD PURIFIER

Resolvent

I will now state that I made a miraculous cure of one of the worst cases of skin disease known. The patient is a man forty years old; had suffered fifteen years. His eyes, scalp and nearly his whole body presented a frightful appearance. Had had the attention of twelve different physicians, who prescribed the best remedies known to the profession, such as iodide potassium, arsenic, corrosive sublimate, sarsaparilla, etc. Had paid $300 for medical treatment with but little relief. I prevailed upon him to use the Cuticura Resolvent internally, and the Cuticura and Cuticura Soap externally. He did so and was completely cured. The skin on his head, face, and many other parts of his body, which presented a most loathsome appearance, is now as soft and smooth as an infant's, with no scar or trace of the disease left behind. He has now been cured 12 months.

Reported by
F. H. BROWN, Esq., Barnwell, S. C.

Scrofula Sore.

Rev. Dr. Dorr, in detailing his experience with the Cuticura Remedies, said that through Divine Providence one of his parishioners was cured of a scrofula sore, which was slowly draining away his life, by the Cuticura Resolvent internally, and Cuticura and Cuticura Soap externally. The person that had fed the disease was completely drivenout.

Eczema.

Sixteen months since an eruption broke out on my leg and both feet, which turned out to be Eczema, and caused me great pain and annoyance. I tried various remedies with no good results, until I used the Cuticura Resolvent internally and Cuticura and Cuticura Soap externally, which entirely cured me so that my skin is as smooth and natural as ever.

ELLEN M. FRAILEY, 64 South St., Boston.

Cuticura.

The Cuticura treatment, for the cure of Skin, Scalp and Blood diseases, consists in the internal use of Cuticura Resolvent, the new Blood Purifier and the external use of Cuticura and Cuticura Soap, the great skin cures. Price of Cuticura, small boxes, 50c.; large boxes, $1. Cuticura Resolvent, $1 per bottle. Cuticura Soap, 25c.; Cuticura Shaving Soap, 15c.

SUPREME COURT--DOE J.

The January term of the Supreme court began at Exeter on Tuesday. On account of an attack of rheumatism, Judge Carpenter, who had been assigned to hold the term, was unable to be present, and Chief Justice Doe presided.

The cases marked for trial by jury are numbers 5, 52, 59, 64, 66, 67, 68, 69, 70, 72, 73, 74, 75, 76, 81, 83, 87, 97, 98, 99, 100, 101, 103, 108, 111, 122, 126, 135, 136, 152, 161, 168, 179, 184, 185.

No jury cases beyond No. 100 will be taken up this week.

On the equity docket, case Oliver V. Randall vs. Thos. Haywood was marked neither party.

Libels Fannie W. Salter vs. Albert E. Salter, default; Addie L. Varney vs. Nath. K. Varney, default, to be heard; Wm. I. Philbrick vs. Aretta F. Philbrick, default; Charlotte E. Frye vs. Charles S. Frye, for hearing; Mary O. Ham vs. Henry Ham, default, for hearing.

Five actions on the state docket were market for trial.

HON. BARDWELL SLOTE.

The sale of seats for W. J. Florence's engagement begins at Myers' bookstore this morning.

Mr. Florence will appear at Music hall on Tuesday evening of next week, as "Judge Slote" in "The Mighty Dollar." Mr Florence and his company are recognized as one of the leading dramatic attractions, and always play to full houses. As Judge Slote, Florence's success has been remarkable. In appearance, Slote is entirely unlike Florence. His make-up is so well conceived and so true to the character, that his "Judge" is at once recognized as a familiar figure everywhere. Before the creation of this role many persons were inclined to regard Florence as only a successful actor, but this stamped him as a great one. Other comedians have succeeded because they played themselves, but in the creation of Slote Mr. Florence has given us a part in which it is impossible to find any traces of Florence.

MEMORIAL RESOLUTIONS.

Wentworth Lodge, No. 2162, Knights of Honor, of Kittery, Me., at a meeting on the evening of Thursday, Jan. 11th, unanimously passed the following preamble and resolutions:

Whereas an allwise Providence has seen fit in wisdom to remove from our midst our brother Dr. Eli Q. Adams of Kittery, Me.; and whereas, by this dispensation of a just and merciful God, we are reminded that death is the inevitable doom of all, both old and young—therefore

Resolved, In the death of Dr. Adams this community sustains the loss of a beloved physician, who was ever ready to respond to the call of suffering, whether by rich or poor; the church of which he was a faithful member, mourns the loss of a shining light; and this lodge experiences a sad shock by this event. We shall hereafter miss his pleasant voice and guiding counsel in our midst, with heavy sorrow.

Resolved, That this lodge tenders its heartfelt sympathies to the mourning family in this their hour of bereavement.

Resolved. That these resolutions be put upon the records of this lodge, and the reporter be instructed to send a copy of the same to the bereaved family.

MINISTERS' MEETING.

The annual meeting of the Piscataqua Association of Congregational Ministers was held in Rochester on the 16th inst. Present Rev. Messrs. White, Peabody, Christie, Spalding, Stearns, Sterling, Street, Rand, Barrows, Lewis, Robie, Chapman, Hibbard, Haines, Kimball, Williston and Bell.

The concio was by Rev. George W. Christie.

Messrs. Spalding and Robie were appointed a committee to draw up resolutions in reference to the death of Bro. Frankling Davis, formerly of Newington and late of Tamworth, and reported the following, which was adopted:

Whereas, It hath pleased our Heavenly Father to call to himself our beloved fellow laborer Bro. Franklin Davis, we desire to put on record our testimony of regard for his memory as a man of unusual Christian integrity, great sympathy of spirit, always true to his convictions of truth and duty, and yet conciliatory and forbearing toward those who differed with him. As a brother beloved and a faithful minister, we regret his loss, and find in him an example for imitation. We pray the Lord of the harvest to send like-minded laborers into his harvest. In the sudden death of our brother we are solemnly reminded of the injunction of our Lord, "Be ye also ready." We express our heartfelt sympathy with his bereaved family, and commend them in their sorrow to the God of all comfort.

Mr. Williston, of Newcastle, was approbated as a preacher.

Rev. Mr. Greeley, secretary of the Home Missionary society of the state, addressed the association on the needs of the society.

AN OPEN LETTER

To his honor the mayor, the board of aldermen, and the common council of the city of Portsmouth:

Gentlemen: The attention of your constituents has been called to certain plans and proposals for the abatement of the "north millpond nuisance," seemingly with foregone conclusion that the cost should devolve upon the city. But sirs, allow me to ask should such in justice be the case? Is not this a question that deserves your serious consideration, before committing the already overburdened tax payer to further assessments? No citizen doubts the fact of the nuisance, or that there is necessity for its abatement; but as to who should bear the expense is certainly questionable.

First, who owns the north millpond? If, as is generally supposed, it is owned by the Eastern railroad, why not compel that corporation to abate the nuisance?

Secondly, if the city has rights there why not assert its rights, and compel the parties who make it a nuisance to cease so doing? Would not this be the case if I or either of you, gentlemen, were maintaining a nuisance within its limits?

There can be no shadow of doubt that the principle cause of the offensive odor is the refuse of breweries, whose owners use the pond for a cesspool. Is it not enough that those fountains of crime and death are tolerated in our otherwise fair city, but that it must be made their scavenger?

Gentlemen, as a citizen and tax payer I wish to enter my protest against taxation for the benefit of either railroad corporations or pauper-making establishments of any kind.

Respectfully yours, W. A. F.

The specifications for a sewer from the breweries to Shea's wharf provide for the flushing of the sewer in whole or in part with water from the brook above Eldredge's brewery. This brook is dammed by Mr. Eldredge, who probably needs the water for his own use. If the city must spend a hundred thousand dollars, more or less, to remove the sewage from the two great breweries, let the worthy fathers at least not pay the proprietors of one of them for flushing water; but rather, before a blow is struck, let them provide for the use of so much water as may be needed forever free of cost. B.

THE NAVY YARD QUESTION.

Representative Harris, chairman of the house naval committee, said on the 15th inst. that the report of the naval board appointed to enquire into the condition of the navy yards and ascertain those that could be dispensed with, had not yet been submitted. Secretary Chandler had informed the naval committee that an additional appropriation of $80,000 would be required to run the navy yards to the 30th of June next, and unless Congress appropriated that sum he would have to suspend work in several yards.

The Washington *Post* understands that the secretary of the navy has decided to close four of the yards on the 31st day of March next. It is not as yet finally determined which of the northern yards will be kept in operation, but it is settled that the Washington and Mare island yards, and one yard north and one south of the Potomac, will not be closed.

There will be a ladies' union meeting at the Episcopal chapel on State street on Wednesday, at 3:30 P. M., to hear of the work of the National Indian Association, from its secretary, Mrs. Quinton of Philadelphia. This lady has recently addressed large audiences in Providence, Hartford, Portland, and other cities in New England. Few more pathetic calls come to the women of our churches than that of the Indian women of our own land. Let there be a full attendance of ladies at the meeting.

Willis G. Myers has sold his stock of books, stationery, etc., to Mercer Goodrich, and proposes to locate somewhere at the west or south, he has not yet decided where.

The drunken marine who was picked up on the river, last Sunday evening, stole the boat in which he was found from Mr. Alfred R. Goodwin, who saw the item in the CHRONICLE, and on Tuesday recovered his property from the person who had it in charge. The marine, drunk as he was, was sober enough to lie, and told a story of having hired a man to pull him across the river, and being set adrift by him.

Mr. Jeremiah D. Goodrich died suddenly at his residence on Court street, Monday night. He was one of the pioneers who went to California in the barque Martha (which sailed from this port in 1849,) and remained there ten years, when he returned home on account of impaired health. He was a son of the late Jeremiah D. Goodrich, and leaves a wife. He had completed arrangements to start for Florida on Thursday morning, but the grim messenger, death, took him when his hopes were bright with thoughts of a happy sojourn in a southern clime, and a renewal of health.

The ladies of the Christian society of Rye are to hold a festival at the town hall on Tuesday and Wednesday evenings, Jan 23d and 24th. Extensive preparations are being made, and a good time and a big crowd are confidently anticipated. The ladies of Rye are locally famous for their fine cooking, and no one ought to attend their festivals who is not prepared to eat a good quantity of the delicacies they know so well how to serve.

A Common-sense Remedy.
SALICYLICA.
No more Rheumatism, Gout or Neuralgia.
Immediate Relief Warranted.
Permanent Cure Guaranteed
Five years established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylica.
SECRET!
THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.
SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.
It has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will never eradicate these diseases which are the result of the poisoning of the blood with Uric Acid.
SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Highest Medical Academy of Paris reports 95 per cent. cures in three days.
REMEMBER
that **SALICYLICA** is a certain cure for **Rheumatism, Gout and Neuralgia.** The most intense pains are subdued almost instantly. Give it a trial. Relief guaranteed or money refunded.
Thousands of testimonials sent on application.
$1 a Box. 6 Boxes for $5.
Sent free by mail on receipt of money.
ASK YOUR DRUGGIST FOR IT.
But do not be deluded into taking imitations or substitutes, or something recommended as "just as good." Insist on the genuine with the name of WASHBURN & CO. on each box, which is guaranteed chemically pure under our signature, an indispensable requisite to insure success in the treatment. Take no other, or send to us.

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or virility impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

25th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom no a scarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions, full forms of the most acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 2.; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or consulting with the author, who may be consulted on all diseases requiring skill and experience. Address

Lydia E. Pinkham

LYDIA E. PINKHAM'S VEGETABLE COMPOUND,

Is a Positive Cure

For all those Painful Complaints and Weaknesses so common to our best female population.

A Medicine for Women, Invented by a Woman, Prepared by a Woman.

The Greatest Medical Discovery Since the Dawn of History.

It invigorates the drooping spirits, invigorates and harmonizes the organic functions, gives elasticity and firmness to the step, restores the natural lustre to the eye, and imparts to the pale cheek of woman the fresh color of life's morning and early summer.

Physicians Use It and Prescribe It Freely.

It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach.

That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. For the cure of Kidney Complaints of either sex this Compound is unsurpassed.

LYDIA E. PINKHAM'S BLOOD PURIFIER will eradicate every vestige of Humors from the Blood, stimulate the vital strength in the system, of man woman or child. Insist on having it.

Both the Compound and Blood Purifier are prepared at 233 and 235 Western Avenue, Lynn, Mass. Price of either, $1. Six bottles for $5. Sent by mail in the form of pills, or of lozenges, on receipt of price, $1 per box for either. Mrs. Pinkham freely answers all letters of inquiry. Enclose 3c. stamp. Send for pamphlet.

No family should be without LYDIA E. PINKHAM'S LIVER PILLS. They cure constipation, biliousness, and torpidity of the liver. 25 cents per box.

Despatches from St. Louis, Mo., say that the story told by the Garrison girl of her abduction is doubted. Mrs. Levy, the woman in whose house the girl stopped, tells a straight and frank story, that the girl was brought to her house on Saturday, Jan. 6th, by two of four young men who had rented two rooms the week previous, and that she remained there as the wife of one of them, going out to her meals and apparently enjoying life. The story which mostly obtains credence is that the girl became the subject of some uncontrollable impulse, and sought the companionship of strangers, in preference to those of her own social standing. The relatives have not prosecuted the young man.

The loss of life by the burning of the circus at Berditscheff, Russian Poland, is now placed at 400, mostly Jews, though the colonel of police, vice president of the bourse, orchestra and most of the performers, were among the lost. There were three doors to the theatre; but the main doors opened inward, and of course were at once choked up, and the side doors were firmly nailed and could not be opened at all. The fire was caused by a groom throwing a lighted cigarette into some straw in the stables.

A keg of gold, part of a shipment of $100,000 from the sub-treasury in New York through Wells, Fargo & Co.'s express to the United States squadron in the Pacific, was stolen in the freight house of the Panama railroad at Panama between Dec. 29th and Jan. 18th.

The British sloop-of-war Dido is at Charleston, S. C. She comes to meet the Princess Louise and suite.

District Attorney Francisco Pelaers of Havana was assassinated Monday morning, Jan. 15th, by three negroes, whose motive was revenge.

Miss Christine Isherwood, daughter of Chief Engineer Isherwood of the navy, was knocked down by a highwayman in New York on the 9th inst., and robbed of $27 and a pair of diamond earrings. The thief escaped, and the "finest police in the world" managed for a week to keep the affair out of the papers.

Richard Herrick, a native and lifelong resident of Gloucester, Mass., committed suicide Jan. 15th.

Mrs. Emily S. Stinson, a sister of Mrs. James G. Blaine, died Thursday, Jan. 11th, at Augusta, Me. Her husband, David Stinson, brigade quartermaster of Gen. Butler's expedition, died at Ship island during the rebellion.

A Strange Freak.

The wife of our esteemed citizen Mr. John Rowell, while suffering under a severe attack of the blues, tried to commit the crime of infanticide but was prevented by the opportune arrival of a neighbor. Her case has been considered by the best doctors incurable, but her husband was highly pleased when after using a course of Sulphur Bitters to find that she was entirely cured.—*Kingston Herald.*

The new parochial schools attached to St Mary's Catholic church in Dover, were finished Monday, Jan. 15th, and the pastor, Rev. Father Murphy, announced that both the church and parochial house and schools were totally free from debt. The schools will be open soon, in charge of the Sisters of Mercy. The church fair opened Monday night, to last all the week, the proceeds to go to frescoing the church.

It was expected in Washington on the 15th inst. that the supreme court would decide the case of New Hampshire vs. Louisiana, which involves the question whether one state can sue another, but the matter will not be determined until after recess, and probably not before March 3d. This question involves some $12,000,000, and upon it hangs the point as to whether or no Louisiana shall be compelled to pay her repudiated bonds.

LOG ROLLING.

While Wrestling with a Fallen Tree a Lumberman Receives Consequential Damages.

While on a hunting excursion in the great coal and wood region near Carbondale, Pa., the writer met William Coll, a lumberman. Accustomed to life and to hard labor from early manhood, he was a true Knight of the Axe. Many a tree had fallen before his ringing strokes, and fleets of rafts had borne away to market the sawed products. Coll is a character, and if Oscar Wilde is right in saying that all movements in unhindered labor are graceful, our friend William, a ripped for his work, would be a Richard I. Lion Hearted assaulted the heavy doors of Front de Boeuf's Castle, must have presented a admirable picture.

One day, however,—but let him tell the story himself, as he told it to me:

"I was out in the woods, you know, trying to cut a log down a hill. Thinking I could get a better purchase on it from the lower side, I tackled it there with my log-rolling hook and threw my weight on the lever. She started, she did, but as luck would have it, before I could get out of the way, she rolled right over me. If it hadn't been for a lot of small limbs and brush lying in the road, which lifted her up, she'd a crushed me flat. As it was I got up without a broken bone, but with some mighty bad bruises."

"Then you were all right," said his auditor.

"Not by a blamed sight, stranger. I took cold, rheumatism set in, and, if I hadn't heard of BENSON'S CAPCINE POROUS PLASTERS and used 'em, it's my opinion I would never have made another chip fly. But the Capcine sets hold quick, and I'm 'bout as good as new. But there's one thing you kin calculate on:—I shall never wrastle with another log unless I have the advantage of the ground. Fur, as I told you before, if it hadn't been for them brushes I'd been smashed so you could 'a sold me for a door mat."

The Capcine is the thing for rheumatism. It doesn't keep you waiting. The word CAPCINE is cut in the centre of the genuine. Price 25 cents.

New Life

is given by using BROWN'S IRON BITTERS. In the Winter it strengthens and warms the system; in the Spring it enriches the blood and conquers disease; in the Summer it gives tone to the nerves and digestive organs; in the Fall it enables the system to stand the shock of sudden changes.

In no way can disease be so surely prevented as by keeping the system in perfect condition. BROWN'S IRON BITTERS ensures perfect health through the changing seasons, it disarms the danger from impure water and miasmatic air, and it prevents Consumption, Kidney and Liver Disease, &c.

H. S. Berlin, Esq., of the well-known firm of H. S. Berlin & Co., Attorneys, Le Droit Building, Washington, D. C., writes, Dec. 5th, 1881:

Gentlemen: I take pleasure in stating that I have used Brown's Iron Bitters for malaria and nervous troubles, caused by overwork, with excellent results.

Beware of imitations. Ask for BROWN'S IRON BITTERS, and *insist* on having it. Don't be imposed on with something recommended as "*just as good.*" The genuine is made only by the Brown Chemical Co. Baltimore, Md.

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

It will drive the Humor from your system, and make your skin clean and smooth. *Those Pimples and Blotches* which mar your beauty are caused by impure blood, and can be removed in a short time, if you are wise and use the great blood purifier,

SULPHUR BITTERS.

Why suffer with Headaches? Dyspepsia? Biliousness? Neuralgia? Rheumatism? Kidney and Urinary Complaints? Why suffer with Nervousness and all the ills that flesh is heir to? Why suffer with Malaria and Blood Poisons? Why suffer with Scrofula? Why suffer with Liver Complaint? Why suffer with Female Weakness? Why suffer with Constipation? What does ailing humanity want? Health! Health! Health! Why do we say so much about Sulphur Bitters? Because we have tested its wonderful curative powers, and know it to be the most powerful blood purifier ever discovered. Why do we say so much about Sulphur Bitters? Because we have suffered from the effects of poor, watery blood, and know what we say when we say that Sulphur Bitters is not a cheap, worthless preparation, but a medicine of great merit. Why do we say so much about Sulphur Bitters? Because we have seen hundreds of our friends and neighbors restored to health by the use of Sulphur Bitters, and we want our friends and neighbors to share the same blessing. Why do we say so much about Sulphur Bitters? Because we have seen so many suffering from the effects of impure blood, and know that Sulphur Bitters is just what they need. Why do we say so much about Sulphur Bitters? Because we have seen so many suffering from Dyspepsia, Biliousness, Neuralgia, Rheumatism, Kidney and Urinary Complaints, Nervousness, Female Weakness, Constipation, Scrofula, Liver Complaint, Malaria and Blood Poisons, and know that Sulphur Bitters is the best medicine to cure them. Why do we say so much about Sulphur Bitters? Because we want the sick to know that there is a cheap, safe and sure cure. Why do we say so much about Sulphur Bitters? Because we want the world to know that there is a medicine that will do all that we claim for it. Why do we say so much about Sulphur Bitters? Because we want to do our fellow-men all the good we can, and we know that Sulphur Bitters is the best medicine we can recommend to do our fellow-men the most good. Why do we say so much about Sulphur Bitters? Because we want to make a fair, honest, and reasonable profit on the sale of a medicine that we know to be the best and most powerful blood purifier and tonic now offered to the sick and suffering.

Books, Magazine, Etc.

"The House of a Merchant Prince;" a novel of New York, by Wm. Henry Bishop, author of "Detmold." Boston; Houghton, Mifflin & Co.

The story of the progress, ambition and end of a New York merchant is somewhat disjointedly given by Mr. Bishop in his book. Speculation, political ambition, eligible matrimonial alliances, the young swells and the useless maidens of Gotham are here portrayed. Its claim to be classed as a novel we infer rests upon the denouement of the less prominent (according to the New York standard) of the personages being happily married. It is a story of New York life within the past twenty years, but with abundant material it does not appear to be as well written as Mr. Edgar Fawcett's "Gentleman of Leisure."

Farmers wishing to be successful with sheep should guard them against exposure. But if in sheltering his sheep the farmer exposes himself and catches cold, he must use Dr. Bull's Cough Syrup.

—"Here, Sam, is a note I want you to hand to Mrs. Eaton Mabeley when you are sure nobody is looking," said an Austin society man to Sam Johnsing, colored. "Yes, sah," answered Sam, showing his ivories. "And, mind, don't you whisper a word to a living soul." "You may jest rest easy about dat ar, boss. Yesterday I fotched dat same woman a letter from Colonel Percy Yerger. You can jess rest easy about my openin' my mouf."

In the *Hop Plaster* are united fresh hops, gums and balsams, and its power is wonderful in curing back ache, sprains, bruises, neuralgia, pain in the side or soreness anywhere. Thousands testify to this.

—A society paper says that match-making mammas are given to wearing the striking color, phosphorous.

Contagious diseases, malaria, liver complaint, are all prevented by using the gentle but powerful tonic, Brown's Iron Bitters.

—A married coquet's whose husband has stopped her frivolous behavior, says she is check-mated for life.

$100,000 for Paper.

Mr. C. O. Barrett, the eastern representative of the Cleveland Paper company, has been in the city for several days, figuring on the paper contract which Dr. R. V. Pierce usually makes at this season of the year for his books, which he sends broadcast over the world. This contract, which for this quality of paper alone amounts to $20,000, was awarded to Mr. Barrett, and so there will be a champagne supper at Cleveland when he gets home. Dr Pierce uses about $100,000 worth of paper every year, and Cleveland got about $60,000 of it last year.—*Buffalo Evening News.*

—Body snatching is lively this year. It seems that some of our tramps and loafers have at last decided to work for a living.

***Example is better than precept." It is well known that dyspepsia, bilious attacks, headache and many other ills can only be cured by removing their cause. Kidney-Wort has been proved to be the most effectual remedy for these, and for habitual costiveness, which so afflicts millions of the American people.

—Anna Louise Cary will sing in concerts no more. Her next audience will be a very small one or possibly two.

Webster, the lexicographer, defines catarrh to be, "a discharge of fluid from the mucous membrane, especially of the nose, fauces, and bronchial passages," caused by a cold in the head. It is a disease common alike to all classes of society. Unlike an ordinary cold, it cannot be cured by family remedies, but requires an antidote from the ranks of *materia medica.* The preparation so universally known under the name of Ely's Cream Balm is a sovereign, unfailing cure for catarrh. It is a neat, pleasant, yet thoroughly efficacious remedy. "I have been troubled with catarrh so badly," writes B. F. Leipsner, A. M., of Red Bank, N. J., "for several years that it seriously affected my voice. I tried various remedies without relief. One bottle of Ely's Cream Balm did the work. My voice is fully restored and my head feels better than for years." 50 cents only.

—Robert Browning doesn't look like a poet—that is, assuming that a poet should look like an "Indian" doctor.

Sydney Smith being ill, his physician advised him to "take a walk upon an empty stomach." "Upon whose?" asked Sydney. Still better steps to take would be the purchase of Dr. R. V. Pierce's "Golden Medical Discovery" and "Pleasant Purgative Pellets," which are especially valuable to those who are obliged to lead sedentary lives, or are afflicted with any chronic disease of the stomach or bowels. Miss Mary Charters, only daughter of G. Charters of Stoke park, Ipswich, England, was married at Ipswich recently, to Count Carl Esterhazy of Pressburg, Hungary. Last summer Mr. and Mrs. Charters, with their daughter, were cruising on the river Nile when their boat was upset. Count Esterhazy was passing in his yacht at the time, and gallantly rescued the party. The acquaintance formed under these circumstance quickly ripened into a closer intimacy, and resulted in the marriage recently.

Extreme Tired Feeling.

A lady tells us "the first bottle has done my daughter a great deal of good, her food does not distress her now, nor does she suffer from that extreme tired feeling which she did before taking Hood's Sarsaparilla." A second bottle effected a cure. No other preparation contains such a concentration of vitalizing, enriching, purifying and invigorating properties as Hood's Sarsaparilla.

To Please Her Husband.

Were the Words of a Good Lady, Mrs. Hawkins, who has long Suffered the Pain Common to Chronic Rheumatism. A Woman's Patience and Fortitude well shown.

Your reporter from Mrs. Hawkins at 14 Exchange St., New Haven, Conn. "About four years ago," she said, "I was then a resident of Brooklyn, N. Y. I went over one morning to the Jersey City depot to see some friends off who were started for the west. There was a strong draft of air in the depot, and in standing by the train talking to my friends I caught a severe cold. I had no more than reached my home again when I was taken with a sudden chill and then fever set in. The outcome of all was that rheumatism settled all over me. I was entirely helpless. From this I have never recovered. You see my hands what a state they are in. These are all chalky swellings and my limbs are very bad. While I remained in Brooklyn I tried all sorts of remedies, but I could never gain any relief. My physician said it was no use. I grew very thin and lost all strength. Finally, after coming here, to gratify my husband, I began to use Dr. Kennedy's FAVORITE REMEDY, and my general health has been better than ever before. I am stronger, have an excellent appetite, which I did not have for a long time. It has helped my rheumatism, and with a thorough trial I am in hopes of recovering completely."

Kennedy's FAVORITE REMEDY has been successfully used by thousands. It will build up a system which has been run down by overwork in the thing for the student and literary man to have at hand, and should be in the home of every mechanic. FAVORITE EMEDY is economical, safe and pleasant. Buy it and try it.

Terrors of the Inquisition.

The "Inquisition" in olden times inflicted horrible torments on its victims, such as stretching them in all kinds of unreasonable shapes and breaking their bones. But these torments were not much worse than those which are experienced by people who now suffer from muscular rheumatism. Mr. L. O. Morgan, of Syracuse, was a martyr to muscular rheumatism, but Perry Davis's Pain Killer made him well. Mention this to your friend who is tortured with rheumatism.

Francis Phelps of Grafton, Vt., has been probably fatally poisoned by assisting in placing Mrs. Deacon Fairbanks, who died of black erysipelas, in her coffin, two weeks ago. Mr. Phelps had a slight scratch on his hand at the time, which was poisoned. He has suffered the greatest agony, and the physicians say he cannot recover.

Mr. Lewis E. Staples has secured the agency for the Dorcas, Saxony, Knitting Worsted and Germantown yarns, which have become so popular throughout the east. The shades and colors are just what are wanted. oedtjan19

John A. Edwards, colored, who recently ran away with a thirteen-years-old white girl from Rochester, Vt., had his trial Jan. 12th on the charge of larceny of the team and robe, and was held to appear in the sum of $700.

G. O. Taylor Old Bourbon has had its purity verified and excellence certified recently by Dr. H. L. Bowker, state assayer for Massachusetts. Druggists and Grocers sell it.

Naval Affairs.

Mr. Cox, of New York, has introduced in Congress a resolution calling on the secretary of the navy for information as to the number of disasters to and wrecks of vessels belonging to the navy of the United States in the past ten years; and also a list of the seizures by the revenue marine service, and of goods smuggled upon United States vessels of war and seized on board the same, in the last ten years.

A special naval board, consisting of Commodore A. A. Semmes, Captain R. W. Mead and Commander H. L. Howison, has been appointed to report upon the establishment of a coaling dock and naval storehouse at Port Royal, S. C.

Lieutenant Samuel Belden, of the Juniata, reported to the navy department under date of Fayal, Azores Islands, Dec. 23d, that the health of Captain Dewey was steadily improving, and would be sufficiently improved to enable the vessel to sail on the 1st of January. He also reported that he got under way on the 17th of December in search of the disabled British bark Lord Collingwood, from Tyne, Wales, bound for Baltimore, which was reported by the captain of a British bark as needing assistance, having lost a rudder. The vessel was found and was in no need of assistance, a temporary rudder having been rigged. A letter of thanks from the British vice-consul at Fayal for the assistance offered was inclosed.

The Massachusetts Senatorship.

The Massachusetts legislature balloted for a United States senator on the 16th inst. In the senate John D. Long had twenty-one votes, to six for Hoar and three for Crapo; in the house Hoar had 108 votes, 119 being a majority.

The Massachusetts legislature met in joint convention on the 17th inst., and balloted twice for United States senator, with the following result:

1st ballot—Hoar 129, Bowerman 90, Long 41, Crapo 11, scattering three.

2d ballot—Hoar 131, Bowerman 81, Long 49, Crapo 12, scattering three.

The convention then adjourned to Thursday, the 18th.

News and Notes.

The president has signed the civil service bill.

In the Maine legislature, Jan. 16th, a vote was taken for United States senator, with the following result: Senate, Wm. P. Frye, republican, twenty-seven; Harris M. Plaisted, fusion, three; house, Frye 108, Plaisted thirty-two. Totals—Frye 135, Plaisted 35.

Tweddle Hall block, in Albany, N. Y., was burned Jan. 16th; loss $500,000.

A paper published at Harwich, England, says the beach from Harwich to Aldeburgh is strewed with wreckage from the British ship Pride of the Ocean, wrecked on the passage from Hamburg to New York. A case containing dynamite has been found by the coast guard. The fact that the wreckage is in exceedingly small pieces has led to the conjecture that the loss of the vessel was caused by an explosion of dynamite.

George Scheller, leaser of the barroom in the Newhall house at Milwaukee, has been arrested on suspicion of setting the recent disastrous fire.

Dorsey has resigned the secretaryship of the national republican committee. He should have been sacked out several years ago, when he worked so hard to carry California for the democrats.

Two more of the Hubbly murderers were hung in Ireland on the 17th inst.

At New Haven, Conn., on the 16th inst., Walter Robinson and Miss Nellie Hess, members of the Corinne Merry Makers, were married on the stage of the New Haven Opera house at the close of the evening performance, by Rev. H. M. Houghton, pastor of the Church of the Messiah.

The board of referees at Fall River, Mass., have adjusted the losses on the Flint mill, destroyed by fire a few months ago. The insurance on the mill was $620,000, and the referees allow $582,000. Besides this was a profit insurance of $30,000, which will be received in full.

Robert E. Pattison was inaugurated governor of Pennsylvania on Tuesday, Jan. 16th. In his inaugural Gov. Pattison says: "I adopt, as of direct application to the present time, a sentence from President Jackson's first inaugural, in which he says: 'The recent demonstration of public sentiment inscribes on the list of executive duties, in characters too legible to be overlooked, the task of reform.'" Yes; "to the victors belong the spoils."

A case was lately decided by the Pennsylvania supreme court bearing upon the responsibility of a railroad company in case of injury to a person riding on a pass. A woman riding on a pass was badly scalded and otherwise injured by a collision, and the company resisted her claim for damages on the ground that one of the conditions expressed in the pass was that the user assumed all risk of accident, without claims for damages on the corporation. The jury gave the woman $2000 damages, and the case being appealed by the company, the supreme court affirmed the decision of the lower court in favor of the plaintiff.

Unless the republicans are criminally foolish during the next eighteen months, President Arthur's successor will not be a democrat, and if they are, no ther of the democrat governors elected in November stands one chance in ten of being the lucky man, but if either of these was going to occupy the White House, we should say by all means give us Ben Butler, for he alone is not a hypocrite. All the others sailed into office under false colors, as representatives of the best sentiment of their states, as civil service reformers and purifiers of politics, and nonpartisan statesmen, and are now of course proving themselves liars and pretenders at every step; but Ben went in as a spoilsman, pledged to reward his friends and punish his enemies, to delight the hoodlums and disgust the respectables, to use all his power to build up his own party, and pull down all his political opponents, and this he is doing. He is redeeming his promises, while Cleveland and Pattison are breaking every one of theirs, and he ought to have the credit of being an honest man, which certainly does not belong to them.—*Mirror.*

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. eod1ag2,84

A Hero of Three Tales.

Mr. W. T. Clark, a resident of Philadelphia, has to the point edge, more come into the possession of the effects of a remedy without any effort. He remarked to a reporter "Of one I have known a great many cases where people who have drawn large amounts from The Louisiana State Lottery, and knowing that the Company always pays promptly, have invested in my tickets, and to my surprise and delight, I have had quite a number of cases where the parties drew the prize, and they sent me a portion of the money as a token of their gratitude. I believe Mr. Boardman, the local Manager, drawing, I believe No. 22,716, and there at least, which was one-fifth of the capital prize of $150,000. The amount of the Adams Express Company paid the full amount. This makes $6,000 from my investments in The Louisiana State Lottery, and I shall continue to invest."—*From the Philadelphia Record, D.C. 9th.*

A pair of twin steers two years old, raised by Mr. Porter R. Emery, manager of the Burnham farm, Kittery, are said to be the largest of their age in York county; the animals girth six feet and four inches each.

Two Kittery men named Langton, and a Mr. Dixon of Eliot, started for Minneapolis, Minnesota, the first of this week.

Mrs. Lydia Shapleigh of Eliot was seriously injured by falling on the ice, Jan. 14th, having one or more of her ribs broken.

DIPHTHERIA!

THE PROSTRATION which follows Diphtheria, and the persistency with which it clings to the patient, are well known to all who have had any experience with this terrible disease.

The following letter shows how the restoring and invigorating properties of

Hood's Sarsaparilla

overcome it, and how by vitalizing and enriching the blood it neutralizes and eradicates the poisoned matter from it, bringing to the convalescent the color, life and vigor of robust health.

LOWELL, MASS.

MESSRS. C. I. HOOD & CO.: Gentlemen—My little girl had the diphtheria last April. The disease left her very weak, blood poor, with no appetite, and she could not seem to rally from its effects. HOOD'S SARSAPARILLA was recommended by a neighbor. After she had been taking it a few days we noticed a change for the better—she began to eat with a relish. It seemed to take out the poison the disease had left in her blood, the change being very noticeable in her face. She took it two months and fully regained her health, much to our delight. We now recommend HOOD'S SARSAPARILLA with a great deal of pleasure. Very truly yours,

J. E. SMITH,
19 Butterfield Street.

THE "CRESCENT" FRIGATE.

Eighty five years ago to-day, on Thursday, Jan. 18th, 1798, about sunrise a gun was discharged from the "Crescent" frigate, then in our harbor, as a signal for her getting under weigh for the Mediterranean. The frigate was built in this port under the superintendence of Colonel James Hackett, and was regarded as one of the finest specimens of naval architecture that ever floated on the Piscataqua. She was built as a present to the Dey of Algiers, as compensation for delay in not fulfilling our treaty stipulations in proper time. The frigate had on board many valuable presents for the Dey, and when she sailed was estimated to be worth three hundred thousand dollars. Twenty-six barrels of dollars were a part of her cargo. Richard O'Brien, Esq., who had been for ten years a prisoner at Algiers, took passage in the Crescent to reside at Algiers as Consul General of the United States to the Barbary States. The captain, chief of the officers, and many of the crew of the frigate, had previously been prisoners at Algiers. At ten o'clock in the forenoon the Crescent rounded Fort Point with a fine leading breeze, and stood out to sea. She was commanded by Capt. Newman.

M. P. NORTON AGAIN.

Marcus P. Norton, Esq., who is a lawyer, has an eye for legal business, and is doubtless the best friend of the profession whose name now appears upon the dockets of the courts. Notwithstanding his many suits, present and prospective, against municipalities for alleged infringement upon the relief valve of steam fire engines, Mr. Norton finds time to lay seige to the railway interest of Maine, and he has recently entered two suits in the United States circuit court for the district of Maine, as the holder of about $800,000 worth of the bonds issued to the extent of $1,000,000 to provide equipment for the Consolidated European & North American railway company. He has brought into court against all parties who have been concerned, including the Maine Central road, a bill in equity praying to have the lease recently made to the Maine Central made null and void; also that the present organization of the European & North American railroad company be declared null and void, and that an account may be taken of the rents and profits of the mortgaged property which have been received by the defendants since the bonds were issued by the consolidated company. He also prays that the foreclosure under which the present company claim to hold the road may be opened, and the holders of the consolidated bonds be permitted to redeem the property from the original mortgage given by the first company, and he offers to pay in ready money the amount due thereon. He closes by praying to have the property delivered to him for the benefit of the bondholders of the consolidated company.

POLICE COURT--BATCHELDER J.

WEDNESDAY, Jan. 17th.

Charles O. Conlon, a marine, was fined $3 for drunkenness, costs being taxed at $6.90. Mr. Conlon paid the assessment, so he will continue to honor the national service instead of disgracing the county farm.

Rev. William Matthews, pastor of the First Methodist (colored) church of Portland, Me., arrived in this city on the 17th inst., his errand being the soliciting of funds to aid in lifting a debt of $2400 from his church. The church had been closed for three years at the time Mr. Matthews was appointed to the pastorate, but the indications now are that the society would enjoy a good degree of progress could the burden of debt be removed. Mr. Matthews exhibits vouchers as to his worthiness from the white clergymen of Portland, and others.

Dr. John S. Perry was "surprised" by a large party of friends on Tuesday evening of this week.

Mr. Gilman C. Berry of Rye last year had 5080 eggs laid by thirty-five hens; one hen laid 170 eggs, and Mr Berry raised from some of them thirty pullets, one of which commenced to lay at the age of five months and seven days. In 1881 he got 3988 eggs, from thirty-three hens. This year he has forty-five hens and two roosters, and has secured about 350 eggs so far.

In a recent item concerning the amount of internal revenue contributed by the breweries in this state, the figures given —254,000—represented the number of barrels of beer made, and not the number of dollars paid. The internal revenue stamps cost a dollar apiece, but there is a rebate of seven and one-half cents, so the 254,000 barrels of beer paid $234,950.

A new cottage is this winter being built at Appledore island, Isles of Shoals, for a Mr. Madder of Springfield, Ohio. The little steamer Pinafore, belonging to the Shoals, has been thoroughly repaired at this port since she ceased running last season; a new engine has been put in, all the inside wood work has been replaced with new, and she is now ready for the home trip.

S. H. Goodall, Esq., of Boston, formerly of this city, is building a large henery in the rear of his summer residence on Seabrook beach.

Active efforts are being made to raise funds for the rebuilding of the Congregational church in Epping, recently destroyed by fire. Mrs. Batchelder of Epping has visited Stratham, Exeter, Manchester and other places, and made personal appeals for aid; and the available funds now amount to about $5000, of which $2500 is from the insurance on the former church edifice. Gov. Bell contributed $100, and G. Byron Chandler of Manchester $50.

Mr. Lyde N. Meloon, for several years a clerk in the grocery store of Charles H. Tucker, near the south millbridge, and later with John J. Laskey, engaged in the same business on Pleasant street, was recently taken to the asylum at Concord, hopelessly insane.

Mr. Joseph E. Amazeen will leave Portsmouth about the 7th of next month for the west, to grow up with the country. Mr. James R. Eaton has also contracted the western fever, and proposes to remove his family to Indianapolis, Indiana, about the 1st of February, provided he can sell his house, which he will dispose of at a bargain to the purchaser.

Mr. Editor: Noticing the communication of "W. A. P." in the CHRONICLE of Jan. 17,—he certainly abounds in justice and righteousness, but charity would qualify much of his phraseology, where he leaves the brewers standing alone as sinners, and all the other partakers in or generators of sin "gone out." Some time since I exhibited to our city government fixtures which would by a very simple process turn into a very valuable article of internal commerce that which (with the unpopular carts added) is really abominable; to this extent the ponds would be relieved,—then in all gentleness the brewers should take care of their own waste, this cannot bear hard, as they by reputation are far removed from want and beggary.

ANDREW J. PENHALLOW.

At an adjourned meeting of the Odd Fellows' Mutual Relief Association of Rockingham county, held in Odd Fellows' hall on Tuesday evening, the 16th inst., Mr. John S. Rand was elected secretary, *vice* Wm. G. Billings, resigned.

On Monday evening, the 15th inst., Michael McCarthy on coming out of his house, No. 37 Deer street, fell on the ice, cutting his head badly and getting a black eye. He returned to the house, where he lives alone, and on Tuesday morning was discovered lying in bed, with the sheets, pillow cases, etc., saturated with blood. He was taken to the Washington house, on Bridge street, where his injuries were attended to; his physician attributes the excessive flow of blood to the cutting of a vein, from which he barely escaped death.

The roofing of the receiving ship Constitution with tin was commenced on Wednesday, the 17th inst., but the storm preventing satisfactory progress the roof was covered with old sails, and further work suspended until good weather. It is estimated that it will take 5600 sheets of XX tin to cover the roof.

John Kwiney Adams Hanson was on Wednesday of this week posting notices offering the north millpond for sale.

Miss Nellie Howe, who has been in charge of the Mutual Union telegraph office in this city ever since it was established, has gone to Boston to take charge of the same company's office in the Parker house in that city. Miss E. B. Thorston succeeds Miss Howe in charge of the office here.

Mr. Charles H. Kennison, janitor and stage carpenter of Music hall, who was so badly injured on the 13th inst. by falling down the elevator well at the Rockingham house, was on the 17th reported to be growing worse.

A resident of Greenland who arrived in this city from Boston by the three o'clock train on Wednesday afternoon of this week, filled himself with good food at the depot restaurant, and then refused to pay the full amount demanded; the consequence was he was "fired out."

Mr. Ingebretsen picked up on Londoner island at the Shoals, on the 9th inst., a triplicate requisition for stores for the "U. S. T. S. Constitution," dated League Island, Feb. 3d, 1881. The paper was presumably thrown overboard on the passage of the Constitution from Newport to this port some months ago, and though it was probably tossed around by the waves for weeks before being thrown on the rocky shore of the island, it is in good condition, the ink having neither faded nor spread over the paper.

It is said that Governor-elect Hale has received half a dozen applications from gentlemen in this city, for positions on his staff.

WHEAT BITTERS
THE BEST AND The Richest
BLOOD, BRAIN and NERVE
-F-O-O-D-
CAREFULLY PREPARED,
THOROUGH TESTED,
ACCEPTABLE AND RELIABLE.
The Phosphates of the Wheat are its most valuable food properties, and are, when properly prepared, the most acceptable nutriment with which to build up the system.
The Blood, Brain and Nerves are the tissues which bear the strain of every day work and life, and in order to overwhelmingly *prevent* BUILD FOR HEALTH.
Wheat Bitters are prepared *by fermentation* but by solution and are richest in the Phosphates, while the starch and impure matter are eliminated. These make in themselves a basis, to which is added the best and choicest medicinal qualities, necessary to make it a tonic and bitter. It is at once healthful, pleasant to the taste and must not be confounded with the thousand and one cheap alcoholic bitters which are sold as cure-alls. Medicine is doubly effective when used with food, so as to nourish while it corrects.
Sold by druggists, $1.00 per bottle.

A Common-sense Remedy.
SALICYLICA.
No more Rheumatism, Gout or Neuralgia.
Immediate Relief Warranted.
Permanent Cure Guaranteed.
Five years established and never known to fail in a single case, acute or chronic. Refers to all prominent physicians and druggists for the standing of Salicylica.
SECRET!
THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.
SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.
In has ice a concealed by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate those diseases which are the result of the poisoning of the blood with Uric Acid.
SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Highest Medical Academy of Paris reports 95 per cent. cures in three days.
REMEMBER
that SALICYLICA is a certain cure for Rheumatism, Gout and Neuralgia. The most intense pains are subdued almost instantly. Give it a trial. Relief guaranteed or money refunded.
Thousands of testimonials sent on application.
$1 a Bottle. 6 Bottles for $5.
Sent free by mail on receipt of money.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be relieved and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

236th edition revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 350 pages, more than 125 valuable prescriptions! all forms of disease, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION.

"As a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance."—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience.

Lydia E. Pinkham

LYDIA E. PINKHAM'S

VEGETABLE COMPOUND,

Is a Positive Cure

For all those Painful Complaints and Weaknesses so common to our best female population.

A Medicine for Women. Invented by a Woman. Prepared by a Woman.

The Greatest Medical Discovery Since the Dawn of History.

It restores the drooping spirits, invigorates and harmonizes the organic functions, gives elasticity and firmness to the step, restores the natural lustre to the eye, and adds on the pale cheek of woman the fresh roses of life's spring and early summer time.

Physicians Use It and Prescribe It Freely.

It removes faintness, flatulency, destroys all craving for stimulant, and relieves weakness of the stomach. That feeling of bearing down, caused by pain, weight and backache, is always permanently cured by its use. For the cure of Kidney Complaints of either sex this Compound is unsurpassed.

LYDIA E. PINKHAM'S BLOOD PURIFIER will eradicate every vestige of humor from the blood, and give tone and strength to the system, of man, woman or child. Insist on having it.

Both the Compound and Blood Purifier are prepared at 233 and 235 Western Avenue, Lynn, Mass. Price of either, $1. Six bottles for $5. Sent by mail in the form of pills, or of lozenges, on receipt of price, $1 per box for either. Mrs. Pinkham freely answers all letters of inquiry. Inclose 3ct. stamp. Send for pamphlet.

No family should be without LYDIA E. PINKHAM'S LIVER PILLS. They cure constipation, biliousness, and torpidity of the liver. 25 cents per box.

Some Evident "Ifs."

If this Congress fails to reduce public expenditure the next Congress will, and the democratic party will enter the presidential campaign of 1884 with all the advantage of apparent devotion to economy enjoyed in 1876.

If Congress does not reduce internal revenue taxation the people will continue to bear needless burdens until the next Congress relieves them, and the treasury surplus will accumulate to the peril of trade.

If Congress does not pass a tariff bill dealing fairly with the needs of revision and reform in our revenue, and at the same time furnishing needed protection, the tariff will be an issue for two years more, deranging industry and damaging manufactures.

If Congress does not retrench the payments to the sinking fund, the needless payments made on account of the debt will, before a democratic Congress works the reform, bring our national bank system into danger, and may force legislation on this delicate question by a democratic majority opposed to the present system.

If Congress does not check the coinage of the silver dollar, a change in the course of trade, continued depression at home or further changes in the price of silver abroad may upset the stability and security of our currency by making our gold abroad and leaving our reserve in silver, thereby jeopardizing credit, reducing the purchasing power of wages, and endangering a panic.—*Philadelphia Press.*

The ex-city treasurer of Milwaukee, Wis., Michael Krause, Esq., thus speaks concerning St. Jacobs Oil: "I have used that invaluable remedy for rheumatic pains, and, in my judgment it has no equal in that line. In my opinion, St. Jacobs Oil is great."

—Rev. Robert Collyer says that nothing but a love of reading saved him from following in his empl yer's footsteps and dying of drink. Now is the time to subscribe.

"Couldn't Keep House without It," is what a Massa husetts lady writes about Electro-Silicon, the famous silver polish. It is a genuine relief from the worthless articles sold for such purposes. Get the genuine. Grocers and druggists, or 72 John street, N Y.

—An Ohio editor offers $3 for the best written love letter. There are some people who would give more than that to get back some they have written.

For five cents, Wells, Richardson & Co., Burlington, Vt., will send any color.

—"I don't say all I think," remarked Brown, when pressed for his opinion of the representative of his district. "I should think you might," replied Fogg, "and not be pressed for time, either."

Are you bilious? Try the remedy that cured Mrs Clement of Franklin, N. H. —Hood's Sarsaparilla, made in Lowell, Mass.

—A wealthy stock-broker passing along the street surprises an urchin with his hand in the stock-broker's pocket attempting to perform the handkerchief trick. "You young scoundrel" he exclaims with severity, "are you not ashamed of yourself to steal—at your age?"

What's the use having dyspepsia? Why belch and say you've got heartburn, every time you eat? Be sensible, take Brown's Iron Bitters and get well.

—The vernacular of the Boston girl is becoming shockingly unæsthetic. A Beacon Hill belle was accosted by a friend who said reproachfully: "Emily, this is the third time you have been engaged since we returned from Nantasket last fall." "Yes, Mollie," was the reply, "I am not throwing anything good over my shoulder this season."

LOG ROLLING.

While Wrestling with a Fallen Tree a Lumberman Receives Consequential Damages.

While on a hunting excursion in the great coal and wood region near Carbondale, Pa., the writer met William Coll, a lumberman. Accustomed to life and I ber in the forest from early manhood, he was a true Knight of the Axe. Many a tree had fallen before his strokes, and fleets of rafts had borne away to market the sawed products. Coll is a character, and if Oscar Wilde is right in saying that all movements in unhindered labor are graceful, our friend William, a ripped for his work, and attacking a tree as Richard I assaulted the heavy doors of Front de Beuf's Castle, must have presented a admirable picture.

One day, however,—but let him tell the story himself, as he told it to me:

"I was out in the woods, you know, trying to sta t a log down a hill. Thinking I could get a better purchase on it from the lower side, I tackled it there with my log-rolling hook and threw my weight on the lever. She started, she did, but, as luck would have it, before I could get out of the way, she rolled right over me. If it hadn't been for a lot of small limbs and brush lying in the road, which lifted her up, she'd a crushed me flat. As it was I got up without a broken bone, but with some mighty hard bruises."

"Then you were all right," said his auditor.

"Not by a blamed sight, stranger. I took cold, rheumatism set in, and, if I hadn't heard of BENSON'S CAPCINE POROUS PLASTERS and used 'em, it's my opinion I'd could never have made another chip fly. But the Capcine took hold quick, and I'm 'bout as good as new. But there's one thing you can take one on—I shall never wrastle with another log unless I have the advantage of the ground. For, as I told you before, if it hadn't been for them brushes I'd been smashed so you could 'a sold me for a door mat."

The Capcine is the thing for rheumatism. It doesn't keep you waiting. The word CAPCINE is cut in the corner of the genuine. Price 25 cents. Seabury & Johnson, Chemists, New York.

THE

New Hampshire Gazette !

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

New Life

is given by using BROWN'S IRON BITTERS. In the Winter it strengthens and warms the system; in the Spring it enriches the blood and conquers disease; in the Summer it gives tone to the nerves and digestive organs; in the Fall it enables the system to stand the shock of sudden changes.

In no way can disease be so surely prevented as by keeping the system in perfect condition. BROWN'S IRON BITTERS ensures perfect health through the changing seasons, it disarms the danger from impure water and miasmatic air, and it prevents Consumption, Kidney and Liver Disease, &c.

H. S. Berlin, Esq., of the well-known firm of H. S. Berlin & Co., Attorneys, Le Droit Building, Washington, D. C., writes, Dec. 5th, 1881:

Gentlemen: I take pleasure in stating that I have used Brown's Iron Bitters for malaria and nervous troubles, caused by overwork, with excellent results.

Beware of imitations. Ask for BROWN'S IRON BITTERS, and *insist* on having it. Don't be imposed on with something recommended as *"just as good."* The genuine is made only by the Brown Chemical Co. Baltimore, Md.

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

It will drive the Humor from your system, and make your skin as clean and smooth. *Those Pimples and Blotches* which mar your beauty, are caused by impure blood, and can be removed in a short time, if you are wise and use the great blood purifier.

Why suffer with Sick Headache? Why suffer with Dyspepsia, Biliousness, Costiveness, Nervous and all Stomach Troubles? Why let your blood become impure, and your system poisoned with Malaria, and Fever and Ague, when a few bottles of SULPHUR BITTERS will drive all these evils from your system? Why let your blood become impure, when a few bottles of SULPHUR BITTERS will make it pure and healthy? Why let your system become poisoned with Malaria, when SULPHUR BITTERS will drive it out? Why let your system become weak and nervous, when SULPHUR BITTERS will make you strong

Horrors of the Laquesidra.

The "laquesidra" or chicken mites inflicted horrible torments on its victims, such as infesting them in all kinds of unpronounceable shapes and breaking their bones. But these torments were far much worse than those which are experienced by people who now suffer from muscular rheumatism. Mr. L. O. Morgan, of Syracuse, was a martyr to muscular rheumatism, but Perry Davis's Pain Killer made him well. Mention this to your friend who is tortured with rheumatism.

A remarkable suit was begun in Brooklyn on the 17th inst., between Pauline R. Wills and her father-in-law, John Wills, in which the former sues for $20,000 damages, charging the defendant with having enticed his son, her husband, away from her, supporting him in luxury at the defendant's house, and causing him to despise the plaintiff.

G. O. Taylor Old Bourbon has had its purity verified and excellence certified recently by Dr. H. L. Bowker, state essayer for Massachusetts. Druggists and Grocers sell it.

The Massachusetts Senatorship.

On the 18th inst. the legislative convention offered a choice on the first ballot, the vote being as follows: Whole number 277; necessary for a choice 139; scattering five, John D. Long 36, S. W. Bowerman 88, George F. Hoar 148.

News and Gossip.

The house committee on public buildings and grounds has adopted the report of the subcommittee, recommending the purchase of the house in Washington in which President Lincoln died. The committee will report a bill authorizing the secretary of the treasury to purchase it at a cost not exceeding $12,000.

Maj. McCafferty, whom Gov. Butler of Massachusetts has appointed to a municipal judgeship in Boston, is a graduate of Holy Cross college, Worcester. It is related of the major that the money with which his college expenses were paid was borrowed of the man who has now appointed him to a judgeship. It is unnecessary to say that the major's debt to the governor was paid long ago, and, including the political work he has done for the governor, with very heavy interest.

Scheller, the bar-keeper of the burned Newhall house in Milwaukee, who was arrested Jan. 16th on suspicion that he set the fire, was on the 17th conveyed quietly to Racine jail, lynching being feared if he was kept in Milwaukee. It is said he attempted to blow up the house two weeks before it was burned, by leaving the gas-cocks in his bar-room open at night, unlighted.

Joseph Butler of North Adams, Mass., a married man twenty-seven years old, has been sentenced to state prison for life, he having pleaded guilty of ravishing a girl eleven years old, and attempting to violate two others, aged respectively eight and seven years, all three of the children being his nieces.

Hostile correspondence has passed between John Daly and O'Donovan Rossa, and a duel is hoped for. O'Donovan, it seems, printed an alleged poem in his newspaper, in which Daly was described as a long-legged creature, a duck, a jackass and a "gam." This last word is said to be classical Irish for idiot. We trust Daly is a good shot.

The following advertisement appeared in the Milwaukee papers on the morning of the recent great fire: "Newhall house, J. F. Antisdel & Son, proprietors. Great reduction in rates. Note—Baker & Dwight's patent fire escape provides means of exit from every floor in case of emergency. The hotel employes are kept in constant training as a fire department, and every floor is supplied with water and hose." There is a ghastly significance in the advertisement now.

The secretary of the treasury has directed Assistant Secretary French to frame regulations to permit the transit of Chinese laborers through this country, in accordance with the recent opinion of Attorney-General Brewster.

The grand jury of the District of Columbia on the 17th inst. returned an indictment against Frank H. Fall, charging him with endeavoring to corruptly control the vote of Juror Brown in the first star-route trial.

D. B. Chisholm of San Francisco, Cal., secretary of the Albion and a number of other mining companies, has absconded. He is a defaulter to the amount of $7,800. The money was lost in speculation.

Gov. Cullom of Illinois, republican, was elected United States senator from that state on the 17th inst.

A little daughter of Henry Meserve of Abington, Mass. was badly burned a few nights ago through the sudden combustion of a celluloid comb which she held in her hand, and which took fire from a lamp.

A bill has been introduced in the New York legislature providing that vessels entering the port of New York by way of the East river shall not be obliged to pay pilotage unless pilots are actually employed.

Senator Plumb, republican, has been re-elected to the United States senate from Kansas.

A Promising Outlook.

The following item is clipped from the financial article of the Boston *Daily Globe* on Saturday, Jan. 13th, and may prove interesting to many of our readers: "At a meeting of the finance committee of the American Electric & Illuminating company, held at the company's office, No. 28 School street, this city, on Friday, it was voted that the common stock bonus of fifty per cent, which has hitherto been given to subscribers of the preferred stock, should be withdrawn on and after Jan 31st. This company is now upon a paying basis, and takes its position among note-worthy investment stocks. The American lights are widely and favorably known in this city, being in full use with various business houses, hotels and many places of public resort. The business of the company, now extensive, is rapidly developing; in fact, it can be said that this development has scarcely a limit. Electric lights, hardly beyond their infancy, are not now only used in connection with gas, but threaten to become a powerful rival to it at no distant period, and those first in the field will reap the benefit. Look at the Brush Electric Light company paying forty per cent annually on its stock; the New England Brush company, which has paid regularly ten per cent, with an extra dividend of thirty per cent payable on Monday next, and the success of the remaining electric light companies now in the field. Shares of these companies are rarely offered for sale, and command a high premium. In face of these facts can it be denied that investments made in such stock prove at once a profitable and desirable one? The stock of the American Electric & Illuminating company is rapidly being absorbed for permanent investment, and the indications are that the time is not far distant when the company will announce no more stock for sale." Those having money for which profitable investment is wanted should address the company at once, and secure the bonus stock, which is destined to become very valuable.

Mr. George H. Gerry, about fifty years of age, committed suicide at Nashua, Jan. 16th, by hanging himself to a bed-post. Mental aberration, caused by despondency over the loss of his wife, is supposed to have been the cause of the act.

The long-pending law suit known as the Shaker case of Davis vs. Dyer was settled on the 15th inst., when the Shakers made a full payment to D. L. Davis in the sum of $13,916.55. This is in accordance with the decision of Chief Justice Doe, who recently gave judgment for the plaintiff. The suit grew out of the lease of the mills at Enfield. The business was carried on in common, there being no settlement for twelve years. The accounts involved some $200,000. Davis is the surviving partner. In the suit of George W. Drake vs. Clifton Drake of Concord, involving accounts, Judge Isaac W. Smith renders judgment for plaintiff in $2,576.10. This is a suit in which a father sues his son.

J. H. Venzey, of Deerfield, planted one bushel of Clark's seedling potatoes last spring, and raised thirty bushels from the seed.

Claims for damages aggregating $3500 have been brought against the city of Manchester on account of persons slipping down on sidewalks.

F. B. Drew, excelsior manufacturer at Union, has bought a factory at Wolfeboro'gh, and will remove his machinery there in February.

It is said that Brigadier-General Joseph M. Clough will soon resign the command of the New Hampshire National Guard, and that Col. Daniel M. White of Peterborough, ranking colonel, will succeed him. It is also stated that the next legislature will be asked to make several radical amendments to the present militia law.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. eod1an6,81

It is foolish to save the little that NOZODONT costs, and suffer what will result in bad teeth and large payments to dentists. Place a bottle of it on the toilet, use five drops only of it every time after eating, cleanse the mouth, and show your wisdom.

Jacob Rogers of Sandwich was crushed to death while logging on Red Hill, in Moultonborough, on Friday, Jan. 12th.

Mr. Wm. A. P. Goodwin of South Berwick, Me., and Miss Minnie L. Weeks of Rollinsford were married in marriage on the 16th inst. by Rev. I. W. Beard, at the old Lord homestead in Rollinsford. At the conclusion of the ceremony, Mrs. Goodwin, mother of the bridegroom, with two others, Augustus Hayes and Mrs. Rollins, started for their home in South Berwick. On the way the sleigh they were in got upon an icy surface, slid around and capsized, throwing out the occupants, and Mrs. Goodwin had one of her legs broken below the knee. She was taken to the nearest house and a surgeon was sent for, who soon arrived and adjusted the broken bone. Very likely here will arise an action against the town of Rollinsford for damages sustained through allowing ice in the highway.

PORTSMOUTH, N. H., Jan. 9th, 1880.

P. of Br. wn: I am happy to say in reply to your enquiry that the spectacles with which you supplied me have found better adapted to my wants than any I have been able previously to obtain. I regard it of great importance that the eyes of us who are old and to use "helps to read" should have some competent examiner of the eyes to det rmine what is required, and that proper glasses and none other should be worn even to the most limited extent. Yours truly,

WILLIAM H. HACKETT.

DIPHTHERIA!

THE PROSTRATION which follows Diphtheria, and the persistency with which it clings to the patient, are well known to all who have had any experience with this terrible disease.

The following letter shows how the restoring and invigorating properties of

Hood's Sarsaparilla

overcome it, and how by vitalizing and enriching the blood it neutralizes and eradicates the poisoned matter from it, bringing to the convalescent the color, life and vigor of robust health.

LOWELL, MASS.

MESSRS. C. I. HOOD & CO.: Gentlemen—My little girl had the diphtheria last April. The disease left her very weak, low in flesh, with no appetite, and she could not seem to rally from its effects. HOOD'S SARSAPARILLA was recommended by a neighbor. After she had been taking it a few days we noticed a change for the better—she began to eat with a relish. It seemed to take out the poison the disease had left in her blood, the change being very noticeable in her face. She took it two months and fully regained her health, much to our delight. We now recommend HOOD'S SARSAPARILLA with a great deal of pleasure. Very truly yours,

J. R. SMITH,
19 Butterfield Street.

"That Extreme Tired Feeling."

"The first bottle has done my daughter a great deal of good; her food does not distress her now, nor does she suffer from *that extreme tired feeling* which she did before taking HOOD'S SARSAPARILLA."

Sold by all druggists. Price $1 a bottle or six bottles for $5. Prepared by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

THE REPRESENTATIVE VACANCY.

The usually well informed and reliable CHRONICLE, in the issue of January 9th, says of the vacancy in the legislative delegation from ward two that "of course it cannot be filled until after the legislature meets." This statement of opinion seemed to me to be so directly contrary to law and precedent that I have waited for the CHRONICLE to correct itself. As this has not been done, will you allow me to say that such vacancies have often been filled before the meeting of the legislature, and further, that the state constitution expressly authorizes such a course.

The article in the constitution to which I refer reads as follows: "All intermediate vacancies in the house of representatives may be filled up from time to time in the same manner as biennial elections are made." This article, except the word "biennial," was in the original constitution, and has always been a part of the organic law. By its authority it has always been customary to fill intermediate vacancies without waiting for authority from the legislature. But I shall refer only to two such cases which have occurred in this city.

In March, 1855, Frederick W. Fernald was chosen representative from the second ward. He died April 30th, and the vacancy was filled by the people at a meeting held May 29th.

In March, 1872, Horton D. Walker was chosen representative from the first ward. His death occurred May 10th, and the vacancy was filled at a meeting held June 3d.

Both these vacancies were filled before the assembling of the legislature, and in both cases the gentleman elected took his seat without question and without a doubt of his right. A very singular fact it was that the same gentleman was elected to fill both these vacancies, though they were seventeen years apart and in different wards. B.

THE YOUNG MEN'S CLUB.

The Young Men's Club, which was inaugurated at a time quite within the memory of the present generation, with much promise of active and effective work in the line of spurring up the somnolent business enterprise of our city, has apparently sat down beside the Board of Trade to take a nap. The difference is that the latter institution does not pretend to hold meetings, so far as the public are aware, while the Young Men's Club does hold stated meetings, without a quorum of members ever appearing. The executive committee of the club, apparently tired of the farce, have called a special meeting for this evening "to consider the subject of disbandment, owing to the evident lack of interest," and notified the members that "if a quorum is not present at this meeting a disbandment will be effected by the executive committee, and a disposition of the funds made without further notice," the club having a fund of about $125.

MEMORIAL RESOLUTIONS.

The following resolutions were passed by Rising Star Commandery, U. O. G. C., of Kittery Point, Me., of which organization the late Dr. E. Q. Adams was a member:

Whereas, It has pleased the wisdom of our Heavenly Father to remove from our membership our respected brother, Dr. Eli Q. Adams, —

Resolved, That although we are deeply moved by this dispensation of divine Providence, which comes so near to each of us, still we would humbly bow in submission, believing that He doeth all things well.

Resolved, That we are deeply sensible that our commandery has suffered a great loss, and one which we sincerely mourn.

Resolved, That we owe a debt of gratitude to our late brother as Past Noble Commander and Worthy Prelate of this commandery during the first year of its existence.

Resolved, That our tenderest sympathies are extended to the widow and family of our departed brother, and we invoke on their behalf that consolation and peace which our Heavenly Father can alone give.

Resolved, That our charter be draped in mourning for thirty days, and that a copy of these resolutions be sent to the widow of our deceased brother, and a copy of the same be placed on record.

POLICE COURT--BATCHELDER, J.

THURSDAY, Jan. 18th.

William H. Eaton, a boy aged fifteen years, for the larceny of a sled was sentenced to thirty days in jail.

Samuel Hiltz, John Hiltz and John S. Hubley were before the court charged with mutual assault. John Hiltz was discharged; Samuel Hiltz was fined $2, with costs of $10.75; Joan S. Hubley was fined $2, costs being taxed at $8.44.

"The Mighty Dollar" is evidently going to draw a large audience to Music hall on Tuesday evening of next week. Reserved seat tickets at the usual prices can now be procured at Myers' bookstore, and an early call is desirable on the part of those who have choice of chairs.

Grand Worthy Chief Templar George A. Bailey, of Manchester, paid an official visit to Strawberry Bank Lodge of this city on Wednesday evening of this week; he also officially visited Rockingham Lodge of Good Templars on Thursday evening, and found both lodges in a flourishing condition.

There will be a Good Templars' entertainment and oyster supper at Grange hall this (Friday) evening.

On Sunday evening, the 14th inst., Mr. Henry F Wendell while on the way home from services at the Episcopal chapel fell on the ice in the vicinity of the south millbridge, severely injuring his head. Although out on the day following, he has since then been confined to his house. He was in a semi-conscious state when he arrived home, and has no distinct recollection of his fall.

Mr. Albert T. Goldthwaite is the possessor of five male puppies of the St. Bernard breed, claimed to be the only pure-bred animals of that variety ever raised in this city. They are about six weeks old, and show wonderful intelligence for their age.

Florence at Music hall on Tuesday evening, as Hon. Bardwell Slote.

It is reported that the Young Men's Club of this city is going to Minneapolis.

Another social dance and picnic supper came off in the town hall, at Newington on Thursday evening of this week, and was largely attended.

Mr. Andrew J. Locke this week moved to Charlestown, Mass., with his family. They were accompanied by Lieut. W. I. Moore, U. S. N., and family, Mrs. Moore being the oldest daughter of Mr. Locke.

On and after the 22d inst. persons who neglect purchasing tickets before taking their seats in the cars of the Eastern railroad, will have to pay fifteen cents extra, above the schedule price of tickets.

The injuries received by Mrs. Major Hooper, who fell on the ice on Water street, Monday of this week, were more serious than at first supposed. One arm was broken below the shoulder, and she suffered very painful injuries to one side.

There are two church steeples in South Berwick which were covered with tin some fifty years ago, and with but slight repairs have stood the rest of summer heat and winter cold until now, and are apparently good for a century to come.

A commandery of the United Order of the Golden Cross was instituted at Limington Jan. 10th, by Deputy Grand Commander Horace Mitchell, Jr., of Kittery Point, assisted by Noble Commander Sanborn of Waterboro. The new commandery started out with a membership of twelve.

At the meeting of the York County Agricultural society in Saco, Jan. 17th, the following officers were chosen: President, Jonas R. Taylor; vice presidents, Ernest M. Goodall, Daniel McIntire; secretary, John M Deering; treasurer, Ivory Lord; trustees, J. R. Libby, Elliott Fernald, James H. Fogg, Frank R. Milliken; librarian, John Hanscom. This is an entirely new list of officers. There was an unusually large attendance, and considerable interest manifested. The treasurer's report shows $50 in the treasury after all premiums are paid.

The January number of the "Granite Monthly" has a steel plate likeness of Dr. David T. Parker of Farmington, with a sketch of the doctor's career. A memoir of the late Harvey Jewell of Massachusetts, read last June before the New Hampshire Historical society by William H. Hackett of this city, is a faithful account of this distinguished son of New Hampshire. "The Presidential Appointments in Portsmouth" gives a list of persons who have held office with in the gift of the president, since the appointment of Jere. Libbey as postmaster in 1776; this is compiled from official sources with great precision by Hon. Thos. L. Tullock, postmaster of Washington, a frequent contributor of interesting matter to the "Monthly." Mr. L. W. Dodge undertakes to set history aright as to the first American newspaper, and contends that the GAZETTE, published in Portsmouth in 1756, was not the first paper in this country. What we of the GAZETTE with becoming modesty maintain, is that the GAZETTE is the first paper printed in this state, and the oldest continuously-published paper in the country. Some of our readers maintain that it is the best, but we have charity for our cotemporaries. If persons not conversant with facts undertake to write for the G. M. the editor should correct errors at the time they appear, and not waste his pages in unsaying in one month the assertions of the previous month. We have not space to allude to other papers, but on the whole the number has much of interest to residents and natives of New Hampshire.

The average rate charged for carrying passengers on all the Massachusetts railroads is exactly two cents a mile, and the earnings of all the roads last year were 5.4 per cent of their capital stock and indebtedness. There were, however, twelve roads that neither earned nor paid a dividend.

WHEAT BITTERS
THE BEST AND The Richest
BLOOD, BRAIN and NERVE
-F-O-O-D-
CAREFULLY PREPARED,
THOROUGHLY TESTED,
ACCEPTABLE AND RELIABLE.
The Phosphates of the Wheat are its most valuable food property, and are, when properly prepared, the most acceptable nutriment with which to build up the system.
The Blood, Brain and Nerves are the forces which bear the brunt of every day work and life, and in order to preserve health it is wise to
KEEP THE FORCES UP.
Wheat Bitters are prepared, *not by fermentation* but by mixing and are richest in the Phosphates, while the alcohol and impure matter are eliminated. There also in themselves a tonic, to which is added the best and choicest medicinal qualities, necessary to make it a tonic and bitter. Elegant one bottle full, pleasant to the taste and must not be confounded with the thousand and one cheap alcoholic bitters which are sold as curatives. Medicine is doubly effective when used with food, and is nourish while it corrects.
SOLD by druggists, $1.00 per bottle.

A Common-sense Remedy.
SALICYLICA.
No more Rheumatism, Gout or Neuralgia.
Immediate Relief Warranted.
Permanent Cure Guaranteed.
Five years established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylica.
SECRET!
THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.
SALICYLICA is known as a common-sense remedy, because it acts directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.
In has be a conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate those diseases which are the result of the poisonings of the blood with Uric Acid.
SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Hubert Medical Academy of Paris reports 95 per cent. cures in three days.
REMEMBER
that SALICYLICA is a certain cure for Rheumatism, Gout and Neuralgia. The most intense pains are subdued almost instantly. Give it a trial. Relief guaranteed or money refunded.
Thousands of testimonials sent on application.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be treated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood invigorated.

250th edition revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jeweled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions, full formulæ of the same and Gleaned, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION.

Is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author. You may be consulted on all diseases requiring skill and experience. Address,

The Old Families of New England.

Some twenty years ago we used to hear a great deal about "mudsills" and "F. F. V.'s"—slang terms implying that the people of Virginia, or of the southern states in general, were of more aristocratic origin than the people of New England, and were accordingly entitled to look down upon them. "We are the gentlemen of this country," said Robert Toombs in 1860. This assumption was thoroughly baseless. In point of fact the English ancestors of the Washingtons, the Randolphs, the Fairfaxes, and the Talbots were no higher in social position than the families of the Winthrops the Dudleys, the Eatons, and the Saltonstalls. The foremost families which came to New England were of precisely the same rank with the foremost families which came to Virginia, and in many instances there was relationship between the former and the latter. So far as mere names go, this is well illustrated in Bishop Meade's list of old Virginia families, in which occur such names as Allen, Baldwin, Bradley, Bowdoin, Carrington, Cooper, Dulaney, Davenport, Farley, Gibbon, Holmes, Hubbard, Lee, Morton, Meade, Nelson, Newton, Parker, Russell, Selden, Spencer, Talbot, Tyler, Vaughan, Walton, Ward, Wilcox, and Wythe—every one of which is a name of frequent occurrence in New England; two third of the names in Bishop Meade's list occur also in Savage's "Dictionary of the Settlers of New England." Most of the leaders of the Massachusetts colonists were country gentlemen of good fortune; several of them were either related or connected by marriage with the nobility; the greater part of them had taken degrees at Cambridge, and accordingly one of the first things that occurred to them was to found a new Cambridge in the New World. If they had remained in England, many of them would have gone into Parliament with Hampden and Cromwell, and would have risen to distinction under the Commonwealth.—JOHN FISKE, *in Harper's for December.*

How can you remain a sufferer from dyspepsia when worse cases than yours are being cured by Hood's Sarsaparilla. Try it.

—"I have come in to kill you," said a man entering an Arkansas newspaper office, drawing a pistol and confronting the editor. "You published an article derogatory to my character, and it is my duty as a husband and father to kill you." "I am glad of it," the poor editor replied; "I was just thinking of committing suicide." "Well, if that's the case, let's go down and take something." "Now you move pretty sensibly," said the two mortally enemies went out together. And yet some people are in favor of prohibition. —*Arkansaw Traveler.*

—At a hotel in Oswego a couple from the country, of Milesian extraction, took seats at the dinner table. Directly after, a young couple seated themselves opposite, and the young man took a stalk of celery from the table and commenced eating it. The old lady opposite looked at him a moment with an air of disgust, and then nudged her husband and said in a stage whisper, "Dye mond the blackguard ateing the bokay?"

What's the use having dyspepsia? Why belch and say you've got heartburn, every time you eat? Be sensible, take Brown's Iron Bitters and get well.

—A Chicago paper states that Red-Cloud has been interviewed in Washington and the reporter found it exceedingly difficult to stretch the result of his report over a column in length. Mr. R. Cloud knows only one English word, "How." This is a libel on the noble Indian. He is often heard to use the English words, "Heap dam."

New Life

is given by using BROWN'S IRON BITTERS. In the Winter it strengthens and warms the system; in the Spring it enriches the blood and conquers disease; in the Summer it gives tone to the nerves and digestive organs; in the Fall it enables the system to stand the shock of sudden changes.

In no way can disease be so surely prevented as by keeping the system in perfect condition. BROWN'S IRON BITTERS ensures perfect health through the changing seasons, it disarms the danger from impure water and miasmatic air, and it prevents Consumption, Kidney and Liver Disease, &c.

H. S. Berlin, Esq., of the well-known firm of H. S. Berlin & Co., Attorneys, Le Droit Building, Washington, D. C., writes, Dec. 5th, 1881:

Gentlemen: I take pleasure in stating that I have used Brown's Iron Bitters for malaria and nervous troubles, caused by overwork, with excellent results.

Beware of imitations. Ask for BROWN'S IRON BITTERS, and *insist* on having it. Don't be imposed on with something recommended as "*just as good.*" The genuine is made only by the Brown Chemical Co. Baltimore, Md.

SULPHUR BITTERS

Horrors of the Inquisition.

The "Inquisition" on occasions inflicted horrible torments on its victims, such as stretching them in all kinds of unreasonable shapes and breaking their bones. But these torments were not much worse than those which are experienced by people who now suffer from muscular rheumatism. Mr. L. O. Morgan, of Syracuse, was a martyr to muscular rheumatism, but Perry Davis's Pain Killer made him well. Mention this to your friend who is tortured with rheumatism.

An enormous mass of earth, rocks and trees dislodged by late snow storms has completely destroyed the village of Massis in Switzerland. The movement of the slide from the mountain was gradual, and the inhabitants of the village were able to effect a hurried escape.

Mr Chandler seems to have scolded the Republican National Committee in its late session at Washington, with but little effect. The present system of representation at national conventions was voted to be retained, upon the ground that no other plan was offered which could fairly be adopted. Mr. Chandler regarded the adoption of his plan as a question of defeat or success in the next presidential election, but the majority of the committee did not subscribe to this theory.

Of all the candidates for United States senator in the various states, senator Frye of Maine seems to have had the easiest walk over. Senator Hoar of Massachusetts has been elected on the merit of being the strongest man named for the senatorship from his state, and was chosen, as was Mr. Sumner, not because certain political managers wanted him elected, but for the reason that the state pride of Massachusetts required her best man to be placed in the senate. Besides this, an experienced senator is of especial service to the country, and any new man who had succeeded Mr. Hoar would for a long time have struggled before he could attain the position the senator now fills as an able and efficient member of the senate. If the other states come out of these contests as well as have these New England states, the country will be the gainer.

The N. H. Press Association.

The annual meeting of the New Hampshire Press Association was held at the hotel Windsor, Manchester, at 11:30 o'clock Wednesday forenoon, the 17th inst., and the following officers were elected for the ensuing year:

President—O. C. Moore;
Vice Presidents—A. A. Rotch, E. C. Eastman, C. F. Livingston;
Recording Secretary—F. B. Cogswell;
Corresponding Secretary, S. C. Gould;
Treasurer—Thomas W. Lane;
Executive Committee—John M. Hill, G. A. Blanchard, Arthur E. Clarke;
Auditors — George E. Jenks, Amos Hadley.

The following named were admitted to membership: Messrs. Fay of the Claremont *Eagle*, Hutchinson of the Franklin *Transcript*, Pearson of the Concord *Monitor*, Gerrould and Flanders of the *Blade*, Dr. Geo. B. Spalding of the *N. H.* (Congregationalist) *Journal*, and Leroy M. Gould.

The report of the treasurer showed the association to be in a healthy condition. At 1:45 P. M., all business having been disposed, the members present partook of an elegant dinner, tendered by the retiring president. The fraternity was well represented.—*Manchester Mirror.*

News and Notes.

Secretary Chandler has received the following telegram from Minister Hunt at St. Petersburg, Russia: "Government finally authorizes the removal of the remains of DeLong and comrades by Irkutsk or Ochotsk." Secretary Chandler telegraphed in reply to Minister Hunt to have the remains transported by way of Irkutsk.

A meeting of the lighthouse board was held at the treasury department in Washington on the 18th inst., when Vice Admiral Rowan and Gen. Poe were put in nomination for the chairmanship of the board, vice Rear Admiral Wyman, deceased, and the former was elected by a vote of five to four, Secretary Folger casting the deciding vote in favor of Admiral Rowan.

The Travelers Accident Insurance company pays out seventeen thousand dollars on account of policies held by persons injured or killed by the burning of the Newhall hotel, Milwaukee.

Freddie Gerhardt, Lily's Freddie, while in the rotunda of the Southern hotel at St. Louis created a sensation by denouncing on the evening of the 17th inst., a reporter who wrote what he claims to be a bogus interview, placing both Freddie and the Lily in a ridiculous light. Her shadow called the reporter a liar, and began a hostile demonstration, when the reporter withdrew.

Despatches from France confirm the loss of a French coasting steamer, a boat from which, containing the dead bodies of four persons, was recently found off the harbor of Cette, France, as announced on the 12th inst. The name of the steamer was the Amelia.

John Patten of Herman, Me., stabbed four persons at a masquerade ball in that town on the night of Jan. 17th.

AROUND HOME.

On Thursday of this week the schooner Albert Woodbury, while making for this port and when a few miles west of the Shoals, broke her main-boom. She was preparing to reef the mainsail, the wind blowing fresh at the time, when the topping-lift parted, causing the break. John W. Robinson, one of the crew, was knocked senseless by the swinging boom, but was not seriously injured.

Garrity on Daniel street, Newman on Vaughan street, and White on Fleet street, have free clam chowders every Saturday evening.

The steamer Acushnet did not make her regular trip from Boston to this port this week, being delayed by some needed repairs to her boiler. She will leave Boston on Tuesday, the 23d, at ten A. M.

The New England Brewers's Association enjoyed their annual banquet at the Quincy house in Boston, on Thursday last. Among the speakers were Hon. Frank Jones and Col. Charles A. Sinclair of this city. As the latter gentleman made a neat little speech, the Boston papers of course set him down as a Bostonian. The occasion was eminently social. The dinner was in the new dining-room, which was dedicated on the occasion. The spread was of the finest character, and abounded in strawberries, green peas and like out-of-season delicacies, while the viands were partaken of with a zest only equalled by the enjoyment of some of the post prandial stories which circulated around the board.

It was stated in Washington on the 19th inst. that the Portsmouth, Boston and League island navy yards would probably be closed unless the naval appropriation is increased.

Commodore Upshur, of the New York navy yard, is of opinion that it will never do to close the New York navy yard. All the commandants affect to believe the same thing in regard to the respective yards under their command.

Commodore Clark H. Wells, commandant of this navy yard, leaves on Monday for a visit to Washington. During his absence Capt. A. E. K. Benham will be acting commandant of the station.

It is reported that the control of the United States quarantine station at Wood island, at the mouth of this harbor, has been transferred from the bureau of medicine and surgery of the navy department to the commandant of the Portsmouth navy yard. If this is correct, we suppose the closing of this yard will abolish the quarantine station.

Several young couples went from this city to Rochester, Friday evening, to attend a grand ball in that town.

Several days ago as Mrs. Jos. Pettigrew was standing on a chair, reaching up to a high shelf, she fell in such a manner as to strike on another chair, and had three ribs fractured.

When Mr. Charles O. Hanscom and wife, of No. 2 Newcastle street, returned to their home after a temporary absence on Friday evening, they found the house in possession of a large number of their friends, who retained possession until late in the evening. Mr. and Mrs Hanscom were completely surprised, as their friends had intended they should be.

At the special meeting of the Young Men's Club, held Friday evening, it was unanimously voted to present to the Children's Home such funds of the club, estimated to be about $112, as may remain after paying all bills. A vote of thanks was passed to the president, secretary, treasurer and executive committee; and it was also voted to hold no more meetings of the club.

The annual meeting of the American Society of Civil Engineers was held at New York this week. Among those who took part in the proceedings was Mr. Robert L. Harris of this city.

Before the Supreme Judicial court for York county, on the 18th and 19th insts., case E. O. Goodwin vs. officers of Kittery was tried. The action was trespass for false imprisonment, in which the plff. claimed $2000 damages. The plaintiff was arrested at the instigation of the collector of taxes for the town, for his poll-tax, assessed in 1881, he claiming that he was not in that year a resident of Kittery, and consequently not liable to be assessed. The defendants denied this. Copeland & Edgerley for the plff.; Tapley for defense.

Geo. A. Marshall, a merchant of York, was arraigned before Judge Ross of the municipal court at Biddeford on Friday, on a complaint made by the Society for the Prevention of Cruelty to Animals, charging him with cruelly neglecting to provide a horse owned by him, with sufficient food. The accused was fined fifty dollars and the costs of prosecution, amounting to seventy-three dollars in all, which was paid.

The gunners in York are having some fine sport in shooting rabbits. A number of these animals were brought to this city by the York stage on Friday.

The following letter shows how the restoring and invigorating properties of

Hood's Sarsaparilla

overcome it, and how by vitalizing and enriching the blood it neutralizes and eradicates the poisoned matter from it, bringing to the convalescent the color, life and vigor of robust health.

LOWELL, MASS.

MESSRS. C. I. HOOD & CO.: Gentlemen—My little girl had the diphtheria last April. The disease left her very weak, blood poor, with no appetite, and she could not seem to rally from its effects. HOOD'S SARSAPARILLA was recommended by a neighbor. After she had been taking it a few days we noticed a change for the better—she began to eat with a relish. It seemed to take out the poison the disease had left in her blood, the change being very noticeable in her face. She took it two months and fully regained her health, much to our delight. We now recommend HOOD'S SARSAPARILLA with a great deal of pleasure. Very truly yours,

J. R. SMITH,
19 Butterfield Street.

"That Extreme Tired Feeling,"

"The first bottle has done my daughter a great deal of good; her food does not distress her now, nor does she suffer from *that extreme tired feeling* which she did before taking HOOD'S SARSAPARILLA."

Sold by all druggists. Price $1 a bottle or six bottles for $5. Prepared by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

Hood's Tooth-Powder, Only 25 Cents.

CATARRH

HAY-FEVER

A POSITIVE CURE IS ELY'S CREAM BALM FOR Catarrh & Hay Fever. Agreeable to Use UNEQUALED FOR COLDS IN THE HEAD

Headache & Deafness, or any kind of mucus membranal irritations, inflamed and rough surfaces. A preparation of undoubted merit. Apply by the little finger into the nostrils. It will be absorbed, effectually cleansing the nasal passages of catarrhal virus, causing healthy secretions. It allays inflammation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment will cure. Send for circular. Will deliver by mail for a package—postage stamps. Sold by wholesale and retail druggists. How the People Are Humbugged

By Co-Operative and Mutual Aid Societies.

The Insurance Department Reports of several States furnish interesting data for judging of the Real Economy, Insurance Reliability, and Business Prudence of placing money with these concerns, under the impression that it furnishes

CHEAP LIFE INSURANCE.

Having duly considered the "lesson" afforded by the following statement, taken from these Official State Reports let the reader consider the DEFINITE Insurance Contract offered by THE

Mutual Life Insurance Co.

OF NEW YORK,

under which no "Assessments" are *possible*, and the benefit to be received definitely decided at time of application, while an annual return of the unexpired premium as each year's experience shall develop.

Forty-three organizations, known as "Co-operative Companies," "Mutual Aid or Relief Associations," "Benefit Societies," &c., report to the State Departments of New York, Pennsylvania, Ohio, Indiana, West Virginia, Massachusetts, &c., the following

OUTRAGEOUS MISUSE

— OF THE —

Assessments Collected.

Maximum Value of Certificates (or policies) upon which policies were paid in 1881	$2,395,525.00
These "Certificates" proved to be worth as claims	$511,386.36
But the collections for these claims were	$594,207.94
Difference between collection and disbursement, illustrating Economy in Cost (?)	$82,821.58 $511,384.36

ANOTHER WAY OF PUTTING IT.

These unfortunates held Certificates representing a supposed value to their beneficiaries of $2,395,525.

The real value proves to have been about 21¾ per cent, or $511,384.36, they waiving their claim of $82,821.58 of the amount collected ($594,207.94) and this is called *Cheap Insurance.*

QUERY.

Who ever heard of any respectable Life Insurance Company selling $2,395,525 of insurance, honestly contracted for, at a discount like the above and at such a cost?

SUPREME COURT--DOE J.

William I. Philbrick vs. Arvilla F. Philbrick of Rye, divorce decreed. Page for libellant.

Mary D. Ham vs. Henry Ham; divorce decreed. Marston & Eastman for libellant.

The list of petit jurors summoned for the 1st and 2d weeks is as follows: Joseph W. Bean, Wm. H. Crowell, Derry; Geo. W. Furnald, Leonard B. Smith, Exeter; John Bradford, Samuel F. Manning, Newmarket; John R. Reding, John P. Sweetser, John F. Leavitt, Charles Davis, Charles O. Hanscom, George Humphries, Portsmouth; Silas W. Hall, Lester L. Hall, Salem; George F. McGregor, George H. Hardy, Londonderry; Veranus C. Rand, William J. Yeaton, Newcastle; Samuel L. Lunt, Thomas G. Furber, Newington; Elijah B. Holtt, Jacob H. Gale, Newton; James Marston, Nathan Brown, North Hampton; Albert H. Clarke, Charles Hill, Northwood; Benjamin W. Crawford, Albert B. Harvey, Nottingham; Amos C. Clement, Chelle Ray, Plaistow.

No. 52, Jane S. Janvrin vs. Sarah E. A. Brown. Some time since Mrs. Janvrin, the plaintiff, was divorced from her husband, George Janvrin, and was allowed alimony. She caused to be levied her execution for this upon certain real estate which had been the property of her former spouse, but which he had conveyed to his daughter, Mrs. Brown, as was contended for a proper consideration in the nature of services, or similar cause. The question turned upon the ownership,—whether this conveyance was valid. The jury deliberated through the night, but were unable to agree, and the papers were taken from them without a verdict. Stickney, Wiggin & Fuller for pltf.; Marston & Eastman for deft.

THURSDAY, Jan. 18th.

In case Fannie W. Salter vs. Albert E. Salter, divorce was decreed. John Hatch for libellant.

No. 59, civil docket, Dunbar & Co. vs. John W. Locke; action to recover for price of certain liquors sold by the firm doing business under the name of Dunbar & Co., to the defendant, who lives in Seabrook, and who claimed that the bill, or a part of it, was paid or settled by the delivery by him to the plaintiffs of some cider, which the jury placed at a low value. Verdict for plffs., subject to the decision of the supreme court upon the question whether the liquor was sold in violation of law or otherwise, etc. The jury gave the plffs. the amount of their claim, $593.57, and allowed for the cider at ten cents a gallon, $251.90, leaving a balance of $341.67. The court proposed five questions to the jury as to the place of sale, the solicitation of the order for the goods, etc. Page for plffs.; Marston & Eastman for the deft.

On Friday morning the court adjourned to Monday, Jan. 23d.

A BUSINESS MAN.

The *Western Brewer*, a journal of the barley, malt and hops trade, published in Chicago, Ill., contains a sketch of Hon. Frank Jones, with a portrait of the "largest ale brewer in the country." Mr. Jones' output for 1882 is stated to be not far from 150,000 barrels.

The sketch says that Mr. Jones gave his salary as mayor of Portsmouth in trust for the purchase of a library for the high school, adding $1000 more from his own pocket; and he was, the biographer further says, elected to the forty-fourth Congress over a republican competitor although the district was about 3000 republican. The fact is that Mr. Small, the republican candidate who preceded Mr. Jones in the office of representative, received a plurality of 378 votes; and Mr. Jones in 1875 received a plurality of 245 vote over Mr. Whitehouse, who found in the republican party many lukewarm political friends, who have always been charged with having been willing that Mr. Jones should be elected! The sketch says Mr. Jones was re-elected to the forty-fifth Congress with a similar majority; the figures were—Jones 13,925; Marston 13,885; scattering 21; Jones' plurality, forty. We state this because we cannot afford to lose Mr. Jones from Portsmouth, and if it is believed that with a 3000 republican majority against him he was elected to Congress, such men as Butler, Cleveland and other revolutionary successes will be nowhere, and the democratic party will insist upon Mr. Jones accepting the nomination as their candidate for the presidency, because he is such an available standard bearer. In this respect, we have faith to believe that he is far better fitted for the office than many whose names are sometimes suggested in this connection. We read that Mr. Jones "has been repeatedly nominated for governor but as often declined." We have recollection that when nominated in the last canvass he ran against Gov. Bell, and it was the people who declined, and not the candidate.

Among his investments we are told that Mr. Jones "owns the Quincy house in Boston." "As a brewer," the sketch reads, "Mr. Jones has preferred to stick to ale, and has kept his product up to so high a standard that he has always been able to obtain his price for it, cash in hand." That is true. We think Mr. Jones' ambition has been to be not the largest brewer in this country, but to produce the best ale, and to maintain a high standard for his article in the market. To him political honors, and positions incident to being a prominent member of his party, have been mere side shows in his career. Like the famous brewers of Great Britain, Mr. Jones wisely concluded that an established reputation for his ale would sooner or later, with proper management of his business, become a fortune in itself; and although mayor, congressman, railroad president, the owner and immediate director of two magnificent hotels, and the man to whom comes daily an almost endless throng of men for advice upon all kinds of matters, for aid, encouragement and help, though with large interests in real estate, and diversified investments, from early morn to dewy eve it is his great brewing and malting business which engrosses his attention. To this he devotes his energies. No detail is too insignificant to escape his notice, no plan too broad for his comprehension. He is well informed of the prices af the ingredients he uses, in the markets of the world; he very largely personally attends to the purchase of his supplies. His knowledge of human nature, and his magnetic power, enable him to bring into his service some of the best aids in his business, and his agents and customers are noted for their loyalty to his interests and their constancy in his service.

The *Brewer* article in closing states that "However much against his will, it is written down in doomsday book, that he will be governor of New Hampshire." This may be. But few people seem to appreciate the fact that Mr. Jones has done far, very far more for the democratic party than that party can do for Mr. Jones; and while he labors zealously in anything he undertakes, we think that aside from the mere pastime of making a good run in the canvass political honors have for Mr. Jones far less attraction than has the prestige of being the most successful brewer of the largest product of ale in the United States.

MASONIC RELIEF ASSOCIATION.

At an adjourned meeting of the Rockingham Masonic Mutual Relief Association, held Friday evening, Jan. 19th, officers for the ensuing year were elected as follows:

President, John H. Cheever;
Vice Pres't, John R. Holbrook;
Treasurer, William H. Sise;
Collector and Secretary, Amos S. Foster;
Medical Examiner, Dr. S. C. Whittier.

PRESENTATION.

It having been reported that Past Worthy Chief Templar Francis E. Hall, of Rockingham Lodge of Good Templars, of this city, had caught the western fever and intended to start for the sunset soon, the members of the lodge felt that they were under some obligation to him for his efficient services as janitor of the lodge rooms, and on Thursday evening last presented him with an elegant beaver hat. The presentation speech was read by Grand Worthy Chief Templar George A. Bailey, it being as follows:

"In consideration of the efficient services of our worthy janitor, members of our lodge have deemed it an honor and privilege to have an opportunity to tender this, as a slight token of their regard." Mr. Hall very feelingly responded.

There is a large call for reserved seats at Music hall next Tuesday evening, on account of the "Mighty Dollar." Tickets at Myers'.

Thursday, the 18th inst., was one of the best fish days of the season, at this port. Three netters landed the finest fares of steak codfish sold here this season—the Onward 10,000 lbs., the Rising Star 10,000, and the Martha Jane 8000; of the trawlers, the schooner Storm King brought in 7500 lbs., the Christie Campbell 6000, the Hattie N. Reed 5000, the Ella M. Johnson 2000, and two other schooners 1000 lbs. each, making a total of over 50,000 lbs. Prices ruled from four to 4 5-8 cents a pound.

A valuable horse belonging to Mr. Josiah F. Adams died on Friday of stoppage.

Miss F. Williams, living at the south end, has in her possession a piano said to be nearly one hundred and fifty years old. Its music is quite sweet, and perhaps better than that from some pianos made now-a-days.

WHEAT BITTERS.

THE BEST AND The Richest BLOOD, BRAIN and NERVE -F-O-O-D-

CAREFULLY PREPARED, THOROUGHLY TESTED, ACCEPTABLE AND RELIABLE.

The Phosphates of the Wheat are its most valuable food property, and are, when properly prepared, the most acceptable nutriment with which to build up the system.

The Blood, Brain and Nerves are the forces which bear the strain of every day work and life, and in order to serve sickness it is wise to BUILD FOR HEALTH.

Wheat Bitters are prepared, not by fermentation but by solution and are richest in the Phosphates, while the starch and impure matter are eliminated. These make in themselves a basis, to which is added the best and choicest medicinal qualities, necessary to make its tonic and bitter. Taste not healthful, pleasant to the taste and must not be confounded with the thousand and one cheap alcoholic bitters which are sold as curealls. Medicine is doubly effective when used with food, so as to nourish while it corrects.

Sold by druggists, $1.00 per bottle.

A Common-sense Remedy.

SALICYLICA.

No more Rheumatism, Gout or Neuralgia.

Immediate Relief Warranted.

Permanent Cure Guaranteed.

Five years established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylica.

SECRET!

THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.

SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.

In lieu of a concealed by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate those diseases which are the result of the poisoning of the blood with Uric Acid.

SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Highest Medical Academy of Paris reports 95 per cent. cures in three days.

REMEMBER

that SALICYLICA is a certain cure for Rheumatism, Gout and Neuralgia. The most intense pains are subdued almost instantly. Give it a trial. Relief guaranteed or money refunded.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be relieved and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility premature decline of man, or Vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

25th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of disease, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

A Bloated Co federate Bondholder.

Some men don't seem to understand the difference between political assertions and business facts. Three or four days before election a Baltimore lawyer made a political speech in a country village. Being a red-hot republican, he naturally gave the democratic party the best he had, and among other things asserted that in case of a democratic success the country would have to pay the confederate bonds. Two or three days after the election a man walked into the lawyer's office, opened a valise and took from it $920,000 of rebel bonds, and said: "What are they worth?" "Four cents a pound." "But the democratic party has triumphed." "What of that?" "But won't the country have to pay these bonds?" "Not by a jurfull." The bondholder looked steadfastly at the lawyer for a long minute, and then slowly said: "Well, by gum! After ninety-six of us republicans who listened to your speech went and voted the democratic ticket in order to realize on our bonds, you now tell me that you didn't mean what you said!"

—At a recent marriage ceremony in one of the Providence churches, the contracting parties were thirty minutes behind time, and the organ pealed out, "Oh, dear, what can the matter be?"

—At an auction sale of old government medical supplies, at St. Louis, among other things one man bought 17,308 pills for thirty cents. A local paper says, "The books and instruments sold have been used before, but the pills were entirely new."

—The Cleveland *Herald* has been sued for libel for calling a man a horse thief. He will prove that he owns a livery stable and should have been called an extortioner instead of a thief.

It's hard to believe Miss Whittier was cured of such terrible sores by Hood's Sarsaparilla, but reliable people prove it.

A singular accident happened to a Mr. Emery at Bethel, recently. He was trying on a suit of clothes at a store in that place, and had laid aside his old suit, which a clerk stooped to pick up. As he did so a revolver dropped from a pocket and was discharged by the fall, the bullet entering Mr. Emery's knee. A doctor worked five hours to remove the ball without success.

LOG ROLLING.

While Wrestling with a Fallen Tree a Lumberman Receives Consequential Damages.

While on a hunting excursion in the great coal and wood region near Carbondale, Pa., the writer met William Coil, a lumberman. Accustomed to life and I bore in his form the sinewy manhood, he was a true Knight of the Axe. Many a tree had fallen before his ringing strokes, and fleets of rafts had borne away to market the sawed products. Coil is a character, and if Oscar Wilde is right in saying that all movements in unhindered labor are graceful, our friend William, a tripped for his work, and attacked a fallen tree. Richard I assaulted the heavy doors of Front de Beuf's Castle, must have presented a admirable picture.

One day, however,—but let him tell the story himself, as he told it to me:

"I was out in the woods, you know, trying to stay in log down a hill. Thinking I could get a better purchase on it from the lower side, I tackled it there with my log-rolling hook and threw my weight on the lever. She started, she did, but as luck would have it, before I could get out of the way, she rolled right over me. If it hadn't been for a lot of small limbs and brush lying in the road, which lifted her up, she'd a crushed me flat. As it was I got up without a broken bone, but with some mighty bad bruises."

"Then you were all right," said his auditor.

"Not by a blamed sight, stranger. I took cold, rheumatism set in, and, if I hadn't heard of BENSON'S CAPCINE POROUS PLASTERS and used 'em, it's my opinion I should never have made another chip. But the Capcine took hold quick, and I'm 'bout as good as new. But there's one thing you kin calkilate on:—I shall never wrastle with another log unless I have the advantage of the ground. For, as I told you before, if it hadn't been for them brushes I'd been smashed so you could 'a sold me for a door mat."

The Capcine is the thing for rheumatism. It doesn't keep you waiting. The word CAPCINE is CUT in the centre of the genuine. Price 25 cents. Seabury & Johnson, Chemists, New York.

To Remove Cinders from the Eye.

Persons sitting in the cars near an open window often have the misfortune of getting cinders in their eyes, and we often hear it asked, "How shall I get rid of this terrible nuisance?" It is probably not generally known that by immediately pressing the finger against the tear passage at the inner corner of the eye, and keeping the finger there for about a minute, the sub tance will in most instances disappear at once. Do not rub the eye before practicing this method, as, if the eye is irritated or inflamed, it is always extremely difficult to remove anything from that extremely delicate organ.

Fame is evidently in store for Mrs. Ada Cary Sturgis, sister of Anna Louise Cary. The more she sings the better her voice grows—so the critics say—and she bids fair to win a national reputation for a voice rivalling that of her distinguished sister. Mrs. Sturgis has been singing in the British provinces recently. At Coaticook she created a furore. Leading citizens of the place showed her marked attention, and at their request she named a new logging-camp, to which they conveyed her. She was engaged to return next spring and dedicate a new hall.

Jeremiah J. Quimby, fifty-eight years old and unmarried, hanged himself at the city farm in Concord on the 17th inst. Insanity was the cause.

Important to the Sick.

To those who have used Swedish Remedies, they know full well the value of them. To those who from prejudice have not used them, we can say that they are the very best medicines for the diseases for which they are recommended. Swedish Lung Balsam cures coughs, colds, and all diseases of the lungs. When taken together with Swedish Botanic Compound (the great blood purifier), it will cure consumption in the first and second stages.

Modern excavations and other researches have established the fact that the ancient Egyptians possessed considerable of electricity, as well as a few of the various uses to which it can be applied. This only strengthens the biblical statement that there is nothing new under the sun—not even Dr. Graves' Heart Regulator. The American people have known and used it for thirty years. No cases of heart disease can withstand its influence.

Great Physicians.

In order to be a great physician nowadays, a man must not only be a thorough student in science, but he must thoroughly understand human nature. Speaking of physicians, it is a remarkable fact, that no less than twenty of the medical celebrities of Europe all concur in the highest opinion of the remedy for rheumatism, gout and malaria, and pronounce Salicylica a wonderful success.

At a meeting of the school committee of Dover, on the evening of the 18th inst., Rev. George B. Spaulding, D. D., chairman, who is about to remove to Manchester, resigned, and Rev. A. H. Quint, D. D., was elected chairman instead. The city councils will elect a member to fill the vacancy.

Catarrh.

The remarkable results in a disease so universal and with such a variety of characteristics as catarrh, prove how effectually Hood's Sarsaparilla, acting through the blood, reaches every part of the human system. A medicine, like anything else, can be fairly judged only by its results. We point with pride to the glorious record Hood's Sarsaparilla has entered upon the hearts of thousands of people it has cured of catarrh.

To Please Her Husband.

Were the Words of a Good Lady, Mrs. Hawkins, who has long Suffered the Pain Common to Chronic Rheumatism. A Woman's Patience and Fortitude well shown.

Your reporter from Mrs. Hawkins at 14 Exchange St., New Haven, Conn. "About four years ago," she said, "I was then a resident of Brooklyn, N. Y. I went over one morning to the Jersey City depot to see some friends off who were started for the west. There was a strong draft of air in the depot, and in standing by the train talking to my friends I caught a severe cold. I had no more than reached my home again when I was take with a sudden chill and then fever set in. The outcome of all was that rheumatism settled all over me. I was entirely helpless. From this I have never recovered. You see my hands what a state they are in. Those are all chalky swellings and my limbs are very bad. While I remained in Brooklyn I tried all sorts of remedies, but I could never gain any relief. My physician said it was no use. I grew very thin and lost all strength. Finally, after coming here, to gratify my husband, I began to take Dr. Kennedy's FAVORITE REMEDY, and my general health has been better than ever before. I am stronger, have an excellent appetite, which I did not have for a long time. It has helped my rheumatism, and with a thorough trial I am in hopes of recovering completely."

Kennedy's FAVORITE REMEDY has been successfully used by thousands. It will build up a system which has been run down by overwork. It is the thing for the student and literary man to have at hand, and should be in the home of every mechanic. FAVORITE REMEDY is economical, safe and pleasant. Buy it and try it.

KIDNEY-WORT

FOR THE PERMANENT CURE OF CONSTIPATION.

No other disease is so prevalent in this country as Constipation, and no remedy has ever equalled the celebrated Kidney-Wort as a cure. Whatever the cause, however obstinate the case, this remedy will overcome it.

PILES. This distressing complaint, in its various forms, yields to the action of Kidney-Wort.

Kidney-Wort strengthens the weakened parts and quickly cures all kinds of Piles even when physicians and medicines have before failed.

If you have the symptoms of these troubles, you cannot expect a cure until you have tried Kidney-Wort.

Kidney-Wort acts at the same time on the Liver, Bowels and Kidneys, putting them in healthy action.

Old Boreas on the Ramp gr.

The high wind whistled around the chimney tops and steeples, and blew bricks down into the street, scaring the people who walked below. Snow, sleet and hail drove in the faces of those who dared expose themselves, and made them button their coats tight around their throats. Of course there were sore throats and colds and coughs and rheumatism the next day. But what were these to men and women who could step into any drug store and buy a bottle of Perry Davis's Pain Killer?

Arthur Preston, who brutally murdered Mary Dorsey last April, was hanged Friday, Jan. 19th, at Belair, Harford county, Maryland.

For the past four years I have sold a large amount of Adamson's Botanic Balsam, and it has given such universal satisfaction that I always recommend it before anything else for coughs and colds.

The New York *Tribune* thinks Ex-Gov. Long made a grave political mistake in allowing Gov. Butler to use him for the purpose of defeating Senator Hoar's re-election. The fact is, Gov. Long reached his high political eminence by a rapid transit, and when he deals with a man like Butler he shows his lack of experience. With a fair wind Long has made good headway, and ripened rapidly. He probably before the election failed to see any reason why he should not be a senator, but he probably sees it now.

A "news" item now going the rounds of the press is as follows: "Richard Proctor declares that some time early in the spring a comet will take a little pleasure trip through the world's atmosphere and lift the mercury so high that we shall have to construct a new thermometer to meet the requirements of science and find how hot it is." There is something about this item we do not believe; in the first first place we don't believe Mr. Proctor said anything of the kind; secondly, we don't believe he or anybody else knows anything about the matter.

News and Notes.

There is a good deal of talk among the supporters of Hoar and Crapo in the senatorial contest in Massachusetts last week, as to whether Mr. Crapo did or did not send from Washington a despatch which caused most of his supporters to go to the support of Hoar.

The brig Mariposa, of Boston, was run down and sunk off Fisher's island on the night of Jan. 18th by the steamer Canima, from St. Johns, N. F., for New York, and only one man was saved out of her crew of eight.

The People's Five Cent Savings bank of Bath, Me., suspended payments on Saturday in consequence of a run; the bank had $42,000 on deposit in the Pacific bank of Boston, and this fact has made the depositors uneasy.

On Saturday, Jan. 20th, the Western Union Telegraph company made twenty-five cents its maximum rate for a message of ten words between any of its offices in New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York city, and the southwestern part of the state of Maine. Orders were given to reduce the rates of 30, 35, 40 and 50 cents to the twenty-five-cent rate.

There is evidence that Scheller, the alleged incendiary of the Newhall house in Milwaukee, removed his stock of liquors to a great extent the day previous to the fire. He even removed the balls of seven billiard tables. The value of the stock secreted was about $1,000.

Several important personages in Washington were fined last week for not causing the snow to be removed from the sidewalks in front of their houses. Atty. General Brewster failed to appear at the police court, and the prosecuting officer asked for a warrant to bring him to a sense of justice.

The supreme court of Iowa has decided that the prohibitory amendment to the constitution adopted by the popular vote last June is invalid. In a suit to recover the price of beer it was held by the court that the amendment was not shown by the records of the house of assembly to have been legally passed. The lower court gave a verdict for the seller, and the verdict is sustained.

A powder mill at Muiden, Holland, a little town eight miles from Amsterdam, blew up on the 19th inst., killing forty persons and destroying nearly all the buildings in the town.

The Quincy house at Quincy, Ill., one of the largest hotels in the city, was burned in the morning on the 19th inst. The fire caught in the third story, when many of the guests were still asleep, but no lives were lost. About one hundred persons were in the hotel, nearly all of whom lost all their personal effects.

A guest at a New London, Conn., hotel bought eleven photographs of actresses, and arranged them around the sides of a mirror in his room. They were subsequently missed, and finally A chambermaid confessed that she had thrown them out of the window in the interest of morality.

Elihu Palmer, a nephew of Ex-Gov. Palmer of Illinois, on the 18th inst. shot his wife with the intention of killing her, and then blew his own brains out. Mrs. Palmer, who is a young and beautiful woman, was not dangerously hurt. Her husband accused her of frequenting a disreputable house with other men, but she denies it.

Mayor Whyte, of Baltimore, officially announces that there are only 463 cases of smallpox in the city.

A calcium-light machine exploded on the stage of the Grand Opera house in Milwaukee, on the night of Jan. 18th, fatally injuring two supers, and badly wounding three others. A panic was threatened, but no one in the audience was hurt. One of the principal exits was found locked!

Frank Davis, convicted of burglary from J. A. Buckman & Co.'s store in Mechanics Falls, Me., has been sentenced to four years in the state prison.

Harry A. Hill, twenty-one years old, a brakeman, was thrown from a train at Hyde Park, Vt., Jan. 19th, and killed.

It is authoritatively stated that the report of the intended resignation of Brig. Gen. Joseph M. Clough of New London, commanding the New Hampshire national guard, is without foundation.

It is now thought that if Admiral Bryson should be selected to relieve Admiral Clitz of the command of the Asiatic station, he will take advantage of the forty-years service law, and be retired at once. In that event Commodore Edward Simpson, at present commanding the navy yard at League island, Penn., will probably succeed Admiral Clitz.

The February number of the "North American Review" contains papers on the revision of creeds, by several doctors of divinity; "The Experience of Universal Suffrage," by Prof. Winchell; "The Decay of Protestantism," by Bishop McQuaid, who undertakes to show how much better the Catholics attend church in these days than do the Protestants, with interesting statistical information. The political situation is discussed by Ex-Govs. Seymour and Boutwell; Dr. D. A. Sargent treats of physical education in college; and two writers tells us of the huge Standard Oil Co., and give some light upon our great product of petroleum.

A new story by Mr. Howells began in the February number of "The Century." In the same magazine are some fine lines by Edmund Clarence Stedman, entitled "The Constant Heart." Mr. Howells' tale is called "A Woman's Reasons," and begins in Boston, and tells of a young lady whose lover was a naval officer on duty at Portsmouth, and received from the Boston girl, while she was staying at Rye beach,—we will not say at which house nor what it was he received, but only tell our readers that the terms of the "Century" are $4 per year, single numbers thirty-five cents, and that all the bookstores have it on their counters.

REAL ESTATE TRANSFERS.

The following are among the recent transfers of real estate left for record in the office of the register of deeds:

Portsmouth—John D. Swain and Elizabeth E Swain of Nashua to Emma M. Nowell of Portsmouth, land and buildings, $3100.

Hampton—John H. Fogg of Hampton to Clifford B. Gill of Hampton, land, $100.

Seabrook—Geo. W. Pike of Seabrook to Edward D. Fowler of Seabrook, land, $163.50; Wm. Sanborn of Seabrook to Edward D. Fowler, land, $40.

Epping—Joseph Witham of Epping to John L. True of Epping, land, $12.

Mr. John H. W. Smith, the veteran bill-poster, says the only thing he knows of which is creating much excitement about town at present, is the approach of his annual benefit ball.

Clarke's *Manchester Directory* contains three pages of Smiths and but one Smyth. The compositor perhaps got tired of the monotony of setting up the same name, or perhaps got out of i's.

The following is a list of performers at the concert in the Methodist Episcopal church at South Eliot on the evening of Wednesday, Jan. 24th, this being the first entertainment in the course to be given by the United Order of the Golden Cross, of Eliot: Miss Emma Luke, soloist; Miss M. Jennie Brookings, pianist; Miss Mary C. Brookings, violinist; Mrs. Evelyn E. Staples, soprano; Miss Abbie C. Remick, contralto; Col. Charles R. Littlefield, Mr. J. W. Wherren, bassos; Messrs. J. W. Remick and L. W. Taylor, tenors; Mrs. J. C. Lydston, accompanist.

In the suit of E. O. Goodwin vs. James R. Philbrick and others of Kittery, action of trespass to recover $2000 as damages for alleged false imprisonment, tried at Saco last week, the verdict was in favor of the defendants.

The Biddeford *Sentinel* of the 17th inst., in alluding to the act on of the recent meeting of the Maine democratic state committee, speaks thus of W. A. Cromwell, of the Lake Shore & Michigan Southern railway, who is the York county member of the committee: "The member of the state committee from this county—William A. Cromwell, Esq., of South Berwick—in favoring and urging the course of action adopted by the committee deserves, and no doubt will receive, the thanks of the democracy of York county, as well as throughout the state, for the course taken by him in advocating a thorough reorganization of the party, free from all entangling alliances, and placing it on a war footing for the great political battle of the coming year. As an active and progressive democrat and efficient party organizer Mr. Cromwell has but few, if any, superiors in the state."

The Pepperell Manufacturing company of Biddeford, which asks the Maine legislature to increase its capital stock from $1,200,000 to $1,500,000, will probably soon build a large cotton factory in Biddeford. This company is said to be very prosperous, and to have foreign orders several months ahead.

Eddie Hepworth the twelve-year-old son of Joseph C. Hepworth of Biddeford, was fatally injured last Thursday night, while coasting.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Sy up for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. eodtjan20,84

THE PROSTRATION which follows Diphtheria, and the persistency with which it clings to the patient, are well known to all who have had any experience with this terrible disease.

The following letter shows how the restoring and invigorating properties of

overcome it, and how by vitalizing and enriching the blood it eradicates the poisoned matter from it, bringing to the convalescent the color, life and vigor of robust health.

LOWELL, MASS.
MESSRS. C. I. HOOD & CO.: Gentlemen—My little girl had the diphtheria last April. The disease left her very weak, blood poor, with no appetite, and she could not seem to rally from its effects. HOOD'S SARSAPARILLA was recommended by a neighbor. After she had been taking it a few days we noticed a change for the better—she began to eat with a relish. It seemed to take out the poison the disease had left in her blood, the change being very noticeable in her face. She took it two months and fully regained her health, much to our delight. We now recommend HOOD'S SARSAPARILLA with a great deal of pleasure. Very truly yours,

NEW POOL ROOM.

The commodious room in the rear of Mr. S. Augustus Preble's hair dressing saloon, No. 31 Congress street, has been fitted up by Mr. Preble as a pool room, no expense having been spared to provide a place where this popular game can be indulged in without any objectionable accessories. The room has been nicely carpeted, and furnished with all the requisites, including an extra fine table of Came's make—the best to be found in the market; no liquors will be sold on the premises. Mr. Preble has also recently had his hair dressing rooms renovated, and does not propose that his regular patrons or transient customers shall lack anything of the attention they could heretofore count on receiving at his establishment.

POND LITERATURE.

Mr. Editor: Is there any balm in Gilead? Is there any hope that our board of aldermen will move in the matter as regards the north millpond? are they dead or only sleeping? The pond was being drained on Friday, and the stench was such as to make it utterly repulsive, absolutely sickening, to any one who was forced to cross the millbridge. The water running from the pond was of a decidedly yellow cast, and if ten thousand people had been drowned in the pond and their carcasses were decaying there, the smell from its filthy bottom could not have been any worse. Will not the board of aldermen wake up and *do* something to abate the worst nuisance that ever a city was inflicted with? Money should not stand in the way of the public health.

XX.

Editor of Chronicle: Sir—I noticed in your issues of the 16th and 17th insts., very appropriate articles relative to the north millpond nuisance, which, continually increasing year after year, has become intolerable. I am pleased to see that some citizens have risen to the occasion, and I perfectly agree with the remarks and propositions made by "W. A. P." and "Citizens,"—the first remarks I have seen in print to place the *origin* of this nuisance where it rightly belongs. The principal cause is the breweries; and as "Citizens" proposed, it is advisable to apply to the court of justice before entailing an enormous expense on the city. If the court decided that the inhabitants of this pleasant little city on the Piscataqua should be obliged to inhale this putrid atmosphere, the only alternative then left is to remove it (if possible) at the city's expense, by one of the engineer's proposed plans.

Apropos, where did the city authorities obtain power to allow the breweries or any other manufactories to drain their refuse and filth into the pond? or to dispel the water power of the mill, which has existed for over one hundred years, and I have never heard of its being abrogated. I trust the citizens of Portsmouth will positively refuse to contribute one penny of the expense to remove this nuisance, until it is decided by the highest court of justice who shall be accountable for the enormous expense. I trust Mayor Treat will use his influence fearlessly and faithfully in the interests of the city.

Miss Norah Bartlett appears this week at the Boston Museum in the part of Fanny Power, with Boucicault in "Arrah-na-Pogue."

Seventy-five barrels (about 30,000 in number) of frozen herring were received in this city on Saturday last from Gloucester, Mass., to supply vessels fishing out of this port with bait; $2 per hundred, by count, was the price realized.

The Portsmouth *Journal* makes mention of an affable miss who has been operator at the Western Union telegraph office in this city since its opening. Such a long service must afford at least experience, as the office was opened very many years ago.

Mr. J. F. Garland, for twenty-two years past postmaster at Newmarket, has resigned on account of ill health, and Dr. S. H. Greene has been appointed in his stead.

The State Industrial school has received from the executor of the will of the late Louise Penhallow, of this city, a check for $1,081.50, the sum and interest on a legacy left by the deceased for the use of the library of the institution.

One day last week a dog belonging to Mr. William H. Lovell undertook to make himself obnoxious to a cat, and the latter ran away, closely followed by her persecutor. A lightning rod was lying on the ground near by, with its sharp tip elevated to just about the right height to pick up any incautious cat or dog, and toward it the pair ran at high speed, but after getting perilously near it pussy suddenly changed her course, which the heavier dog from his momentum was unable to do in time, and struck his breast against the point of the rod, which penetrated his body nearly its whole length, coming out at the flank. This stopped the race at once.

It is reported that Mr. Dennis J. Lynch has settled with the insurance companies for $5500.

On Friday and Saturday of last week about twenty heavy loads of timber were hauled into this city by teams from the surrounding county, part going to Mason's steam sawmill and the rest to Fernald's shipyard.

A fine sleigh built by Mr. George E. Marden was disposed of by ticket at James H. Robertson's saloon on Saturday evening, Fred Hines holding the lucky ticket, No. 36.

About 20,000 lbs. of fish were received here on Saturday; several of the boats were unable to get their trawls, owing to the heavy gale. One netting schooner arrived on Sunday, with about 5000 lbs. of fish.

The steamer Admiral, after the 28th inst., will leave Boston for this port on Tuesday of each week at ten o'clock A. M., and leave Portsmouth for Boston on Wednesday at five o'clock A. M.

A platform car loaded with lumber from the eastward broke down on one of the freight trains over the Portland, Saco & Portsmouth railroad on Friday night; the broken-down car was brought to this station and the lumber loaded on another one, with but slight delay.

The debris in the store recently occupied by Mr. Dennis J. Lynch on Market street was commenced to be cleared out on Saturday last.

Two car loads of lumber, 2500 feet, arrived at the Eastern railroad station in this city last week for John H. Broughton, to be delivered at the navy yard for use in department of construction and repair.

Mr. Daniel A. Clifford, who has been principal of the Ash street grammar school in Manchester for many years at a salary of $1350 per annum, has just received an appointment as master of a grammar school in Chelsea, Mass., at a salary of $1700. Mr. Edward P. Sherburne, who went from this city to Manchester several years ago to teach the Spring street grammar school, has been transferred from that school to the vacancy caused by the resignation of Mr. Clifford. Mr. Sherburne's salary will be continued at $1350, he having received that amount for several years.

Mr. W. J. Florence, who appears at Music hall on Tuesday evening, the 23d inst., as Hon. Bardwell Slote in "The Mighty Dollar," thirty years ago was an ambitious amateur, but to-day is recognized as one of the foremost American actors. By persistent effort and diligence in practical stage study, aided by a good personal appearance and native ability he has risen to his present eminence as a comedian, and is the possessor of the fame and fortune that were the dream of his struggling boyhood and youth. Successful alike abroad and in his native land, he can justly boast of a world-wide reputation as a finished artist. Few men can tell a more interesting story of struggle and disappointment leading up to triumph than Mr. Florence.

The Dover *Democrat* last week said: "It is rumored that a call is to be extended to Rev. W. R. G. Mellen, pastor of the Unitarian church of this city, by the Unitarian society of Portsmouth, to become the successor of Rev. Mr. DeNormandie, who has accepted a call to Roxbury, Mass." The rumor had not gained currency in this city last week, whatever it may have done in Dover.

The Newmarket *Advertiser* of Jan. 20th says: "Secretary Lincoln, when called upon by Congress to name instances in the famous river and harbor bill where appropriations were made not beneficial to commerce and navigation, has included in his answer the $10,000 appropriation for Lamprey river, Newmarket. It strikes us that he might have named hundreds of other places which he did not, where the appropriations would not have been any more beneficial to commerce and navigation than on the Lamprey river. One we have in mind is the Swamscott river, which is not much better than a creek above South Newmarket."

K. OF P.--ATTENTION.

The members of Damon Lodge, Knights of Pythias, are requested to meet at their hall on Tuesday evening, Jan. 23d, at 7:30 o'clock; members of the grand lodge will be present. A banquet will be served at the close of the meeting.

A Common-sense Remedy.

SALICYLICA.

No more Rheumatism, Gout or Neuralgia.

Immediate Relief Warranted.

Permanent Cure Guaranteed

Five years established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylica.

SECRET!

THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.

SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.

It has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will no eradicate those diseases which are the result of the peculiarity of the blood with Uric Acid.

SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now extensively used by all celebrated physicians of America and Europe. His best Medical Academy of Paris reports 95 per cent. cures in three days.

REMEMBER

that **SALICYLICA** is a certain cure for **Rheumatism, Gout and Neuralgia.** The most intense pains are subdued almost instantly. Give it a trial. Relief guaranteed or money refunded.

This elegant, cheap article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures grayness, removes dandruff and itching, makes the Hair strong, gives it a curling tend ney and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Messrs. Editors—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondence bears testimony to her work. Has practically devoted to her work, which is the outcome of a life-study, and is enabled to keep its lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at relief from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits it is recommended and sanctioned by Unbelievers in Medicine in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, Inflammation and Ulceration, Dizziness, Flooding, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

If persons suffering portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bearing, Headaches, Nervous Complaints, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, under all circumstances, act in harmony with the law that governs the female system.

It costs only $1 per bottle or six for $5, and is sold by druggists. Any address receipt of letter, and contains the names of many who have been restored to perfect health by the use of the Vegetable Compound, which can be obtained by addressing Mrs. Pinkham, stamp for reply at her Lynn, Mass.

For Kidney Complaint of either sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills" are a new writer, were the best in the world for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and indeed, to speak plain language is almost by Magic.

All trust respect her as an Angel of Mercy whose sole ambition is to do good to all.

HEART DISEASE

IS YOUR HEART SOUND?

Many people think themselves sick and die for lack of a little knowledge, the real cause is at the heart.

The renowned Dr. Clendinning, startlingly says "one third of my subjects show signs of heart disease."

The heart weighs about ten ounces, and just man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. It is known as **Dr. Graves' Heart Regulator** *and can be obtained at your druggists, $1, per bottle, six bottles for $5 by express. Send stamp for Dr. Clendinning's thorough and eclectic treatise.* (2)

Books, Music, etc.

We have received from Saulfield's Music Store, 12 Bible House, N. Y., and 16 Jackson street, Chicago, "Richards' New Method for the Piano Forte;" the publishers claim that anybody can learn to play the piano without a teacher, by buying a copy of the same. Be this as it may, the work comes in a very nice, compact shape, is printed from full size sheet music plates, and from what we can judge of it, is a work that ought to be in every musical household. As specimens of what the whole book contains we mention pieces such as "In the Gloaming," "Baby's Empty Cradle," Alsatian Mountains," "Kathleen Mavourneen," "Old Oaken Bucket," "Nearer, my God, to Thee;" selections from operas such as "Carmen," "Patience," "Olivette," "Billee Taylor," "Mascotte," etc.; waltzes, such as "Racquet," "You and I," "Charming," etc. All the music in it is good and taking. Sent post-paid by the publishers on receipt of seventy-five cents.

Captain James E. Jouett has been ordered to examination for promotion; Passed Assistant Engineer B. F. Wood to special duty at the Morgan Iron Works, New York.

A True Friend

to the sick and suffering, is Dr. Kaufmann's great Medical Work, finely illustrated. Send two 3 cent stamps to pay postage to A. P. Ordway & Co., Boston, Mass., and receive a copy free.

The south is being weaned from all sympathy with the doctrine of free trade. Railroads are ramifying every portion of our affluent sections—capital is seeking our mines of minerals—furnaces and factories are springing up in every direction, and these are educating the people out of the ruts of the past, and opening to them the possibilities which lie in new industrial pursuits and broader and more remunerative fields for labor. The policy that was adapted to slave labor is not applicable to free labor. The south, in Congress, should stand by the policy of encouraging home industries, for in these are our hope. The growing convictions of the people demand this, and he who does not catch the inspiration and heed the warning will find a small earthquake beneath him when he comes to give an account of his stewardship to his betrayed constituency.—*Staunton (Va.) Virginian.*

Good health is the greatest of fortunes; no remedy has so often restored this prize to the suffering, as Hood's Sarsaparilla. Try it.

It is years since any stock of the National Bank of Bellows Falls, Vt, was in the market. To close an estate, twenty-one shares were sold at auction on the 17th inst., surprising everybody at the price. Five-share clocks sold at from $209 to $211 per share.

What's the use having dyspepsia? Why belch and say you've got heartburn, every time you eat? Be sensible, take Brown's Iron Bitters and get well.

A very large meeting of colored men from various portions of Delaware was held at Wilmington on the 17th inst., to inaugurate the first railroad enterprise ever started exclusively by men of that race. Several thousand dollars were subscribed. The projected road is to run from Wilmington, Del., into the eastern counties of North Carolina. There is a strong probability that the road will be built. The movement creates much interest.

LOG ROLLING.

While Wrestling with a Fallen Tree a Lumberman Receives Consequential Damages.

While on a hunting excursion in the great coal and wood region near Carlondale, Pa., the writer met William Coll, a lumberman. Accustomed to life and l ber in the forest from early manhood, he was a true Knight of the Axe. Many a tree had fallen before his mighty strokes, and feets of rafts had borne away to market the sawed products. Coll is a character, and if Oscar Wilde is right in saying that all movements in unhindered labor are graceful, our friend William, s tipped for his work, and attacking a tree as Roland I assaulted the heavy doors of Front de Bœuf's Castle, must have presented a admirable picture.

One day, however,—but let him tell the story himself, as he told it to me:

"I was out in the woods, you know, trying to stack a log down a hill. Thinking I could get a better purchase on it from the lower side, I tackled it there with my log-rolling hook and threw my weight on the lever. She started, she did, but as luck would have it, before I could get out of the way, she rolled right over me. If it hadn't been for a lot of small limbs and brush lying in the road, which lifted her up, she'd a crushed me flat. As it was I got up without a broken bone, but with some mighty bad bruises."

"Then you were all right," said his auditor.

"Not by a blamed sight, stranger. I took cold, rheumatism set in, and, if I hadn't heard of BENSON'S CAPCINE POROUS PLASTERS and used 'em it's my opinion I'd could never have made another chip fly. But the Capcine took hold quick, and I'm 'bout as good as new. But there's one thing you kin calk into on—I shall never wrestle with another log unless I have the advantage of the ground. Fur, as I told you before, if it hadn't been for them brushes I'd been smashed so you could 'a sold me for a door mat."

The Capcine is the thing for rheumatism. It doesn't keep you waiting. The word CAPCINE is cut in the centre of the genuine. Price 25 cents.

"The Elzevir Library." A unique little semi-weekly magazine under this title has begun publication in New York. Each number is to contain a *complete literary gem*, a characteristic specimen of the best production of the brain of the author who is represented. The numbers taken together will form a beautiful little cyclopedia of the world's choicest literature. Price only two cents a number, or $2 a year. Number one contains Washington Irving's delightful story of Rip Van Winkle; number two, Canon Farrar's graphic story of The Burning of Rome, and the persecution of the early Christians under Nero. Other numbers following are "The Sea-Serpents of Science," by Dr. Wilson; Tennyson's "Enoch Arden;" Goldsmith's "Deserted Village," "The Traveler," etc. Specimen copy sent free on request. John B. Alden, publisher, No. 18 Vesey street, New York.

"Magnhilde," by Bjornstjrene Bjornson; translated from the Norse by Prof. R. B. Anderson; author's edition. Boston; Houghton, Mifflin & Co.

The story is located on the west coast of Norway, and was written in Rome, but not published until 1877. This is the seventh volume of his novels now published by this firm, and the series of translations contains all the novels and short stories that Bjornsen has written. The books relate nearly exclusively to the people, customs and scenes in Norway, and afford a striking delineation of the Norwegians in their home life. Price $1.00 per volume.

We walk in the midst of secrets, we are encompassed with mysteries, but it is an open secret that there is no remedy in the world so wonderful as Dr. Bull's Cough Syrup for coughs and colds.

Albert Jordan, twenty-four years old, was cut in two by a train on Saturday at Peabody, Mass., half his body being left on one side of a rail, and half on the other.

Mr. G. Oehrle, editor of the Lawrence (Kan.) *Germania*, says that a lamp in his house exploded and he slapped his hand down upon it to extinguish the flame. He was fearfully wounded. He bathed the wounds with St. Jacobs Oil, and in a few days his hand was healed.

Mrs. Sophronia Smith, wife of Lemuel Smith of Chesterville, Me., was burned to death a few days ago by her clothing taking fire from an open fire while alone in the house. She was sixty-five years of age, and had been an invalid for many years.

***"One man's meat is another man's poison." Kidney-Wort expels the poisonous humors. The first thing to do in the spring is to clean house. For internal cleansing and renovating, no other medicine is equal to Kidney-Wort. In either dry or liquid form it cures headache, bilious attacks, constipation and deranged kidneys.

Frank M. Fogg, ex-statesman and philosopher, has sued Spencer Rogers of Portland, Me., for alleged false imprisonment. Fogg says about $10,000 will make everthing all right.

"Couldn't Keep House without It," is what a Massachusetts lady writes about Electro-Silicon, the famous silver polish. It is a genuine relief from the worthless articles sold for such purposes. Get the genuine. Grocers and druggists, or 72 John street, N. Y.

The assayer's examination of the stomach of the late Almatic Neal of Lincolnville, Me., reveals enough strychnine to cause death. It is believed the woman was murdered.

In the *Hop Plaster* are united fresh hops, gums and balsams, and its power is wonderful in curing back ache, sprains, bruises, neuralgia, pain in the side or soreness anywhere. Thousands testify to this.

A despatch from Augusta, Ga., says Dr. Durham's colored servant girl, aged ten years, in revenge for punishment inflicted on her, poisoned the coffee at dinner, and three members of the family are in a critical condition.

Webster, the lexicographer, defines catarrh to be, "a discharge of fluid from the mucous membrance, especially of the nose, fauces, and bronchial passages," caused by a cold in the head. It is a disease common alike to all classes of society. Unlike an ordinary cold, it cannot be cured by family remedies, but requires an antidote from the ranks of *materia medica*. The preparation so universally known under the name of Ely's Cream Balm is a sovereign, unfailing cure for catarrh. It is a neat, pleasant, yet thoroughly efficacious remedy. "I have been troubled with catarrh so badly," writes B. F. Leipner, A. M., of Red Bank, N. J., "for several years that it seriously affected my voice. I tried various remedies without relief. One bottle of Ely's Cream Balm did the work. My voice is fully restored and my head feels better than for years." 50 cents only.

Thomas Waldron, known as "Brother Frank," who is in charge of the Catholic school known as the Brothers' college, in Buffalo, N. Y., is under arrest on a charge of rape upon a seven-years-old girl. There is great excitement in Catholic circles in that region.

Humor in the Stomach.

Much of the distress and sickness attributed to dyspepsia, chronic diarrhœa and other causes is occasioned by humor in the stomach. Several cases, with all the characteristics of these complaints, have been cured by Hood's Sarsaparilla. Other cures effected by this medicine are so wonderful that the simplest statement of them affords the best proof that it combines rare curative agents and when once used secures the confidence of the people.

—The French word for law is placed in the feminine gender. This is because the law is so fearfully uncertain.

Contagious diseases, malaria, liver complaint, are all prevented by using the gentle but powerful tonic, Brown's Iron Bitters.

—"Get right out of this!" shouted an irritated merchant to a mendacious clerk: "this is the third lie I have caught you in since ten o'clock this morning!" "Oh, well," said the new man, "don't be too hard on me. Give a fellow time to learn the rules of the house."

To Please Her Husband.

Were the Words of a Good Lady, Mrs. Hawkins, who has long Suffered the Pain Common to Chronic Rheumatism. A Woman's Patience and Fortitude well shown.

Your reporter from Mrs. Hawkins at 14 Exchange St., New Haven, Conn. "About four years ago," she said, "I was then a resident of Brooklyn, N. Y. I went over one morning to the Jersey City depot to see some friends off who were started for the west. There was a strong draft of air in the depot, and in standing by the train talking to my friends I caught a severe cold. I had no more than reached my home again when I was taken with a sudden chill and I could not get in the outcome of all was that rheumatism settled all over me. I was entirely helpless. From this I have never recovered. You see my hands what a state they are in. Those are all chalky swellings and my limbs are very bad. While I remained in Brooklyn I tried all sorts of remedies, but I could never gain any relief. My physician said it was no use. I grew very thin and lost all strength. Finally, after coming here, to gratify my husband, I began to take Dr. Kennedy's FAVORITE REMEDY, and my general health has been better than ever before I am stronger, have an excellent appetite, which I did not have for a long time. It has helped my rheumatism, and with a thorough trial I am in hopes of recovering completely."

Kennedy's FAVORITE REMEDY has been successfully used by thousands. It will build up a system which has been run down by overwork It is the thing for the student and literary man to have at hand, and should be in the home of every mechanic. FAVORITE EMEDY is economical, safe and pleasant. Buy it and try it.

Much indignation is felt at South Framingham, Mass., at the delay of the authorities in taking measures to check the progress of contagious disease now prevalent there. There have been more or less cases of scarlet fever and measles for the last three months, and at the present time there are probably some forty cases in the village, but no measures for checking the progress of the diseases, not even closing of the schools, have yet been adopted.

Frightful Disasters.

An overland train on the South Pacific railroad, which left San Francisco at 9:20 o'clock Friday morning, stopped at Tehachapi station to drop an extra engine, and while making the change, the train got away and started back on a down grade of 120 feet to the mile. The train consisted of the two engines, express, mail and baggage cars, two sleepers, one ordinary passenger coach and a smoker. It went down on the grade at a frightful speed for about four miles, when the hindermost sleeper jumped the track and went over an embankment about fifteen feet high, carrying with it the other sleeper, mail, baggage and express cars, which were piled in a shattered heap. They took fire and were consumed. Only a few passengers left San Francisco in the train, but a number got on at way stations. A search for the dead soon showed that twenty-one persons had perished. Eleven were beyond all recognition, only headless bodies and charred limbs being found. Of the body of Mrs. Downey, the wife of Ex.Gov. Downey of California, only the head and bust remained, which were recognized by her jewelry. All the bodies and fragments of bodies were placed in coffins. The wounded were removed to the baggage car, and on the arrival of the relief train from Los Angeles were sent to that city. Two unknown men are supposed to have been discharged United States soldiers; and another body is believed to be that of Col. Larrabee, ex-congressman from Wisconsin.

The mixing house and six packing houses of the Giant Powder works at West Berkeley, Cal., containing about eight tons of powder, exploded Jan. 21st, blowing to atoms a white foreman, named Cook, and forty to fifty Chinamen. The superintendent was thrown a long distance, but not seriously hurt. The wreck of the building took fire, and all the implements of manufacture were destroyed. The magazine, containing two hundred tons of powder, did not blow up. The shocks of seven distinct explosions were felt in San Francisco.

The Hamburg-American line steamship Cimbria, which left Hamburg for Havre and New York on the 18th inst., was run into and sunk during a dense fog on the morning of the 19th, off Borkum, about twelve hours' sail from the mouth of the Elbe, by the British steamer Sultan, bound from Hull, Eng., to Hamburg, and a terrible loss of life ensued.

A survivor from the Cimbria makes the following statement: The weather was clear up to 1:15 o'clock Friday morning, but a fog then set in, which continued and increased in density. The engines of the Cimbria were kept at full speed until 1:30 o'clock, then at half speed until two o'clock, after which they were kept at slow speed. About ten minutes past two o'clock the whistle of another steamer was heard, and the engine of the Cimbria was stopped instantly. The Sultan's green light, owing to the fog, was not observed until she was only 150 feet off from the Cimbria. The latter was struck abaft the first collision bulkhead, on the port side, and she heeled over to starboard and speedily sank.

The second officer of the Cimbria, who was picked up Saturday afternoon in a boat with thirty-eight others, by the steamer Theta, says that when the Cimbria was struck it at once became apparent she must sink almost immediately; the officers, therefore, did all in their power to save lives. Without a moment's loss of time, life belts were distributed among the passengers, and an order was given to lower the boats; this, however, in consequence of the vessel's heeling over on her side, was found to be very difficult on one side, and absolutely impossible on the other. As the second officer was still engaged in cutting the spars loose, so that there should be as much drift wood as possible for the people to cling to when the inevitable foundering occurred, the vessel went down under his feet. He seized a spar, but as several other persons clung to it, was obliged to let go, and he swam to a boat, which was the one subsequently picked up by the Theta. The second officer steered the Theta to Cuxhaven. Seventeen other persons were saved by the steamer Diamont from the Weser lighthouse, making fifty-six known to have been rescued up to the 21st inst.

As soon as the terrible affair was known in Cuxhaven the steamship Hansa and the four largest steamers procurable in the port were sent out in search of the Cimbria's other boats, and the West Indian steamship Bavaria sailed Saturday night on the same errand; but no reports had been received from them up to a late hour Sunday night, though it was stated that a vessel not named had landed eleven more survivors of the disaster.

The Sultan arrived at Hamburg with a large hole in her bow, but the captain and crew positively refused to give the reporters any statement concerning the collision.

A despatch of the 22d from Hamburg says the steamship Hansa had returned, having found the wreck of the Cimbria sunk in ninety feet of water, with her topsail yards showing, about five miles from the Borkum lightship. Spoke the lightship, but the crew had heard nothing of any boats or persons saved. Saw no trace of survivors or bodies, though the weather was clear.

The Cimbria was an iron steamship of 3025 tons register, 326 feet long, 40 feet beam and 26 feet depth of hold, with engines of 5000 nominal horse power. She had on board when she sailed 362 steerage and 23 cabin passengers, and 92 in her crew.

News and Notes.

A battle between Mexican troops and Indians near Tehauntepec is reported, in which the savages were defeated with the loss of eighty killed and many wounded, the troops losing fifty killed, including their commanding officer.

A woman was instantly killed by a train near Oak Island station on the Boston, Revere Beach & Lynn railroad, last Saturday night.

The largest gasometer in Glawgow, Scotland, exploded on the night of Jan. 20th. The damage is estimated at £10,000. Eight persons were injured by the explosion. The greater portion of South Glasgow was darkened in consequence of the destruction of the gasometer, and a panic was nearly caused in the theatres. Subsequently a shed belonging to the Caledonian railway company was blown up. The explosions are supposed to have been the work of fenians.

The body of Arthur Preston, hanged at Belair, Md., Friday, was that night stolen from the grave in the cemetery. The sheriff refused the request of physicians to make a post mortem examination.

In Dublin, Ireland, Jan. 20th, twenty-one persons were arraigned, charged with conspiring to murder government officers.

Prince Frederick Charles Alexander, brother to the emperor of Germany, died Jan. 21st, aged eighty-two years.

The laying of rails on the Bridgton & Saco River railroad in Maine was finished Jan. 20th, and the road will be opened for business Jan. 29th.

The grand jury at Rochester, N. Y., has presented five indictments against Charles E. Upton, president of the defunct City bank, charging him with grand larceny and embezzlement of $40,000, overdrawing accounts and with receiving deposits from various persons shortly before the failure of the bank, knowing then that the bank was insolvent.

At Leadville, Col., Friday night, Jan. 19th, Charles Paterson, a miner, shot and killed another miner named Thomas Haskins; the men were rivals for the affections of a daughter of a boarding house. Later in the evening two men named Sullivan and Brennan were discussing the merits of the Robert E. Lee mine, during which Brennan drew a knife and stabbed Sullivan, who cannot recover.

The Providence, R. I., *Journal* says that some little excitement was created on the 20th inst. when it became known that Mr. James R. Keene had mortgaged his lot on Bellevue avenue, and the lot and buildings on Coggeshall avenue, Newport, for $75,000. As Mr. Keene is supposed to be a millionaire many times over, the fact of his borrowing such a sum of money in this way, has naturally excited some comment. The Bellevue avenue lot is the one on which his cottage was situated, prior to its burning down some two years ago. Mr. Keene pays six per cent interest, with the right to pay off in two years, but not less than $10,000 at a time.

The ship Vorwarts has foundered in the Baltic sea, and eight men were drowned.

A despatch from a revenue officer at Greenville, S. C., says that on the 8th inst. Frank Dightower, Dyer Gasnell, Bud Gasnell and one Thompson, made a raid on the house of Dan Howard, and after firing some twenty shots into it through the door and windows, broke down the door, entered the house and shamefully maltreated the inmates. It is stated that this act was perpetrated because Howard was a witness against Joe H. Gasnell, who was arrested the week previous, and because Howard was suspected of having led the raid made on the 3d and 4th insts. upon the distilleries of James Alturn and Joe H. Gasnell.

Mrs. Hannah Tallman died in New Bedford, Mass., Jan. 20th, aged 101 years, eleven months and six days.

Josiah Nason of Alton recently shot a wild cat or lynx from off the roof of his barn, which weighed thirty-five pounds. During the previous night the lynx had killed half a dozen of Mr. Nason's hens.

An Unparallelled Business.

During the year 1882 the Equitable Life Assurance Society wrote new policies amounting to $62,250,000, which is claimed to be larger than the largest amount ever written by any other company in one year. To fully appreciate the extent of this business we must compare the amount with that reported by other companies and note how far all, even the oldest of them, are behind the Equitable. The great prosperity of the society's business enables it to offer rare advantages to persons intending to have their lives insured. Our readers will be interested in the society's statement published in another column.

DIPHTHERIA!

THE PROSTRATION which follows Diphtheria, and the persistency with which it clings to the patient, are well known to all who have had any experience with this terrible disease.

The following letter shows how the restoring and invigorating properties of

Hood's Sarsaparilla

overcome it, and how by vitalizing and enriching the blood it neutralizes and eradicates the poisoned matter from it, bringing to the convalescent the color, life and vigor of robust health.

LOWELL, MASS.

MESSRS. C. I. HOOD & CO.: Gentlemen—My little girl had the diphtheria last April. The disease left her very weak, blood poor, with no appetite, and she could not seem to rally from its effects. HOOD'S SARSAPARILLA was recommended by a neighbor. After she had been taking it a few days we noticed a change for the better—she began to eat with a relish. It seemed to take out the poison the disease had left in her blood, the change being very noticeable in her face. She took it two months and fully regained her health, much to our delight. We now recommend HOOD'S SARSAPARILLA with a great deal of pleasure. Very truly yours,

EQUITABLE

LIFE ASSURANCE SOCIETY,

120 BROADWAY, N. Y.

PRELIMINARY

Statement of Business,

January 1, 1883.

Assets,	$48,000,000
Income	11,000,000
Surplus, over Liabilities,	10,500,000.

The amount of new business transacted during the past year, $62,250,000, exceeds the largest business ever done by any other Company in one year.

The Society,

In 1878 wrote	$21,440,213	Insurance
In 1879 "	26,502,541	"
In 1880 "	35,170,085	"
In 1881 "	46,189,096	"
In 1882 "	62,250,000	"

The reasons for the increased patronage received by the Society during the past five years, are:

1st. The fact that the percentage and amount of its surplus over its liabilities, according to the State Insurance Reports (four per cent. valuation) are larger than in any other one of the five largest life insurance companies.

2d. The percentage of dividends earned for policy-holders, according to the same Reports, is now, and has been for the last five years, greater than in any other one of these companies.

3d The Society issues a plain and simple contract of insurance, free from burdensome conditions and technicalities, INCONTESTABLE AFTER THREE YEARS.

4th. In the event of death, a policy which has become incontestable, is paid immediately upon the receipt of the proofs of death with a legal release of the claim, *thus affording relief to the family as quickly as if the amount were in a Government bond*, and avoiding the annoying delay of weeks and months, and sometimes years of vexatious litigation, which many have experienced in other companies.

5th. The Society has no contested claims on its books.

6th. The popularity of the Society's tontine system of insurance;—which provides full insurance in case of death, and gives the greatest return for the money paid by the policy holder if he lives, with more advantageous options to meet an insurer's need at the end of the term, than any other form of policy ever devised.

Persons desiring life insurance will best consult their own interests by communicating with the officers of the Society or any of its agents.

RAPID TRANSIT BETWEEN PORTSMOUTH AND YORK.

A correspondent writing last week from York to a Biddeford paper throws a bucket of cold water on the Portsmouth & York Steamboat scheme, as follows:

The steamboat company have succeeded in raising about $10,000 of the $20,000 required for their capital stock. The City of Bangor, the steamer lately purchased, cannot come into York harbor at low tide in rough weather. If she was in the harbor she could not get out on the ebb tide without running aground, such is the force of the current and the extreme narrowness of the channel. The impracticability of a landing at the Marshall house outside of the harbor, and at the Hotel Bartlett, amounts to simply an impossibility. The expense of the landing at Concordville will be nearly $10,000. We wish the steamboat company all the success possible, but we know the condition of the coast and Mr. Forsaith evidently does not. The same thing was attempted once before, and by men thoroughly acquainted with the details, but proved a failure.

Possibly the reasons adduced by the correspondent to show that the steamboat scheme cannot succeed, may be well founded; but it is also possible that the obstacles to its success are exaggerated in his eyes, by a personal interest in some other means of transit—a railroad, for instance. Per contra, the Portsmouth *Journal* of the 20th inst. said:

The capital stock of the steamer line, which is to be opened between this city and York beach in the spring, is $20,000, all of which has been pledged. The principal stockholders are Jacob W. Seaver, Boston; S. C. Forsaith, George B. Chandler, John B. Varick, E. M. Topliff, and Judge Cross, of Manchester; Charles H. Sawyer, of Dover; Frank Jones, and R. B. Beaumont, of Portsmouth. It is understood that the latter will be manager, a guarantee that nothing will be left undone to not only make it a success, but an assurance to summer tourists that their comfort will be carefully looked after. A meeting of the stockholders is to be held next week for organization. The style of the company will be "The Portsmouth & York Beach Steamboat company," and in placing the steamer City of Portsmouth (*nee* Bangor) on the route, the stockholders show that they carefully consider the best and safest interests of all concerned. The owners of summer cottages at what is known as Concordville, York beach, have contributed rising $700 for the purpose of constructing the fine landing pier at that point, and this sum has been turned into the hands of the building committee, of which Mr. S. B. Forsaith of Manchester is chairman. Early next week Messrs. Morgan & Davis, bridge builders, residing in Concord, will commence work on the pier and push the same to completion.

The petition of Edward S. Marshall and others, of York, for a charter for a railroad from this city to Union Bluff, York, has been presented in the Maine legislature by Senator Maxwell of Wells, and referred to the committee on railroads and telegraphs; Messrs. Marshall, Staples, Simpson and Evans of York have been in Augusta looking after the interests of the proposed road.

At Music hall this evening, Florence in the "Mighty Dollar"—one of the greatest of modern comedians is one of the very best of American comedies; get your tickets to-day at Myers', or else refrain from growling this evening when you fail to get choice seats.

Those who have small sums of money to invest will learn something to their advantage by calling on Mr. G. J. Greenleaf. See his advertisement.

We are requested to say that the report of Mr. Dennis J. Lynch having settled with the insurance companies for $5500 is incorrect, no settlement having been effected as yet.

The festival of the Christian society of Rye will be holden at the town hall in that town this (Tuesday) evening, and also to-morrow evening. This announcement is sufficient to ensure the attendance of many persons from this city, the ladies of Rye being noted for the excellence of any public entertainment they provide.

The train over the Concord & Portsmouth railroad due in this city at half-past ten o'clock on Monday forenoon, did not arrive until a quarter before twelve, owing to an accident which happened at East Candia to one of the driving wheels of the locomotive.

The second annual ball of the Portsmouth Cavalry (Co. C., N. H. N. G., unattached,) will be given in Franklin hall on the evening of Wednesday, Feb. 21st. The affair is in the hands of a committee whose members will spare no exertions to make it as complete a success as the first one was, and will strive hard to make it even better.

The fish arrivals on Monday were as follows: Schooner Morrill Boy, with 1800 lbs.; the Grace Choate, 2300 lbs.; Flying Cloud, 1500 lbs.; Blue Jay, 5000 lbs.; Onward, 6000 lbs. The latter schooner is a netter, and it is said has stocked $1680 on her last four trips. The fish brought in on Monday were sold at $4.75 per hundred pounds.

The fishing schooner James A. Garfield, which arrived at Gloucester, Mass., Jan. 22d, from the Grand banks without a fare, reports the loss of six of her crew, who were visiting their trawls January 10th. A gale setting in they were unable to return to their vessel. Their names were Charles Ray, John McKinnon, John Whitman, Ned Brophy, Anthony Dunn, and a seaman known as English Bill.

The sixty-fifth anniversary of the Sunday school of the North church was commemorated at their chapel on Middle street on Sunday evening last. The occasion was also the twenty-fifth anniversary of the choice of Hon. E. A. Stevens, now of Malden, Mass., as superintendent of the school. Mr. Stevens was present and addressed the school. Addresses were also made by Mr. C. M. Tredick of Malden, and others. The singing was in charge of Mr. Melnaire, organist of the church.

An attachment was put on the stock of Mr. J. A. Wells, grocer on Vaughan street, Monday, by Portland parties.

Mr. William B. Brewster of Smuttynose island, at present its only occupant, recently picked up on the shore a bottle containing a piece of paper on which was the following writing: "Schooner Porpoise, Randall, Lubec, Jan. 4th, 1883. Thick fog, Seal island bearing south by east, about 10 A. M." The paper was given to Mr. Brooks, who forwarded it to this city to Mr. Lemuel B. Caswell.

The friends of Miss Etta Perry gave her an agreeable surprise at her residence on State street, on Friday evening last. A bountiful supper was served, after which followed music and a general good time. When the party at last broke up the clock was striking the "small hours," and the company returned home with a feeling of satisfaction on their part. W.

The following was the order of dedication of the recently remodeled Baptist church at Cape Neddick: Invocation, Rev. Joseph Storer of North Kennebunk; anthem by the choir; reading of scripture, Rev. Mr. Palmer of North Berwick; hymn, by choir; prayer, Rev. Mr. Newcome of South Berwick; sermon by the pastor, Rev. Gilbert Robbins; hymn (written for the occasion by the pastor;) dedicatory prayer, Rev. Mr. North of Kennebunk; anthem; doxology; benediction, Rev. Mr. Sewell of York village.

The schooner Ocean Eagle, which under command of Capt. Maxwell was last season engaged in the brick-carrying trade between this port and Boston, has hauled up for the winter at Ogunquit.

Among the recent transfers of real estate in York county are the following: Kittery—Daniel Riley to Abram Shaw, four acres of woodland for $140. York—Orrin Fitzgerald to Angelina M. Bracy, two lots of land for $175; Samuel S. French of Concord, N. H., to Samuel C. Forsaith of Manchester, N. H., lot of land in York for $125; Stephen Peaslee of Cannaan, N. H., to Samuel C. Forsaith, land at Union Bluff for $450; Warren B. Richardson and wife, of Canaan, N. H., to Lydia M. Davis of Nashua, N. H., land and buildings at Union Bluff for $150; Lydia M. Davis to John W. Richardson of Canaan, N. H., real estate at Union Bluff for $150; Lydia M. Davis to Julia A. Webster of Nashua, N. H., real estate at Union Bluff for $150; Warren B Richardson and wife to Julia A. Webster, real estate at Union Bluff for $150.

Col. Edmund Perkins, who died in Boston on the 17th inst. at the residence of a married daughter, was a native of Biddeford, and lived there for nearly seventy years. He was long prominent in business and politics; at different times held nearly all the offices in the gift of the town and city of Biddeford, and was a leading ship-builder until about fourteen years ago, when a fall from a vessel in his yard inflicted hurts from which he never fully recovered. He was an extreme democrat in politics.

President Arthur last week appointed John R. Bell postmaster at Kennebunkport.

The Kennebunk and Kennebunkport railroad company have petitioned the Maine legislature for permission to lease their road to the Boston & Maine railroad.

K. OF P.--ATTENTION.

The members of Damon Lodge, Knights of Pythias, are requested to meet at their hall on Tuesday evening, Jan. 23d, at 7:30 o'clock; members of the grand lodge will be present. A banquet will be served at the close of the meeting.

Per order, C. C.

Early Sunday morning, Jan. 21st, the body of Mrs. Sarah Lake was found dead near the shore of the bay at Providence, R. I., the result of intemperance and exposure. She was a native of Lakeville, Mass., and once possessed uncommon ability and refinement.

Charles F. Dinsmore, seventeen years old, of Marblehead, Mass., shot himself through the body in a jewelry store in Boston on the 21st inst., and will die. The cause of the act was his discharge from the store, in which he had been employed, on the 20th.

A Chinese murder trial at Chicago was concluded on Friday. The jury after being out several hours returned a verdict finding Ling Ah Dive guilty of the murder of Sing Quom, and fixed the punishment at life imprisonment in the penitentiary. Ling Ah You, who was tried as an accessory, was acquitted.

Samuel Ruth, late cashier of a savings bank at Washington, Pa., is a defaulter to the amount of $146,000.

SALICYLICA.
No more Rheumatism, Gout or Neuralgia.
Immediate Relief Warranted.
Permanent Cure Guaranteed
Five years established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylica.
SECRET!
THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.
SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.
It has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate those diseases which are the result of the poisoning of the blood with Uric Acid.
SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. His best Medical Academy of Paris reports 95 per cent. cures in three days.
REMEMBER
that SALICYLICA is a certain cure for Rheumatism, Gout and Neuralgia. The most intense pains are subdued almost instantly. Give it a trial. Relief guaranteed or money refunded.

Gentle Women

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article a ways makes the Hair grow freely and fast, keeps it from falling out, arrests and cures grayness, removes dandruff and itching, makes the Hair strong, giving it a curling tendency and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Messrs. Editors—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who she well either human beings may be truthfully called the "Dear Friend of Woman." assume of her correspondents love to call her. She is genuinely devoted to her work, which is the outcome of a lifetime, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and specific purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the leading physicians of the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures 3 out of 4 of the female complaints. Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1, per bottle or six for $5, and is sold by druggists. Any advice required in regard to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply at her home in Lynn, Mass.

For Kidney Complaint of *either* sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are *the best in the world* for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity."

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

Philadelphia, Pa. 00 Mrs. L. M. P.

HEART DISEASE

IS YOUR HEART SOUND?

Many people think themselves sick and dose for liver, kidney or liver troubles, when, if the truth were known, the real cause is at the heart. The renowned Dr. Clendinning, startingly says "one-third of my subjects show signs of heart disease." The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. It is known as **Dr. Graves' Heart Regulator** *and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' 100 page exhaustive treatise.* (1)

THE ANCHOR.

BY WILLIAM GIBSON.

As, many a time, within the zone of palms,
In beauteous haven of some Indian land,
The voyager beholds, at noontide calms,
His ship lie tilting in the golden sand,
'Mid stony arbores see calm rise,
Weeds, cowries, and the rare pearl oysters seen
Distinct, through the waters crystaline,

So may we—looking in our minds, rife
With branch-work of the ever-building thought,
With salt weeds, and the scaly red things that life,
Or worthless shells or pearls of price, hath wrought—
Perceive, when turbid passions have no breath,
When God's high sunlight nothing shadoweth,
Hope's anchor-hold on golden grounds of faith!

"If you are a woman and would contribute your influence to redeem humanity from its numberless ills, make all things else subordinate to health. If you possess this inestimable treasure you may transmit the same and your offspring may rise up and call you blessed. To secure this it will be well to seek the motherly countenance of Mrs. Pinkham, Lynn, Massachusetts.

—A gentleman who had been in Austin only three days, but who had been paying attention to a prominent Austin belle, wished to propose, but was afraid he would be thought too hasty. He deliberately broached the subject as follows: "If I were to speak to you of marriage, after having only made your acquaintance three days ago, what would you say to it?" "Well, I should say never put off till to-morrow that which you should have done day before yesterday."

LOG ROLLING.

While Wrestling with a Fallen Tree a Lumberman Receives Consequential Damages.

While on a hunting excursion in the great coal and wood region near Carbondale, Pa., the writer met William Coll, a lumberman. Accustomed to life and labor in the forest from early manhood, he was a true Knight of the Axe. Many a tree had fallen before his ringing strokes, and fleets of rafts had borne away to market the sawed products. Coll is a character, and if Oscar Wilde is right in saying that all movements in unhindered labor are graceful, our friend William, a sipped for his work, and appeared as true as Richard I assaulted the heavy doors of Front de Beuf's Castle, must have presented a admirable picture.

One day, however,—but let him tell the story himself, as he told it to me:

"I was out in the woods, you know, trying to get a log down a hill. Thinking I could get a better purchase on it from the lower side, I tackled it there with my log-rolling hook and threw my weight on the lever. She started, she did, but as luck would have it, before I could get out of the way, she rolled right over me. If it hadn't been for a lot of small limbs and brush lying in the road, which lifted her up, she'd a crushed me flat. As it was I got up without a broken bone, but with some mighty bad bruises."

"Then you were all right," said his auditor.

"Not by a blamed sight, stranger. I took cold, rheumatism set in, and, if I hadn't heard of BENSON'S CAPCINE POROUS PLASTERS and used 'em it's my opinion I s ould never have made another chip fly. But the Capcine took hold quick, and I'm 'bout as good as new. But there's one thing you kin calkilate on:—I shall never wrastle with another log unless I have the advantage of the ground. Fur, as I told you before, if it hadn't been for them bruises I'd been smashed so you could 'a sold me for a door mat."

Beware of the thing for rheumatism. It doesn't keep you waiting. The word CAPCINE is cut in the centre of the genuine. Price 25 cents. Seabury & Johnson, Chemists, New York.

The Poor Old Man.

The other day the police at the Union Depot noticed a feeble-looking old man wandering in and out to kill time until his train should depart, and as he several time displayed quite a roll of bills he was cautioned to look out for pickpockets and confidence men.

"Wouldn't anybody rob an old man man like pie, would they?" he innocently asked.

The warning was repeated, but he jogged around as before, and after a time was seen in consultation with two strangers who had walked him around the wharf. An officer got him away from them and angrily said:

"Didn't I warn you against strangers? Those fellows are after your money!"

"But now can they get it when I have it in my pocket, and my hand on it all the time?"

"Well, you look out."

"Yes, I'll look out; but I don't want to be uncivil. When anybody talks to me I like to talk back."

The strangers soon had him on the string again, and in about a quarter of an hour they left him in a hurried manner, and he sauntered into the depot with his wallet in his hand.

"There! You've let 'em beat you?" exclaimed the officer. "How much did you lend 'em?"

"Wall, they wanted twenty dollars," he slowly replied.

"And you handed it over, of course?"

"I give 'em a fifty-dollar bill and got thirty back."

"Well, you'll never see the bill again."

"I kinder hope not," he chuckled, as he drew down his eye. "It was a counterfeit which my son found in Troy, and being as I am very old and innocent, and not up to the tricks of the wicked world, I guess I'll get him the cars before somebody robs me of my boots! If any one should come around looking for me please say I'm not at home!"—*Detroit Free Press.*

It is certain that the longer a speech, the weaker it is, but not so with a cold the longer it runs, the worse it becomes. A cold, be it ever so slight, is no trifle, it should be checked in its early stages. Dr. Bull's Cough Syrup is the "chain of Gilead" that millions say is divine in its origin.

—"A woman's tongue is her sword, and she does not let it rust," said the proverb. "A woman's tongue is her sword, and she does not let it rest," set up the type setter. There are some type setters who have been married so long that they don't care how inelegantly a domestic proverb may be shaped.

Washington Personal.—Prof. Geo. M. Arth, 918 Eighth street, S. E., Washington, D. C., was attacked with so severe a pain in the foot that he could scarcely walk. St. Jacobs Oil, liberally used, entirely cured him.

—A new book is called "How to keep a Store." It is a work of several hundred pages, and life is too short to read it. The best way to keep a store is to advertise judiciously, and thus prevent it falling into the hands of the sheriff.

Old Grandmothers

Taught their daughters that "a stitch in time saves nine." A pill in time saves not only nine, but ofttimes an incalculable amount of suffering as well. An occasional dose of Dr. Pierce's Pellets (Little Sugar-coated Pills), to cleanse the stomach and bowels, not only prevents diseases but often breaks up sudden attacks, when taken in time. By druggists.c

—Mme. Lacene, a sister-in-law of Camille Jordan, who had in her youth been a personal friend of Mme. de Stael and Mme. Recamier, died at Lyon, France, recently, aged 105 years. She evidently retained all her faculties to the last, for when asked her age a few weeks ago she sweetly replied: "Twenty-nine last birthday."

A GOOD INVESTMENT. — One of our prominent business men said to us the other day: "In the spring my wife got all run down and could not eat anything; passing your store I saw a pile of Hood's Sarsaparilla in the window, and I got a bottle. After she had taken it a week she had a rousing appetite, and did her everything. She took three bottles, and it was the best three dollars I ever invested." C. L. Hood & Co., Lowell, Mass.

—A curious animal, eight inches long, having four legs, eight claws on the fore feet and ten on the hind feet, resembling an alligator and able to crawl with great rapidity, has recently been unearthed ten feet below the surface of the ground in a stone quarry at Kokomo, Ind. Men who unearthed it dropped their picks and shovels then and there, and hied themselves to a doctor to get delirium tremens medicine.

Hale's Honey of Horehound and Tar cures coughs, bronchitis and consumption. Piko's Toothache Drops cure in one minute. For chills, fever, ague and weakness, use Colden's Liquid Beef Tonic. Colden's; no other. Of druggists.

—The Memphis *Avalanche* says it is beginning to be understood that it would be a good thing to settle the city debt. Let it stand long enough and it will settle itself.

"Buchu-Paiba."

Quick, complete cure, all annoying kidney, bladder and urinary diseases. $1. Druggists.

—The Denver *Tribune* doesn't speak in terms very complimentary of the municipal critics in the west. It says: "Bill Nye has no more music in his soul than a peg-legged Chinaman. He tried to sing a song at the press banquet in Denver a year ago, and the chandelier fell down, and the hotel keeper wanted to charge the boys $2 extra for parts. As for Maj. Ward of the Leadville *Chronicle*, he is the critic who announced that Emma Abbott was "the finest baritone who had essayed the role of Othello di Lammermoor, since the days of Maccaroni."

Important to the Sick.

To those who have used Swedish Remedies, they know full well the value of them. To those who from prejudice have not used them, we can say that they are the very best medicines for the diseases for which they are recommended. Swedish Lung Balsam cures coughs, colds, and all diseases of the lungs. When taken together with Swedish Botanic Compound (the great blood purifier), it will cure consumption in the first and second stages.

—A Northampton man, with whom things always go wrong, hung up his stocking, and not only did he get nothing in it, but somebody stole the stocking.

A Strange Freak.

The wife of our esteemed citizen Mr. John Rowell, while suffering under a severe attack of the blues, tried to commit the crime of infanticide but was prevented by the opportune arrival of a neighbor. Her case has been considered by the best doctors incurable, but her husband was highly pleased when after using a course of Sulphur Bitters to find that she was entirely cured.—*Kingston Herald.*

—Little things show us how time flies. Washington's body servant is a thing of the past, and Gen. Winfield Scott's "body servants" are beginning to die now.

Modern excavations and other researches have established the fact that the ancient Egyptians possessed considerable of electricity, as well as a few of the various uses to which it can be applied. This only strengthens the biblical statement that there is nothing new under the sun—not even Dr. Graves' Heart Regulator. The American people have known and used it for thirty years. No cases of heart disease can withstand its influence.

—Hens scratch up flower beds when they are barn footed. Our agricultural editor says that is why women "do not and cannot weed." The hens to keep them from doing damage.

Contagious diseases, malaria, liver complaint, are all prevented by using the gentle but powerful tonic, Brown's Iron Bitters.

Cuticura

THE NEW BLOOD PURIFIER

Resolvent

I will now state that I made a miraculous cure of one of the worst cases of skin disease ever seen, the patient is a man forty years old; had suffered fifteen years. His eyes, ears and nearly his whole body presented a frightful appearance. Had had the attention of twelve different physicians, who prescribed the best remedies known to the profession, such as iodide potassium, arsenic, corrosive sublimate, sarsaparilla, etc. Had paid $300 for medical treatment with but little relief. I prevailed upon him to use the Cuticura Resolvent internally, and the Cuticura and Cuticura Soap externally. He did so and was completely cured. The skin on his head, face, and many other parts of his body, which presented a mass of loathsome appearance is now as soft and smooth as an infant's, with no scar or trace of the disease left behind. He has now been cured 12 months.

Scrofula Sore

Rev. Dr. Dorr, in detailing his experience with the Cuticura Remedies, said that through Divine Providence one of his parishioners was cured of a scrofula sore, which was slowly draining away his life, by the Cuticura Resolvent internally, and Cuticura and Cuticura Soap externally. The person that had fed the disease was completely driven out.

Eczema.

Sixteen months since an eruption broke out on my leg and both feet, which turned out to be Eczema, and caused me great pain and annoyance. I tried various remedies with no good results, until I used the Cuticura Resolvent internally and Cuticura and Cuticura Soap externally, which entirely cured me so that my skin is as smooth and natural as ever.

To Please Her Husband.

Were the Words of a Good Lady, Mrs. Hawkins, who has long Suffered the Pain Common to Chronic Rheumatism. A Woman's Patience and Fortitude well shown.

Your reporter from Mrs. Hawkins at 14 Exchange St, New Haven, Conn. "About four years ago," she said, "I was then a resident of Brooklyn, N. Y. I went over one morning to the Jersey City depot to see some friends off who were started for the west. There was a strong draft of air in the depot, and in standing by the train talking to my friends I caught a severe cold. I had no more than reached my home again when I was taken with a sudden chill and fever set in. The outcome of all was that rheumatism settled all over me. I was entirely helpless. From this I have never recovered. You see my hands what a state they are in. Those are all chalky swellings and my limbs are very bad. While I remained in Brooklyn I tried all sorts of remedies, but I could never gain any relief. My physician said it was no use. I grew very thin and lost all strength. Finally, after coming here, to gratify my husband, I began to take Dr. Kennedy's FAVORITE REMEDY, and my general health has been better than ever before. I am stronger, have an excellent appetite, which I did not have for a long time. It has helped my rheumatism, and with a thorough trial I am in hopes of recovering completely."

Kennedy's FAVORITE REMEDY has been successfully used by thousands. It will build up a system which has been run down by overwork in the things for the student or literary man to have at hand, and should be in the home of every mechanic. FAVORITE REMEDY is economical, safe and pleasant. Buy it and try it.

Ol. Borens on the Rampage.

The fogs were so thick around the chimney tops and steeples, and blew bricks down into the street, scaring the people who walked below. Snow, sleet and hail drove in on the faces of those who dare expose themselves, and made their button their close tight around their throats. Of course there were sore throats and coughs and rheumatism in the next day. But what were he to men and women who could step at any drug store and buy a bottle of Perry Davis's Pain Killer?

The Cimbria Horror.

The horrors of the Cimbria disaster are not softened down any by later reports. The Diomont, one of the steamers sent in search of the missing passengers and crew of the Cimbria, arrived at Hamburg in the afternoon on the 22d inst., with sixteen passengers and a fireman of the ill-fated vessel. The rescued passengers state that after having left the Cimbria their boat was capsized, and they sought refuge in some wreck of the Cimbria which was still bove water. They remained in this position ten hours, freezing from the cold, and expecting that every moment would be their last, until they were rescued by a boat from the Diomont. Many of those who were in the boat when she left the Cimbria were drowned upon its capsizing, and many others, after reaching the rigging, released their hold and were drowned The survivors describe the scenes as horrible and heartrending. All of them praise in the highest the conduct of the captain and crew of the Cimbria, who never moved from their posts, and did everything in the power of man to save life until they themselves were engulfed in the waves. The rescued passengers affirm that while they were in the rigging the lights of the Sultan were clearly visible, and that their cries for help must have been heard on board the Sultan, which, instead of coming to their rescue, steamed away.

Only three women, and less than seventy-five persons in all, were saved from the 490 who were on board the Cimbria When she was run down. Christian Boum and Joseph Goots, Americans; a rising young German writer, Leo Haberman of Vienna, who was well-known for his excellent descriptions of Russian life; and the Sisters Rommer, professional singers and well-known as the "Swabian Nightingales," who had recently been performing in Berlin, are among the lost.

A Hamburg despatch of the 23d says the steamer Sultan has been seized, and a Frankfort despatch of the same date says her captain and officers have been put in jail. The captain says he was at the scene of the disaster for twelve hours after it occurred.

The house of representatives on the 23d inst. adopted amendments to the naval appropriation bill providing for the gradual abolition of the pay corps of the navy; there are to be no more appointments from civil life, and all vacancies are to be filled from the line.

News and Notes.

The morning of the 22d inst. was the coldest for several years in the west, and with it in many places was a heavy gale. At Chicago the thermometer was 26 degrees below zero; at Duluth, Minnesota, 35 below; at St. Paul 30 below, at Fargo 38 below, at Bismarck 58 below, at Brainard 40 below, a Grand Forks 50 below, and at Winnipeg to below. Railroad travel was seriously impeded everywhere.

Thomas S. Hisen of Philadelphia expressed his trunk and valuables to Edwin Savage of New York from Niagara, Jan. 22d, and was then driven to Goat Island, when he jumped from Luna Island bridge, and was carried over the falls. He was formerly in business in Boston.

Mrs. Sylester Bleeker, wife of the manager of the Tom Thumb company, has died from the effects of injuries sustained at the Newhall house disaster in Milwaukee.

A stord at Gold Mountain, Nevada, was robbed Jan. 19th by mounted and masked men, who killed the proprietor and two clerks. The gang then went to a store at Silver Peak, and robbed it, killing the proprietor and one clerk. Two of the robbers were also killed.

Our Future Light.

"Do you think electric lighting will supersede gas?" is a frequent question; and it may be answered by asking another: "Do you think steam will supersede horse power?" There is no doubt that electric lights have come to stay and that they will very largely take the place of gas lights. What becomes of the latter is not a matter of concern to the public. The earnest attention to the subject has caused rapid improvement to be made, and to-day the electric arc light of the American Electric & Illuminating company is so near perfection that no one can be found to suggest a fault. The patent regulator attached to the dynamo machines of this company gives always a steady light; and the machines themselves are practically indestructible and have no tendency to wear out. The company is increasing its plant in the Mechanic Fair building every week, and will soon have it at the maximum.

Persons who have been contemplating subscribing to the preferred stock of the American Electric & Illuminating company will doubtless hasten their steps before the bonus of fifty per cent of common stock is withdrawn on the 31st inst. It seems now, at the rate at which subscriptions are coming in, very probable that the company will soon have sold enough treasury stock to fill up their plant to the requisite power. It is noticeable that many subscriptions are received from practical men who are acquainted with the merits of lighting, and recognize the superiority of the American system. Those who have delayed subscribing should bear in mind the regrets of the e who neglected buying Bell Telephone stock when it was selling cheap.—*Boston Sunday Courier.*

AROUND HOME.

The Dover *Democrat* of Monday says: "Deputy-sheriff Colbath, with Mr. Marvin, agent for the N. H. S. P. C. T. A., went to Lee on Saturday to arrest Jos. Tuttle, for alleged cruelty to animals. When they got there Tuttle had skipped. They found an old decrepid horse, very ill, who had been hauling lumber all winter on three legs, and they had the animal killed."

The next meeting of the Rockingham County Temperance association will be held in the Freewill Baptist church at Hampton on Thursday, Jan. 25th. All true temperance workers of the county are invited to be present, and take part in a general discussion of the temperance question with which the session will close; the opening exercises will commence at an hour of prayer, and a temperance address.

In Newburyport on Saturday a boy twelve years old, named Willie Hoyt, while attempting to steal a ride on an Eastern railroad freight train fell, and about twenty-five cars ran over him. One leg was so crushed as to necessitate immediate amputation above the knee, and the other leg was so badly broken at the ankle that it was feared it would have to be cut off. On Monday he was reported to be doing well, and the physicians hoped to save his life and remaining leg.

One of the Great bay smelters of this city, who has followed up the business closely all the winter, has made just four dollars, gross; his net profit he has not yet figured out. Frog bait has been the favorite this season.

This winter four large eagles returned to their old haunts in the woods of Hampton called the "Small Gains," and S. A. Shaw, an enterprising naturalist, has been able to secure one of them, which he will add to his large collection of native birds and quadrupeds. The specimen measures seven feet from tip to tip, and its talons are stout and strong enough apparently to take up a good-sized child. Mr. Shaw has made several other additions to his collection this winter, among them being a raccoon and two large white owls.

Mr. Timothy Hill of Newington was prostrated by a stroke of paralysis last week, and on Tuesday, the 23d inst., was reported to be dying, having never recovered consciousness since the first attack.

Mr. M. C. Foye invites the ladies to inspect the various styles of edgings, embroideries and trimmings in his store on Market street.

The benefit reception tendered to Mr. Theodore F. Pickering, formerly of Greenland but now landlord of the New Fraser house at Bay City, Michigan, by the leading business men and citizens of the place, was a benefit in fact as well as in name, the receipts being over $1000; the Bay City *Press* gives an extended account of the affair, which it declares to have been "a society event without precedent in the valley."

A delegation from York composed of Messrs. Stimpson, Grant, Staples, Evans, Stuart, Marshall and Moody left this city by the 11:05 o'clock A. M. train on Tuesday of this week, bound to Augusta, Me., in the interest of the Portsmouth & York Beach railroad, a hearing on the petition for a charter for that road having been granted by the legislative committee, and the time of the hearing set for Wednesday, the 24th, at two o'clock in the afternoon.

A despatch of the 23d inst. from Biddeford says: "An aged widow, sister of John Breen, lately became insane. Soon afterward a younger sister showed similar symptoms. Both were removed to the poorhouse, as there are no further accommodations in the Augusta asylum. Breen is now unmistakably crazy, and has been locked up. Local physicians are nonplussed at the case."

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. codJanS,84

DIPHTHERIA!

THE PROSTRATION which follows Diphtheria, and the persistency with which it clings to the patient, are well known to all who have had any experience with this terrible disease.

The following letter shows how the restoring and invigorating properties of

Hood's Sarsaparilla

overcome it, and how by vitalizing and enriching the blood it neutralizes and eradicates the poisoned matter from it, bringing to the convalescent the color, life and vigor of robust health.

LOWELL, MASS.

MESSRS. C. I. HOOD & CO.: Gentlemen—My little girl had the diphtheria last April. The disease left her very weak, blood poor, with no appetite, and she could not seem to rally from its effects. HOOD'S SARSAPARILLA was recommended by a neighbor. After she had been taking it a few days we noticed a change for the better—she began to eat with a relish. It seemed to take out the poison the disease had left in her blood, the change being very noticeable in her face. She took it two months and fully regained her health, much to our delight. We now recommend HOOD'S SARSAPARILLA with a great deal of pleasure. Very truly yours,

PRELIMINARY

Statement of Business, January 1, 1883.

Assets, . . .	$48,000,000
Income . . .	11,000,000
Surplus, over Liabilities,	10,500,000.

The amount of new business transacted during the past year, $62,250,000, exceeds the largest business ever done by any other Company in one year.

The Society,

In 1878 wrote	. $21,440,213	Insurance
In 1879 "	. 26,502,541	"
In 1880 "	. 36,170,085	"
In 1881 "	. 46,189,096	"
In 1882 "	. 62,250,000	"

The reasons for the increased patronage received by the Society during the past five years, are:

1st. The fact that the percentage and amount of its surplus over its liabilities, according to the State Insurance Reports (four per cent. valuation) are larger than in any other one of the five largest life insurance companies.

2d. The percentage of dividends earned for policy-holders, according to the same Reports, is now, and has been for the last five years, greater than in any other one of these companies.

3d The Society issues a plain and simple contract of insurance, free from burdensome conditions and technicalities, INCONTESTABLE AFTER THREE YEARS.

4th. In the event of death, a policy which has become incontestable, is paid immediately upon the receipt of the proofs of death with a legal release of the claim, *thus affording relief to the family as quickly as if the amount were in a Government bond,* and avoiding the annoying delay of weeks and months, and sometimes years of vexatious litigation, which many have experienced in other companies.

5th. The Society has no contested claims on its books.

6th. The popularity of the Society's tontine system of insurance;—which provides full insurance in case of death, and gives the greatest return for the money paid by the policy holder if he lives, with more advantageous options to meet an insurer's need at the end of the term, than any other form of policy ever devised.

Persons desiring life insurance will best consult their own interests by communicating with the officers of the Society or any of its agents.

THE WEATHER.

U. S. SIGNAL OFFICE,
WASHINGTON, D. C.
January 24, 12.00 A. M.

Probabilities for New England:—

Fair weather, westerly shifting to southerly winds, stationary or higher temperature, rising followed in the west portion by falling barometer.

The Thermometer at the CHRONICLE Office, at 4:00 o'clock this morning, indicated 2 degrees below zero.

Sky clear.

ZERO.

Tuesday morning the thermometer indicated two degrees below zero. To us who live near the salt sea and almost in sound of what the wild waves are saying, it seemed like a cold snap.

It was a morning bright, crisp and sharp. Pleasant enough out of doors, but not inviting to the lover of morning naps. It was a time when one was inclined to lie in bed and make plans for the day, after he should have risen; when thoughts of coal dealers' sales, and possibly of one's own coal bin, came suggestively. Out of doors, the milk men's horses moved with a better rate of speed than common. The carriers of the CHRONICLE lingered not on the corners, because they knew our patrons wanted to know how cold it was at the early morn. People remained around the fires and furnace registers, and thought that at this peculiar season it was just as well to take the 8:20 train to Boston as to try and be precipitate by going in the 7:15. Men went down town, and having ears, rubbed them. The early passers informed each one they met of the self-evident fact that it was a cold morning. The milk man told the house maid, and soon the information spread far and wide. The plumber fairly choked with laughter, at the possible results of the antic of the weather. The cautious man remarked that he read it in the paper the day before, that a cold wave was coming east from Chicago, where there was no fuel to use for it, and he predicted a rise in the mercury after the snap was over. Indeed, every one agreed that as winter in Portsmouth had been nearly sixty days behind its visit to other cities, and if the secretary of the navy was about to close the gates of Janus on the navy yard bridge, we might in regard to this spell of weather do as they do in Massachusetts,—let it come; and as long as Portsmouth continued a coal port, we could afford to be comfortable. There were no moist crossings in the public streets, no dripping from leaky gutters. Umbrellas were not in demand, and the walking was not only good but brisk. It was a clear, cold morning, when a turn in the open air with a taste of the pure atmosphere was better than a dozen damp, misty days, when one's energies flag and industry is at a pause.

If we had desired news as to the weather, nothing could have exceeded the abundance of information which our volunteer reporters brought in. It was cold here and sharp there, so many degrees at the breweries and at such a low figure at the south end. But what cared we for the bitter cold? A valued reader,—by this we mean one who promptly pays his subscription, and for that reason does not think he buys the right to tell us how we ought to run the paper,—came in and told us how much he was pleased with "that capital editorial upon the proposed transfer of the revenue marine from the treasury department to the navy," and he warmed up the office so effectually by the sunshine of his appreciation that we had forgotten about the weather until the next caller startled us with the information that it was a "cold morning." We of course believed him. We had heard that the summer visitors had left Rye and York beaches, and that the ice crop was being harvested, but we had just as much cause to be thankful for the cold which gladdens the heart of the fuel sellers and warms the cockles of the ice dealers, as if we were existing through a spell of murky, sloppy, foggy, dismal weather from which at this season we are so preeminently exempted.

THE ROCKINGHAM.

In addition to the elevator now being constructed for the Rockingham house, a general renewal of the entire establishment is going on. In the upper story the walls of each room are being repainted, and the ceiling frescoed by Gannon of Manchester, who has a large number of men at work on the rooms. Others are engaged in repolishing the walnut furniture of the sleeping apartments, and with new carpets and other renewed materials the rooms will be more attractive than ever. The improvements will extend throughout the house, and with so much done in this direction, the Rockingham, which in point of location, high elevation and a certain indescribable superiority in many respects, will continue to be in the future as it has been in the past, the hotel *par excellence* of New England.

PARISH MEETING.

At the parish meeting of the Middle street Baptist society, held on Monday evening, Jan. 23d, the following named gentlemen were elected as the board of wardens for the ensuing year: Lewis E. Staples, William A. Hodgdon, John H. Broughton, George W. Plumer, John M. Tebbetts. Mr. C. H. Clough was chosen parish clerk. Resolutions of respect were passed to their late brother, Deacon J. D. Ackerman.

THE NEW STEAMBOAT COMPANY.

The incorporators of the Portsmouth & York Beach Steamboat company assembled at eleven o'clock A. M. on Tuesday, Jan. 23d, in the law office of Cross & Taggart, at Manchester, for the purpose of organization. There were present Hon David Cross, Hon. E. M. Topliff, Samuel C. Forsaith, Esq., John D. Varick, Esq., Geo. A. Leighton, Esq., Dr. C. W. Clement, of Manchester; J. W. Seavey, of Boston; and R. B. Beaumont, of Portsmouth. Judge Cross called the meeting to order, and a temporary organization was perfected by the choice of Mr. Forsaith as chairman, and Mr. Beaumont as clerk of the corporation. A set of by-laws was then adopted after some discussion, and the following officers elected:

President—Samuel C. Forsaith.
Treasurer—R. B. Beaumont.
Directors—S. C. Forsaith, Manchester; J. W. Seavey, Boston; Frank Jones, Portsmouth; C. H. Sawyer, Dover; John B. Varick, Manchester.

The capital stock was fixed at $20,000, and it was voted to purchase the steamboat "City of Bangor," which was built three years since to run between Bangor and Bar Harbor, and to name her "City of Portsmouth."

We have authority for adding that the capital stock is all ready for the treasurer at his order; and that the steamer has been purchased to be delivered when called for. With such promoters, the enterprise is an assured success.

Mr. R. B. Morgan, of Concord, bridge-builder, and Mr. Davis, stone-cutter, will at once commence the construction of the piers at Concordville, York beach, and the steamboat line will be in operation the coming season.

THE PORTSMOUTH INDIAN ASSOCIATION.

On Wednesday afternoon, Jan. 17th, a number of ladies representing different churches of our city met in the Episcopal chapel on State street, to listen to Mrs. A. S. Quinton, general secretary of the National Indian Association, whose headquarters is in Philadelphia.

Though it was a stormy afternoon there were a good number present, and the well-authenticated statements and eloquent appeal of the secretary were heard with great interest, evinced by the prompt formation of a Portsmouth branch of the association. Miss E. H. Pearson was elected president, and Mrs. A. B. Wilson secretary; and either of the ladies will gladly answer any inquiries respecting the aims of the association and its plans of work. KATHARINE M. HAVEN,
For the Press Committee.

HAMPTON ACADEMY MOVED.

A correspondent at Hampton writes us that "Hampton academy building was moved to its new location on the 22d inst. By the united strength of one hundred and sixty oxen, twenty horses, and as many more men and boys, it was taken across the fields as if it was as easy a thing to do as for a span of horses to move an ordinary load of hay. After they had moved it a little more than twice its length from the old spot there was a halt, caused by trouble with one of the horses; but it was soon on its way again, and in fifteen minutes after that it was high and dry on the spot chosen for it, just in front of the cemetery. The successful termination of the job was announced by hearty cheers and the ringing of bells; then the teamsters went to the town hall, where there was a bountiful collation prepared for them by those in charge of the work."

Another friend adds the following particulars: "The academy was moved on Monday at 12:30 o'clock, a quarter of a mile, up-hill, to the lot given for it by Mr. Christopher G. Toppan of Hampton. The building is fifty-four feet by forty on the ground, with twenty-five feet posts, double belfry, with bell and spire. Visitors were present from Exeter, Newburyport and all the nearer towns, and many predicted that two hundred yoke of oxen could not do the job. It was intended by Mr Joseph A. Dearborn, who had full charge, to have 140 yoke of cattle on hand, but sixty yoke did not arrive. A one-inch chain cable from the navy yard, on which the cattle pulled, did not have a link broken."
